# **BANYULE**

---

# **JERSEYS**

---

# **WHY . . .**

---

1. Because they have been line bred to suit Australian conditions for six generations, and have been continuously under Government Test for eighteen years.

The "Silvermines," "Mollys," "Hawthorns," "Velveteens," "Etties," and "Tiddlewinks" are the product of constructive breeding, and are noted families throughout the Jersey world.

2. Because Banyule-bred Jerseys have won Championships at every Royal Show in Australia, and on nine occasions in the last ten years have won the Group Prize for animals bred by exhibitor at the Melbourne Royal Show.
3. Because Banyule-bred Jerseys combine production with type, and, being closely bred, possess a dominance in transmitting Jersey character to their progeny.

# Staghorn Jersey Stud

(The greatest Island prize-winner ever imported to Australia.)

*Imported Sires include:—*

**IMPORTED LA SENTE'S LORD ALDAN** (6522 P.S.H.C., J.H.B.), winner of two Championships and two Reserve Championships on Jersey Island; also many other prizes over Jersey. His sister, Lady Aldan 66th, recently completed test in Jersey on her **second lactation period** with 489 lbs. fat.

Champion Bull, Sydney Royal Show, 1931.

**IMPORTED NANCY'S NOBLE**, son of Nancy's Forward Fern, Champion test cow over Jersey in 1929, officially producing 3.58 lbs. fat in 24 hours, and 1005 lbs. butter in 361 days. His sire's dam was also the Champion test cow in 1928. He is from the same cow as Nancy's Flashlight Fern—now exported to U.S.A.—and Nancy's Volunteer, both prize-winners over Jersey.

1st Prize for bull under 12 months, Sydney Royal Show, 1931. He has the best backing of production records of any Jersey bull ever imported to Australia.

*Our retiring Sire:—*

**WERRIBEE NORTHERN MASTERPIECE** (3813), by Masterpiece (imp.), ex Werribee Northern Princess (13336), a proven herd test daughter of Island Butter King (imp.) and Champion cow, Melbourne Royal Show 1926. Amongst these are Melbourne and Sydney Royal Show prize-takers, and don't forget they are 100% of pure "Werribee blood," a symbol of Island purity. Second place in herd averages, 1931, when 17 head averaged, with allowances, 523.2 lbs. butter-fat.

# Immunol Sheep Dip

**THE  
SECOND  
KILLING**

**FIFTEEN

DIP**

TRADE MARK

Tick and Lice that were immersed in a solution of "IMMUNOL" Dip (1 part in 200 parts of water) were killed in fifteen seconds, and the eggs immersed at the same time did not hatch out.

**Over 80 Prizes were taken by "IMMUNOL" Clients  
at the Melbourne Sheepbreeders' Show, 1931.**

## **Reasons why "IMMUNOL" is the Ideal Dip**

1. "IMMUNOL" dipped fleeces top the market.
2. "IMMUNOL" softens, brightens and adds lustre to the wool.
3. "IMMUNOL" once mixed requires no further stirring and does not separate.
4. "IMMUNOL" sterilises the fleece and minimises Blowfly strike.
5. "IMMUNOL" mixes with any hard water.
6. "IMMUNOL" is economical—one gallon makes 200 gallons of wash.
7. "IMMUNOL" is a Fluid, Arsenical, Antiseptic and Insecticidal Oil Dip, containing 3 lb. of soluble Arsenic in every gallon.
8. "IMMUNOL" combines with the natural yolk in the wool, forming a Lanoline, Arsenical Oil Soap. with extra Lanoline and Glycerine added, which resists weather conditions and consequently gives longer immunity against reinfestation from vermin.

# **The Polwarth Sheep**

**An Australian breed for producing High Class Wool and Mutton under rigorous conditions**

These sheep, while yielding the utmost wool value per acre, also rear a high percentage of lambs, which are of excellent freezing quality and stand dry conditions.

## **Polwarth Rams used with**

- (a) Polwarth ewes give a bulky wool clip, of even quality and highest value, and a nice quality mutton, of most popular export weight, while the ewes crossed with a British breed are an unbeatable combination for fat lamb production.
- (b) Merino ewes improve the length of staple, and progressively improve the lambs for freezing—and the immunity from fly trouble without any sacrifice of wool returns.
- (c) Crossbred ewes progressively improve the quality and evenness of the clip and the ability to withstand dry conditions.

