

Genetics Australia Share Dairy Farmer of the Year Award 2006

Conducted by
The Royal Agricultural Society of Victoria and
The Victorian Agricultural Societies Association

In conjunction with
The United Dairy Farmers of Victoria

Proudly sponsored by
Genetics Australia Co-operative Limited

GENETICS AUSTRALIA SHARE DAIRY FARMER OF THE YEAR 2006

The Share Dairy Farmer of the Year Award was initiated by the Royal Agricultural Society of Victoria in 1979.

Aims

The aims of the competition are to:

- reward top sharefarmers for their contribution to productivity.

- encourage young farmers to the dairy industry.
- extend the performances of the top sharefarmers to others by way of a field day.
- lift the image of the sharefarming profession.
- encourage the formation of a good relationship between the share-farmer and the owner.

JUDGES' COMMENTS

Judging the Genetics Australia Share Dairy Farmer of the Year Award is a rewarding experience. At each farm we received a warm welcome and entrants were willing to answer questions and openly discuss their enterprise.

A common theme in all entries was that they recognised the value of seeking information relevant to their farming needs. They all had the ability to sift through the huge amount of available data, analyse it and then implement strategies.

The seven entrants judged in the finals came from varying backgrounds. The farms all were at different stages of development, which was interesting in itself and presented a huge challenge for us as judges.

No entrant was penalised for anything that was out of their control.

The seven finalists were judged against each other as the best share dairyfarmers in the state in this year

Herd types varied from registered herds to mixed herds, typical of sharefarmers establishing a herd. There were also differences in the breed composition. Herd management was controlled by all entrants and was examined critically.

Our summary of the herds in order of our visit:

Wayne & Leah Brunt had what can best be described as a "cow change". Originally from a forestry background, they had enthusiasm, passion, pride and energy, which they directed towards improving their dairy farming skills. Their knowledge of the herd was excellent. They had a fantastic attitude to learning the business of dairy farming and applying themselves to a major career change. They proved themselves to be very adaptable. Their young stock also scored highly in the judge's opinion.

Brett Nutting & Jodi Probert impressed us with their well-rounded skill level — including the way they approached the share farming vacancy by interviewing the owner to determine if the role would fulfil their requirements. Knowledge seeking and then sharing it with others was a key to their success. Quiet achievers, doing a fantastic job without too much fanfare.

Aaron Bidmade & Sarah Beard are an enthusiastic, energetic and vibrant young couple. They had a "marginal" conversion property, which was still under development. They are an inspiration to other young people

entering the industry. They have shown what can be achieved with a healthy attitude and good work ethic.

New paddock and lane layouts enable better pasture management. If there was a prize for a "wow farm", this was it.

There is nothing short of sensational in the way **Bruce & Kylie Hill** had gone about maximising their opportunity. The farm had been severely run down, so a mountain of work had been done in a very short time — pasture renovation, shed and vat updates, laneways and fencing along with continual upgrades to the herd and use of an auto calf feeder. It all says "watch this space" as the benefits start to flow. They had a huge amount of energy and enthusiasm. Full marks for taking on a task that many would not engage in.

Dehne Vinnicombe & Sarah Fairbrother showed cows that were well fed and in the best condition of any we saw. This was a unique entry, which centred on Dehne's interest in breeding to add income and interest to dairyfarming.

They capably demonstrated the benefits that can be achieved through a defined and strategic focus on the elements of a carefully thought out breeding plan.

Matthew & Kaye Baxter demonstrated the synergies you can get from a well run family farm operation with great communication and shared goals. Three generations were involved with both sharefarmer's parents having an influence.

Extra income was generated through rearing dairy beef cross calves. First calvers entered the herd in an optimal size and condition.

Ian & Alice Holloway's farm at Gundowring North was a sensational entry. They met all the competition criteria competently and completely. Herd condition was great, pasture management was well implemented and there was a good balance of family and community involvement. They also recognised the benefits of seeking extra information and peer support. Experience gained from careers outside the dairy industry had a strong influence on their decision-making ability.

Confidence in the dairy industry was demonstrated in that all entrants had improved their asset base by investing in their dairy farm operation through herd ownership, land purchase, or leasing land.

The State Judging Panel was Jamie Snell (past winner), John Versteden (UDV and past winner) and Tim van der Poel (Genetics Australia).

AWARDS

First prize

The title of Genetics Australia Share Dairy Farmer of the Year, semen to the value of \$3300, 12 month membership of the Royal Agricultural Society of Victoria and a trophy.

Second prize

Semen to the value of \$2000 and a trophy.

Third prize

Semen to the value of \$1100 and a trophy.

Zone winners

Semen to the value of \$700 each.

Zone runners up

Trophies

2006 WINNERS

State Prize Winners for 2006

Ian & Alice Holloway, Gundowring North	First Prize
Wayne & Leah Brunt, Newry	Second Prize
Brett Nutting & Jodi Probert, Glen Alvie	Third Prize
Aaron Bidmade & Sarah Beard, Koroit	Outstanding achievement
Dehne Vinnicombe & Sarah Fairbrother, Mitiamo	Genetic improvement award
Matthew & Kaye Baxter, Cobram	Excellence in farm management
Bruce & Kylie Hill, Carpenteit	Farm Improvement award

Group Runners-up for 2006

Mark & Kim Bayne, Beeac	Second Place, South West Victoria
Region Judges, Anthony Shelly, Vicki Wickham, Wayne Crole	
Paul & Annette Morrissey, Cobrico	Second Place Far West Victoria
Region Judges, Anthony Shelly, Vicki Wickham, Wayne Crole	
Peter & Rachel Romans, Kergunyah	Second Place North East Victoria
Region Judges, Arthur Dingle and Trevor Ennals	
Mark & Lisa Wilms, Trafalgar	Second Place Gippsland
Region Judges, Bill Lack, Nicole Broadbent and Max Warren	
Sharon & Gary Hunt, Welshpool	Second Place South Gippsland
Region Judges, Alan Blum and Stewart Tweddle	

For more information on the Genetics Australia Share Dairy Farmer of the Year Award visit the Genetics Australia website at www.genaust.com.au or contact the Royal Agricultural Society on 03 9281 7444.

Farm Owner: Arthur & Geraldine Dingle

Effective hectares of home farm	175ha	Feed bought in	Grain @ 1.4 tonne per cow
Effective hectares of run-off block	204ha	Irrigation water used	Home block 1430ML
Fodder conserved from home farm	500 rolls silage, 100 rolls hay	Average annual rainfall	425mm
Fodder conserved from run-off block	1500 rolls hay	Mating start dates	Spring: 25 th Oct, Autumn: 1 st June
Feed bought in	Grain	Share agreement	33 1/3%

Feeding

Eight kg of grain is fed in the dairy. Additional silage and hay is fed to to fill feed gaps.

Matt is in charge of pasture management, pasture rotations and fertilizer applications. We try to over sow 1/3 of permanent pasture every year. We try to have a balance of permanent pasture and annuals so we have a balance for spring and autumn calving. We also work together with our nutritionist to get the most out of the cows.

Calf rearing

The calves are bottle fed two Litres of colostrum while they are on the calving pad. Calves are housed in open sheds on straw bedding. The calf sheds are located at Arthur's old dairy. They're fed twice a day on calfeteria teats in the shed with a total of six Litres, for the first two weeks. Then once a day with four Litres using a suckle bar of 30 teats. The calves also receive two kg of grain 70% wheat and 30% canola. They are weaned at 12 weeks of age.

Breeding program

We use the best bulls available from Genetics Australia as well as random progeny test semen. Genescreen is also used effectively to help with mating decisions.

In the spring we join using heat mount detectors for six weeks and then mop up with Angus and Friesian Bulls.. For the autumn joining we use the detectors for 21 Days only and use the same mop up strategy.

Herd health

We use Ivomec Plus injection for the treatment of liver fluke and the whole herd is treated with Enduro Dry Cow, 7 in 1 and vitamin B 12.

Best Fed Base minerals plus pellets and grain are fed in dairy.

Cows are monitored closely for sickness, lameness and other ailments. Veterinary treatments are given if required.

Replacements

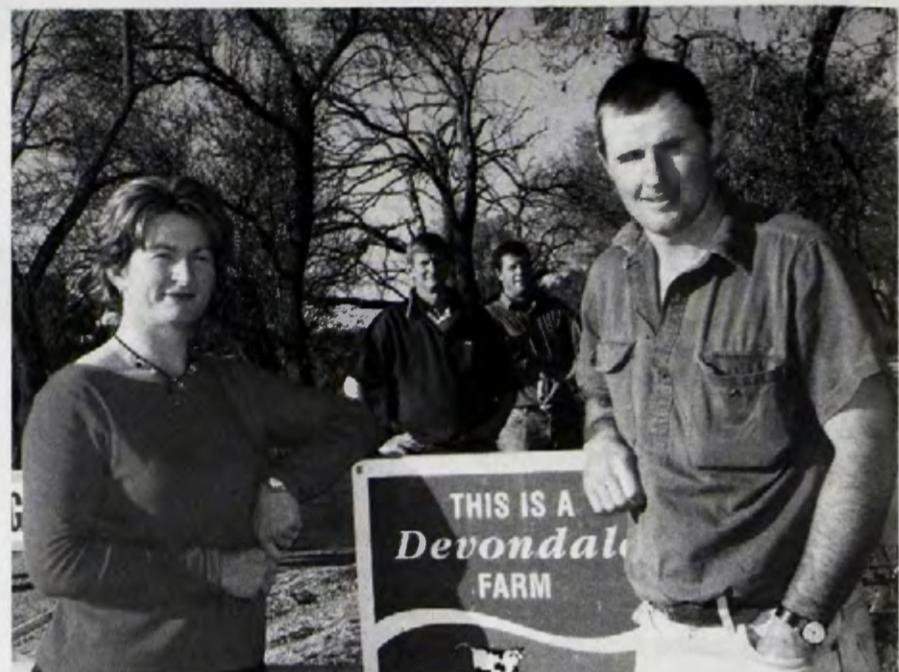

All Holstein heifer calves are kept and weaned at 12 weeks. Depending on available feed, they may go to agistment or to the run-off block. We also keep all beef calves to rear as another income source.

Fertiliser

After having soil tests done, blends are put on different parts of the farm. Lime has been used all over the farm.

Herd production

Season (production year)	No. of cows	Milk (L)	Fat (%)	Fat (kg)	Prot (%)	Prot (kg)
Factory Figures						
2002–2003	430	6912		280		231
2003–2004	430	6900		277		234
2004–2005	430	7218		289		250
2005–2006	430	7385		278		253
Herd Test Figures						
2005–2006	383	7755	3.8	295	3.4	267
Production for each age group (current season)						
2-year-olds	63	6107	3.8	230	3.5	211
3-year-olds	67	7658	3.7	284	3.5	265
4-year-olds	63	8368	3.7	310	3.4	284
Mature cows	149	7820	3.8	298	3.4	266

Milking system

Two people are required in the dairy. At the peak of the season milking takes 2½ hours. We have two very reliable relief milkers.

Farm records

We keep all herd records using a computer and the Easy Dairy program. We are also responsible for Murray Goulburn Milkcare Quality records.

We keep our own financial records using the Quicken program. Kaye and Geraldine jointly calculate the splitting of invoices.

Lifestyle

Our leisure revolves around family events and our children's sporting activities. It is always nice to get off the farm and have a day out.

Each year in June we go for a two-week holiday and try to take other breaks when possible and enjoy family time with the kids.

Making the most of the property

When coming to the farm , we laser everything that wasn't laserered. We installed new poly pipe and bigger water troughs in all paddocks. We have also had power connected to spear points. The cow yard at dairy was extended and a backing gate installed. We built a bridge over the main.

Farm owners: Jim & Alyson Ferguson

Effective hectares of home farm	155 milker plus 40ha dryland	Irrigation water used	690ML
Effective hectares of run-off block	70	Average annual rainfall	690mm (last year 949mm)
Fodder conserved from home farm	-	Mating start date	Cows 25 th Oct, heifers 11 th Oct
Fodder conserved from run-off block	-	Commenced sharefarming	July 2004 on present farm
Feed bought in	75t hay, 638t grain plus 21t for calves	Share agreement	50%, sharefarmers own herd

Feeding

We follow the Target 10 program 'Feeding Pastures for Profit':

- Grazing pasture at the 3-leaf stage, except in spring we bring the leaf stage back to 2½ to try to minimise seed heads.
- Feeding sturdiest grain so that the cows leave behind a 5 cm residue and are fully fed.
- We crush our own grain also adding a mineral supplement pellet.
- We use the Rotation Right tool to determine the area of pasture to be grazed everyday.
- Our aim is to keep our cows fully fed at all times, which results in consistently high production through out the year to maximise profit.

With our high production just before drying off in late autumn, we have achieved the same average milk price as autumn calving herds, without the problem of finding enough feed for fresh cows in the winter.

Calf rearing

New calves are picked up once a day, and taken to the calf shed. Heifer calves are kept in pens of 10, bobby calves are kept in a separate calf shed. Both heifer and bobby calves are then tube fed 3.5 litres of colostrum. Heifer calves have a follow up feed of another 3.5 litres in the morning. They are then taught to drink from the feeder the next day.

