2. Each Society conducting qualifying competitions is required to notify the Royal Agricultural Society of Victoria of the names and addresses of the winners and "runners-up", so that if it is found that, for any reason, the winners were ineligible, an opportunity may be given the "runners-up" to compete in the Championship Competitions.

4. The holder of a R.A.S. Qualifying Certificate, won in the same year, shall not be eligible to compete.

2. Competitors must place each flag in the barrel before the next flag is picked up. The farthest flag should be picked up first. If missed, competitor may pick up another flag on the way back to the barrel, but must return to the first flag next time.

3. Horses will start on left side of barrel and will finish immediately the competitor places the last (6th) flag in the barrel and horse crosses the finish line.
4. (a) A competitor may use the full distance between lanes, but will be disqualified for crossing another competitor's row of flags.  
(b) Competitors who knock down another competitor's flags or barrel will be disqualified and must withdraw immediately.  
(c) If a competitor's flag or barrel is knocked down by another competitor, these must be immediately placed upright by the lane stewards. If the stewards have insufficient time to do so, and the competitor had a good chance of being placed first, the Judge shall decide whether to allow him another start in a heat or put him into the semi-final or final, as the case may be.  
(d) If there are less than four (4) starters in a heat, the vacant row of flags must be left in position, and the competitor in the adjoining row must not cross over these.  
(e) If a competitor is disqualified for breaking this rule, that competitor should retire from the course without causing further interference to the other competitors.
5. (a) If a competitor knocks over his or her own barrel, it must be placed upright by said competitor before any more flags are placed in it.

6. (a) If a competitor's flag stick breaks, one broken piece may be placed in the barrel and counted as a complete flag.  
(b) If the flag material comes apart from the stick, the broken stick rule will apply, and the flag material may be placed in the barrel and counted as a flag.
7. If a flag lands horizontally on top of the barrel, it shall be judged out of the barrel, and must be placed in same by the competitor, but if any portion of the flag stick, except the material, is inside the barrel, although it may be protruding at an acute angle, it shall be judged in and not need to be touched by the competitor. However, if that competitor tries to rectify the position and the flag falls out before the last competitor has completed the course or retired, that flag shall be judged out, and the course incomplete.
8. After a flag race is finished, the judge must inspect the barrels and make sure that all six (6) flags have been placed in each barrel. If any flags are found to be out, that competitor will be disqualified or given the chance to complete the course if the placings depend on that course being completed.

**SPECIAL PRIZES, \$350 (of which \$230 is presented by JAMES McEWAN & CO. PTY. LTD., BOURKE STREET, MELBOURNE).** — First, \$120; Second, \$85; Third, \$65; Fourth, \$40; Fifth, \$25; Sixth, \$15.

1. In this competition, each obstacle is allotted a number of points, from 10 to 120 according to its difficulty. A water jump may be included but no combinations are allowed.
2. Competitors are credited with the number of points allotted to each obstacle provided it is jumped clear. No point is awarded for an obstacle knocked down.
3. Each competitor is allowed a time allowed of from 60 seconds. During this time, he can jump all the obstacles he chooses in the order and the direction that he desires. The starting line is obligatory and can be taken in either direction.
4. A bell will indicate the end of the course. The competitor must then cross the finishing line, from whatever direction so that the Jury can register the time.
5. At the expiration of the time allowed for the course, the competitor will be credited with the number of points allotted at the last obstacle if it is jumped clear and if the forelegs of his horse have touched the ground on landing when the bell sounds.
6. An obstacle knocked down during the course will not be rebuilt and if it is re-jumped, no points will be credited to the competitor. The same applies when an inferior element sited in the same vertical plane is displaced.
7. Each obstacle can be jumped twice to count. Jumping, voluntarily or not, an obstacle for the third time or passing through the flags of an obstacle already knocked down, entails no elimination but scores no points.
8. The disobedience and falls are penalised by the time lost by the competitor but three disobediences stop

the competitor. In this case, he will be placed with his points after the competitors having obtained the same number of points together with his time.

