WHEAT WOULDN'T BE WORTH HARVESTING . . .

. . . if there were no railways to handle
it once it was ready for the market!

No other form of transport could attempt the tremendous task of conveying Victoria's wheat yield to the seaboard—a task which the Victorian railways carried through last year at the exceptionally low average cost to the farmer of four-fifths of a penny per ton of wheat per mile.

But, indispensable though they are, the railways cannot operate profitably unless they obtain the remunerative, as well as the unremunerative, freight.

Wheat alone won't make ends meet; and when ends don't meet, you, as a taxpayer, are called on to make good the railway loss.

USE YOUR RAILWAYS ALWAYS !

A convincing testimonial published in the Warrnambool "Standard," May 11, 1933, proves the value of Sykes's Drench:

Mepunga East, May 9, 1933.

Dear Mr. Sykes,—Recently I had trouble with my milk supply owing to the bacteria count being from 5 to 8 times that allowed, and the milk proving impossible to manufacture cheese from it. Being a supplier to the Warrnambool Cheese and Butter Factory at Allansford, I immediately interviewed Mr. Sheppard, the manager, who agreed to help me locate the trouble by sampling each cow's milk in the dairy. He proved seven cows to be very bad, out of my herd of 27. Being very worried, and not knowing any cause for this, I immediately discarded three of the cows, but the other four being among my best, I decided to keep them if possible. I immediately gave each cow a full packet of Sykes's Drench in one dose, and after three days asked Mr. Sheppard to test them again. He immediately pronounced the cows O.K., and allowed me to use the milk again. I feel that I will be helping my farmer friends by letting these facts be known, and Mr. Sheppard will substantiate this statement.

Yours truly,

GORDON A. BURLEIGH.

I hereby certify that I tested the cows mentioned in Mr. Burleigh's herd, and found the milk from four cows unsuitable for cheese-making. Five days later I again tested four samples submitted by Mr. Burleigh, and found them to be quite all right, and have tested the milk from Mr. Burleigh's herd weekly since, and the milk on every occasion was perfect.

Yours faithfully,

G. SHEPPARD.

BRITISH IS BEST--- THE BEST IS MORRIS

Because Morris Cars and Trucks were built for, and know, the land transport conditions in every country of the world — sandy wastes—mountain passes—congested cities. Extremes of heat, zero temperatures and tropical downpours do not deter these super efficient products of England's master craftsmen.

Let your choice be one of the Morris range.
They must be good to be so popular.

Have You TERRAPLANED?

TERRAPLANING is a new word to describe a new sensation in motoring—land-flying.

With this new type motor car, perfected by Hudson Essex engineers, "riding" becomes gliding; "hill climbing" is soaring; "accelerating" is like "taking off" in an airplane; "cornering" is safe, sure "banking" at speed.

Hudson engineers have thrown off the shackles of conventional design, and with them the dead weight that has impeded the performance of cars in the past. Weight is not strength, and inspired engineering has at last released great power from dead weight.

A GOOD TIME FOR THE BEST WHISKY

OLD friends . . . old times . . . the flow of reminiscence goes quietly on in the midst of to-day's clatter. A whisky or two keeps it moving along. Through the years of change, the old friendship alone remains steadfast. And it includes, very naturally, an adherence to Dewar's—doyen of all whiskies—finest of all Scotch.

DEWAR'S *The* SCOTCH WHISKY

The seal placed upon every Dewar's bottle under Government Supervision is a guarantee that it contains only GENUINE Dewar's Whisky, distilled in Scotland.

Any prize awarded to a mare exhibited as being in foal may be withheld until the production of a certificate that she has produced a foal after the exhibition and previous to the 1st January next ensuing.

All Stallions over 2 years of age must be registered under the Horse Breeding Act, 1928.

All Mares 3 years old or over entered in Sections 1 to 7 inclusive (except Farm and Lorry Horses in Section 2), must have obtained a certificate of soundness from a Government Veterinary Officer.