Bred generally on light, cold country, these sheep respond in a gratifying manner to better conditions. There are now over 100,000 registered Polwarth sheep in Western Victoria and other States.

Obtain the Polwarth Sheep Pamphlet, it will prove interesting, from the Association Secretary, Mr. H. Collins, Temple Court, Collins St., Melbourne, C.I.

## :: STUD ::

**T**HIS Flock was founded by Alexander Dennis, at Eeyeuk, in 1881, when 2,000 Longerenong Merino Ewes were mated with Eeyeuk Lincoln Rams, and 2,000 Eeyeuk Lincoln Ewes were mated with Carr's Plains Merino Rams. The ewes of this drop were mated with Carr's Plains Merino Rams (Ercildoune Blood), and the resulting progeny were then in-bred continuously.

Outside blood introduced.—In 1915, 450 lambs from Uondo Polwarth Ewes (Stud Book Flock No. 4), by Eeyeuk Rams, were added to the flock. In 1926, one ram was purchased from Tarndwarncoort (Stud Book Flock No. 1).

# MULWALA PURE MERINO STUD

Mulwala Stud Ram, 2 years, bred by James Sloane and Son, Mulwala Station, Mulwala and Woodpark, Jerilderie, N.S.W.

Registered Flock No. 62.

The flock of Messrs. James Sloane and Son, Mulwala, N.S.W., was founded in 1863 by the late Alex. Sloane, who purchased at Tubbo 1200 Merino ewes from Groongal (Learmonth Bros.) The late Alex. Sloane managed the flock until 1878, since when his son, Mr. James Sloane, has had control of the breeding of the flock. Alexander Sloane from time to time introduced stud sheep, mostly from Havilah (N. P. Bayly), Ercildoune (Sir Samuel Wilson), Rawdon (E. K. Cox), and Scone (W. Gibson and Son, Tasmania). When Mr. James Sloane took charge, Scone rams were being used, and were kept to for many years, especially sons and grandsons of "Royal Hero." In 1910 Mr. James Sloane took over his share of the flock. Since then it has been bred mostly within itself. Prior to this, one ram from Wanganella Estate (Exors. T. Millear) was introduced. Since 1910 there has been a further infusion of Wanganella blood—two rams of that strain having been used.

## The DAISY VALE MERINO STUD

The Daisy Vale Stud, Deniliquin, N.S.W., was started twenty years ago. The sheep are all pure Wanganella blood, and have been culled out every year, and only the best kept for breeding purposes. Mr. Nisbet has been very successful in years past in gaining prizes at Deniliquin Show. Five years ago he won first and second for 6-tooth rams. Some years ago one of his breeding secured first and champion prize, with good competition, at both Finley and Berrigan Shows, N.S.W. In the year 1919 he bought from F. S. Falkiner and Sons, Wanganella Estate, a ram, the sire of which, in the station books No. 250, was sold the year before for 400 guineas. This ram Mr. Nisbet used in his stud flock for four years with success. He has always secured top prices for his wool—as high as 40d. one year—and has sold rams at fair prices locally, some as high as 10 guineas.

In the year 1928, he sold 20 flock rams, 4 and 6 tooth, to Mr. A. B. Simpson, Deniliquin, which cut an average of 20 lbs. of good quality wool for first year, and 19 lbs. the following year. Also sold, the same year, rams to Mr. J. Nisbet, Booroorban; McCallister Bros., Deniliquin; Mr. N. Maw, Deniliquin, and Mr. Joss, Mathoura.

He now has for sale, at very reasonable prices, 170 rams, ages from 4-tooth to full mouth, principally 4-tooth. He always has his sheep classed by Mr. T. Foster, who takes a keen interest in his work, and is well-known in Deniliquin and Hay districts as a sheep classer.

Poultry **MUST** be penned before 9 p.m., Tuesday, 22nd September, but, in order to avoid disappointments, exhibitors are advised to despatch their birds so that they will arrive as early as possible on that day.

Poultry arriving at Spencer-street Railway Station at or before 5.55 p.m. on Tuesday, 22nd September, will be conveyed by special train to the Show Grounds Siding at Flemington.

**NOTE.**—When forwarding poultry by rail, exhibitors are particularly requested to mark clearly in each compartment of the coop the exhibit number of the bird that was sent therein, so that the same arrangement of birds may be made for the return journey.

Tags bearing the pen numbers will be forwarded to exhibitors, together with entry tickets. These tags must be securely fastened to the legs of the birds in accordance with the exhibit numbers on the entry tickets.

