# FIFTY-FIFTH ANNUAL REPORT

OF THE

## COUNCIL

OF THE

# ROYAL AGRICULTURAL SOCIETY

## OF VICTORIA

---

To the Members.

Ladies and Gentlemen,—

Your Council has pleasure in presenting the following report of proceedings of the Society for the year 1925.

### Permanent Buildings and Works.

Comparatively little was done during the year in the way of carrying out permanent improvements. The provision of an additional refreshment buffet facing Plummer Avenue, and surrounded by garden plots and seated lawns, was the chief work undertaken. Gas and electric services were extended in several parts of the grounds—an auxiliary gas hot water service was provided at the “Royal” Luncheon Rooms, and many important additions and improvements carried out in the luncheon rooms beneath the main grandstand. In order to improve the water service at the grounds, your Council came to an arrangement with the Melbourne and Metropolitan Board of Works, whereby a new nine-inch main was laid from Maribyrnong-road, a distance of approximately three-quarters of a mile, and towards the cost of which the Society contributed a sum of £1000. This main was completed a few days before the opening of the last Show, and it proved of such great service that the whole of the difficulties experienced in recent years, both in relation to the sewerage and the water supply, were entirely overcome.

The subway at the level crossing in Epsom-road was practically completed prior to the Show, and this proved of very great advantage, not only to the railway and tramway services, but also to the ever-increasing volume of vehicular traffic along this busy thoroughfare.

A strip of land ten feet in width from the side of the Dog Pavilion to the extreme end of the garden in front of the Secretary's residence was transferred to the Melbourne City Council for the purpose of completing the widening of the whole of Epsom-road along the frontages of both the Show Grounds and the Flemington Racecourse. When the tram tracks are moved over to the new centre of this road, and the necessary alterations made to the footpath and the channelling, the carrying capacity of this road will be practically duplicated.

The cost of this undertaking has proved to be much higher than was originally estimated, and the Society's quota, which is to be 10 per cent. of the whole, is likely to exceed £3000.

A new horse wash was built beside the No. 2 Horse Pavilion, another copper house erected at the far end of the Swine Pavilion, and a Weighbridge provided for use in the fat stock competitions, and for the general convenience of exhibitors. Many other works of a minor

character also received attention during the year, the total expenditure on permanent buildings and works, exclusive of that on the new water main and the subway, amounting to £1,588/13/9.

### The Exhibition.

The Society's Annual Exhibition was held from 17th to 26th September. The Prize Schedule was revised early in the year, and liberal prizes were offered for competition. The entry that was received again constituted a record. Every available stand was occupied throughout the grounds, and additional space is urgently required to meet the ever-growing demands of exhibitors.

During the exhibition the weather conditions were more favourable than usual, and as a result the attendances constituted a record, the aggregate for the whole period being 318,457, as against 284,984 last year. The gate money, including £2414/7/3 from the grandstands, amounted to £22,546/2/5, being £2737/14/5 in excess of last year, and £1549/9/7 in excess of the record takings in 1923.

For the purposes of comparison, the following table is published to show the number of entries in the several sections for the last two years:—

SECTION.					1924.	1925.
Clydesdales	..	..	..	..	271	203
Shires	..	..	..	..	—	—
Draught Horses	..	..	..	..	36	34

Fruit, etc.	..	..	..	..	..	172	276
Apiculture	..	..	..	..	..	10	26
Women's Industries	..	..	..	..	..	934	895
Arena Contests	..	..	..	..	..	977	1314
Milking, Wool Classing & Judging Competitions	..	..	..	..	..	186	215
Non-Competitive Entries						2,400	2,600
						11,842	11,942

It will be observed that there was a slight falling off in the number of entries in the Clydesdale Section, but it is pleasing to record that the standard of quality was well maintained. Light horses, too, were in fewer numbers than last year, but there was a consensus of opinion amongst competent judges that a better lot of horses had never previously been exhibited at one of this Society's Shows.

The exhibition of beef cattle was again satisfactory, the numbers being approximately the same as usual, and the uniformly high quality of recent years was well maintained. In many of the Dairy Cattle Sections there was a substantial falling off in numbers, particularly in the younger classes, with the result that these sections were more uniform in quality than formerly.

The "Weekly Times" Milk and Butter Fat Test again created a great amount of interest, as did also the special competition for Captain A. E. T. Payne's prizes for the cows that showed the greatest percentage of profit in butter fat and skim milk after taking into consideration the cost of the fodder consumed. It is evident, however, from the result of the latter competition that the conditions will have to be amended prior to the next year's Show.

