# JELFS'

ALTERATIVE CONDITION  
OR  
THRIVING POWDERS  
FOR HORSES.

These Powders not only create an appetite, but promote and facilitate digestion, so that the whole of the nutritive property of the food is readily absorbed or received into the system. They are invaluable. Their operation, though effectual, is so mild that no change of work or diet is necessary. By their alterative properties they produce a fine glossy coat on Horses previously Hide-bound, and whose coats present a rough and unsightly appearance.

*DIRECTIONS.—Give one tablespoonful every night in a mash or damped corn.*

Blisters, Liniments, Lotions, Black and White Oils, and all other Horse and Cattle Medicines.

PREPARED BY JOSEPH JELFS,  
PHARMACEUTICAL CHEMIST,

Rapid was exhibited when a calf at the Cardiff meeting of the Royal Agricultural Society of England, and received the first prize in a large class. He also won first prize at the meeting of the Yorkshire Agricultural Society at Malton; first at the Northumberland Meeting at Newcastle-on-Tyne; first at the Durham County Show at Durham; and first at the North Lonsdale Meeting at Ulverston, Lancashire, where he also received the 100 guineas Challenge Cup for the best animal, and, with his sire and dam, the 20 guineas special prize for bull, cow, and offspring. In Durham he came into competition with Leeman, the first prize yearling bull at the Royal and winner of sixteen prizes, and was placed before him. Rapid was considered in England to be one of the most perfect Shorthorn bulls seen for many years. Bythis, his sire, a pure Booth bull of the Bliss tribe, was the first prize yearling at the Royal Agricultural Society's Meeting at Oxford, 1870; and also at the Bath and West of England Meeting at Taunton, and at the

great Yorkshire Society's Meeting at Wakefield, besides winning many other premiums at the Essex, Norfolk, Cambridge, Durham, Northumberland, and Lincolnshire Shows. Dame Swift, his dam, was the first prize two-year old heifer at the Royal Agricultural Society's Meeting at Wolverhampton, 1871, and also at the Bath and West of England Show at Guildford, 1871, as well as at local shows. She is directly descended from Mr. R. Booth's Farewell tribe, through those splendid Warlaby sires Baron Warlaby, British Prince, and Valasco, who was the sire of Mr. Booth's Commander-in-Chief, first prize bull at the Royal Agricultural Society's Meeting at Leicester, 1868. Her sire Prince of Buckingham was, by Imperial Windsor, out of Princess Louise, a pure Booth bull combining the Mantalini and Bliss tribes.

Note.—It will be considered sufficient for the purposes of the present announcement to inform the public, both in the city and country, that full particulars of the proposed plan of sale will appear in an early advertisement, and in the meantime to remind capitalists contemplating the establishment of new banking institutions, insurance offices, and other public companies, &c., of the noble frontages for sale at the CORNER OF BOURKE STREET, formerly known as "Bear's Corner," reasonably anticipating, when such establishments come into play, that they will intercept much of the popular business oscillating between the new palatial wool mart of Messrs. R. Goldsbrough and Co. (with a façade as broad as the Tulleries), on the west, and the crowd of stock and station agency offices, &c., on the east. Opinions may vary, but a worthy contemporary has given his to the effect that this city block is without exception the choicest property which has ever been offered for sale in Melbourne, taking into consideration its elevated and prominent central position, and sanitary advantages—the future "Boulevard Montmartre" of our rising city.
