Gummed labels to be affixed thereto will be supplied by the Society, and no addition must be made to these labels by exhibitors. In the event of an exhibitor adding to the information included on the label by the Society, the bird to whose cage this label is attached will be disqualified.

During the Show the birds will be in the custody of the Society, and must not be touched or handled by the owner or any person, on any pretence whatever, without the permission of the Superintendent.

Exhibitors will not be permitted to remove their birds before 9 p.m. on Saturday, 18th September.

The Society will arrange for a competent person to feed and otherwise attend to the birds, and caretakers will be on duty in the Pavilion night and day during the currency of the Show.

The greatest care will be taken of the exhibits, but the Society will not be responsible for any accident, mistake, loss or damage, from whatever cause arising, the exhibits being at the sole risk of the exhibitor. SPECIFICATIONS

The following specifications are intended as a guide only to the exhibitors and judges in Wine Shows conducted by the Society. Except where analytical standards are mentioned, it is in general left to the exhibitor to see that his entries conform, but in case of doubt the Judges may submit samples for analysis.

HOCK

Should be in brilliant condition, pale to light straw in colour, preferably with a slight greenish tinge, light to medium bodied, medium to high acidity and yet soft, with a fresh and flowery bouquet and a clean after-taste free of bitterness or lingering sweetness.

MOSELLE

Specification similar to Hock, but with some sweetness not exceeding half-degree baume.

WHITE BURGUNDY OR CHABLIS

Should be in brilliant condition, light to medium straw in colour. Medium to full-bodied and yet delicate, with a medium acidity and a fresh bouquet. Its aftertaste may be a little more pronounced than in Hock even with a very slight bitterness but no lingering sweetness.

SAUTERNES

A white table wine of straw to light golden colour. It should be in brilliant condition, medium to full-bodied, with a bouquet which is aromatic rather than flowery and distinctly sweet in flavour. It should not show excessive SO₂. Baume should not be less than 1.5 degrees.

ROSE

A still, light and tart table wine, with a slight tannin finish and a fresh fruity flavour, but without muscat character. Colour pink. It should not contain more than 0.50% reducing sugar and alcoholic strength should be between 17% and 24% proof spirit.

CLARET

A dry red table wine which may vary from fairly dark to light red in colour according to the age of the wine, and from light to medium body. The acidity and body should be well balanced and the wine, whilst soft and rounded on the middle palate, should finish firm and astringent and showing, as well as grape tannin flavour, some but not excessive flavour of oak tannin from the maturation wood. The bouquet should be fruity and in harmony with the body and flavour of the wine. An amber colour is objectionable.

BURGUNDY

A dry red table wine of colour and body similar to Claret but a softer wine which may be of somewhat lower acidity and which must be soft and round on the middle palate and lack the characteristic astringency of Claret on the finish.

SWEET WHITE NOT EXCEEDING 27°

Should be straw to light golden colour. Usually with some Muscat character. Bouquet must be fruity and attractive without objectionably excessive SO₂. Flavour should be soft, round and well balanced. Strength not to exceed 27% proof spirit and baume not to exceed 7 degrees.

SWEET WHITE DESSERT

Golden to amber in colour, depending on age. Must not show Muscat character but have fruity and aromatic bouquet. It must be full-bodied, soft and round and yet with an acidity sufficient to prevent mawkishness. Baume not to exceed 6 degrees in the commercial class or 10 degrees in the open class.

SWEET RED NOT EXCEEDING 27°

Colour medium to dark red. May show some amber tinge. Bouquet to be characteristic of red dessert wine without excessive SO₂. Palate to be full flavoured with some astringency on the finish but without excess acidity. Strength not to exceed 27% proof spirit and baume not to exceed 7 degrees.

SWEET WHITE MUSCAT

Colour light golden to deep amber. Distinct Muscat bouquet and palate. Full-bodied, soft and round and yet firm enough not to be mawkish. Baume not to exceed 6 degrees in the commercial class or 10 degrees in the open class.

SWEET RED, RUBY PORT STYLE

Colour medium to dark red. May only show slight amber tinge, excessive amber colour is objectionable. Bouquet and palate full and fruity. Finish firm and astringent leaving no lingering sweetness. Baume not to exceed 6 degrees.

SWEET RED, TAWNY PORT STYLE

Colour pale red with distinct amber tinge to deep amber with reddish tinge. Bouquet fruity and aromatic, palate full and soft with distinct dryness on the finish. Some flavour of oak tannin from the maturing wood is desirable. A lingering sweetness on the after palate is undesirable. Baume not to exceed 6 degrees.

VINTAGE PORT

Colour deep ruby to light ruby possibly with a slight amber tint, depending on age. Bouquet fruity and characteristic of bottle aged Vintage Port. Should not show wood character. Flavour full and soft with firm, astringent finish and no lingering sweetness. Baume not to exceed 6 degrees.