We have set up a system to pump milk from a storage vat into the calf feeders. This has saved us a lot of time and effort. Pellets, straw and fresh water are always on offer.

Calves are weaned at about Week 8 when they are eating about two kg pellets a day. They are then taken up to the calf paddock were they remain on pellets plus lucerne hay and quality pasture.

Breeding program

We select Australian Holstein proven bulls using around 250 straws. We also use around 300 progeny test straws. This year we selected BULLBAR, JUSTIFIER, NINEFOLD, GOLDSMITH and DONANTE. We look for production, fertility, teat alignment, cell count and type when we choose bulls. Our herd breeding policy is to spend that little bit extra on premium semen. You'll never stop reaping the benefits. For the difference of around \$22, we believe it's a great investment.

Herd health

We believe in identifying and dealing with sick animals quickly giving them a good chance of recovery. We think it is profitable to spend money on veterinary help to eliminate health problems quickly and efficiently. With the help of consultants we identified several problems the milking plant has had since it was built and was causing teat damage and mastitis. Fixing the problem improved cell counts greatly.

At dry off, we Dry Cow all milkers, drench for fluke and worms and vaccinate with 7 in 1. We also worm with a nil withhold pour-on around late December. We always get a great response. All young stock are vaccinated with 7 in 1, wormed and fluked according to the product guidelines.

Replacements

Cows are culled for:

- Cell count – over a period of seasons
- Production – low production, low fat and protein
- Empty cows when production drops below a profitable margin.
- Late calving.

Herd production

Season (production year)	No. of cows	Milk (L)	Fat (%)	Fat (kg)	Prot (%)	Prot (kg)
Factory Figures						
2004–2005	350	2,578,455	4.14	106,706	3.73	96,232
2005–2006	340	2,545,995	4.10	104,510	3.39	86,389

When we started on the farm two years ago there were no yearling calves, so this past season we have had no home bred replacements. This coming season we have one hundred heifers to calve so this will give us the opportunity to cull harder and to increase our cow numbers.

Fertiliser

Fertiliser used	N	P	K	S
kg/ha	290	49	95	55

Milking system

Our dairy is a 50-stand rotary. Milking in the peak takes 3.5 hours including clean-up. We put the main herd through the shed first, and then the colostrum herd, followed by the antibiotic herd. When things are back to normal, a milking takes about 2.5 hours from start to finish.

Farm records

We are responsible for all herd records, milk care, grazing management using the Rotation Right tool, and urea applications using a spreadsheet that Jim created to ensure all paddocks get a regular application. We also irrigate. We collect all data on feeding and irrigation, which Jim then feeds into a spreadsheet to work out feed profit margins. This information is also used in our discussion group.

Lifestyle

We all like motorbike riding, horse riding, camping, and gardening in our spare time. We also enjoy taking the children to junior football and catching up with other parents.

Once a year we go on a family holiday for two weeks. This year we went to Mermaid Beach in Queensland, taking the children to all the theme parks. We haven't worked out who enjoyed it the most, the kids or us.

We have a full-time employee and once calving and joining is over we both have two days a week off milking, we feel it is important to still have time to ourselves.

The last four years we have been very busy learning how to become dairy farmers and also meeting new friends.

As this was our first ever move from our birth town we are gradually getting involved in our new community with junior football and our children's schools.

Farm owners: David & Margaret Holloway

Effective hectares of home farm	218	Fodder conserved from run-off block	Nil
Effective hectares of run-off block	80	Irrigation water used	70 ML
Fodder conserved from home farm	Silage 350tdm	Average annual rainfall	914 mm
Feed bought in	Grain 624 tonnes, hay 180 tonnes	Mating start date	21 June

Feeding

Our aim is always to feed as much grass as possible but this is often limited due to seasons on a dry land farm. Pasture consumption is around 5.8TDM/ha. We try to conserve at least 1000 wet tonnes of pit silage. Our aim is to peak at 2.2kg milk solids/cow/day as soon as possible and hold it for as long as possible. Feeding before and during early lactation is critical.

Cows are fed dairy ration mix of triticale, canola and additive and cows were fed 2.12T last year. Grain mix is fed year round in bail ranging from 6kg to 12kg per cow/day. Good quality clover and lucerne hay are bought in to supplement silage and this is fed on feed pad during non-growing period.

Calf rearing

Calves are navel sprayed at birth, brought into the calf shed within 24 hours and fed 2 litres of colostrum twice a day. After drinking well are moved into pens of six with calf pellets and cereal hay adlib. Calf pens are supplied with fresh water drinkers. Before calving begins, calf shed is disinfected. This year we trailed feeding calves twice a day for six weeks before going onto four litres once a day and also diluted colostrum with 15% boiled water. This seemed to be successful in avoiding scouring in calves. Calves are bedded down on mixture of rice hulls and sawdust, which is changed regularly. Calves are moved to paddock at six weeks and then fed once a day for two more weeks. Calves are vaccinated with 5 in 1, drenched with white drench, ear tagged and dehorned while still in the shed.

Breeding program

Ian chooses sires with APR, type and mammary systems as the main criteria. Cows are run through the Genescreen program with some alterations made for selected cows. Criteria are set to emphasise improving feet and legs, udders and pin height and width. We use 100-120 straws of PT on selected cows.

Joining is managed using heat mount detectors and tail paint for heat detection. AI is carried out over a 7-week period. Cows are submitted naturally as they cycle and we have a very good submission rate. Cows are drafted off during morning milking and we use a very experienced local AI technician.

Herd health

Cows are fully fed year-round. Blanket dry cow treatment was used this year with great success. Cows are vaccinated with 7 in 1 and drenched at dry-off. Springers are lead fed 2-3 weeks before calving. Mag C is used in water troughs in calving paddock. Additives of minerals, vitamins and buffers in pellet form with extra dical phos and salt are added to grain ration. We have supplied premium milk without any grades for the last 12 months and milk is picked up every day to supply the cappuccino market.

Tracks have been topped with shale and rolled and feet soreness is not an issue.

Replacements

Each year we rear around the 100 AI heifers and are then able to bring a good proportion through into the milking herd. This means we are able to cull whenever needed and we are also able to sell late cows as spring calvers. Heifers are joined to calving ease bulls over one round, using Why Wait system and then run with natural bull for mop up. 60-80 are calved into the herd and the later heifers are sold to export or locally as spring calvers. Calving heifers to AI speeds up genetic gain. Yearlings are fed grain and hay though dry period and are some years sent off farm on agistment.

Empty, high BMCC and cows with genetic weaknesses are culled. This system is working very well as we have 280 calved within 8-9 weeks and also receive good income from stock sales.

Fertiliser

Fertiliser used	N	P	K	S
kg/ha	158	42	68	

Milking system

A 20 swing-over herringbone dairy with automatic cup removers, milk meters, stall gates and individual feed system is used. There is a 280-cow yard with flood wash. Cup removers have assisted milking times and reduced labour in the dairy and since installing we have had a much lower cell count. Time spent milking including washup varies during season between 1½ and 2 hours per milking. One person can milk with this set up with second person to help during calving and joining. Milk is cooled and stored in a 14,000L vat.

Farm records

We are responsible for all farm records including Mistro farm for herd details, Quicken for financial records and have been in process of registering the herd over the past three years. Herd testing is carried out every month. All stock events, treatments are entered onto system by Alice. Ian also keeps details for fertiliser, sowing and spraying pastures.

Lifestyle

Ian is involved in the local UDV, CFA and 30-30 projects in the area and enjoys hunting and fishing. Alice is currently studying nursing at TAFE College.

Financial management

We use budgets, comparative profit and loss statements regularly and like to know throughout the year how we are travelling financially.

We belong to a discussion group facilitated by John Mulvany which provides us with monthly data on milk income/feed costs per cow and also complete a Farm Analysis each year. We have been able to see our assets climbing steadily.

Making the most of the property

The property was only converted to dairying in 1995 and there has been a heavy period of development. Since Ian has been home on farm, major projects include irrigation dam and system, feed pad, track upgrades, calf shed, expansion of water trough system and much of the river flat country has been developed. There has been extensive work done fencing out creeks, wet areas and erosion and planting of trees. Effluent system has also been upgraded which enables effluent to be irrigated onto pastures.

Pasture and feed management

About 130 ha is over sown in the autumn using mainly annuals and DAP. During autumn 2 in 1 is applied at 200-300kg/ha. Pasture booster is applied after silage, which often gives a second cut. 24 tonnes of urea was spread last year, follows the cows, autumn, winter and spring. A feed pad helps preserve paddocks during wet weather and also prevents wastage of feed. During summer we grow a non-irrigated sorghum crop on the river flats, which provides a bulk of feed in late lactation and for dry cows, 25ha under lateral irrigation is used as autumn break start up which is supplied by a 70ML dam. Nine ha was sown in autumn with rape, ryegrass and clover which yielded 5.5TDM/ha and was fed to early lactation cows.

Pastures are sprayed for broadleaf and noxious weeds and pests annually.

Livestock management

Ian is responsible for livestock management – herd health, culling, sales of stock, milking, rearing calves and breeding; with assistance from owners or employee as necessary. Feeding decisions are made jointly with owner.

Sharefarmer/owner relationship

We work together with owners as a family unit sharing values and owners have always been very progressive in development of an

efficient and highly productive farm. Share farming agreement has evolved over past years and we are currently on a 40% share, which we arrived at with the help of Farm Consultant John Mulvany. Ours is apparently an unusual set up but works because of its simplicity. We receive 40% of all farm income and pay 40% of all costs excepting capital improvements. Ian has increased his ownership of equipment, which is also used for contracting. The only other difference is a 50/50 split on contract income, which is carried out by Ian putting away pit silage for other farms.

Attitude to dairying and aims for the future

We believe the dairy industry offers opportunity for young farmers to build assets and achieve financial stability. We have found a great deal of help and support is available for anyone wanting to improve, advance and learn. Our on farm discussion group has been invaluable in facing challenges and making decisions.

Aim at present is to continue to build herd ownership and then move on to lease or management situation.

Family and leisure time

We have three children aged 8, 12 and 14 and enjoy spending time together visiting family and friends. We aim for at least one family holiday per year, last year to the Gold Coast and a couple of extra weekends camping or staying with relatives.

Herd production

Season (Production Year)	No. of cows	Milk (L)	Fat (%)	Fat (kg)	Prot (%)	Prot (kg)

SOUTH GIPPSLAND

Brett Nutting & Jodi Probert, Glen Alvie

Farm owners: Murray and Bronwyn Wilson

Effective hectares of home farm	140 ha, 12ha calf area (JDCAP)	Irrigation water used	Nil
Effective hectares of run-off block	-	Average annual rain fall	950mm
Fodder conserved from home farm	200t pitsilage, 50 round bales silage, 60 4x5 rolls of hay	Mating start dates	30 th September
Feed bought in	180t additive, 683t grain, 170t lucerne, 40t hay		

Feeding

We aim to harvest as much pasture as possible then to top up with grain, Lucerne, silage and Brassica crops to make sure the cows are fed to their potential.

For the last season we have fed about 2.3 tonnes of grain and additive combined.

This season we are aiming to reach 8,000 litres per cow. The approach we take each season is to ensure profitability for the type of feed used. Cows are lead fed two to three weeks prior to calving to prevent milk fever and RFMs.

Calf rearing

All heifer calves are banded in the paddock and all births are recorded in a book with band number and cow number. Calves are collected ASAP as we are doing the JDCAP program.

All animals taken to sheds, then fed two litres of colostrum via a stomach tube. Keepers are tagged with brass, NLIS and yellow tags. Calves are then fed twice a day, 2 litres per feed, colostrum for 1 week.

Then once a day in the morning 4 litres, also ad lib straw, water, calf meal till eating sufficient grain, preferably 1kg, then cut back in litres between 6-8 weeks.

Calves will then be moved to the paddocks, still eating ad lib grain and straw. They are weaned by weight.

Calves are dehorned, drenched & vaccinated (7 in 1, copper and B12+selenium) on being sent to paddocks. Any calves that start to look off colour are taken back to shed for "tender loving care".

Jodi rears calves with Brett and Mat (our staff member) called on if required. Problems and feeding regimes are recorded in shed 1, so if Jodi can't make it everyone knows what is going on. When they are about 3 months of age the calves receive copper, cobalt and selenium bullets. They are drenched as required.

Breeding program

We have got together with the owners and decided that teat placement, teat length and milking speed was to be our main criteria. We use 25% progeny test and 75% proven semen. The herd has been submitted to Genescreen to select sires that suit our herd and breeding corrections. Sires with a high APR are selected.

The cows are vis-vagged about 4 weeks after calving. Dirty cows are treated with Metricure.

Four weeks before MSD cows are painted with red paint and observed for heats and then painted green. Any red cows at the end of 3 weeks are vet checked and either PG or CIDR or left if calving interval is not long enough.

On October 7th the cows all have red Estrus Alerts applied. Every morning the cows are observed for heats and are inseminated by a technician. Once mated the cow is painted blue. This continues for six weeks and then mop-up bulls are used for six weeks.

All cows are pregnancy tested 7 weeks after AI is finished and then the non-pregnant cows are retested 8 weeks after the bulls are removed. We use ultra sound to pregnancy test.

