Give your product a competitive advantage.

The Australian Grand Dairy Awards symbol is awarded for quality, excellence and innovation. It's a symbol that's awarded to a product only after a panel of technical experts and food professionals have judged it to be the best in its class.

It's a symbol that will give you marketing advantage by adding distinction and recognition to your product. It's a symbol you have to earn by being the best of the best.

Could your product be eligible? If your product has already won gold at state competitions, such as the Royal Melbourne Fine Food Awards, it may be eligible for entry to the Australian Grand Dairy Awards.

For more information on product eligibility contact Gilda Guerra at Dairy Australia on (03) 9694 3704 or refer to the Dairy Australia website at www.dairy.com.au

SHOW HUNTERS

Show Hunters are ineligible to compete in Novice and Open Saddle Hack/Galloway/Pony classes including Lady's and Gentleman's Mounts in the Saddle Section.

Show Hunters are eligible to compete in Mounted Turnout and Child's Mount classes in the Saddle Section.

Show Hunters have more substance than the modern fine Hack / Pony but still maintain quality. They are expected to move freely at all paces. They may at any time be expected to gallop for the judge. They are not expected to jump.

The turnout for Show Hunters is more subdued than that of usual saddle classes. There should be no coloured brow bands on Show Hunters, or multi-coloured hair ribbons and flowers on child riders. Junior riders should not wear top boots.

Novice Classes: For Exhibits which have not won a first prize competing singly at any Australian capital city Royal Show at time of judging.

An Exhibit cannot be entered in a special class unless it has been entered in an ordinary class in the same section.

(Note: the use of Spurs in Classes 211 - 215 inclusive is optional.)
The MRS NORMA FEAR MEMORIAL TROPHIES, will be awarded to the winners of Classes 211 - 215 inclusive. Supported by MR STAN FEAR.

Mrs. Norma Fear encouraged her daughters to compete regularly in the miniature turnout. She also judged at Royal Melbourne Show and together with her husband greatly assisted the Olympic Equestrians.

TURNOUT Classes will be judged by points on the following scale:

| | |
|----------------------------|-----|
| MOUNT | |
| Conformation and soundness | 50 |
| Manners and paces | 40 |
| EQUIPMENT | |
| Saddlery | 20 |
| Costume | 20 |
| RIDING ABILITY | 50 |
| GENERAL APPEARANCE | 20 |
| GRAND TOTAL | 200 |

Saddlery will be judged on quality, condition and suitability.

Horses presented for judging with excessive use of make up may, at discretion of the Judge be penalised.

Judges in these classes must not allot fractions of points. In the event of equality of placings, the classification shall be decided by adding together the points awarded for manners and paces and riding ability.

If there is still equality, points for conformation of horse shall decide the classification.

If a clear winner remains undetermined after the foregoing, the general appearance points will be considered and after that, saddlery points, then costume points.

PRIME LAMB **CARCASE AWARDS**

2008 Catalogue of Results

Message from the CEO

The Royal Agricultural Society of Victoria (RASV) is pleased to present the results of the 2008 RASV Prime Lamb Carcase Awards.

The RASV Prime Lamb Carcase Awards provide prime lamb producers across south-eastern Australia with a fantastic benchmarking opportunity which is made possible by the longstanding partnership between the RASV and Castricum Brothers of Dandenong. Since its inception in 2002 entrants have consigned almost 90,000 lambs to Castricum Brothers for evaluation and inclusion in the awards program and the RASV acknowledges Castricum Brothers for their continued commitment.

The RASV acknowledges and thanks The Weekly Times for their ongoing support in delivering the awards program. The RASV would also like to extend gratitude to the Sheep Cooperative Research Centre and the Department of Primary Industries for providing us with the opportunity to announce the awards at their Information Nucleus Open Day.

The vision of the RASV is to promote Victorian agribusiness through a number of awards programs and events including the Prime Lamb Carcase Awards. RASV programs and events such as The Weekly Times Farm Business Awards, Genetics Australia Share Dairy Farmer Awards and the Royal Melbourne Show continue the commitment of the RASV to facilitate industry relevant programs.

The RASV appreciates the support of its sponsors, congratulates the winners and placegetters on their outstanding achievements and wishes all participants continued success.

