**INGREDIENTS:**

250g each sultanas, seeded raisins, currants  
 125g mixed peel  
 60g blanched almonds, chopped  
 Finely grated rind of 1 lemon  
 125g Plain Flour

 4 eggs  
 250g butter, melted  
 1/2 cup milk  
 2 tablespoons brandy

**METHOD:**

Mix together the sultanas, chopped seeded raisin, currants, mixed peel, almonds and lemon rind. Sift together the flour, salt and spices. Combine the brown sugar and breadcrumbs with the fruit and flour mixtures. Lightly beat the eggs and combine with the slightly cooled melted butter, milk and brandy. Mix the dry ingredients with the moist ingredients. Place the mixture into a greased pudding basin, approximately two and half litres in capacity. Place one thickness of greaseproof paper over the basin followed by a thickness of foil. Tie securely with string. Place the basin on a trivet in a large boiler of boiling water, ensuring the water comes two thirds of the way up the side of the basin. Cover the boiler with a well fitting lid making sure the water is continually replenished and that it remains on the boil. Boil steadily for six hours, then allow to cool and refrigerate.

125g mixed peel, chopped  
90g red glace cherries, chopped  
90g blanched almonds, chopped  
1/3 cup sherry or brandy  
250g plain flour  
60g self raising flour  
1/4 teaspoon ground nutmeg  
1/2 teaspoon ground ginger and ground cloves  
250g butter

4 eggs

#### METHOD:

Mix together all fruits and nuts and sprinkle with sherry or brandy. Cover and leave for at least 1 hour, but preferable overnight. Sift together the flours and spices. **CLASS 520 - BOILED FRUIT OR CHRISTMAS CAKE.**

- 1 2917 Zoe Birch  
**INGREDIENTS:**  
 375g Sunbeam Mixed Fruit  
 3/4 cup brown sugar  
 1 teaspoon mixed spice  
 1/2 cup water  
 125g butter  
 1/2 teaspoon bicarbonate of soda  
 1/2 cup sherry  
 2 eggs, lightly beaten  
 2 tablespoons marmalade  
 1 cup Self raising flour and 1 cup Plain flour  
 1/4 teaspoon salt

**METHOD:**

Place mixed fruit, sugar, spice, water & butter in a large saucepan. Bring to the boil. Simmer gently for 3 minutes, remove. Allow to cool. Add sherry, eggs and marmalade, mixing well. Fold in sifted dry ingredients then place in a greased / lined 20 cm (8") round cake tin.

Bake in moderately slow oven for 2 1/4 hours, or until cooked when tested.

**CLASS 521 - FOUNDATION EGG SPONGE. Entrants must use the recipe provided.**

- 1 2918 Zoe Birch  
 2 2919 Karen Mc Gregor  
**INGREDIENTS:**  
 5 x 55gm eggs  
 3/4 cup castor sugar  
 1 cup Self Raising Flour, sifted 1 - 2 times  
 3 tablespoons water

**METHOD:**

Whisk egg whites until they are quite firm and will hold peaks when bowl is turned upside down. Add sugar, a little at a time, beating until dissolved. Lightly whisk egg yolks and stir in. Using the back of a large metal spoon, lightly fold in the flour until all flour is incorporated. Quickly fold in the hot water.

Pour mixture equally into 2 lightly greased and flour dusted 20cm x 5cm sponge pans. Bake in pre-heated moderate oven for 22 minutes or until sponge springs back when lightly touched with fingers or starts to shrink away from sides of the pan. Turn out onto a clean tea towel lightly sprinkle with castor sugar. (This prevents the cake cooler marks on sponge.) Immediately turn sponge half right way up to cool.

The Society may demand production of a Veterinary Surgeon's certification that a female has been pregnancy tested "in calf", failing which the Society has the right to arrange a veterinary inspection on the Show Grounds at the expense of the entrant.

An animal shall not be admitted to the Show Grounds unless it is entered for exhibition, with the exception that a calf of an exhibit in a beef, dual purpose breed or small breed class may be admitted if born on or after 1st January, 2002 and is being suckled by the exhibit. **Such a calf is to be the natural born progeny of the exhibit and be tattooed with its permanent ink impregnated tattoo if born prior to arrival at the Show Grounds.**

### BEEF CATTLE BREED GROUPS

Beef Cattle Breeds are placed into groups at the discretion of the Society based on the number of animals exhibited at the two previous Royal Melbourne Shows.

Other requirements of the Royal Melbourne Show may also be considered by the Society in making this decision.

All animals entered in the Beef Cattle Section must be registered in a recognised Herd Book of their breed and have a background of at least four recorded generations of their breed with the exception of **Braford** and **Brangus** which must be registered in a recognised Herd Book of their breed only.

The following regulations shall apply in the case of particular individual breeds.

In the case of **Beef Shorthorns** - no heifer born twin or triplet with a bull will be eligible for exhibition until such time as she produced a calf, and dehorned animals will be eligible for exhibition. In the case of **Hereford** and **Devon**, all females not of age for adult registration must be the progeny of registered sires and dams and duly recorded as progeny.

In the case of **Shorthorns** all cattle shown should be either naturally polled or dehorned at the time of entry.

In the case of **Poll Herefords** all entries will be subjected to a six generation check for genital abnormalities known to the Breed Society and animals which do not meet the standards necessary to obtain the Australian Poll Hereford Society's Seal of Approval will be ineligible for exhibition. Animals with scurs will be eligible to compete provided the scurs are loose at hairline and recorded with the Society.

In the case of **Murray Greys** only animals which comply with Rule 10 "Exhibition of Stock" in the Rules of the Murray Grey Beef Cattle Society Inc. shall be eligible to compete.

In the case of **Belted Galloways** only animals of at least 93.75% (15/16) breeding purity be accepted for exhibition.

In the case of **Santa Gertrudis** all females 22 months and over shall be certified in calf or have a calf at foot.

