"Queensland, by virtue of its possession of a rich variety of luxuriant timbers, is destined to remain the principal supplier to Australia of furniture. In the whole of the world there are no finer wood-wares to surpass the Maple, Silkwoods and Silky and Satin Oaks, the Black and Walnut Beans, the Rose Walnuts and Mahoganies and grey teaks."

### **REASONS WHY QUEENSLAND FORESTS LIMITED IS ONE OF THE BEST INVESTMENTS OFFERING IN THE WORLD OF FINANCE TO-DAY.**

The rainfall (144 inches) is unequalled in Australia or New Zealand.

Sample areas of our forests recorded up to 75,000 feet per acre.

There are mature merchantable trees ranging up to 170 feet in height on the property.

The time to start profitable forestry is when you have forests to start with. This is the happy position to-day of Queensland Forests Limited.

The return is a handsome one. The Company anticipates that marketing will commence five years after the date of purchase. Thereafter progressive payments will continue until the bondholder has received a return of £100 for every £5 invested. The payments are easy, and can be made by anyone.

It is estimated that the marketing of trees will be commenced within five or six years from date of bond purchase, and that the bondholders will receive from the trustees progressive payments from time to time, until the full amount stated on each bond has been paid.

# MERVAL

The  
Greatest and Most Economical  
Health Restorer and Conditioner for Poultry  
in existence

"MERVAL" has stamped its wonderful FAME in the history of POULTRY KEEPING through the great TEST OF TIME, and the CONSISTENTLY GOOD RESULTS which have attended its use throughout the Commonwealth over a period of thirty-six years. Thousands attribute their success entirely to the use of "MERVAL."

"MERVAL" A PROVED ASSET TO THE POULTRY INDUSTRY.—Throughout the steady growth of the Poultry Industry, "MERVAL" has continued to exercise its wonderful influence by maintaining HEALTH in the POULTRY YARD with MAXIMUM EGG PRODUCTION and highest profits for the poultry farmer.

"MERVAL" will act as a certain and speedy Remedy for DISEASES and Complaints in Poultry, Ducks, Turkeys, Geese and Pigeons.

THE REGULAR USE OF "MERVAL," at the slight cost of 2/6 weekly for 300 Fowls, will prevent the outbreak and spread of Disease amongst the flock, and will keep the birds in the highest possible state of HEALTH and PRODUCTIVITY.

"MERVAL" IS USED at Leading Laying Competitions, including Burnley and Geelong. "MERVAL" is also used on all Government Farms and Agricultural Colleges, and by all leading Poultry Breeders.

READ what some of them have to say:—

J. T. COATES, Harveston, Rockhampton, Queensland, writes:

"The last lot of MERVAL came to hand yesterday. I would like to say that, after having used MERVAL now for nearly three years, I have a higher opinion of it than ever. Our losses amongst the chickens this season amounted to less than 10 per cent. for 4000 chickens; those more than seven days old, only 3 per cent. died; and the losses from all causes among the grown fowls has been reduced to practically normal proportions. We use MERVAL once a week, mixed in the morning mash, and give it in the drinking water whenever any sign of sickness occurs in the yard, with the invariable result that all sickness disappears within a day or two. Our pullets have had MERVAL once a week since they were hatched this season, and they have commenced laying two months earlier than usual, and are altogether the finest lot we have ever raised. I am certain this is due to the regular use of MERVAL, which has kept them in a vigorous, healthy condition from birth."

R. R. CHRISTIE, St. Esmo Poultry Farm, Benteigh, Vic., writes:—

"Please forward by to-morrow's train MERVAL to the value of £2/2/-. I may state I use it once a week in the wet mash, and I find it keeps my stock in perfect health, and I never see chicken pox or roup in my yard. I start my chickens from five to seven days old with MERVAL, and I find my losses from all causes is practically normal. I have no doubt MERVAL helped my birds to put up world's record."

L. C. VERREY, Oxshott, Surrey, England, writes:—

"Dear Sirs,—I have used MERVAL for the last twelve years, and I cannot speak too highly of it. Whenever I have a bird off colour, I at once use MERVAL. I reckon MERVAL the best tonic I ever used, and I have used a good many this last 30 years, and will never be without MERVAL in my yards."

"I am glad to note that I can now draw my supplies of MERVAL as required from your South African distributors. Since arrival here two and a half years ago with my foundation stock from Australia, I have used your MERVAL weekly in the mash and with splendid results. This country is more prone to poultry troubles than Australia, and a complaint known as 'fowl sickness' is evidently the cause of heaviest mortality. I am certain that it is due to the use of MERVAL that my losses from the above cause have been so small, and not exceeding half a dozen birds altogether. Otherwise, I have lost absolutely nothing from sickness of any sort, and when chicken pox has been raging in the district I have not had a case of it in my yard. Knowing the value of MERVAL as a tonic both for keeping fowls in good health and as an aid to egg production, I would not be without it, and am pleased that supplies are available to South African breeders."