Last season was the first time that the heifers were mated using AI. We are aiming for more replacements, as this is a closed herd. Easy calving sires were used. The remaining heifers were mated using Jersey bulls. The mating timeframe for the herd is 12–13 weeks. Our empty rate for the farm last season is unusually high at 14%. This was because mating was pulled forward by 10 days last season.

Herd production

Season (Production Year)	No. of Cows	Milk (L)	Fat (%)	Fat (kg)	Prot (%)	Prot (kg)

Herd health

The herd health program involves an annual 7 in 1 booster, salmonella vaccine and a drench for the 2 and 3 year olds. All the cows receive minerals in the feed additive we use. Lame cows have their feet trimmed and treated as soon as seen and are then put in a paddock close to the dairy to minimise walking. If they are real bad we milk them once a day. Mastitis cows are treated accordingly. Milk cultures are analysed to discover the strain of bacteria we are dealing with. The general policy is '3 strikes and you're out'. All cows are given a blanket dry cow treatment.

Replacements

All replacements are fed calf grain at a rate of 1–2kg until they are yearlings and are then sent out to agistment. When there is an abundance of feed, calves are strip grazed and fertiliser is applied for regrowth. Hay and silage is made from these paddocks. Heifers are weighed at weaning and then again every 6 months to give us an idea of the growth rates. Anything below the target is fed accordingly.

Fertiliser

Fertiliser used	N	P	K	S
kg/ha	275	25	54	30
Soil test levels	15-77	223-756	10-17	

Milking system

The cows are milked in a basic 40-unit rotary. Milking commences at 5.30–6.00am and 3.30–4.00pm. The average milking time in the peak is about 2½ hours from start to finish for 370 cows.

Farm records

The records kept include animal health, animal movements (grazings, rotation), cow feeding rates, Mistro Farm, MG milkcare and our own financial records.

Lifestyle

We have about two weeks each year of actual holiday time as a family, as well as 1–2 days off per fortnight for off-farm activities such as motocross, football and visiting friends.

Farm owner Les Fox

Effective hectares of home farm	188	Feed bought in	20t cereal hay
Effective hectares of run-off block	-	Average annual rainfall	950 mm
Fodder conserved from home farm	600t silage, 670t hay	Mating start date	10 th October, 23 rd May
Fodder conserved from run-off block	-	Share agreement	67%

Feeding

Everything is predominantly pasture-based with the majority of the farm now in pasture. Our target is to lift pasture efficiency from 66% or 1.57 tonne per cow dry matter to a pasture efficiency of 84% or 2.19 tonne per cow dry matter, adding our budget of 429 tonnes of grain for the year.

Our target for total milk production is expected to lift from 5,111 litres or 396 kg total solids per cow to 5,631 litres or 479 kg total solids per cow.

Calf rearing

A new calf feeding system is being implemented. It involves a new shed, automated calf feeding station and a Cablevey grain-feeding system. The four hours daily that it took to feed calves in the spring will be cut to half an hour. The feeding system is a powder only system. Cereal hay is also fed ad lib.

Breeding program

We like to select sires from proven cow families. We like to see three or more generations of VHC or better, based on ADHIS proofs. Sire selection follows our basic rules:

Milk Proof	greater than	+300
Protein	greater than	+15
Fat	greater than	+20
Temperament	greater than	+92
Overall Type	greater than	+0.5
Mammary	greater than	+0.1

We use a mixture of Australian proven sires and American and Canadian proven sires. We will also select two progeny test sires to use each year. We use our computer program to monitor and minimise in-breeding (Easy Dairy). We evaluate each cow through the milking season for areas of improvement.

Cows are joined for first six weeks with proven sires. Any return cows or slow cycling cows are then joined to progeny test sires – most yearling heifers are joined to progeny test sires.

Herd health

Cows are treated twice yearly (January and June) with Cydectin, injected with Clepto 7 in 1, yearly in June.

Young stock are treated twice yearly with Cydecten, 7 in 1, Vitamin B12 + Selenium.

Calves receive Vitamin A,D and E at birth. Then they get Clepto, 7 in 1 at 6 weeks and again at 12 weeks, Vitamin B12 + Selenium at 12 weeks.

Cows are treated with Dry Cow at drying off.

Herd production

Season (production year)	No. of cows	Milk (L)	Fat (%)	Fat (kg)	Prot (%)	Prot (kg)
Factory figures						
2004–05	254	938,875	4.71	45,282	3.64	35,019
2005–06	293	1,373,060	4.76	65,418	3.69	50,686

Replacements

We rear 90 replacement calves each year: 30 in the autumn and 60 in the spring. We have just installed an automatic calf feeder. The object of this exercise is to reduce time spent feeding calves; give calves better feeding ration and reduce the risk of disease and infection.

At six months old the weaners are sent out on agistment on a Weight-for-Gain contract. They return home just prior to calving.

Fertiliser used	N	P	K	S
kg/ha	80	63	45	30

Fertiliser
Milking system

The dairy is a renovated 12-a-side double up herringbone with stall gates. Milking takes about 2½ hours in peak, milking about 140 an hour. Washing down the yard currently takes about an hour. This issue is being addressed with the planned installation of a flood wash system.

Farm Records

We are responsible for all farm recording. All animals are listed in our Easy Dairy program. Paddock history and renovation records are recorded in a Paddock Diary.

Lifestyle

We really enjoy our Jersey club outings. With the club we go out for meals, have trivia nights, on-farm challenges, farm walks and discussion time. This gives us an opportunity to get away from the farm and get ideas from other farmers regarding problems or ways to do things better. Socialising is a big part of our lifestyle.

Farm owners: Andy & Lois Beard

Effective milking hectares	228	Average annual rainfall	750mm
Sheep, beef and young stock	126ha	Mating start date/s	23rd June, heifers 6th June
Fodder conserved from home farm	504t silage, 280t hay	Share agreement	20%, no cost, but employ labour
Feed bought in	528t grain		

Feeding

Our feeding strategy is to feed the cows to their potential to gain maximum milk production. Strict feed budgeting allows us to keep income after feed cost to a maximum.

Profitability is a major focus so we are trying to grow as much feed on the farm as possible. In our first year, 2004 we made 350t DM of fine chopped silage and in 2005 we made 600t DM. We are also increasing hay cut on the property by over sowing with short-term ryegrass. We aim to over sow a third of the farm every year with a continuous renovation program each year, which, with turnips provides good quality feed over the summer months.

2006 aims: Grain per cow to go from 1.6t to 1t if the season allows us, Silage harvested 600t DM to 750t DM, Hay harvested 280t to 360t.

Calf rearing

When a calf is born we stomach tube it with two litres of colostrum. Calves are then placed in a calf shed for three to seven days and fed twice a day. Then they are taken to half acre paddocks where they are fed once a day with milk and have access to calf pellets, fresh water and hay at all times. Once they reach six to eight weeks they are weaned and taken to grass paddocks and given calf pellets everyday along with ad lib hay. Calves are then given 7 in 1 and drenched at required intervals.

Breeding program

When we decide on bulls we consult the semen companies and our local AI companies. We set a budget at the start and try to stick to it. We only use proven bulls with good components and workability, mainly bulls with a lot of daughters. Our heifers are joined to Jersey bulls for calving ease.

We AI for a week, then give each cow that hasn't been joined a shot of PG, which will bring on 2/3 of the herd. We AI for another seven days then anything insert CIDRS in anything that hasn't been joined or has a suspicious heat. We AI for 6 weeks and then put bulls out for nine weeks. We use tail paint and heat mount detectors in the detection process.

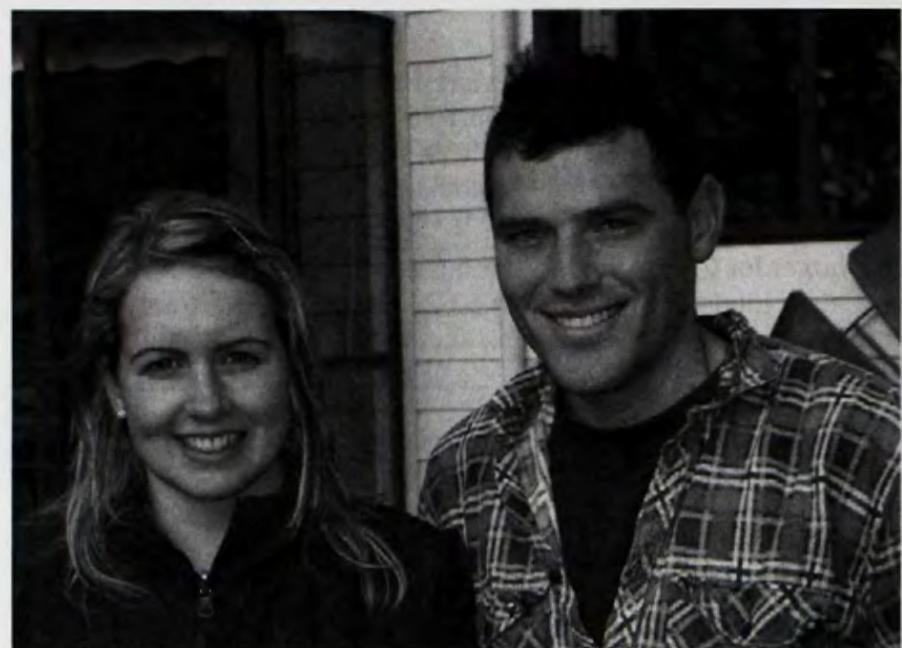

Herd health

Cows are treated with dry cow and with orbenin enduro. Heifers are treated with Amplicoxx dry cow and are also given a lepto shot at dry off. They are dry for 50 days. We teat spray our cows thoroughly every milking and we have a three strike policy (three cases of mastitis and they are culled). Good record keeping is essential for this to work. Cows with mastitis are always milked last and kept in a separate herd until they are clear and out of the withholding period. We strip individual cows for seven days after calving looking for mastitis. Every cow is also checked for retained membranes four days after calving and treated with a pessary if needed.

Cows are drenched once a year with Eprinex. We also lead feed the cows with two kg of pellets per day, with additional anionic salts for 10 to 14 days before they calve as a milk fever preventative.

Herd production

Season (production year)	No. of cows	Milk (L)	Fat (%)	Fat (kg)	Prot (%)	Prot (kg)
Factory Figures						
2003-04	330	5387		219		175
2004-2005	330	6801		268		218
2005-2006	330	6150		265		215
Production for each age group (current season)						
2-year-olds	70	29.9	3.29		3.21	
3-year-olds	80	31.2	3.49	1.088	3.23	1.008
4-year-olds and mature cows	180	32.8	3.37	1.105	3.21	1.051

Replacements

With our herd replacement strategies we look at individual cows for fertility, production, mastitis, cell count and lameness. We aim to breed 60 to 70 replacements every year. Any that are poor we sell off.

Fertiliser

Fertiliser used	N	P	K	S
kg/ha	150	33	36	41

Milking system

We use a 20-a-side swing over which was built by Andy nine years ago. It has a cablevey grain system. Two years ago we decided to put in DeLavel swing arm cup removers, which has made it a comfortable one-person operation. At peak milk it takes 3½–4 hours to milk 360 cows. Our long-term plan is to redo the dairy in the next couple of years.

Farm Records

We are responsible for all records including quality assurance, dairy data and cow records such as calving, joining and mastitis. Our business bookwork uses QuickBooks and budgeting programs.

Financial management is the most important part of the business. We meet with Andy and Lois at the start of each financial year and cover all the expected costs using a spreadsheet. We itemise them and work out the amount we can spend on each. At the end of each month we meet and review how much has been spent in each area and match it to the budget. We also do weekly income over feed cost budget.

Lifestyle

We enjoy water skiing, camping, fishing, and playing football. Sarah especially enjoys shopping. We are both involved in the local discussion group which is a great way to meet other farmers from around our district and learn and swap ideas with each other. We are members of the local fire brigade and Sarah also works part time as a hairdresser at the Port Fairy Day Spa.

Property owner: Ron & Maree Vinnicombe

Effective ha of home farm	110 ha	Irrigation water used	1258 ML
Effective ha of run-off block	304 ha	Average annual rain fall	375mm
Fodder conserved from home farm	Nil	Mating start date	22 October
Feed bought in	345t grain, 95 rolls hay	Share agreement	50%
Fodder conserved from run-off block	524t silage, 550 round bales lucerne, 1000 round bales of sub & cereal hay		

Feeding

We are focused on growing and consuming as much grass as possible. The stocking rate is 5.8 cows/ha on permanent pasture. The permanent pasture produces approximately 16.5 t/ha; with a target of 18 t/ha 2006–07 to get this all pasture will be over sowed this season.

To fully feed the cows we use 1.6 t/cow of wheat and the balance is supplemented with good quality hay (cereal hay in the spring, sub hay in the early summer and lucerne hay for the rest of the season, plus silage). This is mixed up and fed on the feed pad that was constructed in 2006. We put the feed pad down to get the best out of the mixer and so we did not waste too much feed.

To lift cow production and to produce better quality feed there has been a need for laser drainage and a feed pad to minimise feed loss and pasture damage.

As none of the properties had reached their full potential, a business plan was drawn up in 2001. We decided the most feasible way to expand was lift the production of each cow and produce a better quality feed.

