### JUDGING ARRANGEMENTS.

The steers are to be weighed alive on the day previous to judging and the live weights handed to the Judge. In the first place the steers are to be judged alive (by the Dairy Shorthorn Judge, in the Dairy Shorthorn ring), on the lines of breed characteristics and suitability for the beef trade. A maximum number of 40 points can be awarded to exhibits when alive.

The steers are to be sold by auction at Newmarket on behalf of exhibitor, and on Thursday, 26th September, they will be slaughtered in the presence of the Judge (a butcher), weighed for dead weight, and judged on appearance, when dressed, for colour, quality and value of meat, hide and offal. The maximum number of points which can be awarded for the dead carcass, hide and offal is 60. The live weight is also to be furnished to the carcass Judge, who has power to have the carcass cut as he wishes, in order to arrive at a correct judgment. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers, and not of the purchasers.

After the final awards are made, the meat must be placed on exhibition for two days at butchers' shops within a radius of six miles from Melbourne G.P.O., due notice of days and place to be given to the public. The judges are to be asked to furnish reports on this competition to the Dairy Shorthorn Association of Australia, Temple Court, 422 Collins Street, Melbourne.

NOTE.—Exhibits in the above Class are eligible to compete in Classes 509, 510 and 516.

# **AT WINDREST**

## **Type and Production the Jersey Ideal**

---

**WINDREST** has been very fortunate in having as Herd Sires, two bulls that have reached the great ideal.  
—TYPE WITH PRODUCTION.

First **GADGET** (Imported) has sired no less than 28 Classified daughters, and of these, **SEVENTEEN** have records over 500 lbs. B.F. in 273 days. Five have passed the 600 lb. mark, and of the remainder almost all having done over 400lbs.

The present Senior Sire at **WINDREST** is Glen Iris Rosebay's Noble. Of his daughters only **SEVEN** have so far completed tests and **FOUR** of the seven have passed the 500 lb. mark. Of these seven, three have been classified Highly Commended and three Commended. All as Junior three year olds.

**WHEN ONE OUTSTANDING SIRE FOLLOWS ANOTHER IN A HERD THEN THE CHANCES OF THEIR COMBINED PREPOTENCY BEING TRANSMITTED IS GREATLY INCREASED AND THE USE OF THEIR OFFSPRING IS A WISE MOVE IN STUD BUILDING.**

It is seldom that **WINDREST** has bulls over one year old to offer and there are no heifers for sale.

In all there are 51 Classified Cows at Windrest and 43 of them have records over 500 lbs. B.F.

# Yarraview Guernseys

**CELEBRATED FOR HIGH TEST  
AND GOLDEN COLOUR**

## **36 YEARS OF CAREFUL BREEDING.**

Founded in 1910 by the importation of the noted bull Trengwainton Acorn, and seven selected females. Acorn's dam, Hayes Olive, was Champion Cow of England and winner of three butter-fat competitions. Since then several importations of males and females have been made from Guernsey and England, among the latter being Camilla's Majestic of Maple Lodge, who is Sire of Majestic of Kings Mills, who won the King's Cup for the best Bull on Guernsey Island, and many other important trophies; Camilla's Majestic of Maple Lodge (imp.) is also the Sire of Yarraview Ella, who in 1935 produced 10,486 lbs. milk and 533.87 lbs. of butter-fat, which is still senior two-year-old record for Australia, and as a senior four-year-old Yarraview Ella produced 14,289 lbs. milk and 685.08 lbs. butter-fat. Camilla's Majestic of Maple Lodge's Dam, Camilla of Maple Lodge, produced 11,615 lbs. of milk and 639.44 lbs. of butter-fat. With Camilla's Majestic three specially selected females were also imported, and more recently the herd was strengthened by the importation from Guernsey Island of the four excellently bred heifers, Clara's Fashion 7th, Clara's Fashion 8th, Marose of Kings Mills and Pearl 2nd of Kings Mills.

### **Imported Sires used in Herd:**

Trengwainton Acorn, Royal Sequel 2nd, Gem of Meadow View, Camilla's Majestic of Maple Lodge, Woodlands Fleur-de-Lys, Honoria's Benefactor Sun Rose of Maple Lodge.

# **"TINGE" . . .**

There's a "tinge" of yellow in the milk of many cows . . . but only the Guernsey breed has developed this valuable asset until it has become a "truly definite golden colour" . . . and (with Guernseys) this rich colour really means rich butterfat content too.

