## BRIEF REPORT ON WINE

## JUDGING

by W.B. Chambers

Exhibits in all Australian wine shows are in the main judged on a comparative basis, i.e. all the entries in the class are judged at the same time. The other method used in the Varietal Classes in Adelaide and Perth, is the International system, where the wines are judged and pointed individually.

Exhibits are judged on a point score with a maximum of 20 points. On the judging sheets, this is divided into:

1. Three points for colour and condition (freedom from haze). In general wines with poor colour are rejected for defects on both the nose and the palate.
2. Seven points for nose. Different judges vary in their sensitivity and tolerance to SO<sup>2</sup>, Hydrogen Sulphide, volatility, diacetyl and wood flavours.
3. Ten points for palate. A wine with an excellent nose may pull down on the palate due to excessive acidity, tannin or lactic defects. Conversely, some wines with only a fair nose may have excellent balance on the palate.

Medals are awarded for the following points:

18.5—20 — Gold Medal

17.0—18.4 — Silver Medal

15.5—16.9 — Bronze Medal.

All exhibits are judged on the blind. Judges do not handle bottles.

In Melbourne, the judges are arranged into three groups, each of three judges with a Chairman of Judges who arranges the groups of judges, divides the classes to be judged between the three groups, gives guidance, and occasionally resolves disagreements.

Each class is set up and poured by associate judges, who also have a set of glasses and assess the classes with judges.

The judges assess the wines, then consult and discard those with obvious faults. The remainder are then pointed, the points of the three judges averaged, and medals awarded. If there is serious disagreement, the Chairman may be called in to adjudicate.

Judges are generally selected from those who work with or are connected with the wine industry. Potential judges are recommended to the Royal Agricultural Society, and are given experience as associate judges. New judges are selected from the best performers.

The following definitions of the various wine types may be some help to those unfamiliar with them. These are taken from the specifications in the Adelaide Show Schedule. I have altered them somewhat to fit in with the R.A.S. schedule.

**Dry White Hock:**

Should be in brilliant condition, pale to light straw in colour, preferably with a slight greenish tinge, light to medium bodied, medium to high acidity and

yet soft, with a fresh and flowery bouquet and a clean aftertaste free of bitterness or lingering sweetness. Alcoholic strength should be between 8% and 14% alcohol by volume.

**Dry White Chablis or White Burgundy:**

Should be in brilliant condition light to medium straw in colour. Medium to full bodied and yet delicate with medium to high acidity and fresh bouquet. The bouquet may show evidence of maturation in oak casks. Its aftertaste may be a little more pronounced than in Dry White Hock even with a very slight bitterness but no lingering sweetness, oak tannin from maturing wood should not predominate. Alcoholic strength should be between 8% and 14% alcohol by volume.

**Medium Dry White Moselle:**

Specification similar to Dry White Hock but with some sweetness not exceeding 1 degree baume.

**Sauternes:**

A white table wine of straw to light golden colour. It should be in brilliant condition, medium to full bodied with a bouquet which is dramatic or flowery and distinctly sweet in flavour. Alcoholic strength should not exceed 14% alcohol by volume, and should not show excessive SO<sup>2</sup>. Baume should exceed 1½ degrees.

**Rose:**

A still, light and tart table wine, with a slight tannin finish and a fresh fruity flavour but without muscat character. Colour pink but may have a trace of apricot or amber tint.

**Varietal Wines:**

Should comprise at least 80% of the specified variety.

**Dry Red Burgundy:**

Colour medium to deep red. According to age a blue or purple tint may be present in a young wine, or a light brown edge may be present in an aged wine. Aroma and bouquet — varietal aroma may occur in varying degrees. It should be fruity and in harmony with the body and flavour of the wine. The bouquet may show evidence of maturation in oak vessels and in older wines bottle age. Palate soft and round. Body may be medium or full and in balance with the acidity. Finish clean and soft with low to moderate astringency. The alcoholic strength should be between 9% and 14.5% by volume.

**Dry Red Claret:**

Colour medium to deep red. According to age a blue or purple tint may be present in a young wine or a light brown edge may be present in an aged wine. Aroma and bouquet — varietal aroma may occur in

varying degrees. It should be fruity and in harmony with the body and flavour of the wine. The bouquet may show evidence of maturation in oak vessels and in older wines bottle age. Body should be full with acidity in balance. Finish, clean with a firm astringent grape tannin, oak tannin from the maturing wood should not predominate. The alcoholic strength should be between 8% and 14.5% by volume.

