# Man's best friend isn't a dog.

It'll run and fetch. It'll sit and stay.  
Treat it well and you'll have a devoted friend for life.

Punish it and all it'll do is beg for more. Loyal and obedient till the very end, its name isn't Rex, Rover, or Blue.

It's the Mitsubishi Triton 4x4.

And when it comes to 4WD, this creature has the ground covered.

There are four different 3 litre V6 models to choose from, Cab Chassis, Club Cab and Double Cab (available in luxury and standard versions).

These same models are available with a 2.6 litre petrol engine or you might choose the spirited 2.5 litre turbo diesel in Double Cab or Cab Chassis versions.

All Triton models have a five speed floor-shift manual transmission with gear ratios to suit the engine you choose.

Power steering is also standard, so whichever way you tug its leash, it'll go.

Trained to perform in all conditions, the Triton has manual free-wheeling hubs and a limited slip differential enabling you to maintain power even when one paw loses its footing.

And just because you're getting about on all fours, doesn't mean you have

to put up with being treated like a dog yourself.

Even the most basic models have a stereo sound system, tinted front windscreen, intermittent wipers and passenger grab handles.

If you want a little more comfort, our top of the range luxurious Triton Double Cab certainly offers an accommodating lap.

It features 15" alloy wheels, wide tyres, all round tinted glass, central locking and a fully trimmed interior complete with carpeting.

Being the loyal beast that the Mitsubishi Triton is, you can always depend on it to defend you in a scrap, too. Side door impact beams are standard on all models.

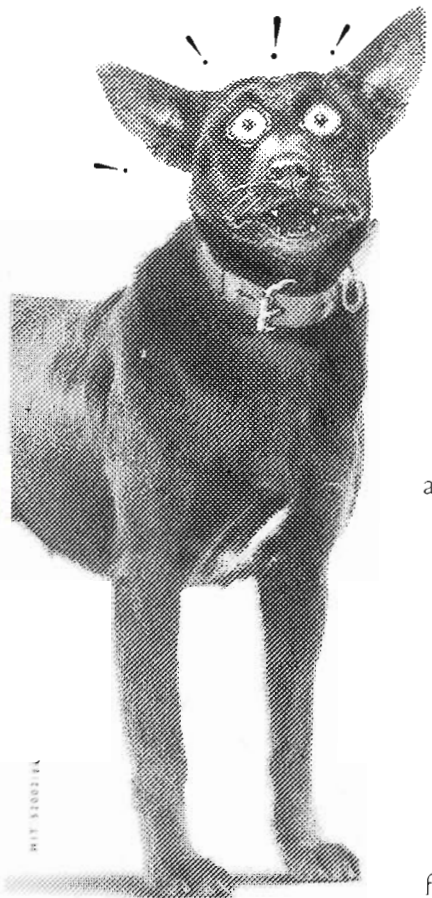

Would you expect any less of man's best friend?

Alright 'working' man's best friend?

Visit your local Mitsubishi dealer and (sorry Blue) start up a lasting relationship soon.

*Tray optional at extra cost*

# A BRIEF HISTORY OF LINCOLN SHEEP

The Lincoln sheep, which is a native of Lincolnshire County in the United Kingdom can be traced back to the year 800 AD. Their long lustrous wool was keenly sought after by the early wool traders operating out of Norfolk. It is said that the Lincoln Cathedral was built out of the proceeds from wool sales to the Roman Empire.

Lincoln sheep were first introduced into Australia in the mid 1800s. The first sale of Lincoln ewes took place at "Meerang" near Mortlake in Western Victoria in 1867 where Lincoln ewes were sold for 160 guineas and some rams made up to 250 guineas. All the major agricultural shows in Victoria and South Australia had classes for Lincoln sheep and these were well patronised by Breeders, with some classes having up to 15 entries. The Riverina area of N.S.W. used to purchase large numbers of Lincoln rams, through the late 1800s and early 1900s for crossing with the merino rams to produce a half-breed which could

be used either for a prime lamb mother or joined back to a merino to produce a quarter-bred, which in turn could be joined to a merino again and produce a fine comeback.

The comeback wool was keenly sought after by woollen mills throughout the World, especially for its long shafty and lustrous staple. After the First World War, many of the larger properties were subdivided and the Lincoln lost prominence.

