YOU HAVE LAND TO CLEAR?

Naturally you want it done efficiently, cheaply and quickly.

"MONKEY" GRUBBER.

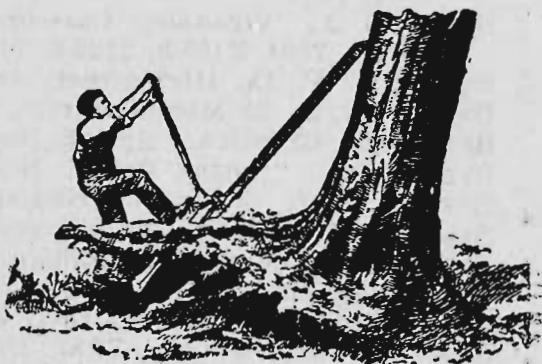

Have a look at the "MONKEY" GRUBBER, a wonderfully compact and powerful machine that exerts a strain just quickly enough to tear the roots from the ground. The machine is easy to rig, will work in any position, can be run about similar to a barn-truck, embodies many time- and labor-saving devices.

In addition to its utility as a Grubber, Contractors, Bridge-Builders, etc., are using it very successfully as a Winch.

HEAVY LIFTS on the FARM or CONTRACTING

are easily handled with "MONKEY" or "WALLABY" JACKS.

They are quick and adaptable, will do your machinery lifts, grubbing, log rolling, etc., and any other awkward lifts that come your way. There are extension pieces for high lifts, multiple grips, lowering gear—all special features of our Jacks.

"MONKEY" JACK..

Standard sizes—2½, 4, 6, 8 and 10 ton Lifts..

Your work has always been characterised by thoroughness and attention to detail and it will be extremely difficult to replace you.

I wish you every success in your new sphere.

Yours faithfully,

Sgd. J. S. EASTWOOD,

STAND 20, DAIRY SHED.

The Renown Cream Separator has no ball bearings, no automatic arrangements, and no complicated constructions. It consists only of a few simple and durable parts, which never necessitate any alteration or adjustment. The Renown Separator has only to be unpacked and fastened to a table by means of the four screws which are sent with every machine. The tank is then filled with milk, the crank is turned, and the process of separation is in full work.

The Pelouze Dairy Scale Weighs your milk. It is invaluable to the farmer. It is most important that the record of each cow be kept—there is such a difference in the value of cows based on their production. Most cows are fed practically alike, therefore watch the result. Some cows are unprofitable to keep; don't guess, weigh the milk.

Mandor Belting.—Being a manufactured article, is uniform in width, thickness and strength. These Belts are stretched during process of manufacture, and as duck is of even texture throughout, the stretch will be uniform, and once removed, the belt will need little care or attention.

These belts have the recommendation of saw and planing mills, gin and oil mills, mines and quarries, gas and electric plant, stave and handle factories, and others of like nature.

Yale Chain Hoists.—Twice as quick as an ordinary worm block, and three times as easy as a differential. All blocks tested to 50% their rated capacity.

Warrington Steel Wire Ropes, British, $\frac{3}{8}$ in. circ. to 3 in. circ., 6 x 7, 6 x 12, 6 x 19 and 6 x 24. All constructions.

S.E.A. Rings.—A truly automatic, self-adjusting packing. Utilise and separate the two pressures just tight enough to prevent leakage, no more.

Banna Water Filters, 1, 2 and 4 Gallon.