In the case of **Charolais**, only animals which comply with Regulation 13 "Show Conditions" in the Regulations of the Charolais Society of Australia Ltd shall be eligible to compete.

### BREEDPLAN

Breed Societies who have accepted for Breedplan data to be used are Angus, Hereford, Shorthorn and Simmental.

#### CODE OF PRACTICE FOR THE USE OF BREEDPLAN DATA IN BEEF CATTLE JUDGING AT THE 2002 ROYAL MELBOURNE SHOW.

Breedplan data is only available to be used in Beef Cattle Judging if:

1. The respective Breed Society agrees for Breedplan data to be utilised in the judging of their breed of Beef cattle.
2. The respective Breed Judge then if he/she so desires can utilise Breedplan data in the breed judging.
3. Breedplan data is only used if **both** the Breed Society and Breed Judge agree for Breedplan data to be used. Subject to this agreement, Breedplan data will also be available ringside for the general public.
4. Breedplan data will then be utilised in accordance with the following:
  - (i) The Judge is not to rely solely upon Breedplan data to arrive at judging decisions.
  - (ii) The Judge is to assess each class visually without reference to Breedplan data to the point of making his preliminary placings in the class.
  - (iii) The Judge may then, if he/she so desires, ask for Breedplan data appertaining to those animals which he/she has provisionally placed 1st to 4th in the class and subject to (iv) below, he/she may use the data to assist him/her in making his/her final placings among those four animals. The remainder of the class is to be placed by visual assessment only.
  - (iv) If any of the top four animals (as described in (iii)) does not have Breedplan data available to the judge at the time of judging, then the judge will complete his/her final placements without reference to Breedplan data for any animal in the class.

### PERFORMANCE CLASSES

**In order for a breed to have a Performance Class there must be a minimum of three animals entered.**

One Performance class each will be available in the Angus, Hereford, Poll Hereford, Simmental, Murray Grey, Limousin and Shorthorn Breeds, provided animals entered are registered with Group Breedplan and have been entered and exhibited in their respective age class.

Performance classes will be judged at the conclusion of the Supreme Exhibit Award in each individual breed **provided that three (3) animals or more are exhibited.**

Additional information distributed on Performance figures of exhibits during judging will be the responsibility of relevant Breed Society technical officers or suitably qualified breed representatives.

#### OBJECTIVES:

1. To make Show selection closer to practical cattle selection using objective measurement with Judges acting in the role of a buyer ranking a group of potential herd sires for use in a Commercial beef operation.
2. To promote improved genetic selection procedures for:-
  - (a) Cattle Breeders
  - (b) General Public

2 BEEF CATTLE

- 3. To allow breeders to compare their cattle with others.
- 4. To maintain the spectacle of the Show Ring and the interest of both cattle breeders and the general public.
- 5. To promote individual breeds and breeders, and to maintain incentive for breeders to show their cattle.

# Give your product a competitive advantage.

The Australian Grand Dairy Awards symbol is awarded for quality, excellence and innovation. It's a symbol that's awarded to a product only after a panel of technical experts and food professionals have judged it to be the best in its class.

It's a symbol that will give you marketing advantage by adding distinction and recognition to your product. It's a symbol you have to earn by being the best of the best.

Could your product be eligible? If your product has already won gold or silver at state competitions, such as the Royal Melbourne Dairy Produce Awards, it may be eligible for entry to the Australian Grand Dairy Awards.

For more information on product eligibility contact Sue Scott at the Australian Dairy Corporation on (03) 9694 3731 or refer to the ADC website at [www.dairycorp.com.au](http://www.dairycorp.com.au).

The Australian Grand Dairy Awards is a joint initiative of the Australian Dairy Corporation and the Dairy Industry Association of Australia.

**Mrs Agnes Ganami Kertes**

**Thursday, September 19, 2002**

**Miniature Pinscher**

The entry number was quite good. Average quality mediocre except 4 - 5 dogs of higher quality. In many dogs there was not enough substance, many had narrow muzzles and too large, round eyes. Those I put as class winners and challenge dogs were good sized, well-boned, square built dogs with long, relatively narrow heads, full muzzles and correctly set eyes, of good shape, colour and size. Their gait was breed typical.

**Japanese Chin**

I found the average quality disappointing. Many of the dogs had unsound gait, lack of substance. Some heads were too weak, mainly the chins (the underjaw) very weak. The only one I found was a good specimen was the BOB dog. This dog is breed typical in head, small but with enough bone strength his head and expression are correct and is quite sound in movement.

**Schnauzer**

I was pleased with the quality and quantity of the dogs. The dogs were within size limits, they were sturdy enough. In general the heads were correct (except a few with broader skull), no light eyes. There is one thing I would like to point out and warn the breeders before it is too late, to be aware of the ear set and carriage: some dogs had lower set ears carried closely to the cheeks, badly carried ears ruin the expression so typical of the Schnauzer. Regarding the coats, very few had soft coat or clipped too closely to the Show. The fluffy big hair is for me disturbing, but I could compromise with it so long as the coats on the body was harsh enough and had the right color. The dogs were compact, well angulated and had a good powerful movement.

### **Schnauzer (Giant)**

7 dogs only entered. The entered dogs were of good quality. The Challenge dog who was also the BOB is a powerful very correctly built dog with lush black coat and with a powerful movement. The Challenge Bitch a salt and pepper variety is also of the highest variety.

### **Schnauzer (Miniature)**

Excellent entry numbers. Excellent overall quality. I found them surprising good in their size, shoulder assembly, coats and head forms and length. Some of the dogs had soft coats or two shortly clipped before the Show. The dogs were compact, sturdy and the same time elegant.

## **Friday, September 20, 2002**

### **Dogue De Bordeaux**

I found some typical good quality dogs representing the breed. There were very good quality puppies presented. I found one dog too much "over type", nearly looked like a Bull Mastiff. The Challenge dog had an excellent head, good in proportion and expression, it was rather high on legs, sound and good mover. The BOB bitch was an excellently built bitch, powerful close to ground, the head had a little characteristic of overtyping, the muzzle I found rather short.