#### **Sparkling White Wine, not bottle fermented:**

Colour should be pale to light straw. Should have good acidity and not be too light in body. Bouquet should be fresh and fruity. Pressure not exceeding 3 atmospheres at 10°C. Not bottle fermented.

#### **Sweet White Dessert:**

# VINEGAR FLY

## PESTIGAS for absolute fly control AUTOMATICALLY

Flies are a constant nuisance and health hazard. Now you can effectively control them, and other insect pests with an automatic **PESTIGAS** system.

**THE MOST EFFECTIVE INSECT REPELLANT AVAILABLE.** The active ingredient in **CIG PESTIGAS** is pyrethrin, one quarter of a microgram (that is 0.00000025 grams) per litre of air is sufficient to repel flies and mosquitoes. Natural pyrethrin is also the safest insecticide in use.

Automatic means:

- No labour costs,
- No disruption to work,
- No mixing or handling of chemicals,
- No fire hazard,
- No flies.

**You can control  
flies automatically.**

# Royal Pedigree

Pedigree in wine is important.

Our wines testify to the nobility of Cabernet Sauvignon, Pinot Noir, Chardonnay and Rhine Riesling — the 'classic' grapes. Our Colombard, Chenin Blanc, Sauvignon Blanc, Gewurztraminer, Semillon, Shiraz and Merlot are creating their own heritage — the heritage of excellence.

This Competition will commence with the Spring Shows immediately following the 1980 Royal Melbourne Show and culminate at the 1981 Royal Melbourne Show.

The Competition is for the purpose of designing a poster, the theme of which is to illustrate the student's own interpretation of any one of the following aspects of an Agricultural Show:—

Grand Parade, side-shows, displays, animals and birds, machinery, motor cars and cycles, crowds of people, fun rides, show-bags, farm produce, crafts, woodchop, buildings, own choice.

No restrictions, paint, pastel, crayon, pencil, ink, or any other variation or combination is acceptable although it must be stressed that two dimensional art work can only be submitted and excessively large entries may not be able to be displayed.

#### AGE OF PARTICIPANTS:

Participants are required to be students of Primary or Secondary schools, (full-time); and they must indicate their date of birth on the entry.

#### WORKING ARRANGEMENTS:

Each Agricultural Society participating will conduct an Art (Poster) Competition in conjunction with its annual Show, and in this regard the services of Regional Art Advisors of the Victorian Education Department will be available to assist with the competition and the judging. All entries will be exhibited at their respective local Shows, from which, at each Show, three exhibits will be selected to receive special prizes and ribbons. The three entries so chosen shall then compete in the State Final at the Royal Melbourne Show. Entries are also invited from Schools in the metropolitan area, for which the Arts Branch of the Education Department will select the best 60 entries to compete with those selected at the Country Shows.

#### PRIZES:

A condition is that all Country entries are exhibited at Shows of participating Country Agricultural Societies, and the three entries chosen at each Show will receive \$5 prizemoney and a special ribbon to denote that the entries concerned have been chosen to compete in the State Final. The sixty metropolitan entries chosen by the Art Branch will also each receive \$5 prizemoney and the Special ribbon for denoting a State Finalist. At the State Final there will be three awards, each of \$300 to the Schools providing the successful entries, the money to be used by the Schools concerned for the purchase of art materials, etc., for the purpose of promoting the Arts. In addition there will be special awards to the three children responsible for the successful entries.

The selection of the final entries will be undertaken by a panel of art teachers, selected from the inter-systematic school organisation, assisted by the President of the Royal Agricultural Society of Victoria or his nominee.

Each entry is required to have the name of the entrant, age, school and address and a teacher's signature certifying to the authenticity of the work submitted clearly recorded on the back of the art work.

Another condition of entry is that the logo (symbol) of ICI Australia Limited is to be incorporated somewhere within the design of the poster, however the logo concerned must not in any way be predominant.

# You'd be surprised at what we'd do for \$100.

At the CBA, we show a lot of interest in \$100.

In fact, right now, our interest rate for Savings Investment Accounts (30 days withdrawal notice) is a high 10.5% p.a. on a minimum investment of \$100, with interest calculated daily.

Many other banks demand that you start with \$200 or \$500 before you can earn that kind of interest in a 30 days' notice account.

So if you can't wait to earn 10.5% p.a., come and talk to the CBA about a Savings Investment Account.

Just call in or phone your local CBA branch
