of Ammonia, per ton	8	10	0
Sulphate of Ammonia, Nitrate of Soda, and Manure Salt				
on Sale at lowest current rates.				

All the above Manures are genuine, and free from any adulteration; and are pronounced superior to any before manufactured in the colony.

SAMPLES forwarded to intending buyers, with guarantee to deliver equal quality.

CREDIT TERMS given up to twelve months, interest charged 10 per cent. per annum, enabling farmers to have realized the full benefit of the Manures before being called on to settle for same, and thus placing them within the reach of all.

The importance of farmers and selectors keeping up the quality of their ground has been recognised by the Commissioner of Railways, who to encourage their use has granted considerable concessions in freight on colonial manufactured manures carried per the Victorian Railways.

Further particulars and analysis on application to office of Agents,

IRVINE AND BINNEY,

Turbine Windmill.

Greatly Used in the Western States of America.

The Best, Cheapest,

Simplest, Most Durable,

And Only Permanent Windmill

Ever Invented.

No attention necessary, only Oil the Mill once a week.

THAT these Mills run lighter than any other is due to the fact that the whole weight of the Mill runs upon a **HARDENED STEEL PLATE**, thus saving a great deal of friction. The **BEARINGS** are all under cover, completely protected from the weather. They are the **MOST PERFECT SELF-REGULATORS EVER INVENTED**. No possibility of their being blown to pieces in a gale.

DRAUGHT STOCK.

SEC. 1.—*Three-year-old Draught Horse*—First prize, Cup, value £10, the gift of Messrs. Robertson Bros., Colac; second ditto, £4; third ditto, certificate of merit.

- 1 1 Martin Ryan, Deep Creek, Sunbury, "Pride of the Shires" (imported), dark-brown, rising 4 years; s Noble, d Jewel, s of d Great Britain.

PRIDE OF THE SHIRES is a pure-bred draught colt, dark-brown, rising 4 years old, standing 17 hands high, on remarkably short legs, great substance of bone, wonderfully good feet. He was bred by and bought of T. H. Ferris, Esq., of Manningford, near Pewsey, Wiltshire. He was shown twice as a two-year-old, and gained first prize at Devizes, and second at Swindon. He is half brother to that very big colt, King of the Valley, the property of Mr. James Gibbs, of Berwick, for which he gave £1000.

THE SIRE of the above colt is the celebrated cart stallion, NOBLE, the property of Mr. Henry Hathway, of Tokenham, Wilts, who has for many years travelled some of the best cart sires in England. Noble was bred by Mr. Brown, of Monckton, near Marlborough, and is a dapple brown, standing over 17 hands high, on very short legs, showing great muscular power; he was by Young Turpin, from a short-legged brown mare. Young Turpin was bred by Mr. R. Smith, of Greenhill, from a capital brown mare, by Mr. Washburn's noted horse. Young Turpin took the first prize at Marlborough when two years old. Noble took first prize at Marlborough in 1858, and he is the sire of some of the biggest horses in England, and many of them prize winners. His grandsire was Turpin, the property of Mr. James Hathway, and his great grandsire was Mr. Morris's, of Latens, well-known black horse. Farmer's Glory.

Pride of the Shires' dam, JEWEL, a very perfect draught mare, colour brown; she was by Great Britain, the property of Mr. Nix, of Alfreton, Derbyshire, grandsire Old Warwick, one of the biggest and heaviest horses in Europe.

The above colt is as well-bred as any horse in any country. Mr. Ferris says he served 48 mares last season, and will guarantee to show 44 of them in foal.

FLOOD'S PRIZE IMPROVED WATER-LIFT,

Guaranteed to Lift Water 300 Feet,

Obtained the Highest Award possible in the section in which it was exhibited at the National Agricultural Society's Show, Melbourne, November, 1876, and Money Prize at Ballarat Show, 1877.—*Vide Age, Argus, Trade Review, S.M. Herald, Leader, Kymeton Observer, Ballarat Star, &c.* Especially adapted for Irrigation, Stock Watering, Sheep Washing, Drainage, Mining, Stone Quarrying, and Raising Sunken Vessels. Worked by manual, horse, wind, or steam power.

Prices—From £16 and Upwards.

F. FLOOD, having manufactured the above description of Chain Pump for about 10 years, found the plugs in ordinary use the weak point, and has therefore introduced his Indestructible Plugs, which have given such satisfaction; they have been fitted to Water-lifts obtained from other manufacturers. Extract of Memo. from F. LASSETTER & Co., Sydney, dated 7th March, 1877:—"May mention that we approve of your IRON PLUG, and have pleasure in recommending same." IRRIGATION.—One strong horse will, in eight hours, raise enough water from a well 12 ft. deep to cover 5 square acres 3 square poles of land with a sheet of water 1 in. in depth—equivalent to an inch of rainfall. AGENTS.—MELBOURNE—H. P. Welch & Co., 172 Queen-street; Briscoe and Co., 11 Collins-street east; E. Duckett & Co., 24 Lonsdale-street east; A. The *Argus*, September 13, 1877.—SHIPWRECKS AT SEA, PREVENTION OF.—FLOOD'S PRIZE IMPROVED WATER LIFTS.—Copy of Testimonial from J. Muir, Esq., Chief Engineer Steamship *Albatross*, Sept. 7, 1877. To Mr. F. Flood, Victoria Engineering and Manufacturing Works, 139 Lonsdale-street West, Melbourne.

Dear Sir,—I have seen one of your Improved Water Lifts at work on board the sunken vessel *Alcandre*, and can safely say that during my many years' experience as an engineer I have never seen a Pump do better execution, or answer my expectations more fully, either afloat or ashore, than the one above alluded to. I therefore wish you every success in the manufacture and introduction of them,—JOHN MUIR, Engineer, Steamer *Albatross*.

P.S.—I may mention that I believe your Pump yielded a better result than the one of a similar size manufactured by another firm and used at the same time, in the proportion of 25 per cent.—J.M.

LACEPEDE ISLAND GUANO

This splendid Manure, though only lately introduced into the Australian Colonies is fast supplanting all other Guanos.

According to an analysis made by Professor Kirkland, of the Melbourne University, it contains nearly 77½ per cent. of Phosphates, and about 2 per cent. of Ammonia; while it is almost entirely free from sand—only 0.90 being found.

Farmers and others who have tested this Guano, have proved its efficacy as a fertilizer, and predict an enormous demand during next season.

Supplied by the Undersigned at **£6 per ton, net cash** (bags in).