### **Tibetan Spaniel**

I found a good average quality. In each sex there were breed typical, elegant dogs. The head was excellent on most of the exhibits. A few dogs I found too low on legs. I was very pleased with the BOB dog I found like to be an excellent representative of the breed.

### **Bichon Frise**

This lovely breed was represented by a good number of exhibits of a very good average quality. The dogs were a good size except one very showy dog whom I found to be too big. There was a clear and good difference between bitches and males. Most of the dogs were correctly built with good impressive heads, I did not find any pigmentation problem. The texture of the coats was correct, some dogs were better built in the hindlegs, some less. In placing the dogs I emphasised the importance of the hind leg correctness so essential for the movement of the dogs. By selecting the winners I tried to express what I think that a good Bichon should look like.

### **Pekingese**

Very good average quality with some top quality dogs. The BOB dog and the Best Puppy who was also the "runner up" of the BOB were the best representatives of the breed. They could be described having an excellent head and a compact body with a very nice coat and correct rolling gait. There were also more memorable dogs. I cannot point out any fault repeating itself and which has to be corrected. The dogs were as sound as the breed allows. They had quite open nostrils and well set eyes, not too much crooked legs. All together I found that the breed is in good breeder's hand.

### **Pomeranian**

Quite a large entry represented the breed. I found a good average quality with some excellent dogs. The size of the dogs was in a range of good medium, no too tiny ones and no too big ones. Some were a little long in back. All had good heads, some ears set low and carried aside, those dogs were not highly placed. My opinion is that the ear set and carriage influences negatively the expression. The dogs were well groomed, with good quality coats. Some were not sound enough in movement, mainly in the front. The BOB dog is strong enough for a good size Pom, has an excellent head and sound movement. The Challenge bitch was awarded because her head and expression.

**Saturday, September 21, 2002**

**Kangal**

The only representative of the breed was a sound, well moving, breed typical intermediate class bitch.

**Neapolitan Mastiff**

The number of exhibits was rather small, but showed a good quality of dogs. Except two exhibits whom I found "over typish" the dogs and the bitches alike showed astonishing soundness. I would say that the BOB dog is a breeding goal, a powerful, medium sized, well boned, with enough substance to give the type of the breed and the same type as sound as a Neapolitan can be. The front legs of the dogs are straight enough and the feet rather closed. The dog moves with good elasticity and front coverage.

**Rottweiler**

I found a good entry of high quality dogs. Above all I would like to point out the good temperament of the exhibit, there was no growling, barking at all, I could check thoroughly all the dogs including teeth. What I am looking after in a Rottweiler is a good combination of power and distinction and I could find it in almost all the dogs. There was no one coarse dog or the contrary too substance less. Some could have better heads, mainly shorter and fuller muzzle and better ear carriage. The dogs were correct in body proportions, shoulder and hind leg angulation. The winner dogs I found to be the better movers. The Challenge dog and bitch, quite close in quality to each other had the better movement with a powerful thrust and good reach. I came to the conclusion how nice and lovely dogs Rottweilers can be.

**Affenpinscher**

The breeds needs to get improved. The only dog to which I could give the Challenge certificate was the open dog. The rest had no substance enough.

**Australian Silky Terrier**

I found an excellent average quality dogs and bitches alike. The dogs were showy, correct, good moving. The coats were well groomed, some in excellent pigmentation.

**English Toy Terrier (Black & Tan)**

From one puppy shown of the breed there cannot be an opinion about the breed. The puppy was promising and breed typical.

**Griffon Bruxellois**

Some excellent quality dogs were presented. The open class males were good representatives of the breed. The BOB dog a wire-haired variant and the runner up a smooth-hair one (Brabancon) showed highest quality. The dogs were of good size and substance.

**Havanese**

One good quality bitch represented the breed. It's a pity that just one exhibit was present of this lovely breed.

**Lowchen**

Good average quality characterised the breed. All the exhibits were in excellent coat condition, well groomed, well built, good moving well tempered dogs.

### **Maltese**

The BOB dog is an excellent Maltese, it has good substance, correct head, fully long good quality coat. Moves with proud head carriage and distinction. The open class and the intermediate class bitches looked nice thanks to their beautiful well groomed coat, but I found them too light boned and not enough substance. The puppies were promising.

## **Sunday, September 22, 2002**

### **Chinese Crested Dog**

The breed was represented by a good number of entries of good quality; some were high quality. In general the powder puff variety was less good than the hairless ones. The powder puffs I found were over long in body, had shorter neck and broader skulls, except the open class bitch which was powder puff but had all the good qualities of the Chinese Crested Dogs. The Challenge dog and the runner up and the Challenge bitch represented the type I consider to be a good Chinese Crested Dog. They had good substance not on the expense of elegance, they were showy elegant movers, were self assured and very attractive.

### **Chihuahua (Long)**

I could select out easily the types I like in the breed from 30 exhibits. The dogs were of good size, sound for the breed, they had correct heads with well set ears, no prominent eyes and good dentition. Most had good furnishings, a few could get higher placement if they had better coat conditions. The BOB dog represents what I find an elegant typical long hair Chihuahua.

### **Chihuahua (Smooth)**

The 30 dogs presented gave me the opportunity to express my taste and view of the breed. All over excellent dogs and bitches filled the ring. The dogs were of good size, well built and sound. Most had good bone structure. The heads were correct except one bitch had the eyes set semi-laterally. The challenge dog is a good S.H Chihuahua, very correct and honest dog. The BOB bitch is an outstanding beautiful bitch particolor in excellent size, well proportioned head and body. She is self assured and shows well in standing and movement. I found many good dogs in the junior and puppy class, which promises a good future for the breed.

### **Central Asian Shepherd Dog**

From just one dog represented there can not be an overview of the breed. The intermediate bitch was breed typical, sound and good mover.

