EXTREME REFRESHMENT

If you want to talk with someone who really understands the business of rural finance, then you really should talk with Commonwealth Development Bank.

When you come to us for equipment finance or a term loan, we don't just focus on how much collateral you can offer.

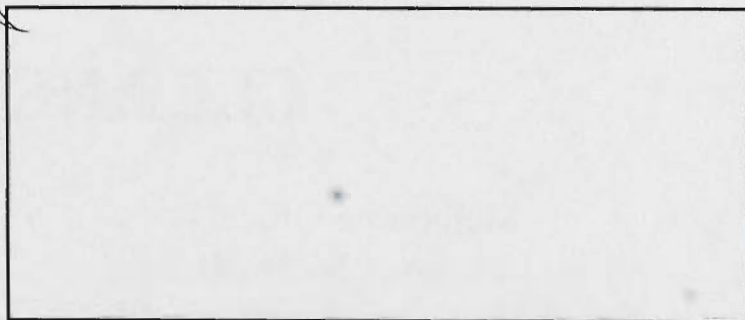

Over the years, we've learnt that it makes more sense to look at business potential and to make decisions based on skills, resources and prospects.

If you're in the business of growing, we're in the business of helping.

We've also learnt a lot about the ups and downs of Australian agriculture. Which is why we offer flexible repayment plans to suit your seasonal cash flow.

So, if you're in a position to grow, but you're not getting the long term financial support you need, perhaps we can help.

For more information, please call us.

Who could have imagined that he would be the first of over 200 million passengers?

Who could have imagined that an airline born in the outback 75 years ago, would one day link over 90 destinations around Australia and the world? Or that our first passenger, Mr Alexander Kennedy,

would be but one of over 200 million people to fly with us? Indeed, who could have imagined that this year, we would celebrate the 75th birthday of an airline founded on a dream, that became the pride of a nation?

Their job is to help you be better at what you do and their services and advice are all yours absolutely free. The PAL Breeder Advisers can provide nutrition information, literature and answer specific problems as well as giving general advice. If it's about dogs and their health they have the experience to give you the answers and they are supported by all the veterinary research and resources of Uncle Ben's Worldwide Organisation (including the Waltham Centre for Pet Nutrition).

So whether it's general advice or serious problem solving, drop them a line or give them a call. You'll find that they care.

Keep your money working as hard as you do.

If you're concerned about making every dollar count here are two answers that offer higher interest than a passbook or cheque account, have no bank fees and give you choices to suit your cash flow needs. Normal government taxes and charges apply.

A National Term Deposit allows you to invest \$1,000 or more at a fixed rate for as little as seven days or up to five years.

If you don't want to tie up your money, a variable rate National Cash Management Account is the answer on amounts of \$5,000 or more. Terms and conditions are available from your local branch of the National.

Tailoring banking to your needs.

WHITE SUFFOLKS

In 1977 a breeding program was established by Dr. Ewan Roberts of the University of N.S.W. at the Hay Field Station, to develop a terminal sire breed of sheep with the conformation, structure and growth rate of the Suffolk but with the white head and legs, hence the name WHITE SUFFOLK was then set.

With funding from the Australian Meat Research Committee and its successor the Australian Meat Research and Development Corporation, Dr. Roberts commenced breeding the Suffolk crossed with the Poll Dorset and separately, the Suffolk crossed with the Border Leicester and selecting successive progeny against black points and for higher growth rate without excessive fat.

By 1983 it had proven quite possible to breed a Suffolk type sheep that was white and the flock was placed in commercial breeder hands and registered as Prime

Lamb Genetics Ltd., and flock rams were trialled by commercial prime lamb producers, successfully at the same time quite a few individual breeders had been developing sheep along very similar lines to Dr. Roberts.

By 1986 there was wide spread interest in the new breed and those interested met and decided to form a committee and establish THE AUSTRALIAN WHITE SUFFOLK ASSOCIATION INC. The principal aim was to breed rams which produce unpigmented commercial lambs with carcass weights of 19 to 25 kgs plus with 3 to 5mm of fat, good conformation and exhibit RAPID GROWTH RATES.

Now in 1995 there are 234 registered pedigree flocks of White Suffolks Australia wide, lambing down 20,500 ewes.

The breed organisation and its breeder members are innovative – forward thinking

WHITE SUFFOLKS

and very positive about the breeds future role in the commercial production of fast growing well muscled fat score 3 lambs, suited to today's quality conscious, health conscious, consumer.

To achieve these aims breeders widely use lamb plan system and information to identify the most productive ewes in their flocks, as well as testing high performance young rams to prove their genetic ability to breed high performance progeny.

Additional to this within flock lambplan identification and testing, the breed organisation is putting in place a National progeny testing program to identify the superior rams in the breed and encourage their use widely within the breed, to breed the next generation of WHITE SUFFOLKS, with higher performance figures for growth rate and muscling than their parents.

The success of the breed to this point in time is well documented and proven by breeders entering rams in the central progeny testing program conducted by the Department of Ag. in 3 states where these rams have been mated to B1 x Merino and Merino ewes. The progeny are then grown out to dressed weights of 20-22kgs, weighed and scanned regularly and finally fully assessed on the hook, for dressed %, dressing weight, fat depth, eye muscle depth and conformation.

Over 3 years of testing, so far 291 sires of all breeds have been tested, 14 of them were White Suffolks and 7 of them ranked in the top 25 rams with the very top ram being a White Suffolk, Renrut 940/90.

White Suffolks are also pacesetters in the showring introducing objectivity to the assessment of sheep by a judge. At both Melbourne and Adelaide Royal Shows every sheep entered is weighed, scanned for fat depth and eye muscle depth. This information together with the date of birth is displayed on a card exhibited with the sheep, in its class, for our judges information to help them evaluate the sheep in its class.

Commercial lamb producers profits depend on a number of things that our sires can influence:

1. number of lambs sold per 100 ewes mated.
2. the average growth rate and average weight of these lambs.
3. the muscle score and conformation of those lambs.
4. the fat cover and minimal waste on these lambs.
5. a good type white pelt.

White Suffolk breeders are very conscious of these factors in breeding sires that are pacesetters in PERFORMANCE, PRODUCING PROFITS and satisfaction to our customers.