9. The competitor having obtained the greatest number of points will be the winner. In case of equality of points, the fastest time between the starting and the finishing lines, will be decisive. In case of equality of points and time, there will be a jump-off according to the same formula with a time allowed of 40 seconds.
10. An obstacle may be included in the course, duly marked by flags and named "Joker". The Joker may be jumped twice. 200 points are awarded each time he is correctly jumped but, if he is knocked down, the 200 points are deducted from the score obtained.

**CONDITIONS**

This Competition takes place over medium sized obstacles and is a timed Competition for which the Order of Jumping must be drawn. Combination obstacles are not permitted.

Each Competitor will jump the course in the correct order for one minute and will gain three points for each obstacle jumped clear and one point for any obstacle knocked down. An obstacle is not considered to have been jumped until the horse's fore feet have touched the ground on landing.

First and second disobediences over the course or fall of Horse and/or Rider do not count as they will increase the time. At the third disobedience the Competitor will be eliminated. If an obstacle is displaced as the result of a disobedience, even if the displacement is of a lower element in the same vertical plane, it will count as a knockdown and the Competitor must proceed to the next obstacle.

The winner will be the one with the greatest number of points and, in the event of equality of points, time decides. When the time limit is reached, the bell will be sounded and the Competitor must go through the Finish from either direction. The Finish will be as near the centre of the Ring as possible.

If the time allowed expires during a disobedience, the Competitor must continue to attempt to jump the obstacle before proceeding to the finish.

If a Competitor takes the wrong course he will be eliminated.

**SPECIAL PRIZES, \$500 (presented by THE NATIONAL BANK OF AUSTRALASIA LTD., 271 COLLINS STREET, MELBOURNE).** — First, \$250; Second, \$150; Third, \$100.

This contest will be restricted to teams of four horses over 14.2 hands and riders from each State of the Commonwealth of Australia, the Dominion of New Zealand or any country within the British Commonwealth of Nations. Should a team be able to produce only three riders the team captain must enter only three horses and riders. Each State, Dominion or Country will be limited to a maximum of two teams each. In the event of teams from four or more States, Dominions or Countries being nominated, one team only from each State, Dominion or Country will be eligible to compete. Teams will be selected by their respective State Branches of the E.F.A. or their National Federation from horses already nominated and which have competed in jumping events in Group "A". One reserve horse and rider for each team may also be nominated. The reserve horse can only take part if one of the four horses is ill or the victim of an accident and this is confirmed by the official Veterinary Surgeon at least thirty minutes before the start of the competition. The reserve horse must be ridden by the rider of the horse which is ill or injured. Once a final selection of riders and horses has been submitted to the Director no substitution will be allowed even from reserve horses and riders except on production of an approved medical or veterinary certificate as the case may be.

Riders may ride in one team only and may ride only one horse in that team. In the case of a State, Dominion or Country nominating more than one team they are required to be nominated as the State, Dominion or Country's "A" and "B" team. No rider may be nominated for any State, Dominion or Country other than that in which he or she is resident and no horse may be nominated for any State, Dominion or Country except that in which its nominator is resident. The committee may in its absolute discretion accept the nomination of a composite team from States, Dominions or Countries provided that such team does not consist of more than 50% of horses and/or riders from any one State, Dominion or Country. Nominations must be submitted to the Director in writing not later than 6 p.m. on the day preceding the day on which the event is scheduled to be contested.

Each team is required to jump two distinct rounds over the same course at a rate of 400 metres per minute. To be tried over a course as stipulated by the Committee.

The classification of the teams is established by totalling the faults over the jumps and those for time incurred by the three best horses of each team in each round. If, for any reason, a competitor does not finish the course at any stage of the competition the team is not thereby eliminated, but can continue. But each horse eliminated or withdrawn during a round is penalised by 20 faults added to the faults incurred by the competitor belonging to any team who has the most faults over the same course during the same round. The actual faults made by the horse that was stopped do not count; they are replaced by those of the horse which had the worst round, unless he himself had the most faults, in spite of having been eliminated or withdrawn.

The prize money will be divided among the owners of the horses in the winning teams. Riders must be 15 years of age or over on the first day of the Show. Should a team win this contest after its third horse has completed its second round then the fourth horse may be withdrawn. The order in which the horses compete will be decided by lot. The captain of each team then decides the order in which he wants his riders to start. All those numbered one go first, then all those numbered two, and so on.