Calf rearing

All calves are reared on 5 litres whole milk in a shed for approximately three weeks. From the shed the calves are de-horned and vaccinated, grouped into small mobs of approximately 40 calves per paddock next to the shed and fed with a 50 teat feed trailer. Each paddock has a water trough hay ring with Lucerne hay and grain. Once the calves are weaned off milk they taken to the run-off block and pasture on Lucerne paddocks and grain. Sarah feeds all the calves.

Breeding program

We use Genescreen on all flush cows and have had one done on the herd, as we place a number of our bulls into AI breeding programs. This gives a predicted ability on APR, ASI and type, which we find very valuable to our herd. Embryos are placed in heifers and the bottom 20% of milkers that we do not wish to breed from. All other cows are Aled. Selecting bulls with good APR and ASI plus overall type is important. Embryo transplanting has been used since 1996 as this has been a good way of value adding and increasing better stock without the burden of excessive costs. As above we use Genescreen as a breeding policy.

Herd health

All cows are wormed, treated for fluke and 7 in 1 at dry off with a 7–8 week dry-off period. Cows are checked out 2 weeks before starting AI for cysts, infections and other anomalies. Then all cows are checked to make sure they are pregnant by ultrasound at approximately 6 weeks after removing the bull. Any cow with an SSC over 250,000 is treated with dry cow. All the cows that need to be are foot trimmed before drying off. We make our own leaded feed for the cows, this is feed 21 days prior to calving.

Herd production

Season (production year)	No. of cows	Milk (L)	Fat (%)	Fat (kg)	Prot (%)	Prot (kg)
Factory figures						
2006	230	1,630,400	4.23	69,124	3.50	57,104
2005	220	1,418,760	4.26	60,501	3.54	50,284
2004	220	1,045,633	4.30	45,806	3.41	35,752
2003	180	916,080	4.13	37,889	3.29	30,200
2002	190	1,168,890	4.20	49,125	3.30	39,261
2001	180	759,945	4.15	31,578	3.29	25,042
Herd Test figures						
2006	240	7334	4.2	310	3.5	256
2005	191	5794	3.9	226	3.5	202 (245d)
2004	220	4752	4.3	208	3.4	162 (305d)

**Replacements**

All heifer calves are kept for replacements as they have very good value for placing of embryos. Approximately 20 bulls are kept with a large percentage going to progeny testing.

Fertiliser

Fertiliser used	N	P	K	S
kg/ha	Sparingly, heading towards organic	31–20 on run-off	350–210 on run-off	8.8

Milking system

The dairy is a 12 double up herringbone with automatic cup removers which one person can manage to milk 120 cows per hour. This means that we spend approximately 4½ hours on a daily basis.

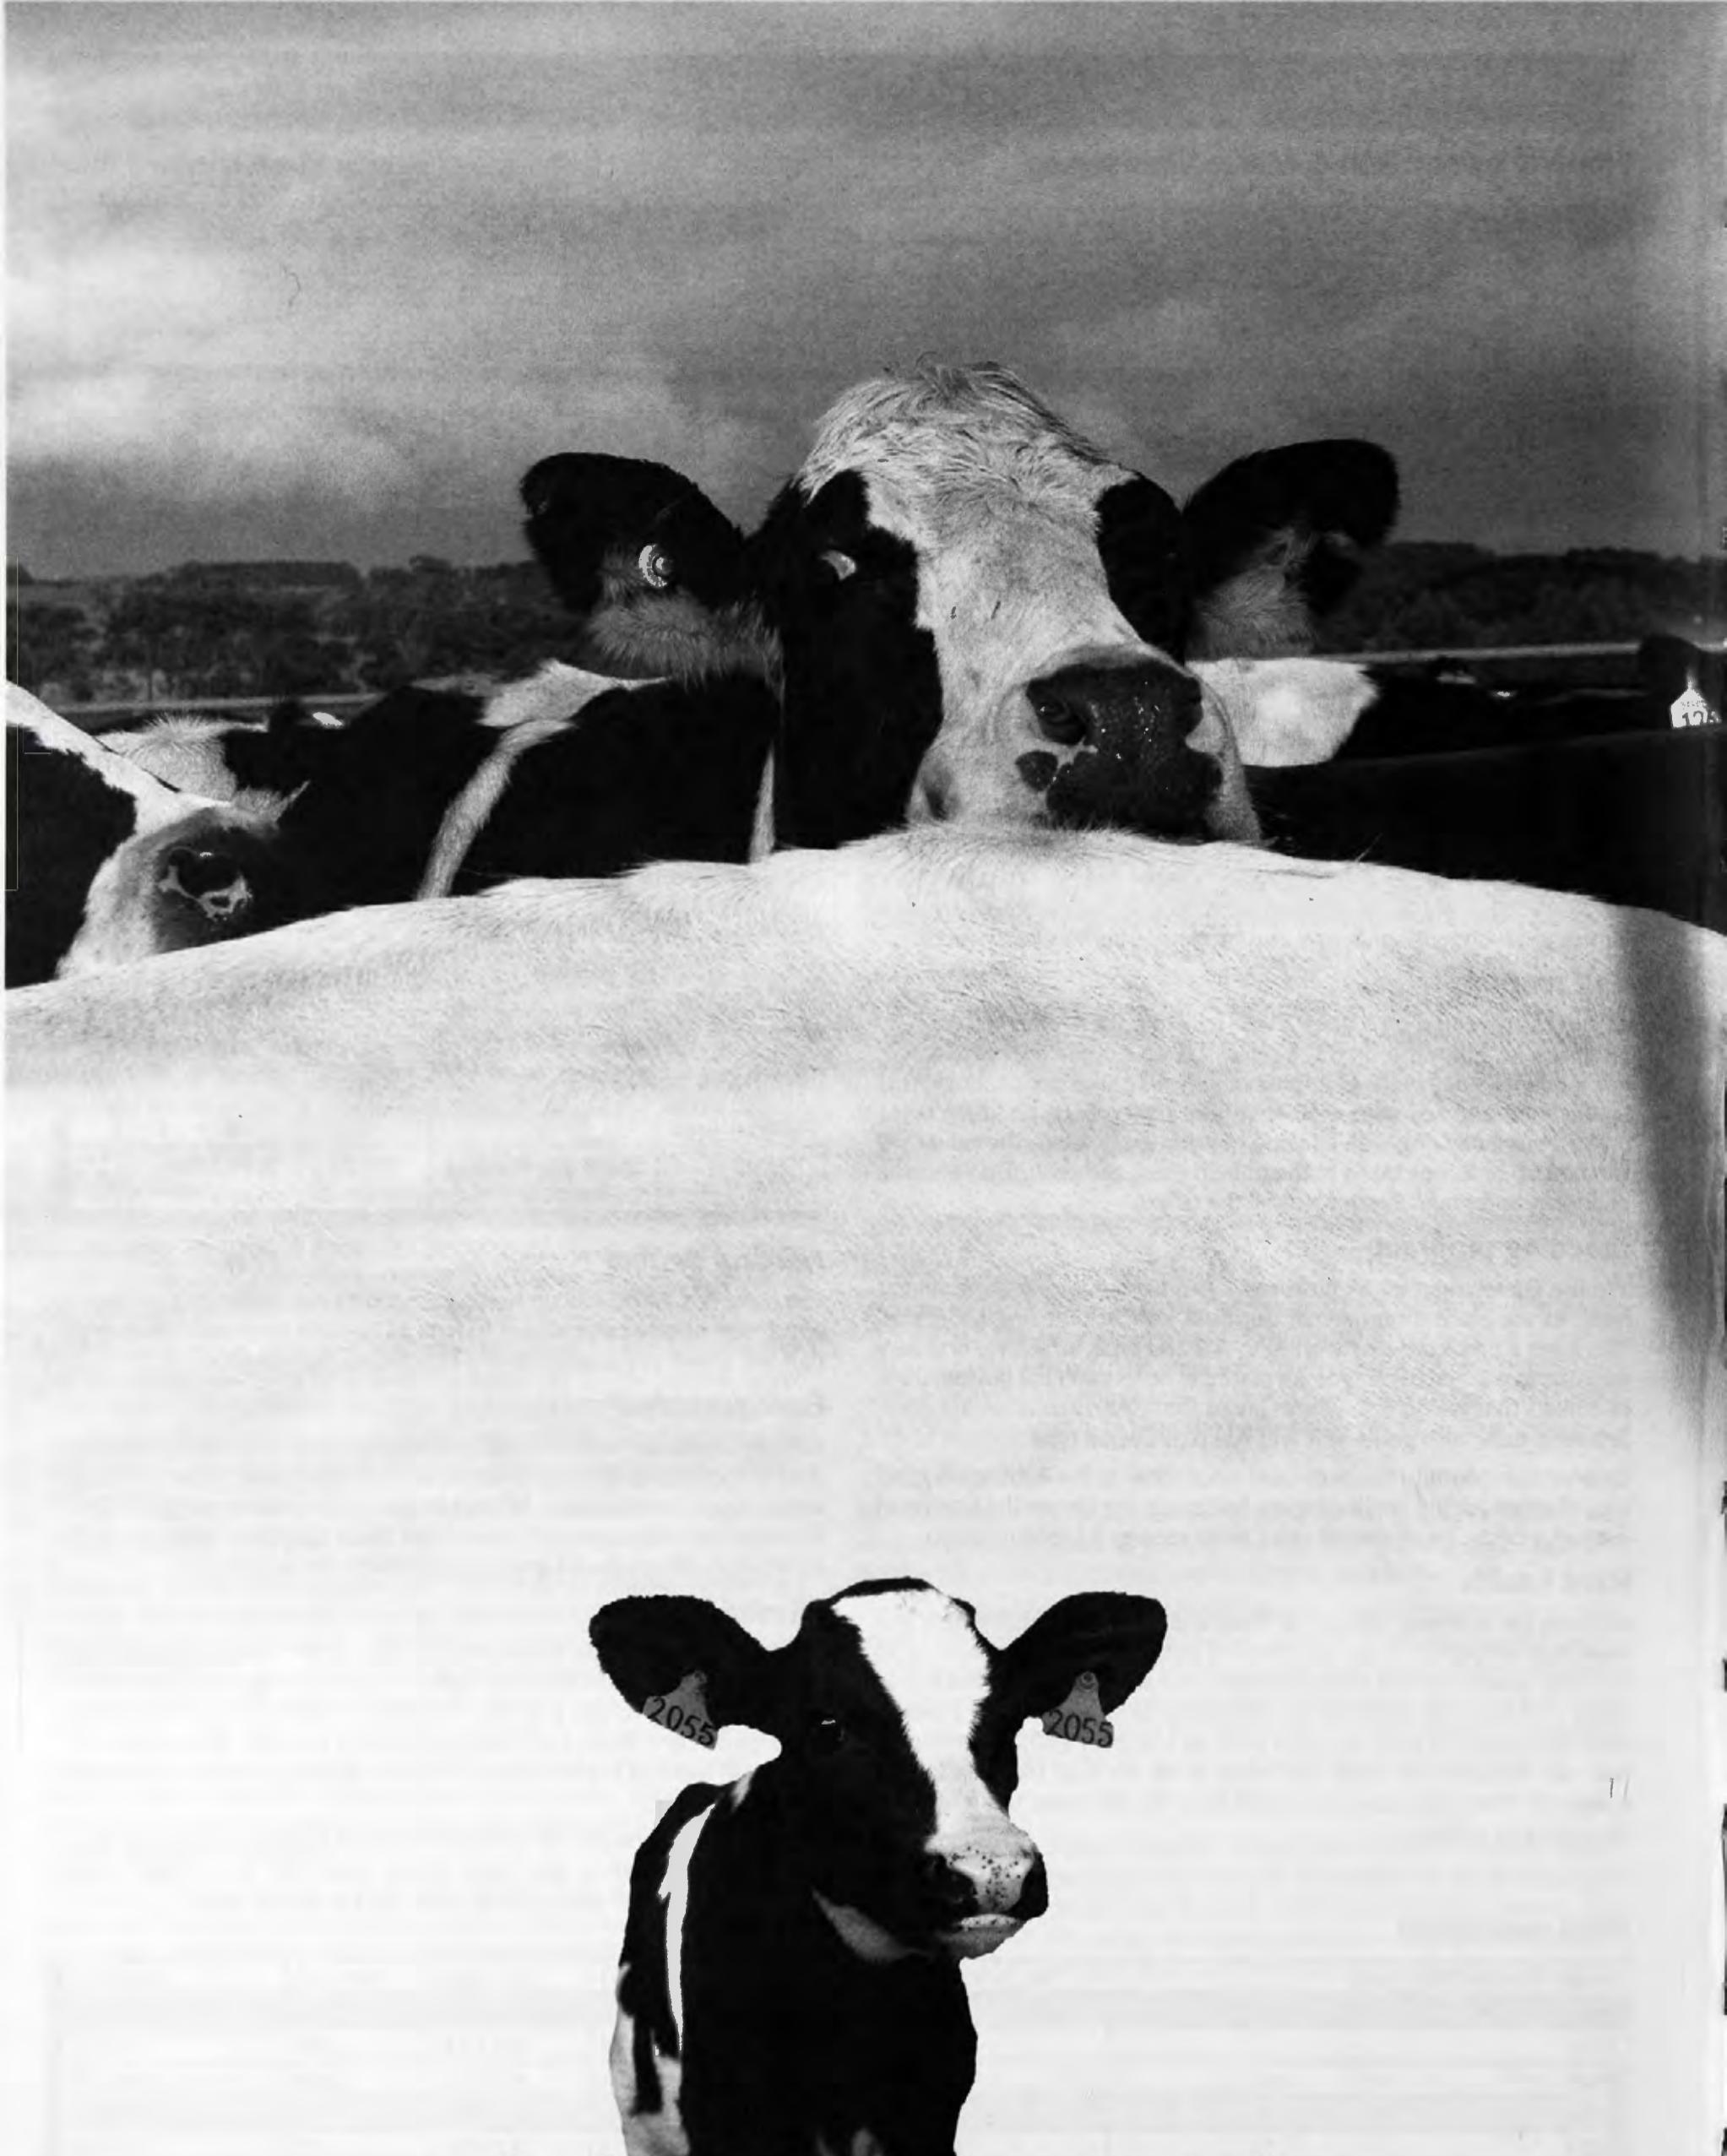

Farm records

All cow records are kept on a palm computer using Easy Dairy. The palm data is transferred to a computer at Ron's home, other records include water usage, feed budgets. All bookkeeping data is done using Quicken. Financial and management reports are done quarterly when the BAS statements are produced and discussed with the accountant.

