THE RISE OF GUERNSEYS

is due not only to the unquestionable ability of these hardy cattle to produce more and better milk under any climatic conditions

but also to the meticulous care with which the Guernsey Cattle Society of Australia guards the authenticity of their breeding.

Check and double check — there must be no possibility of an infusion of impurity of breeding or wrongful claim to blood line to mar the centuries devoted to line-breeding, selection and the elimination of the weak and unproductive.

Behind every registered Guernsey in Australia there stands this assurance. Buyers demand it before they pay the higher prices pure-bred Guernseys command.

You, too, can secure this proof for your stock, and get more money for your calves if you become a member of the Society and register them in the Stud Book.

Join the Society now. A free copy of the last Volume of the Stud Book will be sent you on payment of your first members' subscription (£2/2/-).

For Efficiency, Economy and Ease of Dipping . . . .

SICKLE BRAND

Gamalene

THE NEW LIQUID SHEEP DIP

Incorporating "Gammexane" Benzene Hexachloride

Containing the most effective insecticide discovered for the purpose, GAMALENE is a POSITIVE destroyer of keds (sheep ticks), body lice, foot lice and blowflies. It remains active in the wool long enough to ensure the destruction of any eggs or pupae which may not be eradicated at the time of dipping.

Its high concentration means that 2½ gallons of GAMALENE will do the same work for which at least 5 gallons of ordinary liquid dip, or 100 lbs. of powder dip, are required.

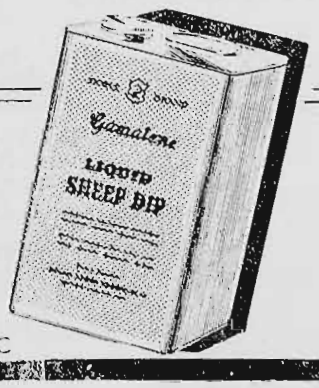

GAMALENE is one of the simplest of all dips to use, and possesses many remarkable features which must recommend it to every sheep owner.

- GAMALENE is a stable emulsion easy to pour and requires no premixing before use.
- Contains no ingredients of an acid or caustic nature, no mineral oils or solvents and cannot injure the wool.
- Is retained in the wool after dipping, and is not washed out by rain.
- Highly concentrated, 2½ gallons of GAMALENE are sufficient for 1000 gallons of wash.

Manufactured Solely by

COMMONWEALTH FERTILISERS and CHEMICALS Ltd.

Reg. Office: 65 Wililam St., Melbourne, C.1

Sickle Brand GAMALENE is packed in 10 pint tins — two per carton. One carton (2½ gallons) is sufficient to make 1000 gallons of wash.

Any prize awarded to a ewe in the above class may be withheld until the production of a certificate that she has produced a lamb after the Exhibition and prior to 1st November next ensuing.

ECHUCA

DORSET HORN STUD

FOUNDED IN 1922 BY MR. H. L. BAILLIEU, WITH A COMBINATION OF THE BEST IMPORTED AND SOUTH AUSTRALIAN BLOOD.

Two of the Ram Lambs Imported in 1936.

Dorsets are early and prolific lamb breeders. The Torrumbarry Estate Dorset Stud is one of the largest in Australia, and is noted for the soundness of its sheep and their strong Down character.

The Stud was augmented in September, 1936, by the importation of five Rams and 20 Special Stud Ewes, personally selected in England by Mr. H. L. Baillieu. These sheep, after selection, won first prize at Royal Sussex and County Shows; also first, second, third, and champion prizes at Royal Show held at Bristol.

In 1945 and 1947, further importations were made from the well-known CLENSTONE Stud, Dorset, England.

All you'll ever raise from a worm-weak flock is a robust mortgage. So . . . this year don't risk costly flock losses through gastro-intestinal worms. Drench with "Phenovis"—the effective gastro-intestinal worm remedy. Choice of successful graziers everywhere, "Phenovis" is based on Phenothiazine, best and most effective control for nodule, large stomach, and black scour in sheep, and gastro-intestinal parasites in other stock. "Phenovis" is non-toxic to sheep when used as directed and is supplied ready to use in handy powder form. Simply mix with water and drench as directed.