All the horses in the team may take part in the jump-off, if there is one. In case of equality for first place, the time of the three best horses of each team in this jump-off decides.

The Committee reserves the right to invite riders from overseas countries not specifically mentioned herein to take part in this contest either as a team or as a member/or members of a composite team.

Specified rate — 400 metres per minute.

# PICK UP A NIKON

## for around \$300

**The Nikon EM is totally new in concept, design and engineering.**

**The challenge to the Nikon craftsmen was an ultra compact, aperture priority, automatic 35mm SLR camera, at a price that would bring Nikon quality to everyone. What they did not do was to water down any existing or previous Nikon camera. The challenge of a totally new camera has been met: The Nikon EM.**

***This is what makes the EM a sensation:***

**Listen to your Nikon**  
Space-age electronic circuitry "beeps" if you're not in "best exposure" range. Shutter speed is

automatically chosen: simply move the aperture setting until the EM stops "beeping". All exposure information appears in the big brilliant viewfinder and there is manual override at 1/90th of a second.

**The Nikon features you expect**  
"Battery miser" control of electronic circuitry - power is switched on and off automatically; backlight button to control dramatic exposures; black body; battery check button; ultra fast film advance lever; self timer; rugged all metal vertical focal plan shutter; film memo holder and more — much more.

**New 'Series E' lenses**

For a new concept in camera, naturally a new concept in lenses.

The accent is on light weight and economy. Nikon has produced three: 35mm f2.5 wide angle, 50mm f1.8 standard and 100mm f2.8 telephoto. Of course the EM also accepts dozens of the matchless Ai-Nikkor lenses.

**Accessories you can add later**

A special flash unit - the SBE - automatically sets speed, and LED shows if the aperture is not correct. More: the Nikon MD-E motor drive is amazingly light, simple to attach and shoots at two frames per second.

***Nikon EM: you automatically join the Nikon system.***

# When the bands come marching in, it'll be with a little help from us.

Our founder, James Hardie, was a Scotsman; so it's perhaps not

surprising that our involvement in this year's Royal Show has a definite

Scottish flavour. It is with great pleasure that the James Hardie Group is

sponsoring the performances of 18 Highland Bands from all over Australia. They will be playing a wide range of music that includes traditional Scottish

airs and even some Jazz.