Lifestyle

We are involved in the Holstein club with youth camps, football and cricket, and we are in the East Loddon Land Care group. There are a few of us trying to get a group of farmers together once a month or so to go on farm walks and meetings, the last one was a Genetics Australia bull night at the local hotel. Sarah is working on our landscaped garden project.

We try to take time off the farm with 4 weeks holidays a year. We have employed a worker to give more leisure time. We like to have some weekends off to go away off the farm, or just for the day.

For more information on the Genetics Australia Share Dairy Farmer of the Year Award visit the Genetics Australia website at www.genaust.com.au, or contact the Royal Agricultural Society on 03 9281 7444.

EMERGENCY INFORMATION

In the event of an emergency:

- FIRE
- MEDICAL - FIRST RESPONDER (MICA Paramedic)
- POLICE

Contact your nearest SUPERINTENDENT'S OFFICE or RAS STAFF MEMBER

If office is unattended contact the EVENT MANAGEMENT CENTRE on

Ph: 03 9281 7400 (24hr Service)

If no answer, **call 000**

VETERINARY SERVICES

To obtain veterinary assistance, contact the Superintendent for your respective area.

2006 Royal Melbourne Show Veterinary Panel:

- Dr H J Wirth, AM (Chairman)
- Dr C B Blackwood
- Dr A C Dunn
- Dr G Blenkhorn
- Dr J T Hancock
- Dr C J Hinkley

For URGENT veterinary cases out of hours, contact the EVENT MANAGEMENT CENTRE (Ph: 03 9281 7400) who will contact the on-call veterinarian.

Exhibitors are required to pay accounts issued by members of the panel. The service provided and the fee are matters for negotiation between the exhibitor and the veterinarian concerned. The Royal Agricultural Society of Victoria Limited will not act as an arbitrator. A substantial fee applies for all after hours veterinary services. Due to limited resources, major surgery cannot be carried out on the Showgrounds, duty veterinarians can only provide first aid and treat medical conditions which do not require surgery.

REGULATIONS OF THE SHEEP COMPETITION

101. The Regulations appearing in this Schedule form part of the General Regulations and conditions of entry to an Event at the Royal Melbourne Show. In the event of any inconsistency between the General Regulations and these Regulations, the General Regulations shall prevail to the extent of the inconsistency unless the General Regulations provide otherwise.

CLOSE OF ENTRIES

102. Entries in the Sheep competition must be received at the RAS's Administration Office located a Level 2, Wool House, 369 Royal Parade, Parkville 3052 by no later than 4.30pm on Friday 28 July 2006.

103. All entries must be accompanied by the applicable fee and health status declaration form signed by the Exhibitor or authorised agent.

104. The onus is entirely on the Exhibitor to submit particulars on time. There will be no reminder from RAS staff.

ENTRY FEES

105. Entry fees for Sheep breeds are as follows (straw inclusive):

\$25 per animal (GST free) for Members

\$40 per animal (GST free) for Non-members

This entry fee entitles an animal to enter all eligible classes. Please specify selected classes on enclosed Entry Form.

SCAN FEES

106. All Rams must be scanned (excluding Ram Lambs).

107. All Texel and White Suffolk Ewes must be scanned.

108. Scan fees have been set at \$6.50 per animal. This amount must be shown separately on your Entry Form and the amount included with your total entry payment.

109. Rams not scanned will be not eligible to be shown.

110. Each Exhibitor will be issued with a Scanning Card after the required animals have been scanned. Scanning cards are to be worn in the Judging Ring.

111. If scanning cards are not displayed, the Exhibit may not be eligible for a prize.

CATALOGUES

112. Each Exhibitor will receive a free catalogue upon arrival at the Showgrounds. Additional catalogues can be purchased from the Sheep Superintendent's office.

TRUCK PARKING

113. Parking for trucks and floats is available in the VRC Racecourse. Apply by completing the relevant section on the Entry Form and forward the fee with the competition entry fee.

114. Truck Parking fees for 2006 will be:

If paid with entries: If paid later:

\$15.00 (inc. GST) per day \$22.00 (inc. GST) per day

\$66.00 (inc. GST) full Show \$85.00 (inc. GST) full Show

115. Please indicate on the Entry Form the dimensions and make/model of your truck/trailer.

116. There is to be no camping in the VRC Truck Park under any circumstances.

117. Any vehicle, including trucks, stock transports, trailers, and horse floats, located on the Showgrounds, or any area leased by the RAS, shall be at the sole risk of the owner. The RAS accepts no responsibility for any loss or damage, including loss or damage caused by negligence of the RAS, its officers, employees, or agents to any vehicle, or the contents of any vehicle, located on the RAS's property or in the area leased by the RAS.

ARRIVAL AND DEPARTURE OF EXHIBITS

118. All Sheep Exhibitors are to comply with the following arrival and departure timings, unless otherwise notified directly by the RAS Sheep Event Coordinator.

Arrival: Tuesday 19 September 2006 between 9.00am and 9.00pm

Wednesday 20 September between 9.00am and 9.00pm.

PLEASE NOTE: All Sheep (excluding Poll Dorsets) must be on the Showgrounds and ready for scanning at 9.00am Wednesday 20 September 2006.

Departure: Sunday 24 September between 4.00pm and 9.00pm

119. Sheep may not be removed from the Showgrounds until after 4.00pm on Sunday 24 September 2006.

120. All sheep must be removed from the Showgrounds by 9.00pm Sunday 24 September 2006.

121. Priority may be given to Exhibitors that have considerable distance to travel.

STORAGE LOCKERS

122. Storage Lockers are available for Exhibitors in the Sheep Section. On application to the RAS, a Storage Locker will be reserved for the period of Exhibition at the Show at a charge of \$33 (inc. GST). Exhibitors will be issued with a key to each Locker upon arrival at the Showgrounds.

123. A key deposit will be required and will be refunded upon return of the key on departure from the Showgrounds.

BEDDING

124. No bedding other than straw may be used in pens.

125. For the convenience of Exhibitors, fodder merchants will attend the Showgrounds for the purpose of accepting orders for stock foods, etc and the delivery of food stocks must be made before 8.00am each day during the Show.

STOCK ATTENDANT PASSES

126. An Exhibit Ticket will be issued prior the Show.

127. The Exhibit Ticket must be produced at the gate, when it will admit the Exhibitor and Exhibits on to the Showgrounds. Stock Attendant Passes will be issued by the Superintendent at his office on the Showgrounds once Exhibits have been penned.

128. Stock Attendant Passes will be issued according to the following formula:

One Stock Attendant Pass for every Exhibitor.

Additionally: One Stock Attendant Pass for three to five Exhibits

Two Stock Attendant Passes for six to ten Exhibits

Three Stock Attendant Passes for eleven or more Exhibits

HEALTH REGULATIONS

129. All entries must be accompanied by a signed Sheep Animal Health Declaration Form and sheep must have a minimum ABC score of one.

130. The 2006 Sheep Competitions will be conducted under the guidelines as set out in the Johne's Disease Market Assurance Program (SheepMAP).

131. Ram entries will only be accepted from Ovine Brucellosis accredited free flocks.

STRAWING

132. The RAS will arrange for the strawing of all pens prior to the Show. The charge for each pen is included in the entry fee.

CLEANLINESS OF STALLS

133. Mucking out of pens is to be carried out between 8.00pm and 7.00am. These times will be strictly enforced.

134. Exhibitors must keep the stalls allotted to their animals clean and give proper attention to their stock throughout the Show. Exhibitors must complete cleaning of pens occupied by their Exhibits before 7.00am each day on which sheep are at the Show.

ADVERTISING

135. No advertisements or notices (except by permission of the Chief Steward) are permitted on or in any stalls, pens or buildings. In the case of permission being granted, breed and stud signs must not exceed 60cm x 120cm. Signs may be placed on the pens advertising private sale, only after the auction is complete.

SMOKING

136. Smoking and naked flames are at all times prohibited in Lockers and Pavilions.

ELIGIBILITY OF EXHIBITS

137. There is no restriction on the quantity of Exhibits that an Exhibitor may enter into a Single or Paired Class.

138. No Exhibit in the Pair Classes can compete in Single Classes and vice versa.

139. Sheep need not be entered by name or tag number and no particulars other than the breeders' name and date of shearing will be published in the Show Catalogue.

140. Sheep must be identified by tag number on a form provided by the RAS prior to Inspection to qualify as an Exhibit and become eligible to compete.

BREEDS NOT LISTED

141. The Exhibitor of any breed not listed in the Schedule can contact the RAS Sheep Event Coordinator and classes may be arranged accordingly.

EWES IN LAMB

142. A ewe entered as "with lamb of her own breed at foot" may be transferred to the class provided for ewes of her age if she has not lambed prior to judging day, and vice versa. For the purpose of health regulations, lambs at foot must be held when not in their pen.

PREPARATION OF SHEEP

143. Exhibitors or their employees are not permitted to prepare (i.e., trim, etc.) Exhibits in any passageway or in any judging area in the Pavilion after 5.00pm on the day prior to judging day.

144. No preparation (including trimming) of Shorn sheep will be permitted after the commencement of inspection unless extenuating circumstances exist and permission is granted by the Chief Steward. The granting of such permission is entirely at the discretion of the Chief Steward.

145. No trimming will be permitted after judging except with the permission of the Chief Steward.

146. No tattooing of sheep is permitted on the Showgrounds.

147. The washing of legs of Poll Dorset Sheep is not permitted on the Showgrounds.

148. Exhibitors are not permitted to use powders or other substances on the face and/or colour on legs and feet in the preparation of sheep.

PHYSICAL SOUNDNESS

149. All male animals must be completely entire and deemed physically sound. Any male animal not deemed to be completely entire and physically sound by the RAS's Veterinary Surgeon shall not compete or be offered for sale on the Showgrounds. Any marks of speying on females shall disqualify them from competing.

DISAPPROVED EXHIBIT

150. The owner or Exhibitor of any Exhibit disapproved of as an Exhibit by the RAS or a Veterinary Surgeon of the RAS must immediately upon notice to that effect remove such Exhibit from the RAS's Grounds. Subject to Regulations 8 and 9 of the General Regulations, the RAS reserves the absolute right to decline to receive entries in future years from any person who Exhibits stock that is not in the opinion of the RAS, up to a satisfactory standard, that is not exhibited in reasonable Show condition, or that is not given proper attention during the Show. Such a decision or determination is entirely within the discretion of the RAS and shall not be questioned or challenged in any proceedings or in any manner whatsoever.

151. Exhibits must not be rugged after judging during the hours the Show is open to the Public. Exhibitors will be liable to a fine of \$50.00 for every infringement of this regulation.

INSPECTION OF EXHIBITS

152. Each Breed Society or Association shall put forward nominations for Inspector appointments for their breed and these nominations will be considered by the RAS.

153. Every animal exhibited in the Sheep section will be subject to inspection carried out by an Inspector appointed by the RAS.

154. The Inspector or Inspectors appointed by the RAS shall then examine all sheep entered in the relevant breed and discard any not up to standard and those not shorn in accordance with the Regulations.

Inspection times are as follows:

All Sheep Breeds (exc. Poll Dorset): Wednesday 20 September 2006 from 12noon

Poll Dorset: Friday 22 September 2006 from 8am.

155. Yellow inspection cards for all breeds (excluding Poll Dorsets) must be handed into the Sheep Superintendent's office by 11.00am Wednesday 20 September 2006.

156. Yellow inspection cards for Poll Dorsets must be handed into the Sheep Superintendent's office by 5.00pm Thursday 21 September 2006.

157. If inspection cards are not handed in, sheep will not be inspected and are therefore not eligible for judging.

158. Sheep not in their allotted pens at the time of Official Inspection may be disqualified by the Chief Steward. Any decision or determination of disqualification is entirely within the discretion of the Chief Steward and shall not be challenged or called into question in any proceedings or in any manner whatsoever.

159. All sheep to be tattooed in accordance with their breed regulations.

160. Any sheep found to be not visibly and legibly tattooed may be liable to be disqualified by the RAS. Any decision or determination by the RAS to disqualify is entirely within its discretion and shall not be called into question in any proceedings or in any manner whatsoever.