### **German Pinscher**

All the 8 dogs present were of high quality. They were correct in size, had good substance and heads. They were square built, excellent movers and showed good character. I wish there would be more of them and the same quality could be seen in other parts of the world.

### **Leonberger**

The exhibited dogs showed soundness and quite good size, their heads and coat color were correct, but there was no outstanding dog, they were good average quality Leonbergers.

### **Portuguese Water Dog**

Average good quality characterised the ring. Except one dog the dogs were showy, elegant with good substance, correct heads. They had good quality coats, showed strength in movement. The BOB dog is exceptionally good representative of the breed showing power and distinction.

### **Samoyed**

Excellent number of entries and high quality would describe the same ring. There was good difference between dogs and bitches. They were all correct in size, all of them had good substance and had good coat. I put emphasis on the faces and expression. I found quite a big number of dogs with relatively big ears and pointed, some also low set. I would like to recommend the breeder to take care of the problem. Some had longer muzzles. I put also much attention on the hind legs. The winners of the various classes and the Challenge dog and bitch and puppies represent my preferences regarding the Samoyed breed. To summarise I was very pleased to judge the breed and to find such a quality.

### **St Bernard**

I enjoyed in the ring the quality and soundness of these impressive large dogs. I found beautiful powerful heads, some with shorter muzzle than correct. They had true St Bernard expression. The dogs were good in size, no exaggeration. I was looking for an average large body, some I found to be too light. The dogs had a good gait, sound and fluent. The coats were also of good quality as the smooth and the longhaired variety. Except 2 dogs, with much white on them, the colors of the dogs was according the standard.

### **Tibetan Mastiff**

Two dogs and two bitches were present. Except the Challenge dog the bitches and the second male were not sound enough and very much on the edge of type.

### **Yorkshire Terrier**

The two dogs presented did not show enough quality to merit the Challenge certificate. They were too light in boned, flat head and expression on the limit and thin coat. The intermediate bitch was still black on the back, not clean tan on the head and wooly coat. Altogether too small. The Challenge bitch was good enough to be awarded by the Challenge certificate. She also had better grooming.

## **Wednesday, September 25, 2002**

### **Dobermann**

I was impressed by the quality of the dogs in the ring. WITHOUT any exception the dogs were elegant with good substance, excellent type and balance. I found that some dogs and bitches had over-angulated hind legs, which gave overreach in movement. The heads were stretched but with good strength in the correct parallel lines: The BOB dog and the Challenge bitch showed exactly what I consider as a high quality Dobermann. Both were square built strong, straight very strong back and showy powerful movers.

### **Cavalier King Charles Spaniel**

The presented dogs showed an excellent depth of quality. I found very few rather big ones and fortunately no too small ones. They had all without exception good heads, some had a little low set ears or big eyes, one or two with stop too pronounced. The body length was good, some had rather flat croup and high tail set and carriage. So many beautiful cavaliers hopefully is a dream of every dog show judge. I was lucky to be one of them.

### **King Charles Spaniel**

The puppy dog who was the BOB dog represented the most what I appreciate in the breed. He has type and as stylish as a puppy can be. The other dogs presented had the type but lacked distinction important for a show dog.

## **Thursday, September 26, 2002**

### **Pug**

The Pug ring was very populated with excellent dogs. The average quality was very high. Without exception the dogs were correct in size, in conformation, in heads and presentation. The size of the dogs was a good average, no too big ones and no small ones. The difference were in their heads, ear carriage, some had too wide fronts and some had not enough hind angulation. It was the case where I would like to have 10 first places, many of the non placed dogs could be easy winners elsewhere. I would like to express my appreciation to the exhibitors for coming with so many excellent Pugs.

### **German Shepherd Dog**

The presented dogs were of good quality. They had the correct construction, the croups long and nicely inclined. Good shoulders. One or two of the dogs were over angulated in their hind legs. The challenge dog and the bitch showed excellent fluent powerful movement and they dominated the show ring. A few dogs had light eyes, which distracts the expression.

### **Shiba Inu**

The entry number was medium for a big show, but I was pleased by the quality of the dogs. Except 2 intermediate dogs which were too big the dogs were correct, typish, elegant. The head of the dog was excellent with well-shaped eyes and small ears, which gave the dogs good expression. They were correct in body proportions, had good tail carriage and good coat (all red dogs) except two whose coat was in shedding. They moved breed typically. It was a pleasure to judge these Shibas at the Melbourne Royal Dog Show.

## **Friday, September 27, 2002**

### **Italian Greyhound**

I would describe the quality as good average. I found the presented dogs sound, breed typical, well tempered and correct moves. Except a few, who were oversized the size of the dogs was good, they had correct topline, with nicely inclined croups. The winner dog is a showy good representative of the breed together with the Challenge bitch.

### **Papillon**

66 dogs entered is a very good entry anywhere in the world. The quality of the dogs was high. In each class there were dogs who were easy winners, they were correct in size, they had enough substance, they were compact, with wonderful heads. The heads nicely decorated with large well feathered ears. I found the dogs as sound movers. Some were out of coat so they stood behind the winner dogs though with full coat they would have chances to get higher placements. I was impressed by the class winner of open class bitches, but she refused to move.

### **Akita Inu**

Powerful stylish well groomed dogs were presented. The dogs had good heads with correct ear set and carriage, nicely arched necks, compact body, good tail carriage. Some were less angulated at the hind some were straight in shoulders, finally the best moving dog was selected to represent the breed at the finals.

### **Siberian Husky**

It was a great pleasure to judge the Siberian Huskies at the Melbourne Royal Show. The number of the entries and their quality gave the possibility to express my preference in this attractive breed. I was looking - and found - well sized well bred dogs with good body length, well set shoulder and good hindquarters. The heads and expression of the dog was excellent, the coats correct in quality and what finally counted on the decision of placements was their movement. The winning dog had a long stride with good reach and thrust, they had correct head and tail carriage and showed good endurance. The BOB dog and the Challenge bitch and all the class winners represent the type of Siberian Husky I consider good combination of show dog and ability to work.