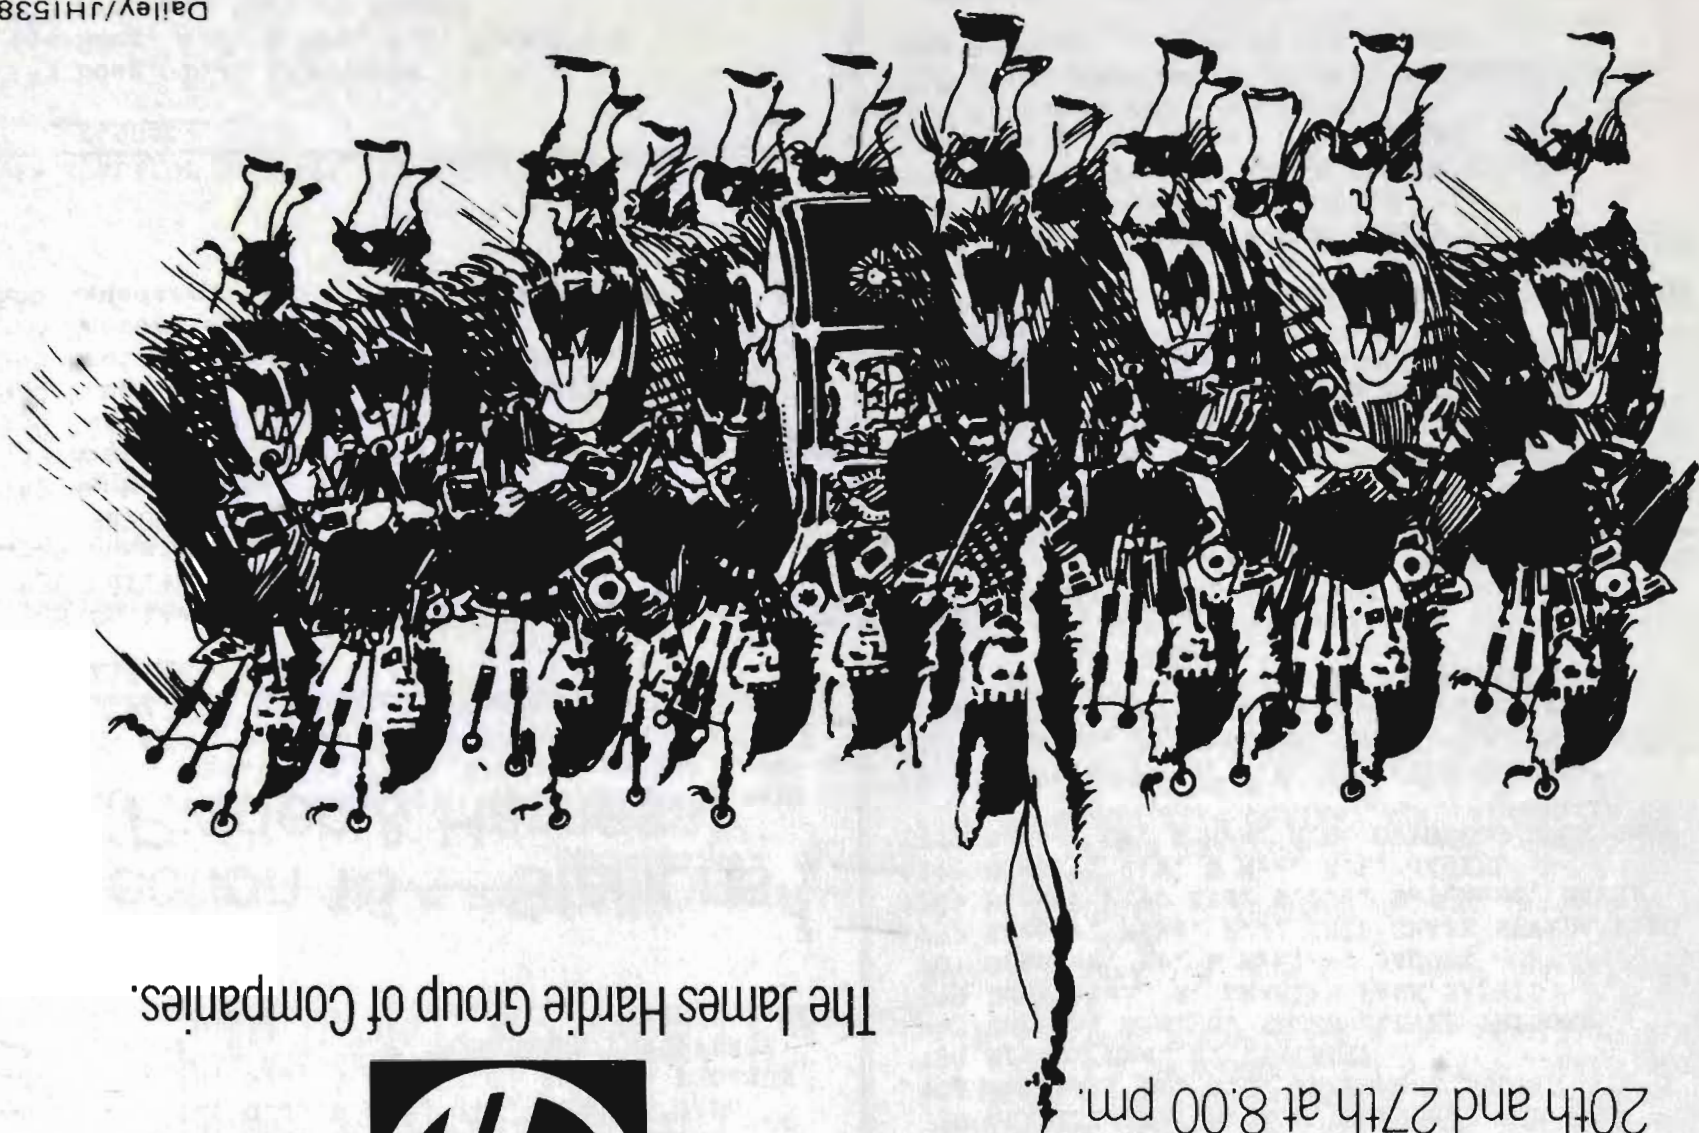

The James Hardie Group helps the

Highland Bands play the pipes for you on the

20th and 27th at 8.00 pm.