161. No Exhibit may have their teeth filed or ground. Any decision or determination by the Chief Steward to disqualify is entirely within his discretion and shall not be called into question in any proceedings or in any manner whatsoever.

162. All sheep entered in the 1 ½ years old classes must not be showing more than two teeth. If there are signs of four teeth erupting, an animal is not eligible for exhibition.

163. Lambs at foot are eligible to compete in lamb classes and must be tattooed and held when not in their pen.

164. The dams of sheep entered in the lamb classes must not be brought on to the Showgrounds unless they are entered for exhibition in another class.

165. Disqualified sheep shall not be offered for sale on the Showgrounds. Exhibitors of disqualified sheep may remove them from the Showgrounds.

INSPECTION APPEALS

166. An exhibitor or competitor may appeal against an inspector's decision.

167. Subject to General Regulation 11.1 to 11.7 in the relevant prize schedule appeals shall be addressed to the Chief Steward, and be lodged at the Sheep Superintendent's office before 6.00 pm on the day the decision in question has been made. Such appeals shall be accompanied with a deposit of \$50.00 that may be forfeited to the RAS if in the sole opinion of the Chief Steward the appeal is unfounded, frivolous or vexatious.

168. The appeal and all matters arising there from shall be determined conclusively as to all matters by the RAS and shall not be the subject of any appeal to any court or any order for review or of a similar nature.

SHORN AND UNSHORN SHEEP

169. All sheep in the British Breeds, Texel and Poll Dorset Classes (except shorn sheep) over 18 months old must have been fairly and evenly shorn between 1 August 2005 and the 31 March 2006. Date of shearing to be given on Entry Form.

170. Corriedales must be shorn on or after the 1 July 2005.

171. Merino Ewes must be shorn as at 15 August 2005 and Rams as at 1 March 2006.

172. The minimum wool length for Poll Dorsets and British Breeds (Shortwool) in all woolly classes shall be 4cm.

173. Exhibits of shorn sheep, except those entered in Romney Classes 1152 and 1155 must be closely and evenly shorn on or before the 1 September 2006.

174. Sheep entered in the two Romney classes 1152 and 1155 must be machine shorn with standard thickness combs on or after 1 June of the year of the Show.

175. Corriedale sheep entered in shorn classes may not have more than 5cm of wool on any part of its body at the time of inspection.

176. Border Leicester sheep must be shorn in accordance with the regulations appearing at the beginning of that Section.

177. No Longwool sheep (except Romney and Border Leicester) entered in a shorn class may have more than 4cm of wool on any part of its body at the time of inspection and no Shortwool sheep entered in a shorn class may have more than 2cm of wool on any part of its body at the time of inspection.

178. Exhibits in the wool are not eligible to be entered in the classes provided for shorn sheep, and if found to be so entered shall be removed from the Showgrounds.

JUDGING

179. The following regulations shall be read subject to Regulations 10.1 through to 11.7 inclusive of the General Regulations.

a). Judges may, if they so desire, commence judging on sheep under 1½ years.

b). Any animal entered that can be proved to the satisfaction of the Chief Steward to have received hormones shall be disqualified. The decision or determination of the Chief Steward shall be final and shall not be called into question in any proceedings or in any manner whatsoever.

c). Except as otherwise directed, every attendant of an Exhibit whilst parading such Exhibit either before a Judge or in a Grand Parade, shall be neat and tidy, wear long trousers and a clean and approved dustcoat or breed uniform. Such dustcoats or breed uniforms must in no way show any insignia or any distinctive markings indicating the Exhibitor's name and / or stud name or prefix. Sheep Exhibit numbers must also be displayed during judging. These numbers must be collected by the Exhibitor from the Superintendent's Office. Any Exhibitor or attendant not fulfilling these regulations will be excluded from competing in any judging.

d). Persons in charge of Exhibits at or in the Judging Ring shall not address the Judge unless authorised by the Steward in Charge or the Judge himself.

SHEEP SALES

180. Sheep not paraded before the Judge shall not be eligible for sale. This regulation does not apply to the sheep that is not rejected in a paired class where the Inspector rejects one of a pair.

181. Exhibitors who sell sheep during the period of the Show must make arrangements for the Exhibit Entry Tickets to be transferred to the purchaser or his agents to enable the sheep to be removed from the Pavilion at the conclusion of the exhibition.

8 SHEEP

PRIZES

182. Ribbons may be awarded up to 6th place as follows:

1 to 10 Exhibits per class: 1st, 2nd & 3rd ribbons.

11 to 20 Exhibits per class: 1st, 2nd, 3rd & 4th ribbons.

Over 20 Exhibits per class: 1st, 2nd, 3rd, 4th, 5th & 6th ribbons.

183. Judging is subject to General Regulation 10. The Judge is under no obligation to award the prizes listed in the table where he considers in his absolute discretion that such prize or prizes are not to be awarded.

PAYMENT OF PRIZE MONEY

184. Prize money as stated in the relevant Prize Schedule, does not include GST. GST will be added to the prize money for Exhibitors who are registered for GST purposes and have provided an ABN.

MOST SUCCESSFUL EXHIBITOR AWARDS

185. The Most Successful Exhibitor Awards in all breeds will be calculated from placings in Ordinary Classes as follows:

Classes with 1 to 10 entries: First 3 points, second 2 points, third 1 point.

Classes with 11 to 30 entries: First 4 points, second 3 points, third 2 points, fourth 1 point.

Classes with over 30 entries: First 5 points, second 4 points, third 3 points, fourth 2 points, fifth 1 point.

186. Placings in Trophy Classes, Objective Measurement Classes and Group Classes will not be taken into consideration when deciding these awards. Such classes are highlighted with an asterisk, i.e. Class 1709*.

187. In the event of a tie, two points will be allotted for Champion Awards and one point for Reserve Champion Awards. If a tie still exists a count back approved by the RAS will be made to determine the winner.

EXCESS ENTRIES

188. In the event of more entries being received than can be accommodated, ewe entries will be reduced to one in each class from any one Exhibitor.

189. If necessary, the number of sheep of each breed from any one Exhibitor may also be reduced to a figure determined by the RAS. The Exhibitors will have the right to nominate the sheep to be withdrawn should this reduction be necessary.

OBJECTIVE MEASUREMENT CLASSES

190. All entries in the Objective Measurement classes must be drawn from the Ordinary classes. The winning Exhibit in these classes is not eligible for Championships or Most Successful Exhibitor Awards unless it has won its Ordinary class.

191. An approved operator will measure Exhibits entered in Objective Measurement Classes.

INTERBREED CHAMPION AWARDS

THE "DALMORE TROPHY" DONATED BY THE LATE MR. D.S. MacGREGOR, M.B.E. AND A CHAMPIONSHIP SASH WILL BE AWARDED TO THE BEST RAM OF ALL SHEEP BREEDS AT THE 2006 ROYAL MELBOURNE SHOW. (S001)

DORSET HORN

Judge: Kim Weir

Dorset Horn Entries May Have Their Horns Cut At Eye Level (De-Horned)

NOTE: The lamb with ewe entered in the "Ewe and Lamb Class" may also be entered in the "Lamb Class", i.e. No.'s 1406 or 1413.

CLASS 1400 RAM, 1 ½ years old and over, closely and evenly shorn.

No Entries

CLASS 1401 RAM, under 1 ½ years old.

No Entries

CLASS 1402 PEN OF 2 RAMS, under 1 ½ years old.

No Entries

CLASS 1403 DORSET HORN RAM under 1 ½ years old. To be machine shorn not more than 28 days and not less than 14 days prior to judging; Standard combs to be used and the ram must not be trimmed at all.

The "W.J. DAWKINS" MEMORIAL TROPHY, donated by the late W.J. DAWKINS, O.B.E., will be awarded to the winner of class 1403.

Prizes: 1st, 2nd and 3rd Sashes will be awarded to the placegetters.

The ultrasound machine will be used in this class. Exhibitors are required to pay an additional \$6.50 per entry to cover the ultrasound measurement costs.

Each year the winner's name will be engraved on a perpetual Shield. The balance of the trophy, \$200, has been invested with the RAS, and the interest thereon will be accumulated until the award has been won three times by the same Exhibitor.

A cheque to the value of the accumulated interest will then be presented to that Exhibitor.

After one Exhibitor has won the award three times, competition will re-commence and previous wins will not count.

Winners: 1994, E.C. & J.E. Dixon (won outright); 1995, Deloraine Dorsets; 1996, G.B. Vanston & Sons; 1997, Deloraine Dorsets; 1998, No Award; 1999, P. Belford; 2000, P Belford; 2001, J.A. & M.Y. Gilmore & Sons; 2002, M.C. & K.M. Weir; 2003, J.A. & M.Y. Gilmour & Sons; 2004, T. Vale, 2005, K.M. Weir.

1 199 Hillend Partners: (HILLEND)

POLL DORSET

JUNIOR JUDGING

Conditions of Entry

Entries close with David Vanston and Ray Sutherland at 8.30am and Judging will commence at 1.00pm Saturday 23 September 2006.

Entry Free. No extension to the close of entries.

Competitors must be under the age of 21 at date of closing of entries and must be associated with a registered Poll Dorset flock. This event is open to previous winners.

Entrants will be judged on the following system in the junior judging competition:

1. A maximum of 25 points can be awarded for every placing which compares with the Judge's placing. The Judge shall have the power to use his discretion in allotting these points.
2. The Judge shall have the power to orally examine any competitor should the Judge wish to do so.

3. A maximum of 15 points can be awarded for any placing which is one away from the Judge's placing, but will be disallowed if an obviously inferior sheep is placed above the good one.

Prizes: 1st, Trophy, ribbon; 2nd, ribbon; 3rd, ribbon. (S150).

JUNIOR HANDLER COMPETITION

The Australian Poll Dorset Association Inc. is conducting this competition for the purpose of educating and encouraging Junior Exhibitors. Judging will take place in the Livestock Pavilion. Competitors must be under the age of 21 at date of closing of entries and must be associated with a registered Poll Dorset flock. This competition is open to previous winners. Prizes: 1st, Trophy, Ribbon; 2nd, Ribbon; 3rd, Ribbon. (For further particulars, please contact Mr. Peter Weston on 03 9817 6711). (S151)

The Junior Judging and Handler Classes will be separated in to two age groups:

AGE GROUP: 12 – 15 years
16 – 21 years

STUD CLASSES

Judge: Kim Weir

CLASS 1700

PERFORMANCE CLASS - RAM under 1 ½ years old, born after 1st April in the preceding year, MACHINE SHORN ONLY, not more than 28 days and not less than 14 days prior to judging. Two entries permitted per Exhibitor and exhibits are not to be entered in any other class.

Exhibitors must advise the RAS Sheep Event Co-ordinator in writing by 4 September 2006 of the tag number of the sheep.

Entrants will need to be current participants in Lambplan for Group Lambplan figures and 80% of rams in the Exhibitors flock must be tested by Lambplan.

The objectives of the Performance Class are:

To make show selection closer to practical ram selection with the Judge ranking rams as potential sires for use in a commercial prime lamb operation.

To promote improved genetic selection procedures. To allow breeders to compare rams between flocks using Estimated Breeding Values (EBVs).

To maintain the spectacle of the show ring and the interest of ram breeders and the general public.

An outline of the selection method for the Performance Judging Class is shown below:

Visual: 50 points
(fertility, judge to allocate points from 0 to 50.)

Performance figures: 50 points

MAXIMUM POINTS: 100 points

Points allocated for fertility and EBV's for leanness and growth will be calculated prior to judging. Points allocated for Breed Character and Structural Soundness will be allocated while sheep are in the judging ring. The target market for these sires is the production of Elite Lambs: 22kg carcase weight, fat score 2 and 3.

CLASS 1706 THE BALMORAL CLASS for a RAM under 1 ½ years old, born after the 1st of April in the preceding year. To be MACHINE SHORN ONLY (must not be trimmed) not more than twenty eight days and not less than 14 days prior to judging, standard combs to be used.

Prize: 1st, suitably inscribed Sash.

MESSRS. W.S. MARTIN AND SONS, Balmoral, Sandy Creek, S.A. have donated \$200 which has been invested with the RAS, the interest thereon will be accumulated until the award has been won three times by the same Exhibitor.

A trophy order to the value of the accumulated interest will then be awarded to that Exhibitor. After one Exhibitor has won the trophy three times, competition for the trophy order will recommence and previous wins will not count. Entries in the above class are limited to two from each Exhibitor.

Competition commenced 1982.

Winners: 1995, J.E. & K.M. Prentice (won outright); 1996, Kentish Downs; 1997, D & R Russell; 1998, G. & M. Armstrong; 1999 J.E. & K.M. Prentice; 2000 Kentish Downs; 2001, E.C. & J.E. Dixon; 2002, McLauchlan Partnership; 2003, J.A. & M.Y. Gilmore & Sons; 2004, R.J. & D.W. McKinnon; 2005, JE & KM Prentice.

***THE ALLEN E. DAY MEMORIAL TROPHY**, for the Best Pair of shorn Rams, under 1 ½ years old. (S152) presented by the FAMILY OF THE LATE ALLEN E. DAY, "Allendale", Bordertown, South Australia.

Only first prize winners in CLASSES 1705, 1708 and 1710 to be eligible to compete for this Trophy. Prize: Suitably inscribed Sash.