SHERRY, PALE DRY FINO STYLE

Colour straw to pale golden. Bouquet characteristic of flor sherry. Flavour light and dry without excessive acidity or astringency but some oak character. Finish dry, aromatic with distinct "nutty" aftertaste of flor sherry.

SHERRY, AMONTILLADO STYLE

Colour golden to light amber. Bouquet similar to pale dry Sherry, but more aromatic. Palate fuller and softer than pale dry with some oak astringency showing through. Finish dry and aromatic with characteristic "nutty" aftertaste of sherry.

SHERRY, OLOROSO STYLE

Colour amber to deep amber. Bouquet fruity and aromatic and showing both oak wood and Sherry character. Palate soft and round but with firm oak tannin finish. Baume not to exceed 3 degrees.

AUSTRALIAN WINES

CHAMPAGNE

Colour should be pale to light straw. Should have good acidity and not be too light in body. Bouquet should be fresh, fruity but without particular varietal character, and should indicate some years in bottle. The wine should be fairly dry but show no astringent finish. Bubbles should be fine and persistent (make sure tasting glasses are not washed in detergent).

SPARKLING BURGUNDY

Colour should be light to medium ruby. In older wines may show a trace of amber but not more than a trace. Bouquet fruity but should show bottle age. Fairly pronounced acidity. Full flavour and body, some sweetness but with dry finish. May show slight oak character. Bubbles should be fine and persistent (make sure tasting glasses are not washed in detergent).

VERMOUTHS

These should approximate European counterparts. Colour of Dry Vermouth should be very light straw, and Sweet Vermouth from golden to deep amber.

TWO YEARS OLD BRANDY

Entries in this class should be representative of popular commercial brandies, but should avoid fruitiness. The Brandy should be a well balanced distillate of wine made from neutral grape varieties. It should avoid excessive heads or tails, and should not show varietal character (e.g. Muscat). It should be smooth but not too sweet (1.5 degrees obscuration is suggested as maximum). A clean balanced bouquet is essential. Colour not too dark.

OLD BRANDY

Colour may be somewhat darker than in young Brandy class. Well-matured oak should be distinguishable on both bouquet and flavour. Bouquet should be clean and somewhat ethereal but well balanced showing no particular constituent to excess. Flavour should be full, smooth and aromatic. Finish aromatic without trace of fusel oil. No varietal character or fruitiness should be evident. Some slight sweetness is acceptable.

Entry fees: R.A.S. of V. Members, \$1; Non-
members, \$1.50.

Judges: S. TRAINOR, Esq.
M. E. McSHANE, Esq.

Butter exhibitors are requested to carefully note the various dates on which exhibits are required to be delivered to the Government Cool Stores, Melbourne.

The Society reserves the right to draw samples from exhibits and to display only those exhibits which are awarded prizes, or in the opinion of the Judges are of such merit that exhibition is desirable.

Exhibitors must state on their entry forms whether their exhibits will be collected or if they are to be returned by the Society. If they are to be returned by the Society, full directions and addresses must be given. No exhibit which is displayed may be removed until after 9 p.m. on Saturday, 25th September.

For the purpose of judging in the Butter Classes the Factory at which the exhibit is manufactured is regarded as the exhibitor and as such any one Factory is not allowed to take more than one prize in any one Class.

Any Factory endeavouring by unfair means to secure a prize to which such exhibitor is not justly entitled will be disqualified.

The name of the Factory at which the exhibit is manufactured must be stated on the Entry Form.

It is particularly requested that all exhibits of butter are distinctly labelled with removable cards, such labels to indicate name and address of exhibitor, together with Class and exhibit numbers.

The Society will display on cards the points awarded by the Judges.

The General Conditions also form part of the conditions of entry.

Butter shall be judged by points on the following scale:—

Flavour, including aroma	50
Texture, including body, grain and moisture	30
Condition, including colour, salting, packing and covering	20
Total	100

Note:—Any exhibits not lodged by specified dates will not be accepted.

**TWENTY MILLION LBS. OF AUSTRALIAN BALER TWINE USED
LAST YEAR MUST MEAN SOMETHING.**

It does! It means safety. It means that Australian baler twine is easier to use, rot-proof and inexpensive. It means that standard twine can be used in all balers.

Most important of all, it means safety. Australian twine presents no hazards to the user, his stock or his equipment.

These are well-known countryman's facts.

City dwellers and commerce get the same guarantees with the ropes, cords and twines made for them. So they should! After all, the members of the Cordage Institute of Australia have had 119 years to perfect their products.

Ropes for the army, navy and air force; for shipping and mining. Nets for fishermen. Cords for carpets. Yarns for safety fuses and a host of other unlikely applications—in brooms for example, and in telephone and power cables.

Rope, cord and twine—made from nature's raw materials and from man-made fibres—are essential to everyday living.

Their quality is collectively guarded by the members of the Cordage Institute of Australia.