The Corriedale and Polwarth sheep emerged from the crossing of the Lincoln and the Merino. A few stalwarts have kept the breed going, with numbers on the increase ever so slightly.

The long lustrous Lincoln wool is mainly used for roller lapping in the wool scouring trade. During 1945-46 the processing of Lincoln wool was discontinued in Australia, with the entire clip being sent to Bradford, England to be processed. Some of this wool was then imported back to Australia.

In 1990 a couple of enterprising Breeders imported the necessary plant and now Australia is processing its own wool.

The Lincoln sheep is the heaviest wool cutter of all the British Breed Longwools.

***It's Lincolns for length, strength and lustre.***

# THE ENGLISH LEICESTER

The English Leicester is one of Australia's most notable breeds of sheep. As the name suggests, the breed as we know it today, originated in England in 1755. It was developed by a master sheep-person named Bakewell, of Dishley, Leicestershire, who, over a period of several years using some revolutionary line breeding and selection, improved the formerly ungainly animal to a vastly improved and desirable carcass breed. The wool improvement came shortly afterwards when the wool spinning and apparel industry in England needed a superior dual purpose fibre.

When white settlement came to Australia, the need for meat for the growing Colony had to be met and the English Leicester was the ideal breed to meet that need. Reports recorded that they came to Australasia in the early 1800s.

The sheep had a great ability to build weight quickly and when joined with Southdowns a much desired lamb was the result. When joined to the Merino ewe, an excellent first cross mother for prime lambs is obtained – a good solid ewe with mothering and milking ability.

Its ability to mesh successfully with other breeds resulted in the development of new breeds which are popular at the present time, the extent of this influence would surprise many people.

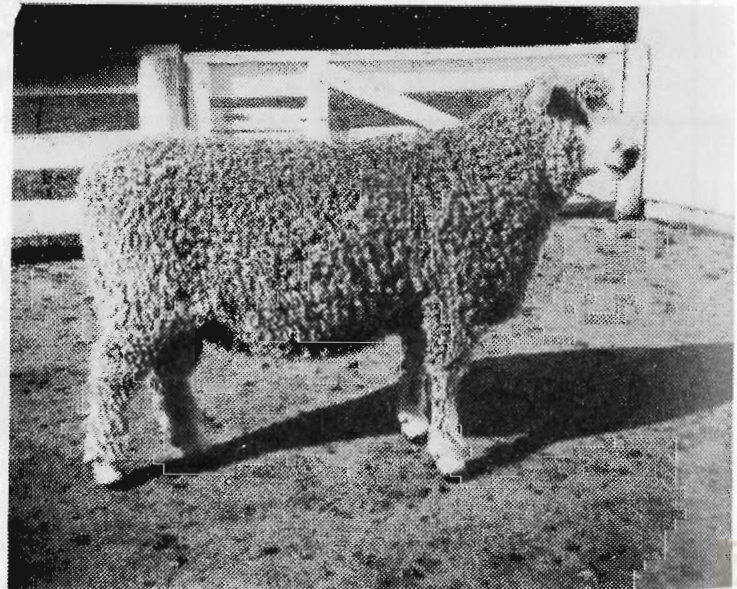

The English Leicester spread rapidly throughout southern Australia and Tasmania and proved itself in all districts including marginal country.

There are approximately 30 registered Studs in Australia/Tasmania, a stronghold in New Zealand, England has several good breeders, while Denmark, Canada and America have some numbers.

The strong feature of the English Leicester is the broad straight back and a well sprung ribs with a deep brisket giving plenty of heart room. The meat, both lamb and mutton, is fine grained and tasty with a minimum of fat.

Breeders consider the English Leicester as a true dual purpose sheep, as the wool factor is so important as well. A unique type of lustrous wool is grown to a length of 10 inches in twelve months. The wool has a beautiful showy crimp, with the locks  $\frac{1}{2}$  to 1 inch in width, and is much sought after by spinners and weavers as it is easily scoured, takes up dye readily and also retains some lustre after these processes.

Because of a neat tapered face, lambing problems are very minimal and percentages are up with the best and rams are especially recommended with maiden ewes.

# Spend less time accounting and more where it counts.

While we can't make the task of running your farm any easier, the National's Farm Management Account can simplify the task of running your finances.