### **Black Russian Terrier**

I found the type of the Puppy dog, the BOB and the Challenge bitch good. These dogs were well built and sized. They had good long heads, short backs, well let down hocks. The main and common fault of all of them was their relatively soft coat.

## **Mr Jon Cole**

### **Whippet**

A nice entry of Whippet was presented to me for judging. There was quality present in both Dogs and Bitches. I was pleased with most of my class winners and several could have been named Winners Dog and or Bitch. I was also pleased that most of the entry had good movement. This is not always the case everywhere. There is more consistency in size in Australia within the Dogs and Bitches. Australia faces some of the same issues as other parts of the world - lack of muzzle strength, some light eyes, the rise over the back not the loin, and too thick in body. The Breeders are putting out quality animals here.

### **Irish Setter**

I was very pleased with the overall quality of the Irish Setter entry. Between the two sexes, I would give the bitch classes more depth in quality than the males. I had choices for my winners with several animals very evenly matched. Good balance, bone and movement prevailed. There was no problem with strong jaws and bite. The Irish Setter breeders are doing a good job of producing competitive animals here in Australia.

**Friday, September 20, 2002**

### **Bull Terrier**

It was nice to see an entry of Bull Terriers at this Show. There was a wide range of type from Terriers to heavy Bull. The head pieces ranged from wonderful fill and down-face to great strength under the eyes. There were some very plain heads too. Top lines varied. The Breed winner had a wonderful head piece and great eye placement. Nice overall body.

### **Bull Terrier (Miniature)**

The Breed winner and runner up were good representatives of a mini B.T. Both had nice head pieces and body. The Breed winner had a wonderful head piece. Reserve Dog also had an excellent head piece. One problem is size. One entry was too tall and heavy by 3 inches for a mini B.T. The 14" size is critical for the mini B.T and anything beyond 15" is way too large for the Breed.

### **Labrador Retriever**

It was a pleasure to judge the Breed. This was wonderful depth in both Dogs and Bitches. That depth included the younger classes too. The Breed winner was a young Dog - but lovely. Good bone balance, lay back of shoulder and moved well. The runner up bitch was wonderful type with balance bone and good movement in profile. I thought the Breed winner was cleaner in front movement.

### **English Setter**

The Breed Dog represents the standard well. Nice bone, balance, headpiece and topline. Moved well - carrying level topline. Not as much depth in these classes.

### **English Springer Spaniel**

Modest size entry, but good depth. Both the Dog classes and Bitch classes were very competitive. The breed dog was outstanding - well balanced, carried the topline well, good reach and drive, correct head, nice bone and in good condition. Many number of exhibits could have been winners. Australia is doing a good job of breeding.

## **Saturday, September 21, 2002**

### **Basenji**

The Breed winner was a very nice Basenji type - proper size, carried her topline well, wonderful movement, balanced with a good headpiece. The runner up had many of the same characteristics, but was thicker headed. While many of the exhibits moved out well with some carrying a good topline others did not, it was observed that the length of the body was the reason. In other words the length from Point of Shoulder to end of butt was much greater than the height. Longer dogs generally moved out better. Less body length is need for correctness. Bone was another area lacking, and shoulder layback.

### **Basset Hound**

The animals entered represented a large variety of type. The Breed winner was quite lovely with a good topline which maintains itself in movement. She had a nice head with good forechest. Slightly long in body, but very nice otherwise. Areas of concern are - too large and bulky, improper toplines, lack of forechest, and tendency to knuckle over.

### **Rhodesian Ridgeback**

A large entry with a wide range of quality. Dogs and bitches are taller generally than presented in the USA. The winners represented on the whole - good marking animals with easy reach and drive. Each caused their topline well. Balance, good bone with a strong head is important. Some areas of concern - poor layback, weak fronts, short reach and drive, improper toplines and high tailsets.

### **Pointer**

Wonderful Pointers were presented and won several classes. These exhibits would be competitive anywhere. Balance, good toplines, lovely headpieces, short tails, strong bone and correct movement were present in the winners. This would appear to be a strong Breed in Australia. Keep up the good work.

### **Brittany**

This is an active athletic breed that appears square. It needs good reach and drive. Bone is moderate, with good feet. The winner did characterise these traits. Movement was not good in all animals. Some animals were too thick in body and head. Toplines were mixed.

### **Large Munsterlander**

The animals present represented two basic types. Strong heads, good bone, proper layback, good movement and balance represent the proper type. The Breed and runner up did exemplify these points. It would appear that there is a problem with overly long body length which is not characteristic.

## **Sunday, September 22, 2002**

### **Clumber Spaniel**

Small in number but the entry had quality. I was pleased with the Breed winner. She was typy with good clumber movement, carrying a firm topline. The runner up had a strong head but was not quite as tightly as the breed winner. Two areas of concern - (1) too long bodies, and (2) improper tails sets.

### **Golden Retriever**

Golden's represented the largest entry in the 2002 Show. Generally the dogs were well boned with good feet. Most animals moved well. Top lines varied. The breed winner was young but had a lovely outline in profile. He was well boned, had a good layback of shoulder, move with ease, covering the ground well, nice size, a good head with strength and a nice tail set. The runner up was typy as well. On the down side there were long bodies, lean heads and lack of good shoulder lay back.

## **Monday, September 23, 2002**

### **German Shorthaired Pointer**

The GSP's presented at the Show would be competitive anywhere. Bitches were stronger than males. but there were several very fine dogs entered. Overall there were good heads, balance, good bone, nice toplines and good movement. Feet were strong and compact. The Breed winner was lovely with all the characteristics of a very good GSP.

### **German Wirehaired Pointer**

Small entry. The Breed winner was the best overall with a good coat. Quality dropped off after that. Coats were generally good and most had good bone. Movement was varied.