Probably at no previous Show was there such a fine exhibition of fat cattle as that in September last. Entries were double those of the previous year, and the judges spoke in eulogistic terms of the quality of the stock exhibited. Throughout the Sheep Sections there was a slight increase over last year, and it is pleasing to record that the exhibits were thoroughly typical of the breeds they represented.

Exhibits in the Swine Section, both from the point of view of numbers and quality, were in advance of the previous year; but in the Poultry Section there was a considerable falling off in the number of entries. This has been attributed to a very substantial increase in the railway freight, many country exhibitors forwarding half or less than half of their usual number of birds. There was a fine display of pigeons, cage birds, and cats, and the arrangements made for benching these exhibits met with general approval. Owing to a large increase in the number of entries in the Dog Section, there was a good deal of congestion both from the point of view of the animals exhibited and the visitors who were anxious to inspect the dogs on their benches. To cope with this difficulty, the Council has already arranged to make an extension of the existing Dog Pavilion.

Entries in the Farm Produce Section are still very disappointing, but your Council has again decided to offer £150 in prize money to the Agricultural Society whose members score the greatest number of points in the classes that will be included in the Produce Section at the 1926 Show, and in addition, special prizes, amounting to £75, will be awarded to the Agricultural Societies whose members score the greatest number of points in the cereal classes. It is hoped that these handsome prizes will stimulate interest in the country, and will result in a considerable increase in the number of entries that are received in this most important section.

The outstanding feature of the Agricultural Hall was undoubtedly the four District Exhibits. The displays made on this occasion excelled those of any previous year, and the new basis of awarding points in this section appeared to meet with general approval.

The Competition for State Schools was up to the usual standard, and a new section was added for work carried out in technical schools. It is believed that in the near future this section will become one of the most popular in the Show. There was a slight falling off in entries, both in the Dairy Produce and Wine Sections, but in the Fruit Section there was an increase of nearly one hundred entries over last year, the children's Apple Packing Competition alone securing no less than 80 entrants. Every year sees a marked increase in the general standard of quality of the exhibits forwarded in the Women's Industry Section, and the class for "One Woman's Work" appears to create more interest than any other class throughout the whole Show. There was a satisfactory increase in the number of entries in the Apiculture Section, but the support accorded by bee keepers is still far below what might reasonably be expected. Never before has there been such a heavy entry for arena contests. The judges' reports reveal that competition was particularly keen, and it is pleasing to record that the percentage of accidents was lower than at any previous Show. Interest in the Judging Competitions increases year by year, and not only were there more entries in each class, but the contestants displayed greater keenness, and a higher standard of knowledge on the finer points of excellence to be looked for in the exhibits that are placed before them for examination. A Milking Competition was included in the Schedule for last Show, and this created the greatest possible interest amongst dairymen. It is hoped that as a result of this competition more and more attention will be paid to hygienic methods of milking on the farm.

The display of Agricultural, Dairying and other Machinery proved to be one of the outstanding features of the Show, and owing to the ever-growing demand for space, great difficulty is experienced in meeting the requirements of exhibitors.

The Department of Agriculture again arranged a very attractive exhibition of the products of the soil. Each year this display is becoming more interesting and of greater educational value. The whole of the arrangements reflect the greatest credit upon the officers of the Department who are responsible for the organisation.

The Railway Department is again to be congratulated upon the highly efficient manner in which the transport arrangements were organised. It would be very difficult indeed to suggest any improvement in the manner in which the passenger traffic was handled, and this year the live stock was also dealt with in a highly efficient manner, particularly on the homeward journey.

The Creche again proved to be of great convenience to mothers, and on several days of the Show upwards of one hundred children were left in the hands of the Superintendent whilst their mothers inspected the Show Grounds in comfort.

The general standard of catering still shows a steady improvement, and it is hoped that as additional facilities are provided still greater satisfaction will be given to Show patrons.

A series of lectures and sheep shearing and wool classing demonstrations was again arranged during the Show, and it is pleasing to record that these were better attended than in the previous year. The Society is greatly indebted to the lecturers for the assistance thus given, and it is hoped that in the near future this educational work will be recognised as one of the main features of the Show.

This year for the first time the Show was officially opened from a special dais that had been erected in the outer grounds. The function was very largely attended, and the innovation made by the Society to give recognition to the fact "that all good gifts around us are sent from Heaven above" by the singing of the "Old Hundredth Hymn" in connection with the opening ceremony was warmly endorsed. On the same occasion His Excellency the Governor also presented a large number of trophies that had been won on the opening day of the Show. The whole proceeding was pronounced to be a great success, and a marked advance on the arrangements made in previous years.