You'll find this account is very straightforward, yet it offers a high degree of flexibility. It gives you access to an agreed overdraft, by either cheque or card, and a simple fee structure that is easy to keep track of.

It also offers a competitive interest rate when your seasonal income

cheques swing your account into a positive balance. By eliminating the need to move your money between accounts you minimise government taxes and bank charges.

# Has the cheese you're serving seen more of the world than you?

Far off places might sound exotic  
and their produce might seem a  
treat...but think about it.

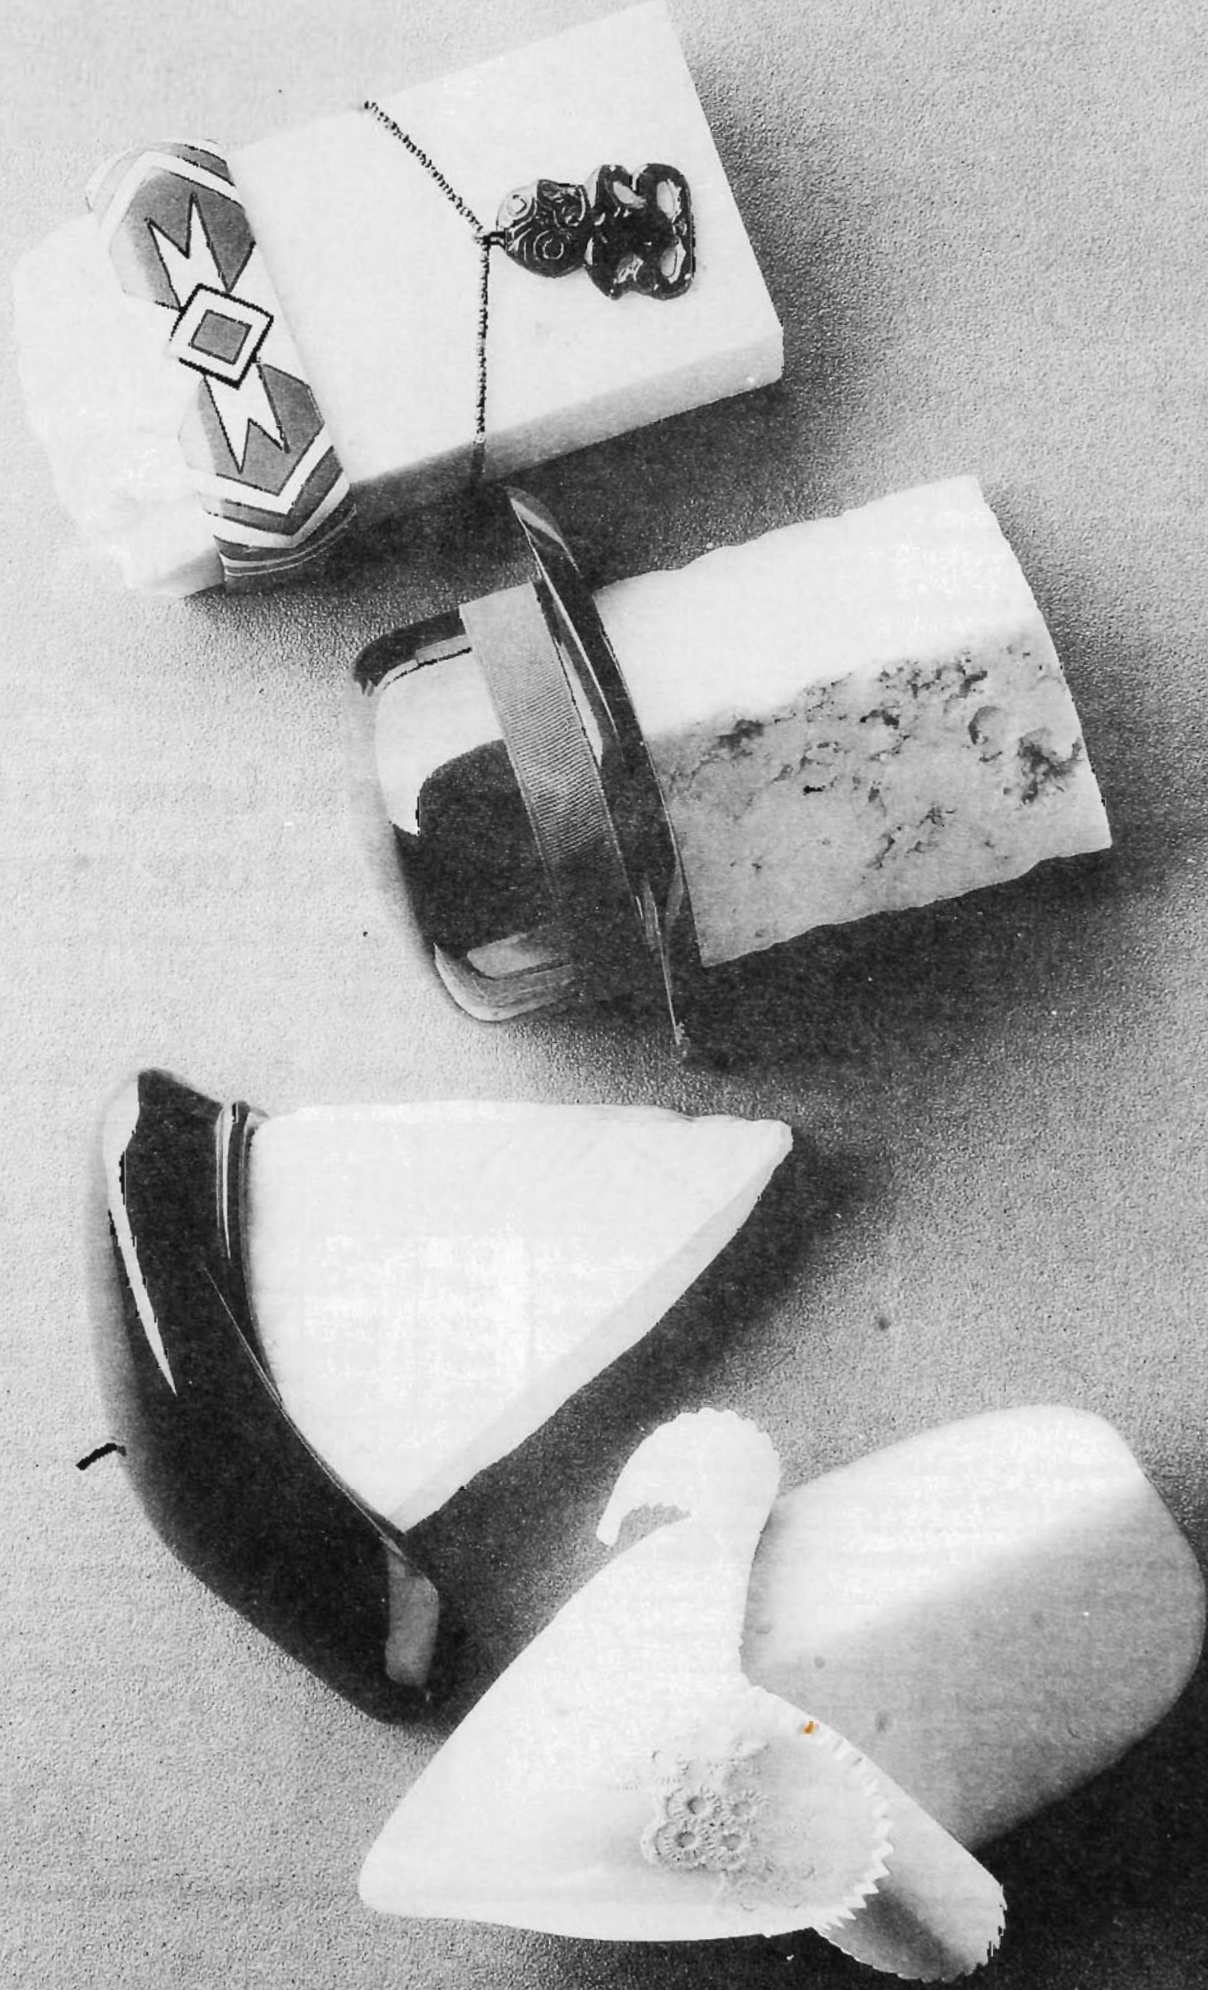

Take a glass of pure fresh milk  
drink it and you'll see.  
Fresh food is always better  
just try it, you'll agree.