- - STUD - -

This flock was founded by the late J. R. Moodie many years ago from direct descendants of the The Levels Estate, Canterbury, N.Z., established in 1874. Origin pure Lincoln-Merino; no other blood has been used.

Nigretta East Corriedales have good carcases, strong constitutions, are well woolled, good cutters, and are noted for their character and style.

Nigretta East Corriedale Clip has topped series of 20,000 bales in Geelong, and always commands a very high price. Wool by Nigretta East Rams this year sold up to 91d. per pound.

PIGS

Section 45 — Pigs

Entries are accepted on the distinct understanding that stock may not be removed from the Show Grounds until after 5 p.m. on Friday, 1st October.

Age of all pigs to be calculated to 15th September in each year. The Society's veterinary surgeon's decision to be final on all matters regarding age. Exhibitors may be disqualified and debarred from further competition for any breach of regulations regarding the age of exhibits.

In classes 791 to 857 (inclusive) all exhibits over the age of four months must be registered in an approved Herd Book. Pigs in classes under the age of four months must be from litters notified in accordance with the Rules of the Australian Pig Society. In the Classes for sows with litters, the sire of the litter must also be registered, and the litter must have been duly recorded.

All sows 2 years old or over must be in pig or have produced a recorded litter during the 12 months prior to the closing date of entries.

All boars 15 months old or over must have had their tusks cut within one month prior to the Show, and the Superintendent is empowered to remove from the Show Grounds any boar whose tusks have not been cut.

The Registered Herd Book numbers of all exhibits and of the sires and dams of exhibits must be stated on entry form.

For particulars of registration in the Australian Pig Herd Book, apply to the Secretary, Australian Pig Society, Temple Court, 422 Collins Street, Melbourne.

Pigs not registered prior to 31st July will only be permitted to be entered for the Show on payment of double entry fees.

Exhibitors must be financial members of the Australian Pig Society, whose herds must be accredited as Brucellosis-free by the Department of Agriculture.

Entries are limited to two in each class from any one exhibitor, in whose name the exhibits must be registered in the Herd Book. Only one exhibitor will be recognised as an owner from any one holding.

Exhibitors must make a statutory declaration that their entries are true and correct in every particular, that their exhibits are eligible for entry according to the conditions specified, and subject to the Rules, Regulations and By-laws of the Society, and that their exhibits, and the holding or holdings on which such exhibits were kept, have been free from swine fever for 12 months prior to the date of entry.

Judges shall give consideration to sows entered in the "Sow and Litter" Classes when making Champion and Reserve Champion awards.

Several feed sheds are available for exhibitors in the Pig Section. On application to the Secretary, sheds will be reserved. Charge, 12/6 each, during the currency of the Show. Ten extra large sheds beyond the end of the Pig Pavilion, each fitted with four sleeping bunks, may be reserved on payment of £1/10/- each.

No pig shall be transferred from its numbered pen without the sanction of the officer in charge.

IODINE

For

Better Animal Health

Extracts from two of the many letters from Poultry Farmers:—

QUEENSLAND

"We have used Iodine for some time and find it one of the best disease preventatives and cures we have ever used. Our farm carries 9,000 layers, hence the enquiry for bulk Iodine."

NEW SOUTH WALES.

"I have used Iodine for years with great success. I consider its use keeps the chicks healthy and free from a lot of trouble we had before."

Gummed labels to be affixed thereto will be supplied by the Society, and no addition must be made to these labels by exhibitors. In the event of an exhibitor adding to the information included on the label by the Society, the bird to whose cage this label is attached will be disqualified.

No bird suffering from any disease will be allowed to be exhibited.

Exhibitors will not be permitted to remove their birds before 9 p.m. on Saturday, 25th September.

The Society will arrange for a competent person to feed and otherwise attend to the birds, and caretakers will be on duty in the Pavilion night and day during the currency of the Show.

The greatest care will be taken of the exhibits, but the Society will not be responsible for any accident, mistake, loss or damage, from whatever cause arising, the exhibits being at the sole risk of the exhibitor. In case of the death of any exhibit, the same shall be certified by the Veterinary Surgeon or his deputy.