### **The Australian Society of Breeders of British Sheep.**

The Flock Book for British Breeds of Sheep in Australia, which has existed for the last thirty years, was, since its inception, under the control of a Committee appointed by your Council; but at the request of the breeders registered therein, it was decided early this year to hand the book over to the control of the breeders themselves, with the object of having for all British breeds one Commonwealth organisation, with branches in the various States.

The breeders have formed themselves into a society, known as "The Australian Society of Breeders of British Sheep," and the Constitution and Rules, which had been approved by your Council, were adopted at the first meeting of the Federal Council of the Society held during the currency of the last Show. The formation of branches of the Society in the various States of the Commonwealth has been attended with success, and at the present time flourishing branches are in existence in the States of South Australia, Western Australia, Tasmania and Victoria. The Federal Council appointed by the breeders

is the controlling body, and your Council has agreed to the secretarial work of the Federal Council and the Victorian Branch being undertaken by its staff. Volume 17 of the Flock Book, containing the histories and returns of 405 flocks, was published in May last. Volume 18 is now being prepared for publication, and it is hoped that it will be available for distribution in April next.

### **The Commonwealth Clydesdale Horse Society.**

Following the successful publication of the first volume of its stud book early in 1924, this Society received such an encouraging number of entries for the second volume that these were examined and passed by the Federal Editing Committee in September last. Since then, numbers have been allotted, and the volume has been placed in the hands of the printer.

Beginning in August last, this Society now distributes a **Monthly News Circular** to its members, and copies are also forwarded to newspapers throughout Australia. These circulars contain much that is of interest to horse breeders generally, and show that the horse is still far from being a back number in agriculture or for city transportation work.

A little booklet, published by the Victorian Branch, and distributed during the last Royal Show, was very favourably commented upon.

Since Mr. W. M. Black decided to offer his handsome Clydesdale Challenge Cup for competition at Melbourne Royal Show, Messrs. F. S. Falkiner and Sons have offered an equally valuable trophy for competition in New South Wales. The W. M. Black Cup is awarded to the best Clydesdale male two years old or over, whilst the Widgiewa Cup is offered under somewhat similar conditions for females. Competition for these trophies will always be keen, as they will be regarded as the supreme championships throughout the Commonwealth.

### **The Ayrshire Cattle Herd Book Society of Australasia.**

The seventeenth volume of this Society's Herd Book was published during the year, and a large number of entries has already been received for inclusion in Volume 18, which closes on 1st February, 1926.

At the Annual General Meeting of members in September last, it was unanimously resolved to revise the Rules of this Society to bring them more into line with those of other bodies having branches in the various States and it is confidently expected that, when these new Rules come into operation during the current year, a renewed interest will be displayed in the Ayrshire breed, the Society and its herd book, by breeders throughout the Commonwealth.

### **The Australasian Jersey Herd Society.**

This body has continued its phenomenal growth in strength from year to year since its establishment, there being now over 500 members, as against 400 in the previous year.

Large sums have been expended on propaganda work, and a much greater interest is being displayed in this breed than was the case even a few years ago.

The twelfth volume of this Society's herd book was published and distributed at the latter end of the year, and entries for Volume 13 are now being received.

### **The Red Poll Cattle Breeders' Association of Australasia.**

This Association marked another step in its progress by the publication of Volume 3 of its herd book during the year. Copies of this herd book have been widely distributed, and favourably commented on by breeders and also in the press.

Considerable interest in this breed is being displayed, especially in Victoria, where the second competition for the Stradbroke Challenge Cup, which is awarded to the Red Poll cow most nearly approaching dual purpose perfection, took place during the recent Royal Show, at which, for the first time, special prizes offered by the Association for Red Poll steers were competed for.

### **The Friesian Cattle Club of Australia.**

Further progress has been made by this Club during the year. The fifth volume of the herd book has been published, and the sixth volume is now in the printer's hands.

The Victorian Branch has appointed an officer who, in addition to inspecting cattle submitted for registration, carries out publicity work which is undoubtedly largely responsible for the keen interest that is being taken in the breed at the present time.

Considering the comparatively recent formation of the Victorian Branch, a membership totalling over 100 must be very gratifying to the committee of control.