A Government Veterinary Officer will stamp all Entry Tickets for Stallions and Mares, "Pass to the Ring." These stamped tickets must be produced to the Steward before entering the arena.

Stallions and Mares will be examined by Government Veterinary Surgeons on the Show Grounds, on Wednesday, 20th September, commencing at 10 a.m.

Where height is stipulated, horses and ponies must be measured, and an exhibit over or under the specified measurement may be transferred to its correct class. The official measurer will be in attendance on the Grounds on Wednesday, 20th September, at 10 a.m., and on Thursday, 21st September, at 8 a.m., and horses and ponies must be there to obtain their certificates before going into the ring.

NOTE.—Horse-boxes must not be locked during the hours the Show is open to the public. The Exhibitor will be liable to a fine of ten shillings for every infringement of this regulation.

Horses are not permitted to enter the Judging Ring if fitted with bearing reins.

Any exhibitor who shall, without due cause, fail to parade any animal before the Judge when required so to do by the Steward of the Section, shall be liable to a fine of one pound.

Several feed stalls are available for exhibitors. Charge, 12/6 during the currency of the Show. Exhibitors are not permitted to stack feed in the Horse Pavilions.

EXERCISING HORSES.

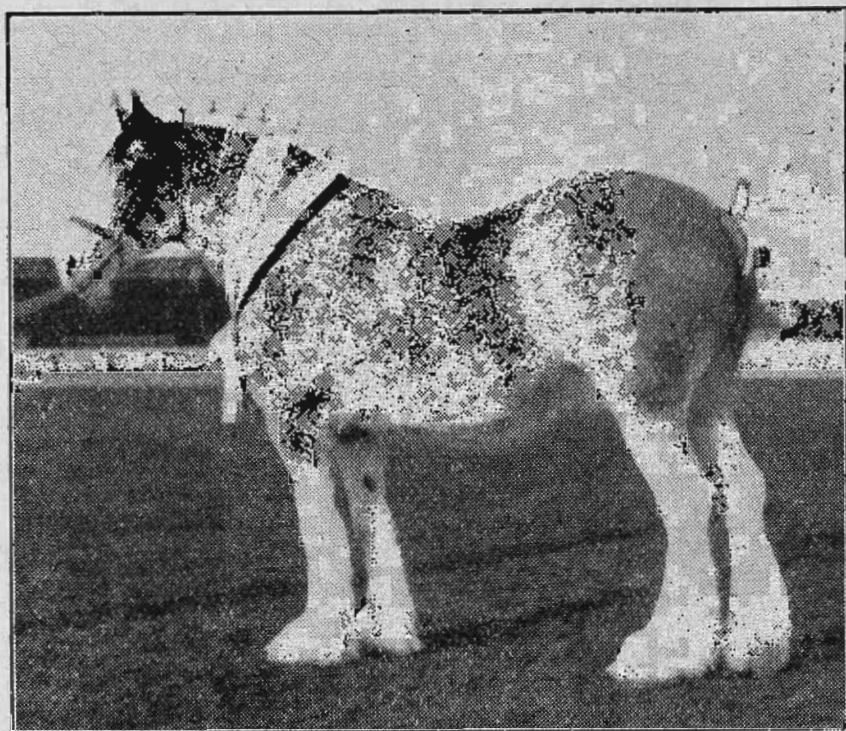

The parading of horses will be allowed on the arena track before 8.30 a.m. and after 5.30 p.m. on any day of the Show, and one week prior thereto.

VICTORIAN & MELBOURNE CENTENARY

October 1934 to (approx.) June 1935

P A State-wide celebration of Thanksgiving for the Progress of 100 years, in which City, Town and Country are heartily co-operating so that visitors will be attracted to all parts of the State, and the occasion made to live in the memories of our children.

P The celebrations, being spread over such a long period, and varied in their type and location, are definitely designed so that country residents may be able, in the slack periods of their seasonal occupations, to arrange a local celebration as part of the general State-wide plan, or visit and participate in those of the Capital or other cities or districts.