### **Hungarian Vizsla**

This was a moderately large entry of about 40 animals. The dogs were very good in quality, but the bitches were even better. The Breeders in Australia have done a wonderful job of producing quality Vizla's. The Breed winner was outstanding. She was the proper size and balance. Her bone fit her nicely. She had good reach and drive which exhibited that light touch one wants in movement. The winner dog also represented the Breed standard well.

### **Borzoi**

Modest entry in numbers. Breed winner stood out over the rest of the entries. He had plenty of reach and drive and was well proportioned. Had a correct rise in topline and carried it well. Good bone, with plenty of teeth to fill the mouth. Some of the entries were quite short bodied with extensive rise over the loin.

### **Deerhound**

Small entry but very good quality. Winners ribbons could have gone several ways. Winner dog and Breed was young but a nice make and shape. Good layback and nice rise over loin. He was with good reach and drive. Coats on all the entries were good.

### **Bloodhound**

The young Breed winner was the best of a small entry. She had a lovely head piece and was a proper size. Bone was good and her body balanced. Runner up was a young dog who needed a good deal of maturity. Most of the entry was young.

## **Tuesday, September 24, 2002**

### **Beagle**

A nice entry of Beagles were presented. The quality ranged from very good to fair. The open dog class was very strong with any of the first five a winner on a different day. The bitch class were also very strong. The Breed and runner up was very typy animals. The Runner up pushed the Breed hard - but being young become to tire. This Breed is in good shape in Australia.

### **Foxhound**

The Breed dog was a fine example of a Foxhound. Well balanced, strong headed, good depth of body and strong bone. He moved well. The runner up was also good type but a little long in body. The bitch winner was a puppy - very promising and the best on the day in Bitches.

### **Hamiltonstovare**

An entry of one. However, this Breed winner was quite typy. Head to neck, body balance and tail set were all proper. She moved out well and caused a good top line. A good representative of this Breed.

### **Harrier**

I was pleased with the general quality of the Harriers. There were two types present. Both types represented the standard well. The Breed winner was a lovely bitch free flowing and nicely balanced. The runner up (the other type) likewise was very nice with good bone, nice balance and move well. Small entry, but a nice entry.

### **Weimaraner**

A nice entry of Weimaraners presented themselves today. The pleasure was reviewing the Challenge class in both Dogs and Bitches. I was pleased with the result in both cases. The Breed and runner up were wonderful examples of the Breed and turned out to be brother and sister. Both had good balance, forechest, head pieces, bone - moved well and had good topline. However, other exhibits certainly were very competitive. Good job Breeders.

### **Weimaraner (Long Hair)**

Interesting, Breed varying in structure. Wide range of head types from thick to pleasing. Lay backs varied. Breed captured the best and was balanced, nice headed, moved well with a nice topline. Overall numbers were small.

## **Thursday, September 26, 2002**

### **Finnish Spitz**

Small entry. Breed Dog was correctly proportioned. He had a nice head piece with nice ear set. Body was correct in length to height. Move out well.

### **Irish Wolfhound**

Very competitive Breed that could compete anywhere. Dogs were stronger than bitches. Breed Dog was very good, well balanced, move well, good coat and nice headed.

### **Norwegian Elkhound**

Very small entry. Both animals had quality for certificates. Breed was stronger in type and movement over the bitch. Both were correct in size. The Breed was not too tall as in many countries.

### **Petit Basset Griffon Vendeen**

Breed was a lovely type - well balanced, moved well and nice head piece. I would have liked a better longer coat length. This dog would be competitive anywhere.

### **Field Spaniel**

Small entry - but several quality dogs. Good bone and good top lines were present. Tail set on the winners were correct, while others had high tail sets. Both the Breed and Runner up were nice and typy.

### **Flat Coated Retriever**

Varying degree of quality in the Breed. Head pieces also varied. The Breed and runner up were quite good in balance, movement, coats laying correctly and head. Balance varied in some of the animals. Bitch classes were stronger than dog classes.

### **Irish Water Spaniel**

Wide variety in quality. Coats ranged from good to poor. Body styles were from quite small to large. The winner was a proper size with a good coat and move well. Had a strong head piece and muzzle. Would compete anywhere.

### **Nova Scotia Duck Tolling Retriever**

Very small entry. The Breed dog was typy - carried himself well - was a good size. He had a precise head piece and tail carriage.

### **Sussex Spaniel**

Limited entry but well represented in quality. Several animals exemplified good Sussex. The Breed Dog was strong bodied, good headed with good bone. He carried his top line well. He was lovely in color.

### **Welsh Springer Spaniel**

Cross section of quality. The Breed winner was a nice overall package who moved well. I would have liked a bit more head. The runner up, who was younger, had a lovely head and was also nice. He pushed the winner to the top spot. Several of the entries were unsettled in the ring.

### **Irish Red & White Setter**

Small entry. Breed winner was better bodied than the runner up. Although the neck line on the runner up was cleaner. Both moved well. The Breed Dog had good strength of head.

## **Friday, September 27, 2002**

### **Greyhound**

Very small entry. The Breed Dog was generally balanced and moved out well. I would have like to seen a little more rise over the loin. Runner up standing was quite type in body structure. The head piece was not quite in balance with the body and a little more reach and drive was needed.

### **Ibizan Hound**

Very small entry. The Breed winner was a puppy. She needed maturity, but had the basic characteristics needed for the Breed. Her movement was easy. Movement seemed to be lacking in the other animals entered.

### **Pharaoh Hound**

Small entry. The type carried widely from sizes well balanced to short on leg and longer in body. The Breed winner was clean, balanced with a nice head, but could have moved better. The runner up standing was a wonderful type, but had problems moving.

### **Saluki**

The entry of Salukis was not large but there were some very good animals present. There was a wide variety of sizes - but the Standard takes this in account. Head pieces look correct throughout. The Breed winner was a lovely type, well balanced, proper topline and moved well. The runner up was also typy, but did not catch my eye as the Breed winner did. Salukis appear to be in good shape in Australia.