Exhibitors of birds which are protected or kept under permit, must produce their permit when called upon to do so. The Society does not accept any responsibility in this matter. Entries can only be accepted on this condition.

Birds that have been tampered with or improperly dealt with in any way shall be disqualified, and entry fees paid therefor shall be forfeited. The exhibitor shall also be liable to disqualification, and, if a member, to expulsion from the Society.

No advertisement or notice can be displayed on exhibits entered in this Section.

Exhibits in this Section must be staged before 9 a.m. on Thursday, 23rd September; but, in order to avoid disappointment, exhibitors are advised to forward their produce earlier in the week.

Exhibitors will not be permitted to remove their exhibits until after 5 p.m., on Saturday, 2nd October.

Exhibitors must lodge a statutory declaration when making their entries that exhibits of Wheat, Oats, Barley and Maize represent a quantity of not less than 150 bushels, that exhibits of Chaff and Hay represent a quantity of not less than 10 tons, and that they were produced by the exhibitor during the preceding twelve months.

Exhibitors in this Section will not be allowed to take more than one prize with the same variety of produce in any one Class.

NOTE.—Exhibits of Wheat, Oats, Barley and Maize will not be eligible for competition unless exhibitors state on their entry forms the name of the variety, locality where grown, character of soil, quantity of seed sown per acre, source of supply of seed, yield per acre, acreage cultivated of variety exhibited, and, if manured, state kind and quantity used per acre; also annual rainfall of district, and rainfall from 1st May, 1947, to 1st November, 1947, in the case of Wheat, Oats and Barley, and from 1st October, 1947, to 30th April, 1948 for Maize. Exhibitors of Maize must also state the type of Maize. Form will be forwarded to exhibitors, who are requested to fill in all particulars as above regarding the growing of their produce, and cards giving this information will be displayed on the exhibit stand.

It is particularly requested that all farm produce exhibits are distinctly labelled with removable cards. Such labels to indicate name and address of exhibitor, together with class and exhibit numbers.

WHEAT.

Wheat exhibits addressed to **The Secretary, Royal Agricultural Society of Victoria, Spencer Street Railway Station, Melbourne,** will be received until Saturday, 31st July, 1948. It is particularly requested that exhibitors will write their names and addresses on the reverse side of the address label, and also mention Class number, names of the variety of the wheat in each bag, so that their exhibits may be identified.

Wheat which, in the opinion of the judge, has been "mill dressed" or polished, or from which the brush is absent, will be disqualified.

In classes where the varieties are specified such varieties only are eligible for competition.

The Sunshine way of making HAY

is typical of Sunshine's mechanization of Australian farm work.

Here is another example of the way Sunshine machinery helps to produce greater profit from bigger areas with less labour . . . POWER-TAKE-OFF MOWERS with 6 or 7-ft. cutter bars, cutting cleanly, speedily, safely . . . The first SIDE DELIVERY RAKE of its kind with four-bar cylinder introduced to the Australian farmer, for cleaner yet gentler raking . . . and the Sunshine engine functioned PICKUP BALER, self feeding and automatic threading (the only manual operation is tying the wires), producing up to 5 tons per hour of heavy tightly wired bales. Here is an Australian machine which, with a crew of two, more than doubles the output of eight to ten men working with older methods.

Sunshine has for over 60 years kept Australian farming methods more than abreast of those of other lands, with machines designed and produced for Australian conditions by practical Australian engineers. THE MODERN WAY TO BETTER HAY!

Built and styled for rapid, economical use, the Case sliced-hay Pick-up Baler is capable of producing 2-2½ bales per minute, 14 x 18 inches in size, weighing 60 to 75 lb. each. Its two operators can average 3½ to 5 tons per hour. The Case operates in a different manner from other balers. There is no feederhead to damage the original goodness of the hay. No divider blocks are used . . . every stroke of the plunger bales a charge of hay. There is no lost motion . . . no baler blocks to handle. The heavy plunger knife separates each charge, making a ready-sliced bale for easy feeding. Inspect this highly efficient machine at the Royal Show.

CASE SIDE-DELIVERY RAKE.

Makes higher, looser and more fluffy windrows. Higher windrows have less top exposure to sun and more side exposure for breeze . . . looser windrows permit more air circulation, and fluffy windrows make hay easier to handle. Get the full facts at our Royal Show stand.

