## PIGS

### Section 41—Pigs

**Entries are accepted on the distinct understanding that stock may not be removed from the Show Grounds until after 1 p.m. on Friday, 25th September.**

Age of all pigs to be calculated to 15th September in each year. The Society's veterinary surgeon's decision to be final on all matters regarding age. Exhibitors may be disqualified and debarred from further competition for any breach of regulations regarding the age of exhibits.

In Classes 752 to 818 (inclusive) all exhibits over the age of four months must be registered in an approved Herd Book. Pigs in classes under the age of four months must be from litters notified in accordance with the Rules of the Australian Pig Society. In the Classes for sows with litters, the sire of the litter must also be registered, and the litter must have been duly recorded.

All sows 9 months old or over must be in pig or have produced a recorded litter within 9 months prior to 15th September, 1953. The date of birth of such recorded litter must be stated on the entry form.

All boars over 12 months old must have had their tusks cut back to gum level one week prior to the Show, and the Superintendent is empowered to remove from the Show Grounds any boar whose tusks have not been cut.

The Registered Herd Book numbers of all exhibits and of the sires and dams of exhibits must be stated on entry form.

For particulars of registration in the Australian Pig Herd Book, apply to the Secretary, Australian Pig Society, Temple Court, 422 Collins Street, Melbourne.

Pigs not registered prior to 31st July will only be permitted to be entered for the Show on payment of double entry fees.

Exhibitors must be financial members of the Australian Pig Society, whose herds must be accredited as Brucellosis-free by the Department of Agriculture.

Entries are limited to two in each class from any one exhibitor, in whose name the exhibits must be registered in the Herd Book. Only one exhibitor will be recognised as an owner from any one holding.

Exhibitors must make a statutory declaration that their entries are true and correct in every particular, that their exhibits are eligible for entry according to the conditions specified, and subject to the Rules, Regulations and By-laws of the Society, and that their exhibits, and the

holding or holdings on which such exhibits were kept, have been free from swine fever for 12 months prior to the date of entry.

Judges shall give consideration to sows entered in the "Sow and Litter" Classes when making Champion and Reserve Champion awards.

No sow (other than those entered in the sow and litter classes) will be permitted to be exhibited with a litter.

Any boar, entered in the breeding classes, not deemed to be completely entire by the Society's Veterinary Surgeons may not compete or be offered for sale on the Show Grounds.

Several feed sheds are available for exhibitors in the Pig Section. On application to the Secretary, sheds will be reserved. Charge, 12/6 each, during the currency of the Show. Ten extra large sheds beyond the end of the Pig Pavilion, each fitted with four sleeping bunks, may be reserved on payment of £1/10/- each.

No pig shall be transferred from its numbered pen without the sanction of the officer in charge.

All pigs entered in the stud classes will be paint branded with exhibit numbers.

#### TRUCKS, TRANSPORTS AND CARAVANS.

**EXHIBITORS PLEASE NOTE** that it is a condition of entry that motor vehicles, including trucks and stock transports, will not be permitted to remain on the Show Grounds after unloading. They must be removed immediately, and will not be re-admitted until after 12 noon on Friday, 25th September.

No advertisement or notice can be displayed on exhibits entered in this Section.

Exhibits in this Section, with the exception of Wheat, must be staged before 9 a.m. on Thursday, September 17th. Wheat must be lodged by Saturday, 25th July, but in order to avoid disappointment, exhibitors are advised to forward their produce earlier in the week.

The Society reserves the right to display only prize-winning exhibits and those considered by the judges to be of special merit if the entries received are more than can be staged in the accommodation available.

Exhibitors will not be permitted to remove their exhibits until after 5 p.m., on Saturday, 26th September.

Exhibitors must lodge a statutory declaration when making their entries that exhibits of Wheat, Oats and Barley represent a quantity of not less than 150 bushels, that exhibits of Chaff and Hay represent a quantity of not less than 10 tons, and that they were produced by the exhibitor during the preceding twelve months.

Exhibitors in this Section will not be allowed to take more than one prize with the same variety of produce in any one Class.