**One Guernsey Bull will bring this wanted colour and content to your herd.**

**See these great cattle on the Showgrounds — every one is the result of centuries of breeding.**

# Security!

*Freedom from Care  
or Apprehension . . .*

SOMEONE has said that Joseph was the first Underwriter. During the seven fat years "he built up a reserve" by storing Egypt's surplus grain in huge graneries. Then came seven lean years, and the land was parched and withered. But the Egyptians were secure; they had freedom from care or apprehension, as Joseph, knowing the Risk, had provided against it through the exercise of Forethought and Thrift.

In other words, they were

**CASE**

## THE TRACTOR WITH THE LONGEST FUTURE!

The thing that counts most in tractors is **ENDURANCE**. Case tractors a dozen years old, and older, are pulling the same loads at the same speed as when new, using little or no more fuel. Where complete cost records have been kept they are showing surprisingly low average expense for upkeep. The latest Case models have further features and refinements for still further endurance.

This extra endurance come mainly by making every Case part a little better than might seem necessary. It includes quality material with strength to spare, plus extreme care to keep out destructive dirt and to ensure effective lubrication under all conditions. Don't fail to fully investigate these truly modern tractors. See them at the Royal Show or write us for full information.

### SEE THE LATEST IN PICK-UP HAY BALERS

Built and styled for rapid, economical use, the Case Sliced Hay Pick-up Baler is capable of producing 2-4 wire bound and tied bales per minute—14 x 18 inches in size—weighing 60-70 lb. each. The average output per hour, according to baling con-

ditions, would be 4-5 tons. There is no baler head to damage the original goodness of the hay—no baler blocks to handle—no lost motion. The heavy plunger knife separates each charge, making a perfect bale that is ready-sliced for easy stacking and feeding.

### SUBMITS SOME INTERESTING FACTS FOR YOUR

### CONSIDERATION.

At the time of the last Royal Agricultural Show the Board quoted, in this space, statistics showing the increase in egg production from the time of its inception to the close of the financial year 1939/40, and gave a brief summary of its activities in Producers' interests to that date. Further statistical information is now printed, giving an indication of the industry's development over the war years.

On 1st July, 1943, the Commonwealth Government, by virtue of powers acquired under National Security Regulations, set up an organisation under the Controller of Egg Supplies to control the industry and market the ever-increasing supplies. The Controller of Egg Supplies, therefore, has functioned in relation to marketing the surplus production on a nation-wide basis exactly as the Board did on a State-wide basis. The Prices Commissioner made a uniform price for the whole of Australia.

The advantages of this wider control are obvious, but the future of the Victorian Board, which has acted as Agent for the Controller in Victoria to this date, depends on the organisation which will take the place of the Controller of Egg Supplies.

It is considered desirable that the beneficial features of the present control should be retained, for a study of the figures quoted above, plus the knowledge that only 60 per cent. of Victoria's production is consumed locally, makes it obvious to the reasoning man that organised marketing is even more vital than in the pre-war years.

The Victorian Board looks forward to the continued co-operation of the industry, and is confident that as an efficiently-organised producers' co-operative, all problems which confront the future of this industry will be dealt with successfully.

## **HERE'S WHY WERRIBEE ROMNEYS are Popular**

This stud was founded in 1920, and since its inception has been classed by Mr. J. Wrenford Matthews, the outcome being sheep of large frames, perfect carcasses, with wonderful evenness and one true type throughout.

All the Wool shorn from 6,000 Pure Romney Marsh sheep during 1945 season averaged 16½d. per lb., which speaks well for the quality of wool grown by the Werribee Romneys.

THE ROMNEYS are unequalled for their maternal qualities, prolific drops of early maturing and shapely lambs being assured under all conditions.

The bulky and valuable fleeces of "Werribee" Romneys are bright, soft handling with of high character of best 50-56 count.

Under the most rigid climatic conditions the "Werribee" Romney Marsh can be depended on for dual-purpose breeding, and without exception give the highest profitable results.

Inquiries for Flock Roms will be attended to immediately on receipt of request. Write now for particulars.

FOUNDED IN 1922 BY MR. H. L. BAILLIEU, WITH A  
COMBINATION OF THE BEST IMPORTED AND  
SOUTH AUSTRALIAN BLOOD

**Two of the Ram Lambs Imported in 1936.**

Dorsets are early and prolific lamb breeders. The Torrumbarry Estate Dorset Stud is one of the largest in Australia, and is noted for the soundness of its sheep and their strong Down character.

The Stud was augmented in September, 1936, by the importation of five Rams and 20 Special Stud Ewes, personally selected in England by Mr. H. L. Baillieu. These sheep, after selection, won first prizes at Royal Sussex and County Shows; also first, second, third and champion prizes at Royal Show held at Bristol.

In 1945, a further importation was made of two rams and four ewes from the well known **Clenstone** Stud, Dorset, England.

