REGULATIONS FOR PRODUCTION CLASSES

186. The production figures used in judging will be the weight of butterfat and protein (expressed in kilograms) and volume of milk (expressed in litres) from the lactation begun 1 September 2008, or later to production as at 1 August 2010 with a maximum limit of 305 days.

187. The points allocated for Exhibits entered in Production Classes reflect the dollar value of an Exhibits production in the marketplace. The formula uses the opening season prices for protein, butterfat and volume of one processor: protein (kg) x \$/kg plus butterfat (kg) x \$/kg minus volume (litres) x \$/litre. This figure is then divided by 10 to give the production points. For example, using last year's prices and an entrant's production: (317kg x \$9.40 + 369kg x \$3.76 - 9154 litres x \$0.028)/10 = 411.09 points.

188. Certificates of Production must be from recognised Recording Facilities, and entered animals clearly identified.

189. Such certificates must accompany the Nomination Form and be forwarded to the RASV Offices by Friday, 13 August 2010. If certificates are not received by this date, the entries so affected will not be eligible for Production Awards.

190. All records will be verified prior to commencement of the Show, with the appropriate Recording Facility.

191. Only those females placed first, second or third in the Type judging of their class will be eligible. A first prize winner will receive ten (10) points and a second prize winner will receive five (5) points in recognition of their award received in the Type judging. These points will be added to their Production figure and the winner will be the cow with the highest total score.

192. First prize will be awarded to the female having the highest total Type and Production Judging Score. In the event of a tie, the female with the highest Production figure will be the winner. The winning cow will automatically be eligible for the Interbreed Type and Production Award.