L. J. ROACH, Ukiah, Mendocino, California, writes:—

"Enclosed find P.O. money-order for \$1.00, for which please send me a 1-lb. can of 'MERVAL.' I got a can of 'MERVAL' from you some days ago, which already has made a great improvement in my chickens. This can is for another party whose chickens have the roup. Would you give me the agency to sell 'MERVAL' in this locality, and if so what will be my commission, and also let me know if I can get it in 4 lb. cans?"

STAR POULTRY FARM, Corning, writes:—

"Enclosed please find \$1.00, for which please send us a 1-lb. can of 'MERVAL.' The last can you sent did splendid work, and we are satisfied with the results."

A. WAGNER, Petaluma, California, writes:—

"Yours of the 6th inst. to hand, and in reply I would say that, having by this time had time enough to give 'MERVAL' a fair trial, I have come to the conclusion that it is all that you recommend it to be. Now, I would like to know what price you could make me on a larger lot, so I could try it on laying hens?"

"Your letter of the 4th inst. has been received, also 1/2 dozen cans of MERVAL, for which I thank you. I have always balked at testimonials on anything that requires careful handling in its use, because of the fact that all people do not do things alike. I am willing, however, to state the fact that I moved about eight hundred pullets and young roosters from upland on to low river land. A few days afterwards they were affected with a very serious attack of canker, which spread so rapidly that in 48 hours all were more or less affected and some were dying. I telegraphed for MERVAL and shut off all running water—administered the MERVAL according to directions. The next day they were better. The second day they began to eat, only some half-dozen dying after MERVAL was given. I continued the treatment four days, then gave them fresh water for two days. Afterwards gave the MERVAL every other day for one week, feeding, in the meantime, good, rich food. At the end of that time every bird was thriving, and a stranger would not have discovered that there was an ailing chicken among the lot. Within four weeks from the time the chickens were attacked with canker, the roosters were ready for the market, and sold for a fair price, and were in good condition. We lost about 20 in all during the first two days after they were attacked with canker. I consider the cure very remarkable and effective, and shall never be caught without MERVAL on my ranch in the future. I will try your MERVAL on my hens as you suggest, and will report result to you."

W. H. FORSYTH, Willoughby, New South Wales, writes:—

"Just a line to say how useful I have found your wonderful tonic and conditioner, 'MERVAL.' I have been using it, and recommending it, for years. As a pick-me-up for the flock during the moult, it is unbeatable, and given to growing chicks a wonderful help and preventive against disease and ailments, especially chicken pox. My last pen at Bendigo were 'MERVAL' birds, and hold world's records for the breed, one pullet laying 306, the other 302, being first and second, and their sister secured first place at Zillmere. 'MERVAL' every time is a good motto for any poultry farmer."

### DOGS.

5. Exhibitors will, on personal application to one of the Stewards, be permitted to loose their dogs for a short time each day—in the morning, prior to the opening, and in the evening, after the closing of the Exhibition; but they will on no account be permitted to remove their dogs from the yards without a written order from the Superintendent, and without leaving a deposit of £2. (See General Regulation, 39).

6. Dogs will be subjected to veterinary inspection, and those considered by the Stewards or the Veterinary Surgeon unfit for exhibition, either from disease, the effects of disease, vice, or other causes, will not be received; or removed if found necessary.

7. Labels will be sent for each dog when the exhibitor is not a resident of Melbourne or suburbs, on the reverse side of which Exhibitors will be required to write their names, addresses, and instructions for the return journey. Country and Interstate Exhibitors must inform the Secretary by post or telegram of the despatch of their exhibits, giving all particulars, in order that arrangements may be made for receiving them. Two or more dogs may be sent in one hamper or box if it be properly divided and labelled.

Note.—The Society's postal and telegraphic address at Show time is Show Grounds, Ascot Vale.

The Society will be most anxious for the care and safety of the Dogs sent for exhibition, or any other property entrusted to them, but it must be distinctly understood by Exhibitors, and all other persons, that the Society will not be responsible for the loss, detention of, or damage to any Dogs or other property, whether arising from accident or other cause whatever, or from any act or omission of themselves, their officers, agents, servants, or others.

9. The Society will engage a thoroughly practical man to feed and take charge of the dogs during the day, and also a night watchman.

10. In order to prevent the non-exhibition of Dogs which have been entered for the Show, thus causing unnecessary preparation, expense and disarrangement of the Show benches, any person making any entry will be subject to a fine of 10/- for each and every entry of Dogs not exhibited, unless a certificate under the hand of the Exhibitor or his authorised agent be lodged with the Secretary of the Society before the day of the exhibition, certifying that such non-exhibition is caused either by (1) the death of the Dog or Dogs; or (2) contagious or infectious disease (confirmed by the explanatory certificate of a veterinary surgeon); or (3) by the Dog or Dogs becoming ineligible for the Class in which they have been entered, or other reasonable cause. The non-payment of such fines to debar all persons owing them from exhibiting at future exhibitions of the Society.

11. No dog shall be eligible to compete if it be proved to the satisfaction of the Council:—(a) That any dye, colouring, whitening or darkening matter have been used and remain on any part of the dog.