# TO IMPROVE NATURE YOU DON'T ALWAYS HAVE TO CHANGE IT.

While a lot of landscaping makes a garden more functional, it can destroy the natural look.

A problem you won't strike when you use Koppers Logs.

These round pine logs blend naturally with the landscape creating unobtrusive garden boxes, seats, retaining walls and terracing.

The logs are impregnated with 'Tanalith' so they are both rot and white

ant resistant, and will last a lifetime.

And better still, they are light and easy to handle, and priced very competitively.

Koppers Logs. Improving the landscape without detracting from the natural look.

# We help to build the Australian way of life.

Ideas shape the future. Ideas spark research leading to new products and better processes. To an improved standard of living and increased life expectancy.

Every day, without knowing it, you're enjoying the benefits of ICI Australia's ideas.

The food you eat is protected by ICI products that help keep crops and animals healthy.

The clothes you wear contain modern fibres produced by ICI technology.

ICI produces the raw materials for a host of everyday items:

- From brake fluids to non-stick frying pans.
- From plastic lunch-wraps to washing-up liquids.
- From antiseptics to life-preserving heart drugs.

The products of our petrochemical industry play a big part in the life of every Australian.

Every year, ICI Australia spends nearly \$20 million on research, development and technical services aimed at making a better future for all Australians. And the hundreds of millions we are spending on new plants will provide more jobs, and more products, for that future.

ICI is people, products and progress. And we're planning on making a big contribution to the Australian way of life for many, many years to come.

# **Bills don't stop coming in every month when you retire. Neither should your income.**

Once you're retired, you need something more than money in the bank.

You also need money in the hand.

A set income that turns up as regularly as bills.

This is exactly what the CBA offers with a Monthly Income Account, for people who rely on a regular income.

We appreciate you don't want to take chances with your nest egg.

But without risking your capital, a Monthly Income Account gives you a bank-solid 9%\* interest rate, fixed for twelve months.

You start with a minimum investment of \$3,000, and receive your first interest payment exactly one month later, then on the same day of each month thereafter.

Rather than every six or twelve months, like other banks usually do.

You can have the cheque sent to you directly, or paid into a cheque or savings account.

Either at the CBA, or any other bank.  
(You're not obliged to change established banking habits.)

If you'd like more information on a Monthly Income Account contact your local CBA Bank Manager at the address below.

\*Current per annum rate as at July 1980. Interest rate for the fixed twelve month term may vary according to the rate current at time of deposit.

# Olympic Steels made tough for Australia

After 30,000 kilometres, most tyres begin to show signs of wear. Even if they've been properly cared for.

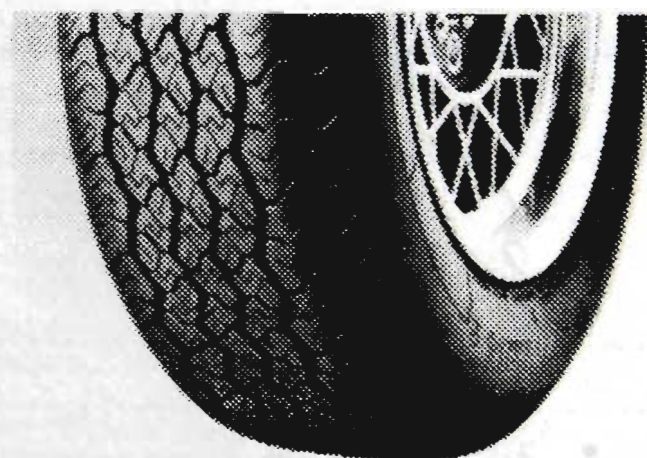

But Olympic Steels, after 30,000 kilometres will still be giving consistently high performance with safety. That's because Olympic Steels are precision built to give optimum performance over the life of the tyre.

