Dear Sirs,—

I am writing to tell you how pleased I am with the "Giffwell" Drench. After calving, I give each cow a drench, and it is wonderful how quickly they pick up and come into full milk. I would not be without a tin of "Giffwell" Drench, and can highly recommend it to all dairymen.

Yours truly,  
(Sgd.) W. GARTON.

Chiltern, Vic., 31/8/32.

Dear Sirs,—

I have given "Giffwell" Drench a good tryout and can highly recommend it. Given before calving, it is a preventative for milk fever, and is a good tonic for any cows that have gone off their food. I intend to use "Giffwell" Drench in the future, as the results are so certain.

(Sgd.) E. A. ASHLEY.

**STEVENS' (SPECIFIC) FOR MAMMITIS AND GARGET.**  
Sufficient for Five Cows, 10/6. A Proved Article.

This is to certify that I have given Stevens' Specific for Mammitis and Garget a fair trial in my dairy herd for the past couple of seasons, and have found it effective in every instance. I used it on two of our pure-bred Ayrshire cows. Pearl had been bad for three or four months, and had been treated with other remedies without any apparent success. I thought her a hopeless case. However, after using a course of Specific, I am pleased to say she was cured, and came in this season perfectly sound in all quarters. Also, before taking First Prize at the Royal Show, 1924, with Ackins, she had been badly affected, but, after treatment with Specific, was completely cured. I would recommend every person with a Dairy Herd to keep a bottle on hand, and I hope they meet with the same success as we have.

# **BANYULE**

# **JERSEYS**

# **WHY . . .**

1. Because they have been line bred to suit Australian conditions for six generations, and have been continuously under Government Test for twenty years, and have always held a prominent position. This year thirty-three cows averaged 406 lbs. fat, **WITHOUT** allowances.

The "Silvermines," "Mollys," "Hawthorns," "Velveteens," "Etties," and "Tiddlewinks" are the product of constructive breeding, and are noted families throughout the Jersey world.

2. Because Banyule-bred Jerseys have won Championships at every Royal Show in Australia, and on ten occasions in the last eleven years have won the Group Prize for animals bred by exhibitor at the Melbourne Royal Show.
3. Because Banyule-bred Jerseys combine production with type, and, being closely bred, possess a dominance in transmitting both to their progeny.

*You are Cordially Invited to Visit "BANYULE" during the Show or any other time and see the Herd.*

Dear Sirs,

*Replying to your inquiry as to my opinion of  
IMMUNOL FLUID SHEEP DIP.*

*After using it for four years I have no hesitation in  
stating that, in my opinion, it is the best Dip on the  
market to-day. It kills tick and all vermin . . . cleans  
and brightens the wool, and gives added lustre and soft  
handling. Its chief attraction is that it is easy to mix,  
and once mixed, stays mixed. In short, it does all that  
the manufacturers claim.*

Yours sincerely,

ANDREW ARMOUR.

# What Hurts the Railways Hurts the Farmer, Too...

*Your railways carry a ton of firewood 100 miles for 8/9, a ton of fertiliser the same distance for 5/7, a ton of wheat for 10/3, a ton of lime for 12/- . . . . .*

BUT it must be remembered that these exceptionally low rates are dependent upon the railways securing THE HIGHER-RATED LOADING, which can stand higher freight rates than the low-graded essential commodities WHICH THE ROAD COMPETITOR CANNOT HANDLE.

*If motor competition is allowed to continue taking the cream of the traffic and leaving the railways the skim milk, PRIMARY PRODUCTION MUST SUFFER.*

*Primary production would be impossible without the railways. WHAT HURTS THE RAILWAYS HURTS THE FARMER, TOO.*

# POLWARTHS

:: STUD ::

THIS Flock was founded by Alexander Dennis, at Eeyeuk, in 1881, when 2,000 Longerenong Merino Ewes were mated with Eeyeuk Lincoln Rams, and 2,000 Eeyeuk Lincoln Ewes were mated with Carr's Plains Merino Rams. The ewes of this drop were mated with Carr's Plains Merino Rams (Ercildoune Blood), and the resulting progeny were then in-bred continuously.

Outside blood introduced.—In 1915, 450 lambs from Uondo Polwarth Ewes (Stud Book Flock No. 4), by Eeyeuk Rams, were added to the flock. In 1926, one ram was purchased from Tarndwarncourt (Stud Book Flock No. 1).

3. No dog shall enter the judging ring wearing a collar on which the name of the dog or its owner appears.

4. When being judged, dogs must wear exhibit numbers, which will be supplied by the Society.

5. Exhibitors will, on personal application to one of the Stewards, be permitted to loose their dogs for a short time each day—in the morning, prior to the opening, and in the evening, after the closing of the Exhibition; but they will on no account be permitted to remove their dogs from the yards without a written order from the Superintendent (Mr. L. A. Latchford), and without leaving a deposit of £2. (See General Regulation 39.)

6. Dogs will be subjected to veterinary inspection, and those considered by the Stewards or the Veterinary Surgeon unfit for exhibition, either from disease, the effects of disease, vice, or other causes, will not be received; or removed if found necessary.

7. Labels will be sent for each dog when the exhibitor is not a resident of Melbourne or suburbs, on the reverse side of which Exhibitors will be required to write their names, addresses, and instructions for the return journey. Country and Interstate Exhibitors must inform the Secretary by post or telegram of the despatch of their exhibits, giving all particulars, in order that arrangements may be made for receiving them. Two or more dogs may be sent in one hamper or box if it be properly divided and labelled.

9. The Society will engage a thoroughly practical man to feed and take charge of the dogs during the day, and a night watchman will also be on duty.

10. In order to prevent the non-exhibition of Dogs which have been entered for the Show, thus causing unnecessary preparation, expense and disarrangement of the Show benches, any person making any entry will be subject to a fine of 10/- for each and every entry of Dogs not exhibited, unless a certificate, under the hand of the Exhibitor or his authorised agent, be lodged with the Secretary of the Society at least three days before the opening of the exhibition, certifying that such non-exhibition is caused either by (1) the death of the Dog or Dogs; or (2) contagious or infectious disease (confirmed by the explanatory certificate of a veterinary surgeon); or (3) by the Dog or Dogs becoming ineligible for the Class in which they have been entered, or other reasonable cause. The non-payment of such fines to debar all persons owning them from exhibiting at future exhibitions of the Society.

11. Should any dispute arise in this Section, for which no specific rule has been laid down, the decision of the Council shall be accepted as final and without appeal.

Extract from the rules of the Kennel Control Council of Victoria, included for the guidance of intending exhibitors:—