### **Chesapeake Bay Retriever**

2 animals were entered. The Dog was quite young, had a reasonable head, but needs maturity and a better coat. The bitch was good coated, but was too short on leg and needed more strength in muzzle.

### **Curly Coated Retriever**

Overall a strong entry in Curly's. Good bone, substantial bodies with correct heads. All coats were correct with no patches. Movement varied with some needing more reach and drive. Open Dog class was strong. The winner here was also the certificate winner and Breed winner. Second in that was also quite nice. There was several nice quality bitches. This breed is in good shape in Australia.

### **Gordon Setter**

There were some very good Gordon's entered. Dogs were a little stronger than the bitches. Winner Dog and Breed was a strong male, with good balance, proper head, nice top line and moved well. Runner up was also typy. The two open bitches, winner and runner up, both were very typy too. All of these animals would do well in the United States.

### **Italian Spinone**

This Breed had several very good animals entered. The entry was not large, but winner and reserve Male were both good examples of a Spinone. The winner bitch was also very good. Another promising entry was the puppy bitch with a little maturity and settling, she will do well.

## **Mr James Reynolds**

**Thursday, September 19, 2002**

### **Cairn Terrier**

This is a breed with which I have been long associated and I was most impressed with the quality of the exhibits. Beautiful type and presentation coupled with great soundness abounded in this entry. My breed winner scored on head type, overall balance and condition, but was pressed hard by the Reserve Challenge dog and the Challenge Bitch. This breed is fortunate to have representatives of this quality.

### **Australian Shepherd**

I was very impressed by this breed. The entry was small but of excellent type, quality and soundness. I found the bitches to be particularly strong. My BOB bitch was the epitome of the type and moved freely, coming and going and from the side. My runner up was the bitch Reserve who was of a different but perfectly acceptable type. Moving a little slower would be of advantage.

### **Shetland Sheepdog**

A large representative entry of a variety of types. Entries were well presented, temperaments good and exhibitors clearly enjoyed their breed. Soundness was a major issue throughout the classes and many lovely specimens paid the penalty. Bites need some attention. My BOB was the bitch challenge winner who scored in overall balance and side gait. She had a lovely texture of coat and made the picture. Runner up was the dog challenge winner who was good coming and going and of proper balance.

## **Friday, September 20, 2002**

### **Cocker Spaniel**

A quality entry which was dominated by sound dogs with good fronts and lay back. Pleasing heads and expressions abounded as did good temperaments. Good topline on the move were common. Rear angulation was usually good although hocks were frequently not properly set. I had expected strong quality. Mouths were good. A very pleasant assignment.

### **Cocker Spaniel (American)**

A rather small entry and consequently hard to assess the overall state of the breed. I was most impressed by my overall winners who had lovely heads, eyes, shoulders and top lines. A few peg tails marred reasonable exhibits and a few bites while acceptable were verging on the questionable. Presentation was very good on the whole.

### **Alaskan Malamute**

An excellent entry with great depth of quality both in type and soundness. Heads were strong with only a few ears set too high. Fronts were good although some shoulders were a little upright. Good top lines and drive giving a really pulling side gait. Movement down and back varied. My major concern were a number of soft and open coats. This would be fatal in the breed's working environment must be guarded against.

## **Saturday, September 21, 2002**

### **Border Collie**

A very large entry of quality animals made for an exceptional day. I found the dogs to be of lovely type with good size, gait, good coats and condition, lovely heads and expression. A number of exhibits lacked forechest and were slightly upright in shoulder. Rears were in good shape with proper drive and balance. My winners were a little larger than I prefer but were exceptionally well balanced and efficient movers.

### **Bernese Mountain Dog**

A rather disparate entry with some excellent specimens and some who are clearly well beloved pets. My winners were consistent to type and soundness with lovely heads, coats and expression. Good movement was present although some of my second places excelled in movement but were of a slightly different type. My BOB and runner-up reflected two different types - each with outstanding virtues. My bitch challenge fit nicely with my BOB. My best puppy and Res CC. is an interesting meld and I hope has a great career.

**Sunday, September 22, 2002**

**Boxer**

The Boxer entry was large and very interesting. The classes when stacked made lovely pictures of Boxers with good head planes, lovely ears, good necks, short backs, good tail sets and made the "square". Fronts were straighter than rears many of which were over-angulated and this caused difficulties on the move. An examination of heads showed good balance, lovely bites and good padding. Eyes were frequently too light, showed prominent red haws and drooping lids thus detracting from expression. On the move many handlers decided to use speed to address some of the issues but frequently this exacerbated the problem. Because of straighter fronts and over-angulated rears there was a great deal of open hocks, side winding and faulty topline in evidence. In the end I awarded BOB to a dog who although a little tall and restricted for my taste, was clean, coming and going, had a firm topline and lovely head, eye and expression.

**Monday, September 23, 2002**

**Boston Terrier**

An excellent entry with in-depth quality. Dogs were sound with scope. Lovely eyes and head proportions abounded although some exhibits needed more padding. Showmanship was good as was condition. I thought my BOB from the puppy class was superb and he was hard pushed by his mother for BOB. As this was the first breed I exhibited as a child it was a pleasure to see their quality.

**Anatolian Shepherd Dog**

A dog of proper outline and type. Impossible to properly assess until his amateur handler becomes more familiar with the process.

**Bullmastiff**

A wide variety of types, heads, soundness and size. My BOB dog scored on his structure and soundness. He has a pleasing head and topline. My bitch CC won her place on her head and relative freedom of movement. Several dogs were out of condition and were rather plain in head.

**Pyrenean Mountain Dog**

This entry was disparate with variations in type and quality. Movement needs to be improved. I liked the heads on my BOB and Bitch C.C but several class dogs had poor bites and couldn't properly close their mouths. Coats were of proper texture but in various states of condition. Bone was sufficient but fronts and in particular rears need attention.