The sum of \$200 has been invested with the AUSTRALIAN POLL DORSET ASSOCIATION INC., and the interest thereon will be accumulated until the award has been won three times by the same Exhibitor. A Trophy order to the value of the accumulated interest will then be awarded to that Exhibitor.

After one Exhibitor has won the Trophy three times, competition for the Trophy will recommence and previous wins will not count.

Winners: 1986, Middle Creek Estates Pty. Ltd. (won outright); 1993, N & S Armstrong (won outright); 2002, J.E. & K.M. Prentice (won outright); 2003, J.A. & M.Y. Gilmore & Sons; 2004, Gilmore Bros; 2005, JA & MY Gilmore & Sons.

443 **JA & MY Gilmore & Sons:** (TATTYKEEL)

***POLL DORSET FOUNDATION BREEDERS' TROPHY** - For the best yearling Ram bred by Exhibitor and entered in the Ordinary classes. All first prize winners in the single classes and both first prize winning rams from the pair classes, to be eligible to compete. This Award to be judged after the Ram Championships. A Trophy valued at \$42 and Sash will be presented annually to the winner by the AUSTRALIAN POLL DORSET ASSOCIATION INC. (S153)

CLASS 1711 RAM LAMB, dropped after 1st April, of year of Show. Entries are restricted to two from any one Exhibitor and the dams shall not be exhibited.

NATIONAL liquor news

National Liquor News is Australia's leading liquor industry magazine and is proud to be associated with the 2006 Royal Melbourne Wine Show.

Would your brand benefit from being in front of over 10,000 liquor retailers across Australia? Each month, we publish a regional wine report, focussing on a specific wine region. We also publish regular features on different wine styles and varietals as well as an annual red and white report. Results of monthly, independent wine tastings, attended by sommeliers, wine writers and wine educators, are published in each issue and twice yearly, we publish comprehensive data on the Australian wine trade in Australian Liquor Research. For more details contact Amelia Ball or Kim Kidd on:

p: 02 9566 1777 e: aball@npg.com.au e: kkidd@npg.com.au

Promoting your brand specifically on-premise? Check out bars&clubs magazine - the official magazine for Australian bartenders. Keep your staff up-to-date with industry news and educational features by subscribing to National Liquor News. See below:

Pursue Your Passion

NMIT was the first TAFE in Australia to be accredited to offer specialist bachelor degrees in applied aquaculture, equine studies and viticulture & winemaking. The Bachelor of Australian Popular Music will commence in 2007. Eligible students can apply for the Commonwealth Government FEE-HELP loan scheme to cover tuition fees.

Diplomas, certificate level courses, new apprenticeships, pre-apprenticeships and short courses in a range of study areas are also offered.

Study areas include:

- Agriculture, Aquaculture & Animal Studies
- Arts & Professional Writing
- Building, Construction & Design
- Business
- Child & Community Studies
- Computer Systems, Electronics & Electrical
- Engineering, Jewellery & Locksmithing
- English as a Second Language & Adult Education
- Equine Studies
- Hairdressing & Beauty
- Horticulture & Floristry
- Information Technology & Multimedia
- Management & Human Resources
- Office Administration, Legal & Retail
- Science
- Sports & Massage
- Tourism, Hospitality & Cookery
- Visual & Performing Arts
- Viticulture & Winemaking

NOTES ON WINE JUDGING

Exhibits are judged on a point score with a maximum of 20 points.

On the judging sheets this is divided into:

1. 3 points for colour and condition, often wines with poor colour are rejected for defects on both nose and palate;
2. 7 points for nose; and
3. 10 points for palate: a wine with an excellent nose may fall down on the palate due to excessive acidity or tannin defects. Conversely, some wines with only a fair nose may have excellent balance on the palate.

Medals are awarded for the following points:

18.5 – 20 = Gold Medal

17.0 – 18.4 = Silver Medal

15.5 – 16.9 = Bronze Medal

All exhibits are judged "on the blind". Judges do not site or handle the bottles.

In Melbourne, the judges are arranged into six panels, each consisting of three judges. The Chairman of Judges divides the classes to be judged between the panels. He also gives guidance, clarification and in the case of any disputes he will adjudicate.

Each class is set up and poured by associate judges and stewards. The judges assess the wines, allocate points and then medals are awarded. The points listed in the results section represent the total of the three judges' assessments.

Judges are generally selected from those who work in or are connected with the wine industry. Potential judges are recommended to the Royal Agricultural Society of Victoria Limited and are given experience as associate judges. New judges are selected from the best performers. No exhibitors can participate in session two of judging where medals are awarded.

The following definitions of the various wine types are offered for the guidance of exhibitors.

Varietal wines should comprise at least 80% of the specified variety for 1993 and earlier vintages and 85% of the specified variety for later vintages.

NOTES ON WINE JUDGING

DRY WHITE

Should be in brilliant condition, pale to medium straw in colour, preferably with a slight green tinge. Light to full-bodied, medium to high acidity with a fresh bouquet, clean after taste, no lingering sweetness. In the wooded classes, the oak should be in harmony with the vinosity of the wine. Alcoholic strength should be between 8% and 14% by volume.

MEDIUM DRY WHITE

Specification similar to Dry White but with some sweetness not exceeding 1 degree baume.

SWEET WHITE

Should be a brilliant condition, straw to light golden colour, medium to full bodied with a bouquet which is aromatic or complete and distinctly sweet in flavour. Its alcoholic strength should not exceed 14% by volume and it should not show excessive sulphur dioxide. Baume should exceed 1 degree baume.

ROSE

A still, light and tart table wine with a slight tannin finish and a fresh fruit flavour, but without Muscat character. Colour is generally pink, but many have a trace of apricot or amber tint. Alcoholic strength should be between 8% and 14% by volume.

LIGHT BODIED DRY RED

Colour is typically light to medium red. A blue or purple tint may be present. Aroma and bouquet – varietal aroma may occur in varying degrees. It should be fresh and fruity and in harmony with the body and flavour of the wine. Palate – soft and light without being thin and rounded in the mid palate. Finish clear and crisp with soft astringency. The alcoholic strength should be between 8% and 12% by volume.

DRY RED

Colour medium to deep red. According to age, a blue or purple tint may be present in a young wine or a light brown edge may be present in an aged wine. Aroma and bouquet – varietal aroma may occur in varying degrees. It should be fruity and in harmony with the body and flavour of the wine. The bouquet may show evidence of maturation in oak vessels and in older wines, bottle age. Palate should be soft, rounded and generous in mid palate. The body should be medium to full and in balance with the acidity. The finish should be clean, with tannin from maturation in wood but this should not predominate. The alcoholic strength should be between 8% and 14.5% by volume.

SWEET WHITE DESSERT

Golden to dark brown in colour depending on age. Must not show Muscat character, but have fruity and aromatic bouquet. It must be full bodied, soft and luscious. Strength not to exceed 20.5% alcohol by volume.

MUSCAT

Colour is generally golden to red, with a distinct muscat bouquet and palate. Full bodied and soft and luscious. Strength not to exceed 20.5% alcohol by volume.

TAWNY PORT

Colour is pale red with distinct amber tinge. The bouquet is fruity and aromatic, palate full and soft with distinct dryness on the finish. Some flavour of oak tannin from the maturing wood is desirable. A lingering sweetness on the after palate is undesirable. Strength not to exceed 20.5% alcohol by volume.

NOTES ON WINE JUDGING

VINTAGE PORT

Colour deep ruby to light ruby, possibly with slight amber tint, depending on age. Bouquet, fruity and characteristic of bottle aged vintage port. Should not show wood character. Flavour full and soft with firm astringent finish and no lingering sweetness. Strength not to exceed 20.5% alcohol by volume.

SHERRY, Pale, Dry, Fino

Colour straw to pale golden. Bouquet characteristic of Flor sherry. Flavour light and dry without excessive acidity or astringency, but some oak character. Finish dry, aromatic with distinct 'nutty' after taste of sherry. Strength not to exceed 20.5% by volume.

SHERRY, Amontillado

Colour golden to light amber. Bouquet showing more age than Fino sherry. Palate fuller and softer than Fino with some oak showing through. Finish dry and aromatic with characteristic, 'nutty' after taste of sherry. Strength not to exceed 20.5% by volume.

SHERRY, Oloroso

Colour amber to brown. Bouquet showing both oak and sherry character. Palate soft and round but with a dry finish. Strength not to exceed 20.5% alcohol by volume.

SPARKLING WHITE

Colour should be pale to light straw. Should have good acidity and not be too light in body. Bouquet should be fresh without particular varietal character and should indicate some years in the bottle. The wine should be fairly dry but show no astringent finish. Bubbles should be fine and persistent.

SPARKLING RED

Colour should be light to medium ruby. Older wines may show a trace of amber but not more than a trace. Bouquet fruity but should show bottle age. Fairly pronounced acidity. Full flavour and body, some sweetness but with a dry finish. May show slight oak character. Bubbles should be fine and persistent.

TWO YEAR OLD BRANDY

Entries in this class should be representative of popular commercial brandies, but should avoid fruitiness. The brandy should be well balanced distillate of wine made from neutral grape varieties. It should avoid excessive heads or tails and should not show varietal character (e.g. Muscat). It should be smooth but without evident sweetness. A clear balance bouquet is essential. Colour light amber.

OLD BRANDY

Colour may be somewhat darker than in the young brandy class. Well matured oak should be distinguishable on both bouquet and flavour. Bouquet should be clean and somewhat ethereal but well balanced showing no particular constituent to excess. Flavour should be full smooth and aromatic. Finish aromatic without trace of fusel oil. No varietal character or fruitiness should be evident. Some slight sweetness is acceptable.

Really Tough ^{safe} Vehicle.

The new diesel powered Kubota RTV900 is the 'Rolls Royce' of all-purpose utility vehicles. Designed to provide superior safety and performance, the RTV900 is built to handle all kinds of heavy duty applications.

- Roll over safety frame
- Hydrostatic transmission
- 21HP - 3 Cylinder Kubota engine
- 4 wheel drive with power steering
- Hydraulic tilt tray
- Spacious bench seat
- Heavy duty bumper

Our Ref:

MESSAGE FROM THE PREMIER OF VICTORIA

It gives me great pleasure to once again congratulate the winner of the Premier of Victoria's Gold Trophy at The Royal Melbourne Wine Show.

The Victorian wine industry continues to grow strongly with exports reaching \$532 million in 2004-05. The Royal Melbourne Wine Show, with its long tradition of excellence, is helping to support the future growth of the industry by promoting and showcasing Victoria's unique range of wine styles from across our 22 wine regions.

Future growth will also be supported by the Victorian Wine Industry's second five-year plan, *Vintage 2010: Strategic Plan for the Victorian Wine Industry 2006-10*, which sets a new ambitious sales target for the State's wine producers of \$1.8 billion over the next five years.

This year, the Premier's Gold Trophy is to be awarded to the Best Victorian Fortified Wine in Show.

I congratulate Morris Wines on winning the 2006 Premier of Victoria's Gold Trophy with their Morris Old Premium Liqueur Tokay NV.

Victoria has an enviable international reputation for producing high-quality fortifieds, many of which are unique to our State. I am sure Morris Wines' Morris Old Premium Liqueur Tokay NV will boost this reputation further.

Steve Bracks.

HON STEVE BRACKS MP
Premier of Victoria

RURAL FINANCE

Rural Finance has supported Victoria's rural sector for 60 years with a range of specialist, flexible and competitive products aimed at enhancing the prospects of farming and rural businesses.

Rural Finance is now able to assist a wider range of farmers. Our lending base has expanded to incorporate interstate farmers who are contributing or intend to contribute to the regional economy of Victoria.

Some of our attributes are:

Flexible Loan Packages

With flexibility and understanding in mind our specialist agribusiness team can design a loan package to meet individual business needs.

Personal On-Farm Service

Our agribusiness lenders personally visit clients and prospective clients on-farm to assess a finance proposal. Once the link is established our team maintains contact to ensure long serving business relationships are nurtured.

Rural Experience and Knowledge

Our staff have a wide range of rural experience and knowledge and understand the peaks and troughs associated with agriculture.

No Ongoing Fees

Apart from an initial establishment fee there are no ongoing or renewal fees on our loan products.

Seasonal Support

Rural Finance understands the effects of seasonal variations and commodity price movements and how these elements impact on a rural business and its ability to service borrowings. Our loans provide for repayments to be adjusted in challenging times.

Rural Finance - It's who we are and what we do

2. 2005 VINTAGE SECTION

Class 19 - DRY RED, Cabernet Sauvignon

A great strong class. Fruit balance is the key - some were too herbal and some overripe. Some beautifully balanced wines rewarded.

G 104	Pressco Services Pty Ltd: Mike Press Cabernet Sauvignon (2005)	56

87	Zilzie Wines Pty Ltd: Zilzie Cabernet Sauvignon (2005)	

Class 20 - DRY RED, Shiraz

Good class with many solid wines. Too many over-ripe and porty wines and some poor oak handling. Lesser wines too alcoholic or showing 'dead fruit' raisin flavour. Some good medium bodied styles with balance and texture.

Class 21 - DRY RED, Pinot Noir

Not a strong class. Many wines looked like the winemakers were trying to do too much with too little. Main problem was lack of fruit intensity and fruit sweetness.