We're fortunate in Australia,  
we have the world's very best,  
our Australian cheese is second  
to none, just put it to the test.

For variety, freshness and flavour  
there's none that taste as great.  
And you know, what's funny,  
when served overseas they say  
"Australian Cheesel... Yes Mate!"

Good food. Good taste.

# Spend less time accounting and more where it counts.

While we can't make the task of running your farm any easier, the National's Farm Management Account can simplify the task of running your finances.

You'll find this account is very straightforward, yet it offers a high degree of flexibility. It gives you access to an agreed overdraft, by either cheque or card, and a simple fee structure that is easy to keep track of.

It also offers a competitive interest rate when your seasonal income

cheques swing your account into a positive balance. By eliminating the need to move your money between accounts you minimise government taxes and bank charges.

If you would like more information, call your local manager of the National.

**Tailoring banking to your needs.**

## “WE DO.”

The PAL Breeder Advisers are a team of experienced professionals with a combined total of over 45 years of dog breeding, showing and judging. Their job is to help you be better at what you do and their services and advice are all yours absolutely free. The PAL Breeder Advisers can provide nutrition information, literature and answer specific problems as well as giving general advice. If it's about dogs and their health they have the experience to give you the answers and they are supported by all the veterinary research and resources of Uncle Ben's Worldwide Organisation (including the Waltham Centre for Pet Nutrition).

So whether it's general advice or serious problem solving, drop them a line or give them a call. You'll find that they care.

## BRIEF REPORT ON WINE JUDGING

by W.B. Chambers

Exhibits in all Australian Wine Shows are judged on a comparative basis, i.e. all the entries in the class are judged at the same time. The method used in Varietal classes in Adelaide is the International system where the wines are judged and pointed individually.

Exhibits are judged on a point score with a maximum of 20 points. On the judging sheets this is divided into:

3 points for colour and condition; usually wines with poor colour are rejected for defects on both nose and palate.

7 points for nose.

10 points for palate; a wine with an excellent nose may fall down on the palate due to excessive acidity or tannin defects. Conversely, some wines with only a fair nose may have excellent balance on the palate.

Medals are awarded for the following points:

8.5 - 20	- Gold Medal
7.0 - 18.4	- Silver Medal
5.5 - 16.9	- Bronze Medal

All exhibits are judged on the blind. Judges do not handle the bottles.

In Melbourne the judges are arranged into four groups, each of three judges with a Chairman of Judges who arranges the groups of judges, divides the classes to be judged between the four groups, give guidance and occasionally resolves disagreements.

Each class is set up and poured by associate judges, who also have a set of glasses and assess the classes with the judges.

The judges assess the wines, point them and then collaborate on the medals awarded.

Judges are generally selected from those who work in or are connected with the Wine Industry. Potential judges are recommended to the I.A.S.V. Limited and are given experience as associate judges. New judges are selected from the best performers.

The following definitions of the various wine types are for the guidance of Exhibitors.

Varietal wines should comprise at least 80% of the specified variety for 1993 and earlier vintages and 85% of the specified variety for 1994 vintage.

### DRY WHITE TABLE WINES

Should be in brilliant condition, pale to medium straw in colour, preferably with a slight green tinge. Light to full bodied, medium to high acidity with a fresh bouquet, clean after taste no lingering sweetness. In the wooded classes the oak should be in harmony with the variety of the wine. Alcoholic strength should be between 8% and 14% alcohol.

### MEDIUM DRY WHITE WINE

Specification similar to Dry White Table Wine but with some sweetness not exceeding 1 degree baume.

### SWEET WHITE TABLE WINE

Should be in brilliant condition, straw to light golden colour, medium to full bodied with a bouquet which is aromatic or complete and distinctly sweet in flavour. Its alcoholic strength should not exceed 14% by volume and it should not show excessive sulphur dioxide. Baume should exceed 1 degree.

### ROSE

A still, light and tart table wine with a slight tannin finish and a fresh fruity flavour but without muscat character. Colour pink, but many have a trace of apricot or amber tint. Alcoholic strength should be between 8% and 14% alcohol by volume.