CASE HAMMER MILL.

The latest Mode "Feed Saver" Case Hammer Mill embodies many new and worth-while features that will immediately appeal to the progressive dairy farmer. See this modern machine at the Royal Show, and ask for a demonstration.

1. Each exhibitor will be allowed up to three entries in any one class, except for liqueurs, which shall be restricted to one entry of any one brand in each class. Each exhibit shall consist of two reputed quarts or four reputed pints, drawn from Bond, and shall be of the alcoholic content prescribed for the class in which it is entered.

Bottles must not be labelled with business labels. Branded bottles and corks are permissible.

2. No person shall enter any spirits, liqueur and cider as an exhibit unless he has in stock, available for sale, a supply of such spirit as stipulated in respect of each class of exhibit. A margin of variation of 2 degrees in strength to be allowed for any exhibit, unless otherwise stated. Liqueurs must be made from natural extracts or flavourings, and must not contain synthetic flavourings. Exhibitors must state on the label the spirit content of the liqueur exhibited.

3. Exhibits must represent stocks as set out on certificate of entry, and be the bona fide property of exhibitor at the time of entry.

4. No entry will be received from any person or persons disqualified by this or any similar Society during the period of such disqualification. Should any such entry be accepted, it shall, when discovered, be deemed void, and the entry fee and exhibit shall be forfeited to the Society.

5. No person will be allowed to inspect an entry form after reception by the Secretary, until the Judges' awards have been made public.

6. Immediately after the closing date of entries, a draw may be made for the selection of three exhibitors from whose entries a further draw will be made to enable one sample to be selected from each exhibitor. The Society reserves the right to make an inspection of the quantity in accordance with the certificate of entry.

7. After the close of entries no person will be permitted access to the exhibits, except the Judges, Secretary and Staff, until the award has been made.

8. Each exhibit must be accompanied by a declaration: (a) that it conforms with these regulations; and (b) that it has not been blended with any imported spirit or liqueur.

9. Every exhibit must be contained in a bottle clearly marked to show the nature of the exhibit, the year of exhibition, the number of the class in which it is entered, and the name of the exhibitor, and such bottles must be packed in cases or hampers or other suitable containers bearing the name and the address of the exhibitor, which must be addressed to the Secretary, Royal Agricultural Society of Victoria, Show Grounds, Ascot Vale, and be delivered to the Show Grounds not later than 12 noon on Saturday, 21st August, 1948.

10. In all classes the stock, as stated on the entry form, may be inspected and checked by a representative of the Society or its nominee. Each exhibitor must supply the Society with a sealed envelope containing the record of any sale made subsequent to their entries being lodged, provided such sale has reduced the stipulated quantity below the minimum.

11. No exhibitor will be permitted to occupy the position of Judge or Steward or become in any way identified with the judging or handling of the exhibits.

12. The judge may award prizes on the basis of First, Second, Third, Very Highly Commended, Highly Commended, and Commended, but prize money will only be allocated for first and second awards.

13. All persons exhibiting shall accept the decision of the Judges appointed by the Society as to the merits of their exhibits.

14. No protest will be entertained unless made within three days of the close of the last judging day of the Section.

15. No exhibitor shall advertise or allow to be advertised by any means whatsoever, and whether by broadcasting, pictorially, or in writing, the fact that any exhibit has won any prize in this section unless such advertisement shows clearly in type of equal prominence both the class in which such prize was won and the qualifications necessary for entry in that class.

16. All exhibits to become the property of the Society.

INSTRUCTIONS TO JUDGES.

1. The Judges shall have power to disqualify or dismiss, as being not eligible for judging, any exhibit which, in their opinion, does not comply with the regulations in every respect, and such disqualification or dismissal shall be accepted as final. The Judges shall have power to call in one or more persons, not being exhibitors, for consultative or advisory purposes.

2. In the event of there being no competition in a class, Judges may award a prize or not, as they think fit. Prizes may be withheld in any class where exhibits are considered unworthy.

3. Where, in the opinion of the Judge, an exhibit is not in accordance with conditions, he shall, before making the award in the class, refer the matter to the Council for enquiry.