COMPETITION OVERVIEW

The Prime Lamb Carcase Awards were introduced by The Royal Agricultural Society of Victoria in 2002 to recognise excellence in prime lamb production within the commercial sector. The objectives of the program are as follows:

- To identify and reward commercial prime lamb producers who demonstrate excellence within the sheep meat industry and meet export market specifications.
- To stimulate interest and encourage production systems which improve prime lamb production.
- To utilise technology that provides informative feedback to producers on prime lamb carcase quality and yield.
- To provide prime lamb producers with the opportunity to benchmark their flock within the industry.

ENTRY REQUIREMENTS

Entry to the competition requires consignments to be at least 200 lambs and within the 20-30kg carcase weight range. These consignments are processed at Castricum Brothers abattoir in Dandenong and assessed using the Australian-developed electronic carcase evaluation system, VIAscan.

JUDGING PROCESS

The VIAscan evaluation system is utilised in objective prime lamb carcase assessment and feedback systems and enables the distinction between lambs with comparatively more meat than lambs of the same weight that are fatter and lower yielding. Measurements are achieved through assessing the lean meat yield based on carcase weight, loin content, estimated fat depth and distribution through video image analysis. Outstanding carcasses will achieve both high carcase weight and lean meat yield and are rewarded due to the high processing efficiency they present.

Using a grid system which incorporates Carcase Weight, Lean Meat Yield (%) and adjustments for above average Meat Yield scores, carcasses are either determined to be discount, at par value or premium. Discounts and premiums are kept constant and issued at plus or minus \$0.20/kg based on par value. Par value is not a fixed price and can vary depending on the time of year or season.

After all carcasses in a consignment have been categorised as discount, par value or premium the average price per carcase is determined. This average price per carcase is then compared with the standard 'Over the Hooks' payment and is referred to as the 'Over the Hooks Comparison'. The difference between these two values is the total premium return per carcase.

The consignment achieving the highest total premium return per carcase will be determined the winner of the RASV Prime Lamb Carcase Awards.

RESULTS

CARCASE WEIGHT AND LEAN MEAT YIELD

The correlation between Carcase Weight (kg) and Lean Meat Yield (%) is evident. As Carcase Weight increases the percentage of Lean Meat Yield tends to decrease, due to carcasses generally becoming fatter with increased weight.

The winning consignment attained the highest Lean Meat Yield percentage relative to its Carcase Weight and was therefore rewarded by the grid system which awards premiums over par value based on heavier Carcase Weights and higher Lean Meat Yield (%).

Figure 1. Carcase Weight (kg) vs. Lean Meat Yield (%)

CARCASE WEIGHT AND PREMIUM

Figure 2. Carcase Weight (kg) vs. Premium (c/kg)

The figures demonstrate that there is little to no correlation directly between Carcase Weight (kg) and the Premium (c/kg) assigned to the consignments. It is a misconception that heavier carcasses will always attract a higher c/kg premium and the wide data spread supports this. As carcasses get heavier they may also be fatter which reduces their value on a c/kg basis, as fat has to be trimmed resulting in discounts from par value. The winning consignment exhibits a premium much greater than others within the same weight range, indicating that although it is heavier it is comprised of a greater percentage of lean meat.

CARCASE LEAN MEAT YIELD (%) AND PREMIUM (C/KG)

Figure 3. Lean Meat Yield (%) vs. Premium (c/kg)

A strong correlation is apparent between Lean Meat Yield (%) and the Premium (c/kg) obtained. Consequently high-yielding carcasses are financially awarded per unit of carcase weight.

The winning consignment consisted of lambs with a high Lean Meat Yield (%) and Carcase Weight resulting in the consignment achieving the highest average premium per carcase (\$4.43).

CARCASE LEAN MEAT YIELD (KG) AND PREMIUM (C/KG)

Figure 4. Lean Meat Yield (kg) vs. Premium (c/kg)

The winning consignment received a premium of 18 c/kg and a Lean Meat Yield of 14.4 kg. It bettered the premiums received by other consignments because it was comparatively higher yielding. The consignments below the trend line attained a lower premium as the percentage of Lean Meat Yield per kilogram of Carcase Weight was relatively low.

The above table shows the averages and winning results for the past four years of the Prime Lamb Carcase Awards. The 2008 average carcase weight has slightly decreased from 2007, however the average lean meat yield percentage has increased. The combination of the carcase weight and the lean meat yield percentage for 2008 has seen the premium paid per kilo increase in comparison to previous years, consequently rewarding producers with higher premiums per carcase.