**NOTE.**—Exhibits of Wheat, Oats, and Barley will not be eligible for competition unless exhibitors state on their entry forms the name of the variety, locality where grown, character of soil, quantity of seed sown per acre, source of supply of seed, yield per acre, acreage cultivated of variety exhibited, and, if manured, state kind and quantity used per acre; also annual rainfall of district, and rainfall from 1st May, 1952, to 1st November, 1952, in the case

of Wheat, Oats and Barley. Form will be forwarded to exhibitors, who are requested to fill in all particulars as above regarding the growing of their produce, and cards giving this information will be displayed on the exhibit stand.

It is particularly requested that all farm produce exhibits are distinctly labelled with removable cards. Such labels to indicate name and address of exhibitor, together with class and exhibit numbers.

### WHEAT.

Wheat exhibits addressed to The Secretary, Royal Agricultural Society of Victoria, Spencer Street Railway Station, Melbourne, will be received until Saturday, 25th July, 1953. The railage must be prepaid by the exhibitor, but the Society will take delivery from the railway station and convey same to the Show Grounds free of charge. It is particularly requested that exhibitors will write their names and addresses on the reverse side of the address label, and also mention Class number, names of the variety of the wheat in each bag, so that their exhibits may be identified.

Wheat which, in the opinion of the judge, has been "mill dressed" or polished, or from which the brush is absent, will be disqualified.

In classes where the varieties are specified such varieties only are eligible for competition.

Red-grained wheats are not eligible to compete in the following Classes.

The whole of the prize money in these classes, totalling £100, is presented by Messrs. H. V. McKAY, MASSEY HARRIS PTY. LTD.

# SUNLIFTER

(C. MAXWELL'S PATENTS)

## FOR RAPID LOADING FROM FIELD TO TRUCK

With the Sunlifter attached to your truck or trailer, you can stack a full load in the short time it takes to drive slowly past the required number of bales.

Hitching to the offside gives the best view of the bales being collected. Efficient guide race gathers all bales within its path, whether flat or standing, and positions them correctly for picking up.

With the Sunlifter there is no impact—no jerking or snatching—as the bales are gripped at the moment when the fingers have no relative ground speed. The grip is sufficient to lift the bales evenly, and the steel fingers are adjustable to suit any standard size bales.

The platform delivers three bales high to the average truck or trailer, and can then be adjusted to deliver to the fourth row before further manual lifting becomes necessary.

Mechanical loading with the Sunlifter saves much of the hard work and risk of lifting heavy bales. Most of all, it saves TIME, which is reduced to a fraction of that required for loading manually. It is equally suitable for farmers, graziers or contractors.

Sunshine modern hay-making machinery includes power mowers, dump and side delivery rakes, presses, self-tying pick-up baler and the new 'Sunlifter rotary bale loader.

Compare these outstanding features:

**POWER**—Ample for the tough jobs, plus generous reserve for sudden overloads.

**SPEED**—Case tractors don't dawdle on the job—they are fast-stepping, willing workers.

**ECONOMY**—They are easy on fuel and work many long years with amazingly low upkeep costs.

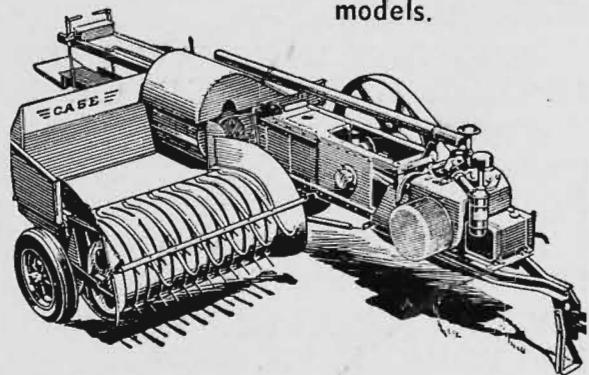

**COMFORT**—Big, comfortable tilt-back seat with plenty of room to stand when you wish.

**CONVENIENCE**—Easy to handle, easy to service.

**LONG LIFE**—Superior engineering for the longest possible life, the greatest possible value.

## CASE SLICER HAY BALER

For new ease, speed and economy in baling, simple construction, strength with light weight, the Case Slicer Baler surpasses all other makes. It puts up firm, neat, full-weight bales ready sliced for easy feeding, and ventilated for fast, even curing. Don't commit yourself to the purchase of any baler until you fully investigate the Case. Available in automatic tying or manually operated models.