P The value to the primary producer of thousands of visitors touring our countryside—viewing our progress, methods and resources—increasing the consumption of edibles and primary products concerned in the manufacture of wearing apparel and other articles—creating employment, bringing increased revenue to the State by virtue of increased returns from all forms of travel and monetary turnover—must be apparent.

P By reason of the enthusiastic endeavour of residents of country and city to display pride in our land and its pioneers, visitors will carry away memories of friendships made, and will become our advocates and well-wishers on their return to their own country, thus establishing better personal and trade relations, and making the celebrations a definite aid to future progress of the State.

JUDGING ARRANGEMENTS (CLASS 141).

The steers are to be weighed alive on the day previous to judging and the live weights handed to the Judge. In the first place, the steers are to be judged alive (by the Shorthorn Judge in the Shorthorn ring) on the lines of breed characteristics and suitability for the beef trade. A maximum number of 40 points can be awarded to exhibits when alive.

On Friday, 29th September, the steers will be slaughtered in the presence of the judge (a butcher) weighed for dead weight, and judged on appearance when dressed, for color, quality and value of meat, hide and offal. The maximum number of points which can be awarded for the dead carcase, hide and offal is 60. The live weight is also to be furnished to the carcase judge, who has power to have the carcase cut as he wishes in order to arrive at a correct judgment. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers and not of the purchasers.

After the final awards are made, exhibits approved by the carcass judge will be forwarded to Smithfield for exhibition and sale and the proceeds of such sale (less charges) will be returned to the exhibitors by the Royal Agricultural Society of Victoria. Exhibits not approved for exhibition at Smithfield will be sold in Melbourne. The judges are to be asked to furnish reports on this competition to the Shorthorn Society of Australia (Victorian Branch), Temple Court, 422 Collins Street, Melbourne.

JUDGING ARRANGEMENTS.

The steers are to be weighed alive on the day previous to judging and the live weights handed to the judge. In the first place, the steers are to be judged alive (by the Red Poll judge, in the Red Poll ring), on the lines of breed characteristics and suitability for the beef trade. A maximum number of 40 points can be awarded to exhibits when alive.

On Friday, 29th September, the steers will be slaughtered in the presence of the judge (a butcher), weighed for dead weight, and judged on appearance, when dressed, for color, quality and value of meat, hide and offal. The maximum number of points which can be awarded for the dead carcase, hide and offal is 60. The live weight is also to be furnished to the carcase judge, who has power to have the carcase cut as he wishes, in order to arrive at a correct judgment. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers, and not of the purchasers.

After the final awards are made, exhibits approved by the carcass judge will be forwarded to Smithfield for exhibition and sale and the proceeds of such sale (less charges) will be returned to the exhibitors by the Royal Agricultural Society of Victoria. Exhibits not approved for exhibition at Smithfield, will be sold in Melbourne. The judges are to be asked to furnish reports on this competition to the Red Poll Cattle Breeders' Association of Australasia, Temple Court, 422 Collins Street, Melbourne.

Note.—Exhibits in the above class are eligible to compete in Class 302 and also Classes 303 and 311 if under two years old on judging day.

MADE IN AUSTRALIA.

AUSTRALIAN ILLAWARRA SHORTHORNS

Founded and developed in Australia under Australian conditions, the Australian Illawarra Shorthorn Breed has made wonderful progress in New South Wales, Queensland, and Western Australia, and is fast gaining popularity with dairy farmers in Victoria, where this breed has only recently been introduced.

Their Dairy Qualities have made them a big factor in the Dairying Industry throughout the Commonwealth.

A Victorian Branch of the Australian Illawarra Shorthorn Society was formally established in 1930, and there are now fifty members in this State.

Become a member and assist in furthering the interests of this great dairy breed. The Annual Subscription is £2/2/-. Join now and attend the Annual Meeting of Members in the Breeders' Room in the Administrative Building on the Show Grounds, at 11 a.m. on Wednesday, 27th September, 1933.