We proved our tyres on Australian roads under all sorts of conditions.

We've proven them for stopping power, acceleration, cornering and tread wear to ensure long life.

The precision engineered steel belts make the difference. They reduce the rolling resistance of the tyre.

So you can get longer wear and more kilometres per tank of petrol.

## Best in the long run.

# PICK UP A NIKON

## for around \$300

**The Nikon EM is totally new in concept, design and engineering.**

The challenge to the Nikon craftsmen was an ultra compact, aperture priority, automatic 35mm SLR camera, at a price that would bring Nikon quality to everyone. What they did not do was to water down any existing or previous Nikon camera. The challenge of a totally new camera has been met: The Nikon EM.

***This is what makes the EM a sensation:***

**Listen to your Nikon**

Space-age electronic circuitry "beeps" if you're not in "best exposure" range. Shutter speed is

automatically chosen: simply move the aperture setting until the EM stops "beeping". All exposure information appears in the big brilliant viewfinder and there is manual override at 1/90th of a second.

**The Nikon features you expect** "Battery miser" control of electronic circuitry - power is switched on and off automatically; backlight button to control dramatic exposures; black body; battery check button; ultra fast film advance lever; self timer; rugged all metal vertical focal plan shutter; film memo holder and more — much more.

**New 'Series E' lenses**

For a new concept in camera, naturally a new concept in lenses.

The accent is on light weight and economy. Nikon has produced three: 35mm f2.5 wide angle, 50mm f1.8 standard and 100mm f2.8 telephoto. Of course the EM also accepts dozens of the matchless Ai-Nikkor lenses.

**Accessories you can add later**

A special flash unit - the SBE - automatically sets speed, and LED shows if the aperture is not correct. More: the Nikon MD-E motor drive is amazingly light, simple to attach and shoots at two frames per second.

***Nikon EM: you automatically join the Nikon system.***

# **Bills don't stop coming in every month when you retire. Neither should your income.**

Once you're retired, you need something more than money in the bank.

You also need money in the hand.

A set income that turns up as regularly as bills.

This is exactly what the CBA offers with a Monthly Income Account, for people who rely on a regular income.

We appreciate you don't want to take chances with your nest egg.

But without risking your capital, a Monthly Income Account gives you a bank-solid 9%\* interest rate, fixed for twelve months.

You start with a minimum investment of \$3,000, and receive your first interest payment exactly one month later, then on the same day of each month thereafter.

Rather than every six or twelve months, like other banks usually do.

You can have the cheque sent to you directly, or paid into a cheque or savings account.

Either at the CBA, or any other bank.  
(You're not obliged to change established banking habits.)

If you'd like more information on a Monthly Income Account contact your local CBA Bank Manager at the address below.

\*Current per annum rate as at July 1980. Interest rate for the fixed twelve month term may vary according to the rate current at time of deposit.

### R.A.S.V. BEEF CATTLE JUDGING CHAMPIONSHIP

A Beef Cattle Judging Demonstration and Competition will take place on the Triangular Lawn, on Sunday, 21st September, 1980, commencing at 10.30 a.m.

The Demonstration and Competition will be conducted on Poll and Beef Shorthorns this year. In future years different breeds will be used.

Competitors will be asked to place six bulls in the order they fancy.

The three prominent breed Judges appointed will agree on what might be termed the correct order of placing the cattle and will question the final six competitors over the P.A. system as to the reasons for their placements when determining the ultimate winner of the Competition.

Entrants should bear in mind that the Judges will award points to competitors for correctness of dress (within reason) and footwear; the manner in which Stewards (where present) are handled, and general decisiveness and ring craft.

A spokesman for the Judges' Panel will give explanations to competitors as to why the cattle were placed in the order decided upon by the Judges and at the same time will demonstrate the use of ring-craft as an aid to making correct decisions and as a methodical means of permitting spectators to understand the Judges' reasoning.

This will be a post entry competition and there is no entry fee.

## Dual Purpose Breeds

Judging of Dairy Shorthorns will commence at 8.30 a.m. and Red Polls at 8.45 a.m. On Thursday, 18th September.