Selling prices of all Poultry exhibits may be displayed on coops.

Cards will be supplied free on application to the Poultry Superintendent.

**Exhibits must not be handled unless the authority of the Superintendent be first obtained.**

# More Profit in Poultry

There is opportunity to-day for the poultry raiser to make more profit from his birds, for cereals and grains are low in price, and provided he mixes with these a proportion of "Dandy" Poultry Food he will find that it is possible to make more from his fowls than in the past. Care must be taken that the cereals used are good and clean, just as is taken by the producers of "Dandy" Food itself.

## "Dandy" Poultry Food

### Will Help You

because it supplies just those constituents necessary for extra returns from your fowls—either as egg producers or weightier table birds. Animal flesh and bone are both essential "conditioners," but you must be sure of their wholesomeness. It is safer to give your fowls this diet by feeding "Dandy" Poultry Food, because every particle is thoroughly sterilized by a special dry steam process which guarantees permanent wholesomeness.

Feed 10 per cent. to 12 per cent. "Dandy" Poultry Food with the regular cereals, grains, etc., and you will quickly notice improved "condition," increased laying, more and healthier flesh and greater stamina.

(b) Born after 1st January, 1932, and from a notified litter . . . .	2/-	3/-
(c) Born after 1st January, 1932, and NOT from a notified litter . . . .	2/6	5/-

Annual subscription to the K.C.C. of V., 2/6.

2. Each dog must be provided with a suitable collar and chain or lead.

3. No dog shall enter the judging ring wearing a collar on which the name of the dog or its owner appears.

4. When being judged, dogs must wear exhibit numbers, which will be supplied by the Society.

5. Exhibitors will, on personal application to one of the Stewards, be permitted to loose their dogs for a short time each day—in the morning, prior to the opening, and in the evening, after the closing of the Exhibition; but they will on no account be permitted to remove their dogs from the yards without a written order from the Superintendent, and without leaving a deposit of £2. (See General Regulation 39.)

6. Dogs will be subjected to veterinary inspection, and those considered by the Stewards or the Veterinary Surgeon unfit for exhibition, either from disease, the effects of disease, vice, or other causes, will not be received; or removed if found necessary.

7. Labels will be sent for each dog when the exhibitor is not a resident of Melbourne or suburbs, on the reverse side of which Exhibitors will be required to write their names, addresses, and instructions for the return journey. Country and Interstate Exhibitors must inform the Secretary by post or telegram of the despatch of their exhibits, giving all particulars, in order that arrangements may be made for receiving them. Two or more dogs may be sent in one hamper or box if it be properly divided and labelled.

Note.—The Society's postal and telegraphic address at Show time is Show Grounds, Ascot Vale.

8. The Society will be most anxious for the care and safety of the Dogs sent for exhibition, or any other property entrusted to them, but it must be distinctly understood by Exhibitors, and all other persons, that the Society will not be responsible for the loss, detention of, or damage to, any Dogs or other property, whether arising from accident or other cause whatever, or from any act or omission of themselves, their officers, agents, servants, or others.

9. The Society will engage a thoroughly practical man to feed and take charge of the dogs during the day, and a night watchman will also be on duty.

10. In order to prevent the non-exhibition of Dogs which have been entered for the Show, thus causing unnecessary preparation, expense and disarrangement of the Show benches, any person making any entry will be subject to a fine of 10/- for each and every entry of Dogs not exhibited, unless a certificate, under the hand of the Exhibitor or his authorised agent, be lodged with the Secretary of the Society at least three days before the opening of the exhibition, certifying that such non-exhibition is caused either by (1) the death of the Dog or Dogs; or (2) contagious or infectious disease (confirmed by the explanatory certificate of a veterinary surgeon); or (3) by the Dog or Dogs becoming ineligible for the Class in which they have been entered, or other reasonable cause. The non-payment of such fines to debar all persons owning them from exhibiting at future exhibitions of the Society.

11. Should any dispute arise in this Section, for which no specific rule has been laid down, the decision of the Council shall be accepted as final and without appeal.

Extract from the rules of the Kennel Control Council of Victoria, included for the guidance of intending exhibitors:—

114.—A dog shall be disqualified from competition—(1) By the Committee of the K.C.C. of V. direct, or (2) by the Committee of the exhibition on objection, subject to appeal to the Committee of the K.C.C. of V., if it is proved to be:—
