## BULLS IN USE.

### "Island Butter King" (imp).

"ISLAND BUTTER KING" was imported from the Island of Jersey in 1915. He was selected by J. A. Perree, Secretary, Jersey Island Society, for his milk and butter qualities, being directly descended from the celebrated "Oxford Lad" blood whose stock have been realizing record prices at recent sales in America. £2000 was paid for an Oxford Lad cow.

### "Sir Fancy Madeira."

This young bull is also used in the Werribee Park Herd. His dam "Fancy's Twylish Madeira," is sired by the renowned bull "Fancy's Lord Twylish" bred at Werribee Park, and sold to go to New Zealand. Heifers sired by "Fancy's Lord Twilish," are giving exceptionally heavy yields of milk and butter in New Zealand, as shown by the following return:—

## POWDER SHEEP DIP

An ARSENICAL DIP of the HIGHEST POSSIBLE QUALITY—chemically and physically equal to the best dip hitherto imported—and which *can be supplied to meet all Australasia's needs*

"Vallo" dipped flocks are already speaking eloquently as to the reliability of this compound—proving by their wool yield, wool quality and all-round improved conditions that "Vallo" Powder Sheep Dip is not only effective, but longest lasting in its destructive action against Ticks, Lice and other sheep infesting vermin; reduces Fly Strike to a minimum, and makes sheep clean and impervious to contagion from "dipping" to next shearing.