# SOUTHDOWN RAM BUYERS!

Owing to pressure of work, it was impossible to prepare a show team, but old and new clients can rest assured that the famous Mundarra Stud is today at the peak of its long and proud history.

Many high-class young sires will be available in December, and breeders are urged to inspect before buying elsewhere.

Remember, no stud in the Southern Hemisphere has so consistently imported from England and New Zealand, the very best rams available, and, over the last 10 years, no Australian Stud has such a great winning record at Melbourne Shows.

## Section 44—Pigs

**Entries are accepted on the distinct understanding that stock may not be removed from the Show Grounds until after 5 p.m. on FRIDAY, 27th September.**

Age of all pigs to be calculated to 15th September in each year. The Society's veterinary surgeon's decision to be final on all matters regarding age. Exhibitors may be disqualified and debarred from further competition for any breach of regulations regarding the age of exhibits.

In Classes 695 to 744 (inclusive) all exhibits over the age of four months must be registered in an approved Herd Book. Pigs in classes under the age of four months must be from litters notified in accordance with the Rules of the Australian Stud and Commercial Pig Breeders' Society. In the Classes for sows with litters, the sire of the litter must also be registered, and the litter must have been duly recorded.

All sows 2 years old or over must be in pig or have produced a recorded litter during the 12 months prior to the closing date of entries.

All boars 15 months old or over must have had their tusks cut within one month prior to the Show, and the Superintendent is empowered to remove from the Show Grounds any boar whose tusks have not been cut.

The Registered Herd Book numbers of all exhibits and of the sires and dams of exhibits **MUST** be stated on entry form.

For particulars of registration in the Australian Stud Pig Herd Book, apply to the Secretary, Australian Stud and Commercial Pig Breeders' Society, Temple Court, 422 Collins Street, Melbourne.

Exhibitors must be financial members of the Australian Stud and Commercial Pig Breeders' Society, whose herds must be accredited as Brucellosis-free by the Department of Agriculture.

Entries are limited to two in each class from any one exhibitor, in whose name the exhibits must be registered in the Herd Book. Only one exhibitor will be recognised as an owner from any one holding.

Exhibitors must make a statutory declaration that their entries are true and correct in every particular, that their exhibits are eligible for entry according to the conditions specified, and subject to the Rules, Regulations and By-laws of the Society, and that their exhibits, and the holding or holdings on which such exhibits were kept, have been free from swine fever for 12 months prior to the date of entry.

Judges shall give consideration to sows entered in the "Sow and Litter" Classes when making Champion and Reserve Champion awards.

Several feed sheds are available for exhibitors in the Pig Section. On application to the Secretary, sheds will be reserved. Charge, 12/6 each during the currency of the Show. Ten extra large sheds beyond the end of the Pig Pavilion, each fitted with four sleeping bunks, may be reserved on payment of £1/10/- each.

## NOMINATIONS:

1. Competition is limited to financial members of the Australian Stud and Commercial Pig Breeders' Society, whose herds have been accredited as Brucellosis-free by the Department of Agriculture.

2. Pigs must be bred by exhibitor and be pure bred or first cross of two pure breeds.

3. All nominated litters must be by sires and from dams that are either fully registered as purebreds or from litters notified in accordance with the rules of the Australian Stud and Commercial Pig Breeders' Society.

4. Not more than three litter nominations in each class will be accepted from any one breeder.

5. Each litter to be nominated to the Secretary of the Royal Agricultural Society one month before the expected farrowing date so that Stock Inspectors may be prepared to inspect and mark the litter at birth. (No fee for nominations).

6. The birth of the litter to be reported immediately to the District Stock Inspector by the nominator, who must also record it with the Australian Stud and Commercial Pig Breeders' Society.

7. The Stock Inspector will ear mark or tattoo the pigs of the litter as soon after birth as possible, and then, when they are eight weeks old, he will check the identification of the litter and weigh the pigs.

#### ENTRIES:

8. An entry shall comprise two pigs (2 sows, 2 barrows, or 1 sow and 1 barrow) from one and the same nominated litter.

9. No exhibitor may make more than two entries in each class. The two entries may come from one or two nominated litters.

10. Pigs entered for this competition must be penned not later than 5 p.m. on Tuesday, 17th September, and must not be fed or watered thereafter. Weighing will commence at 8 a.m., on Wednesday, 18th September, when identification marks of entered pigs will be checked.

**PRODUCTION POINTS:** 1 Point for every 5 lbs. of litter weight at eight weeks old.

**GROWTH POINTS:** The average live weight in lbs. of the two pigs comprising the entry on Wednesday, 18th September, 1946, divided by the number of days of their age, and multiplied by 70 in the case of baconers and 100 in the case of porkers.