### **The Milking Shorthorn Cattle Breeders' Association of Victoria.**

Work has so far advanced in connection with the first volume of this Association's herd book that it is expected that the volume will be published and copies available in time to be distributed at the Annual General Meeting of members of the Association, which is to be held in May.

### **The Australian Stud Pig Breeders' Society.**

This is another Society which has been accorded wonderfully increased support since its Rules were revised two years ago and brought more into line with those of similar bodies.

In every State in the Commonwealth there is a flourishing Branch of this Society, and, so far as the Branch in Victoria is concerned, it has the honour of being the strongest, having nearly trebled its membership in the last two years.

The increase in this Society's work will best be illustrated by the fact that in Volume XV. of its herd book, published during the year, 1051 pigs were registered, whereas Volume XVI., which is now in the printer's hands, will contain the pedigrees of 1700 odd animals of the eight different pure breeds which are registered in this Society's herd book.

In an endeavour to create further interest in good pigs, this Society is offering subsidies of £10 each to five different small Agricultural Societies in Victoria. This money is added to the prizes awarded in the classes for pigs at the discretion of the Agricultural Society on condition that an approved judge is appointed.

## **The Chamber of Agriculture.**

The twenty-third Annual Convention of the Chamber of Agriculture was held at Portland on the 24th, 25th and 26th of March, 1925. It was officially opened by the Lieutenant-Governor, Sir W. H. Irvine, K.C.M.G., and attended by a large and representative gathering of delegates from all parts of the State. The papers that were read and the addresses that were delivered were productive of valuable discussions, and the debates as a whole were of great interest and of high educational value. Interest was well maintained in such matters as the application of artificial manure to pasture lands and the improvement of the dairy herds of the State, as well as raising the standard of wool-classing.

At the conclusion of the Convention facilities were provided which enabled delegates to inspect the fertile district in the neighbourhood of Portland.

Your Council accorded a hearty vote of thanks to His Worship the Mayor and Councillors of Portland, and to the President, Secretary and Members of Committee of the local Agricultural Society for the courtesies extended to this Society's representatives during their stay at Portland.

### **Horse Parade and Sale.**

The Horse Parade and Sale conducted under the auspices of the Society was held on the 12th and 13th of August.

During the past few years the Parade and Sale was held in July, but at the request of breeders, your Council decided to hold it a month later, in the hope that it would be more successful. However, the alteration in the dates did not have the effect anticipated for only 87 entries were received, as against 133 in 1924, and only 13 horses were sold. The opinion was freely expressed that the Show sales now provide a sufficient market for heavy horses.

### **Dairy Produce Show.**

During the year your Council placed the Show Grounds at the disposal of the Butter Factory Managers and Secretaries' Association for the purpose of arranging a dairy produce exhibition. Many firms that are closely associated with supplying dairying machinery made a very attractive display of exhibits in the Government Pavilion. A series of lectures and addresses was also given during this function, and it is hoped that this will be but a beginning of what will ultimately become one of the most important dairying exhibitions in the Southern Hemisphere.

### **The Society's Publications.**

This year for the first time the Society undertook the distribution of its own Show publications, and engaged a large contingent of men and boys to offer to the public the Society's Catalogues and Daily Ring Programmes. The innovation was entirely successful, and resulted in an additional profit to the Society of approximately £100.

### **Membership.**

Your Council reports with regret that there is a slight decrease in the membership of the Society, the total being 4640, as compared with 4752 last year. A determined effort is to be made during the next twelve months to materially increase the number of members, and it is confidently expected that when the public is made aware of the many privileges pertaining to membership, the total members on the roll next year will exceed 5000.

### New City Offices.

In February, 1917, the Council found it necessary to transfer the office from the Equitable Building to Collins House so as to secure the additional accommodation that was then required. During the last eight and a half years the Society's operations have extended so greatly that for some time past the Collins House suite was quite inadequate for requirements, and as additional space could not be secured in that building, your Council was compelled to look for suitable accommodation elsewhere.

A fine large suite of rooms was secured in Temple Court—a new building in Collins-street, facing Market-street—whither the staff was transferred early in November.

### The Council.

As the nominations for election at the Annual Meeting were not in excess of the vacancies on the Council, the whole of the retiring members were re-elected.

It is recorded with extreme regret that during the year death deprived the Society of the services of two of its oldest Councillors, in the persons of William P. Brisbane and John B. Pearson. Mr. Brisbane, who was known throughout Australia as one of the Commonwealth's most prominent breeders of Ayrshire cattle, was elected to the Council in 1903. He occupied the position of Vice-President in the year 1918, and always took a very keen interest in every branch of the Society's activities.

