Lubricating Australia's Industries

The development and improvement in implements and machinery during the past ten years have aided the farmer immeasurably in securing bigger yields from each acre of ground.

Farm implements and machinery mean farm prosperity.

The most important single factor in keeping such equipment at its highest efficiency is scientific lubrication.

During the past 25 years the Vacuum Oil Company Pty. Limited has worked hand in hand with the inventor, the manufacturer, and the farmer in raising the standard of lubrication, so that the mechanical operations on the farm could be accomplished smoothly, efficiently, and with a minimum of repairs and depreciation.

Inventors and manufacturers generously acknowledge the help given by this Company in solving their lubricating problems.

Farmers accept the name of the Vacuum Oil Company Pty. Ltd. on a package as an assurance of correct lubrication.

The work must go on.

Guest's "Snowflake" Biscuits (Registered).—A new unsweetened Biscuit. Specially adapted for eating with cheese, stewed fruits, jams, &c.

Guest's "Neva" Biscuits.—Elegant and Delicious.