Class 27 - DRY WHITE, from highly aromatic, floral varieties. Examples Traminer, Frontignan, Riesling, Traminer Riesling and blends of these varieties

S 5	Delatite Winery: Delatite Gewurtztraminer (2005)	51.5
4	Fonty's Pool Vineyards Pty Ltd: Fonty's Pool Viognier (2005)	
3	Kambera: Kambera Meeting Place Gewurtztraminer (2005)	
1	Naravin Wines Pty Ltd: Toccas Game Set Match Riesling Sauvignon Blanc (2005)	
2	Stonehaven: Stonehaven Gewurtztraminer (2005)	

Class 28 - DRY WHITE, Chardonnay

Strong class, few faults. A lot of elegant styles. Best wines showing elegance and texture as well as complexity. Lesser wines had good format but not fresh and lively enough. Some wines trying for the modern elegant style but ending up a bit 'plain'.

G 143	Coldstream Hills: Coldstream Hills Reserve Chardonnay (2005)	56

128	Saltram Wine Estate: Saltram Mamre Brook Cabernet Sauvignon (2004)		
85	Sevenhill Cellars: Sevenhill Cellars Cabernet Sauvignon (2004)		

Class 43 - DRY RED, Shiraz

Strong class with vintage conditions resulting in high alcohol and shortage of fruit balance. A few brett & sulfide faults. Top award winners display diversity of style.

202	Yarrawood Estate: Yarrawood Estate Shiraz (2004)

Class 44 - DRY RED, Pinot Noir

Lack of generosity the main problem. Signs of over-cropping and over-extraction. Top wines have strong varietal fruit, sweet middle palate and balanced tannins.

AGED WINES 2001 VINTAGE & OLDER

Class 52, DRY RED

An interesting class, a lack of fruit sweetness coupled with out of balance acidity/tannin led to some tough wines. Top wines had intense fruit with very well structured palates. Very good oak handling on most.

G	50	Geoff Merrill Wines: Geoff Merrill Reserve Cab (2001)	56
G	75	Houghton Wines: Houghton Margaret River Cabernet Sauvignon (2001)	55.5

5. COMMERCIAL SECTION - ANY VINTAGE

Class 64 - DRY WHITE, from highly aromatic, floral varieties (such as Traminer, Frontignan, Riesling, Traminer-Riesling) and blends of these varieties

Well made wines and probably many of good value for money. International judge particularly impressed.

G	8	Wolf Blass Wines: Wolf Blass Yellow Label Riesling (2006)	56
G	7	Hardy Wine Company: Nottage Hill Riesling (2005)	55.5
S	9	Leasingham: Leasingham Bastion Riesling (2005)	52.5

13		Tyrrell's Vineyards Pty Ltd: Stevens Semillon (2003)	

Class 67 - DRY WHITE, for blends and varieties ineligible for Classes 64 through 66

Interesting blends do not always seem to produce great wines. Too many green, thin, unripe. Lacked fruit definition and flavour. A standard commercial range of wines.

G	39	The Yalumba Wine Co: Yalumba 'Y' Viognier (2005)	55.5

Class 72 - DRY RED, for blends and varieties ineligible for Classes 70 and 71

Interesting line up. Cab/Shiraz and Shiraz/Cab blends strongest. Not enough new varieties. Most wines clean. Most faults were green and tired characters.

Australia's fine wine specialist sponsors the Royal Melbourne Wine Show

At Vintage Cellars, Australia's fine wine specialist, we show off great wine, every day. So we're totally committed to supporting Australia's unique wine show system, which develops and promotes Australian winemaking.

We believe that Shows play a vital role in rewarding excellence and encouraging a great diversity of wine styles from makers large and small throughout Australia. Wine shows provide

publicity for winners and give consumers a valuable quality guide.

We encourage the Royal Melbourne Wine Show to continue to innovate, to lead our fast moving industry and deliver credible results to exhibitors and consumers.

In this spirit, Vintage Cellars is delighted to sponsor the 2006 Trophy for Best White Commercial Section – Classes 64 and 68.

VINTAGE CELLARS™
AUSTRALIA'S FINE WINE SPECIALIST

6. SPARKLING WINE SECTION

Class 73 - SPARKLING WHITE, 2004 Vintage and younger or younger than 24 months (average age) for NV wines

Wines well made and well balanced but generally the wines lack complexity of aroma and flavour. Some very recently disgorged and this shows negatively.

WE CAN SEND YOUR BUSINESS PLACES

We love wine. As well as proudly sponsoring the Royal Melbourne Wine Show, some of Australia's wine makers have asked us to help cultivate their business internationally. So we established a mail order network that delivers product to Singapore, without spilling a drop. How delicious. Just like a good Chardonnay, we can send your business places. Call Australia Post on 13 11 18 or visit auspost.com.au

So Indulgent.

 Victoria Axemen’s Council Novice Standing Block Championship Final (250mm)
EVENT 37 - Double Handed Sawing Handicap (450mm)
EVENT 13 - Standing Block Handicap (250mm)
Teams Race - Final

REGULATIONS APPLICABLE TO WOODCHOPPING CONTESTS

The Woodchopping Contests are registered with the Central Victorian Axemen's Association Inc. and held under the guidance of Australian Axemen's Association Inc. Rules.

CONDITIONS OF ENTRY

101. The rules appearing in this Schedule form part of the Regulations and conditions of entry to an Event at the Show. In the event of any inconsistency between the Regulations and these rules, the Regulations shall prevail to the extent of the inconsistency unless the Regulations provide otherwise.
102. Scratchings must be notified to the Woodchop Handicapper by 5 p.m. on the day prior to the event. Competitors not notifying scratchings will be fined \$50.
103. The logs and billets will be any variety of timber and any length approved by the Stewards in their absolute discretion. The diameter of all logs will be as uniform as possible.

104. ALL COMPETITORS must state on the entry form their last win and handicap and a list of their last four performances anywhere, irrespective of Association or State, together with the name of the backmarker. An entry will definitely not be accepted unless the last win and the last four performances for each class of event entered, are stated on the back of the entry form. This applies to ALL Australian and New Zealand competitors.

105. The contest will be chopped in heats and a final, according to the number of entries.

106. All logs and billets will be numbered, and will be drawn for by the Stewards.
 107. The first and second competitors in each heat unless otherwise stated, shall compete in the semi-final or final. At the absolute discretion of the Stewards, when there are two semi-finals, they may take one, two or three placegetters to start in the final.

108. No competitor will be allowed to make any axe marks on his log or to the foot holes or dog holes before his handicap starting time as allotted by the Handicapper.

109. No persons, other than competitors and officials, will be allowed in the arena during the contest.

110. Axes must entirely sever logs in two parts; competitors who sever logs with the aid of pushing or pulling will be automatically disqualified.

111. Competitors must be at their places prior to the advertised time of starting. Events will be commenced at their advertised starting time notwithstanding the absence of any competitor.

112. Each competitor shall wear long white trousers, white boots or shoes and a singlet or shirt which must be of a colour considered by the Steward-In-Chief to be appropriate to the State in which he resides or appropriate to the particular event in which the competitor is competing.

A competitor's wearing apparel must at all times be kept in a clean and tidy condition throughout the period of the Show. Competitors in finals should not leave the arena between end of final and presentation of awards and they must remain in the same uniform.

No advertising matter of any kind shall be displayed or be visible on the wearing apparel of any competitor, without prior approval of the Steward-In-Chief, except that the insignia or Coat-Of-Arms for Countries, States or Association Show Societies, Clubs or other bodies may be worn on the singlet or shirt front subject to the prior approval of the Steward-In-Chief.

113. In any Association or Club teams race, the Association or Club uniform coloured singlets are to be worn.

114. Any axeman who holds the right to compete in novice events, forfeits the right to compete in a novice of the particular event when he/she has won a single handed open handicap event anywhere in Australia. This rule applies Australia wide and is irrespective of prize money. A competitor who claims to be a novice may be required by the Steward-in-Chief to make a statutory declaration to this effect.

115. The Society may appoint a Disputes Committee for the Woodchopping Contests and any decision of this Committee shall be final in all respects whatsoever save only for any decisions or directions of the Society. No decisions, directions or determinations made by the Disputes Committee, or the Society for the purposes of the Wood Chopping Contests shall be called into question in any manner or in any proceedings whatsoever.

116. Competitors must use clamps as supplied by the Society in all Standing Block Events.

117. A Competitor who wins an event after the posting of marks may be re-handicapped for any subsequent event or events. The Society reserves the right to re-handicap a competitor before an event has commenced.

118. Every care must be exercised to keep axes and saws covered. Axes and saws MUST NOT be carried among the general public unless so covered. Competitors should note the terms of rules 10.1 and 10.2 of the General Regulations. **All axes shall have a pin (minimum size 3mm) placed through the axe as near as possible to the centre of the handle area.**

119. Logs situated in a reserved area adjacent to the Dressing Room will be provided to enable competitors to test their axes. Competitors shall not be permitted to test their axes in the main arena.

120. In the Underhand events all axemen must finish on their logs.

121. In a Tree Felling event any axeman chopping in a previously cut board hole will be automatically disqualified.

122. Under no circumstances are axemen permitted to enter the Log Enclosure without the permission of the Log Steward.

123. In all sawing contests saw cuts shall be started as close as possible to the front end of the log and shall not be more than 100mm in from the edge of the top side. Oil may be used on the saw immediately prior to the commencement of the contest. In sawing contests the saw must saw through the log from one side only.

124. In sawing contests the wedger shall stand behind the log and if any wedger in any way touches or guides a saw or touches or guides that portion of the log which is being cut off, the competitor or team concerned shall be automatically disqualified. The wedger's wearing apparel must conform with regulation 112.

Definition: "Behind the log" in this regulation shall be interpreted to mean the opposite end of the log to the saw cut.

125. In the 400mm diameter butchers blocks one member of each team shall open a scarf and cut the log approximately half way through, the first cutting member of the team on ceasing to cut shall retire to his neutral area and visually indicate to his partner, in a manner prescribed by Stewards, that the other team member is to complete the cut by opening a scarf on the opposite side of the log. The wedger's wearing apparel must conform with regulation 112.

126. Save only as provided in regulation 115, any decision of a Steward with respect to any matter related to the Woodchopping Contests shall be final and any regulations, conditions, rules or guidelines, which may be expressed to apply to the Woodchopping Contests shall in no way be construed as limiting the discretion of the Stewards to conduct the Contests in such manner as they think fit.

127. Inscribed Sashes and Ribbons, presented by the Society will be awarded to the first, second and third prize winners of events Nos. 1 to 44 inclusive.

128. Woodchopping contest times and dates will be announced in the Catalogue.

SPECIAL NOTE

- All axemen are requested to be present in the Axemen's dressing room at 11.45 a.m., Friday 22nd September to be advised of the rules they are chopping under.
- All winners of Handicap events are subject to re-handicap for the remainder of the Show.
- The Handicaps are subject to alterations as the Handicapper thinks fit.
- Penalty for win up to 4 seconds.
- Axemen are to report to the Stewards half an hour before the time of the event they are to compete in.
- Winners of prize money at Brisbane and Adelaide Royals must declare same to Handicapper before competing in any event.
- Scratchings must be notified to the Woodchop Handicapper or Arena Broadcaster by 5 p.m. on the day prior to the event.
- **COMPETITORS NOT NOTIFYING SCRATCHINGS WILL BE FINED \$50.**
- All handicap events are handicapped behind scratch.

2006	D. Arnold (Tas); 19.33secs

GRAND AGGREGATE TROPHY

The competitor gaining the highest number of points shall be declared the winner.

A "Golden Axe" presented by MARTIN O'TOOLE and JIM O'DOWD will be awarded to the winner. This trophy shall be decided on the points awarded to each competitor in the grand finals of all RASV events except team event Nos. 42, 43 and 44 as follows:

1st: 7 points; 2nd: 3 points; 3rd: 2 points; 4th: 1 point

In two person events, the points shall be shared.

In the event of a tie, the winner will be declared on a count back of the most wins in finals. If a tie still exists, a similar count back will take place in semi-finals.

Previous winners: 1955, Ray Youd (Tas); 1956, C.J. Lavis (N.S.W.); 1957, Jack O'Toole (Vic); 1958, G.E. Parker (Qld); 1959, Equal First, G.E. Parker (Qld) and Mervyn Youd (Tas); 1960, G.C. Richardson (N.S.W.); 1961, R. Sheriff (Tas); 1962, L.S. Fullgrabe (S.A.); 1963, N. French (Tas); 1964, A.H. Robbins (Vic); 1965, L.J. Caldwell (Vic); 1966, Jack O'Toole (Vic); 1967, N. French (Tas); 1968, G.R. Smith (Vic); 1969, D. Youd (Tas); 1970, Jack O'Toole (Vic); 1971, D.L. Youd (Tas); 1972, G.R. Smith (Vic); 1973, B. Youd (Tas); 1974, L. Matheson (Vic); 1975, R. Christian (Vic); 1976, D.J. Foster (Tas); 1977, G.R. Smith (Vic); 1978, D.J. Foster (Tas); 1979, P. Dingle (Qld); 1980, D.J. Foster (Tas); 1981, D.J. Foster (Tas); 1982, D.J. Foster (Tas); 1983, D.J.