### LIGHT BODIED DRY RED

Colour, light to medium red. A blue or purple tint may be present. Aroma and bouquet - varietal aroma may occur in varying degrees. It should be fresh and fruity and in harmony with the body and flavour of the wine. Palate - soft and light without being thin and rounded in the mid palate. Body should be in balance with the body of the wine. Finish clear and crisp with soft astringency. The alcoholic strength should be between 8% and 12% by volume.

### DRY RED

Colour medium to deep red. According to age a blue or purple tint may be present in a young wine or a light brown edge may be present in an aged wine. Aroma and bouquet - varietal aroma may occur in varying degrees. It should be fruity and in harmony with the body and flavour of the wine. The bouquet may show evidence of maturation in oak vessels and in older wines bottle age. Palate soft rounded and generous in the mid palate. Body medium is full in balance with the acidity. Finish clean with tannin preferably combined with the flavour of oak tannin from maturation in wood but this should not predominate. The alcoholic strength should be between 8% and 14.5% by volume.

### SWEET WHITE DESSERT

Golden to dark brown in colour depending on age. Must not show muscat character but have fruity and aromatic bouquet. It must be full bodied, soft and luscious. Strength not to exceed 20.5% alcohol by volume.

### MUSCAT

Colour golden to red. Distinct bouquet and palate. Full bodied and soft and luscious. Strength not to exceed 20.5% alcohol by volume.

### RUBY PORT

Colour medium to dark red. Bouquet and palate full and fruity. Excessive astringency is not acceptable. Strength not to exceed 20.5% alcohol by volume.

## WINE

### TAWNY PORT

Colour pale red with distinct amber tinge to deep amber with redish tinge. Bouquet fruity and aromatic, palate full and soft with distinct dryness on the finish. Some flavour of oak tannin from the maturing wood is desirable. A lingering sweetness on the after palate is undesirable. Strength not to exceed 20.5% alcohol by volume.

### VINTAGE PORT

Colour deep ruby to light ruby, possibly with slight amber tint, depending on age. Bouquet fruity and characteristic of bottled aged vintage port. Should not show wood character. Flavour full and soft with firm astringent finish and no lingering sweetness. Strength not to exceed 20.5% alcohol by volume.

### SHERRY, Pale, Dry, Fino

Colour straw to pale golden. Bouquet characteristic of flor sherry. Flavour light and dry without excessive acidity or astringency, but some oak character. Finish dry, aromatic with distinct 'nutty' after taste of flor sherry. Strength not to exceed 20.5% alcohol by volume.

### SHERRY, Amontillado

Colour golden to light amber. Bouquet showing more age than Fino sherry. Palate fuller and softer than Fino with some oak astringency showing through. Finish dry and aromatic with characteristic 'nutty' aftertaste of sherry. Strength not to exceed 20.5% alcohol by volume.

### SHERRY, Oloroso

Colour amber to brown. Bouquet fruity and aromatic and showing both oak and sherry character. Palate soft and round but with a dry finish. Strength not to exceed 20.5% alcohol by volume.

### SPARKLING WHITE WINE

Colour should be pale to light straw. Should have good acidity and not be too light in body. Bouquet should be fresh without particular varietal character and should indicate some years in the bottle. The wine should be fairly dry but show no astringent finish. Bubbles should be fine and persistent.

### SPARKLING RED WINE

Colour should be light to medium ruby. Older wines may show a trace of amber but not more than a trace. Bouquet fruity but should show bottle age. Fairly pronounced acidity. Full flavour and body, some sweetness but with dry finish. May show slight oak character. Bubbles should be fine and persistent.

### TWO YEAR OLD BRANDY

Entries in this class should be representative of popular commercial brandies, but should avoid fruitiness. The brandy should be well balanced distillate of wine made from neutral grape varieties. It should avoid excessive heads or tails and should not show varietal character (e.g. Muscat). It should be smooth but without evident sweetness. A clear balance bouquet is essential. Colour light amber.

### OLD BRANDY

Colour may be somewhat darker than in the young brandy class. Matured oak should be distinguishable on both bouquet and flavour. Bouquet should be clean and somewhat ethereal but well balanced showing no particular constituent to excess. Flavour should be smooth and aromatic. Finish aromatic without trace of fusel oil. Varietal character or fruitiness should be evident. Some sweetness is acceptable.