According to farmers with a wide experience the new Model "A" Case Combine is the most capable machine of its kind ever built. It harvests more kinds of crops, and saves them more completely, under more difficult conditions. Its cylinder is proportioned just right for full-width feeding, and it's a cylinder that puts teeth into threshing of tough, tangled crops. Full-length rack and air-lift cleaning provide extra capacity for finishing the job. Learn more about the features and construction that make for the remarkable performance of the Model "A" Case Combine.

## CASE MAIZE PICKER

This new and sturdily built machine provides a real short-cut in the making of corn or sorghum silage. In one power operation it cuts the standing row crop, chops it into short uniform lengths, and loads the material into truck or wagon driven alongside or trailed behind. Its heavy knife-wheel type of cutter has a powerful shearing action which gives large capacity with a minimum of tractor power.

## CASE FIELD FORAGE HARVESTER

Here's a really modern maize picker—lighter in weight, simpler in construction, yet with a surprising capacity to handle two or more acres of corn per hour. It moves right along the heaviest yields, whether stalks are short or tall, straight or storm-tangled. Easy power take-off for average tractor. Available in single and double-row models.

## G-WELL BULK WHEAT LOADER

(MODEL L46) (PATENTS 108490, 16664/53)

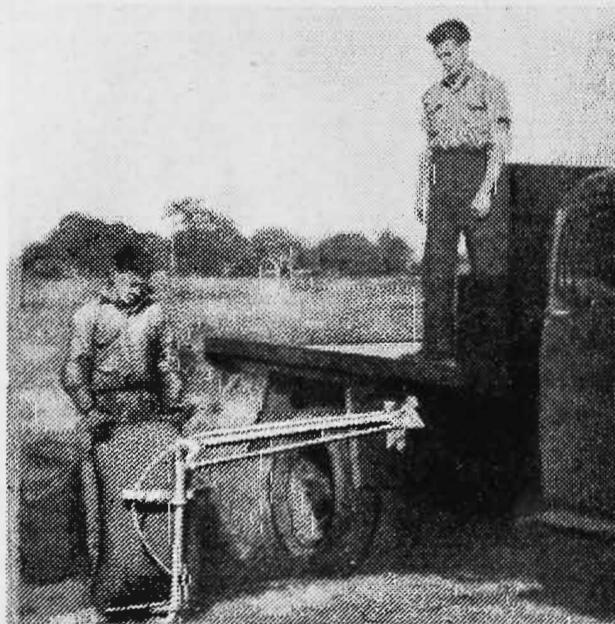

**LOADS UP TO 6 BAGS A MINUTE -  
28.9 tons an hour!**

Hydraulically operated! Automatic in action! The fastest, most efficient means of loading bagged grain from ground level to bulk transport—either bodies or bins! Simplicity itself to assemble and operate!

Place open top bag of grain on end of frame. Push back chute. Frame automatically swings up. Once in discharge position, bag completely empties itself. Now simply jerk cord. Frame and empty bag, with spikes mechanically withdrawn, return to ground automatically.

## G-WELL VERTICAL LIFT OPEN TOP BAG LOADER

(MODEL L43) (PATENTS 28223/4)

A comparative newcomer in the G-Well range, this Open Top Bag Loader is designed especially for the wheat farmer who transports unsewn bags between field and silo. The open top bag is placed on the platform at ground level—then the fast automatic action lifts the bag to truck height without spilling the contents. When the bag is removed the loading platform automatically returns to the ground.

Every G-Well Loader can be supplied as a complete individual unit, or, if preferred, attachments are available to enable rapid conversion from one to another of the types illustrated. Attachments can be supplied for the loading of baled chaff, lucerne or hay.