**Belgian Shepherd Dog (Groenendael)**

A good quality entry with good type, pleasing heads and movement. The BOB dog is an upstanding dog who moves well from the side, coming and going. The bitches were typy and moved well. All were in good coat and condition. Bites were good.

**Belgian Shepherd Dog (Laekenois)**

Typical dogs in good condition and moving relatively well. The dog scored on coat, condition and movement. He has not yet reached the gangly stage which held the bitch back.

**Belgian Shepherd Dog (Malinois)**

A very typical bitch who moved well and showed well for her young handler. Sound and moving well from the side, good condition.

### **Belgian Shepherd Dog (Tervueren)**

Typy dogs but not the overall presence and soundness I usually expect from Tervs. I was pleased with my winners who had good condition and were moving relatively well but I really liked my puppy bitch. She kept playing up her handler but had all the essentials for a good future.

### **Finnish Lapphund**

A representative entry of good type and condition. Temperaments were good and dogs were happy workers. My Bitch C.C and BOB winner were of excellent quality. The reserve C.C bitch needs maturity but is a good mover. My dog C.C winner won on his agility over the R. C.C dog who's type was better.

### **Maremma Sheepdog**

A very difficult entry to assess as most of the exhibits were not happy with the indoor ring. A most promising dog went lame, another was frankly petrified. The remaining exhibits were characteristic of the breed but not making the most of themselves. My BOB was in good condition, stood well over the ground and was reasonably sound.

### **Puli**

An excellent entry of lovely dogs. My BOB and runner up are outstanding in condition type and movement. The bitch C.C from intermediate is lovely and only needs time. She was hard pushed by the Open class winner.

## **Tuesday, September 24, 2002**

### **Australian Cattle Dog**

A very good entry of pleasing dogs. Heads and expressions were good as was condition and temperament. A great number of dogs moved well with the agility demanded of the breed. Some fronts could use improvement. My BOB was a grand dog and I felt that the bitch who was his daughter complimented him nicely.

### **Australian Kelpie**

This was a large entry of very different dogs. Many were unsure of the ring and this made it difficult to assess. My BOB dog was very attractive, well trained and moved efficiently. My bitch was outstanding type and moved not only efficiently but with the necessary agility characteristic of the breed.

### **Australian Stumpy Tail Cattle Dog**

A rather difficult entry to find proper proportion and heads coupled with good movement. My breed dog looked the part and moved effectively and won his place on the stand. The bitch moved a little more efficiently but didn't like the ring on the day.

### **Bearded Collie**

A very interesting entry. Dogs were particularly different. Each dog has major virtues and major problems. The bitches on the other hand were lovely. My breed bitch scored on side movement, head and lay back. The runner up from the same kennel was of different type but again looked good from the side.

## **Wednesday, September 25, 2002**

### **Mastiff**

A very difficult and challenging breed. I am accustomed to Mastiffs who are much sounder and can be stacked to make the picture with some discrepancy in head types. I do not expect generic movement but it should be as in the standard. My BOB bitch came closest to the overall picture although I preferred the head type of my runner up dog C.C winner.

### **West Highland White Terrier**

What a pleasant surprise this entry was. Although numerically small there were some lovely dogs. My BOB bitch is lovely - up on leg, short back, well presented coat, proper head and very sound. My runner-up dog was of similar type and merits although not nearly as happy on the move.

### **Bouvier Des Flandres**

A breed which based on this entry needs a bit of a steadying hand. Entries were typical but need attention paid to soundness, coat texture and overall type. My BOB contained the fundamentals of these attributes.

### **Briard**

Typical specimens although handlers seemed to think that faster was better. My BOB bitch had proper overall make, shape and balance.

### **Swedish Vallhund**

A rather good entry clearly well supported by one exhibitor. My choices for the C.C's were based on the concept of breed purpose and so type was sacrificed to some degree.

### **Welsh Corgi (Cardigan)**

A small but quality entry of Cardigans offering the same challenges as in North America. My Dog C.C and BOB has an absolutely gorgeous head, eyes, ears and expression with a lovely neck and top line when stacked. My C.C and runner up was not as strong in head but had a lovely front, top line and rear. She moved with ease.

### **Welsh Corgi (Pembroke)**

I have grown so accustomed to lovely Pembroke entries in Australia that I must admit that some elements of this entry took me aback. The lovely ears, eyes, heads and expression were still there but shoulder placement, top lines and movement seemed to have been sacrificed. I found the dogs particularly difficult. My dog challenge is not as masculine as I would like but managed to give me head, top line and soundness. I thought my bitch C.C and BOB was lovely - to be super critical I would prefer a little more extension - but there is always something. I thought my R.C.C bitch would be runner up but her handler who had been very busy throughout the entry chose to let her stand in a very relaxed non-showing fashion and so she was pipped by the dog.

### **Collie (Rough)**

A very good entry, containing many dogs of good type and reasonable soundness. Back skulls were wider than I prefer and many ears were slightly heavy. I liked the overall balance and showmanship of my BOB dog. My runner up was also a blue merle who scored on coat and soundness but was not as good in head, ear and shoulder.

### **Collie (Smooth)**

A much smaller number than Roughs but proportionately had better heads, eyes and ears. They were also a very sound lot. My BOB bitch scored on her overall make and shape as well as coming and going, but was pushed by the runner up dog who keeps a very good topline on the move.

### **Old English Sheepdog**

A very high quality entry characterised by overall soundness, coats and presentation. My BOB dog was outstanding and scored in most departments. Static he is outstanding and on the move is very credible. The bitch pushed hard but lacks a little in neck and shoulder.

### **Newfoundland**

A significant entry with some interesting decisions to be made. My BOB dog has lovely type and substance. This won over the Reserve dog who was slightly better on the move. Bitches were most interesting and I did something I rarely do and made my minor puppy C.C. The only thing she doesn't have is maturity and I hope she keeps her quality as that comes.