Mr. Pearson was elected to the Council in 1904, and was Vice-President in 1906 and 1907, and again in 1917. His chief interest lay in the horse sections, and for very many years he took a prominent part in conducting the arena contests at the annual Shows. The loss of these two members was keenly felt by your Council, and resolutions of sympathy were conveyed to the bereaved families.

Mr. Alexander G. Hunter, of Northwood Park, Seymour, was elected in succession to Mr. Brisbane, and Mr. William M. Black, of The Quarries, Coldstream, in succession to Mr. Pearson.

In March last Mr. M. C. G. Hutton tendered his resignation owing to the fact that he was no longer associated with the Viticultural Industry. The resignation was accepted with keen regret, and at the monthly meeting in May, Mr. Robert E. Dawson, of Glenlinton, Whittlesea, was, on the strong recommendation of the Victorian Viticultural Society, elected to that vacancy.

Leave of absence was granted to Messrs. H. McClelland, H. V. McKay, A. C. Gibb, and G. T. Chirnside, all of whom paid a visit to the Old Land during the year.

It has been noted with extreme regret that the health of Mr. McKay has been causing his relations and friends much anxiety, and the hope is expressed that he will soon be thoroughly restored to health and strength again.

On account of severe illness, Mr. W. Woodmason was also absent on leave for a considerable period during the year. He was heartily welcomed back to the Council table in September last.

### The Journal.

By arrangement with your Council, the proprietors of "The Australian Farm and Home" still forward copies of that monthly journal to the members of the Society.

Besides containing an official report of the ordinary meetings of Council and information relating to the activities of the Stock Breeding Associations, whose headquarters are in the Society's office, many articles of an educational character are published, and the whole journal is conducted in such a manner as meets with the evident approval of members.

### Acknowledgments.

Your Council desires to extend to their Excellencies Lord and Lady Forster the Society's warmest appreciation of their interest in the Society's Annual Exhibition, and especially to thank His Excellency for his courtesy in forwarding a signed photograph of himself prior to his relinquishing the position of Governor-General of the Commonwealth. It is desired to thank His Excellency the Governor for officially opening the Show, and also for again acting as Judge in the Red Poll Cattle Section, and together with the Countess of Stradbroke for the very keen interest they displayed in the whole of the operations of the Society.

The Society is again indebted to the Government of Victoria, not only for continuing the annual subsidy and for augmenting the prizes in a number of sections, but also for arranging the very fine display in the Government Pavilion.

It is desired to acknowledge the Council's appreciation of the liberal support accorded to the Society by the donors to the Prize Fund.

Keen appreciation of the assistance rendered by the Judges and Stewards is again expressed for the efficient manner in which these officials carried out their duties at the last Show.

Grateful thanks are also due to the Press for the great amount of publicity given to the Society's operations. It is fully recognised by your Council that the publicity thus gained assisted very materially towards the success of the last Royal Show. To all others who in any way assisted in furthering the interests of the Society your Council extends its warmest thanks.

### Finance.

At last Annual Meeting the Rules were amended to permit the Society to accept deposits on "short call." This innovation proved very successful, and at times during the year your Council was compelled to decline to receive additional deposits as the amount on hand was about equal to the Society's overdraft at the bank. As your Council allowed interest at the rate of 5 per cent. on these deposits, and the money so received was lodged in the bank as a set-off against the Society's overdraft, upon which interest at the rate of 6½ per cent. is charged, a substantial saving was made during the year. It is your Council's intention to continue this practice in the future until the bank overdraft is entirely liquidated.

On reference to the financial statement it will be seen that the revenue for the year was £46,811/5/6, which shows an increase of £1,718/7/3 on that of last year.

The expenditure (including £7,469/12/2 in prizes and £1,588/13/9 for buildings and improvements) amounted to £39,595/13/10, the bank overdraft being decreased from £23,542/2/8 to £16,326/11/-, and the Society's indebtedness to the Government, inclusive of interest, decreased during the year from £49,761/12/8 to £48,741/0/1.

Taking the expenditure in permanent improvements as assets, the working expenses show a profit on the year's transactions of £8,804/5/5 against last year's profit of £10,237/3/2.

CHARLES E. MERRETT, President.

HENRY SCHWIEGER, Secretary.

Temple Court, 428 Collins Street, Melbourne.

# Extracts from the Judges' Reports on Exhibits at Annual Royal Show, 1925

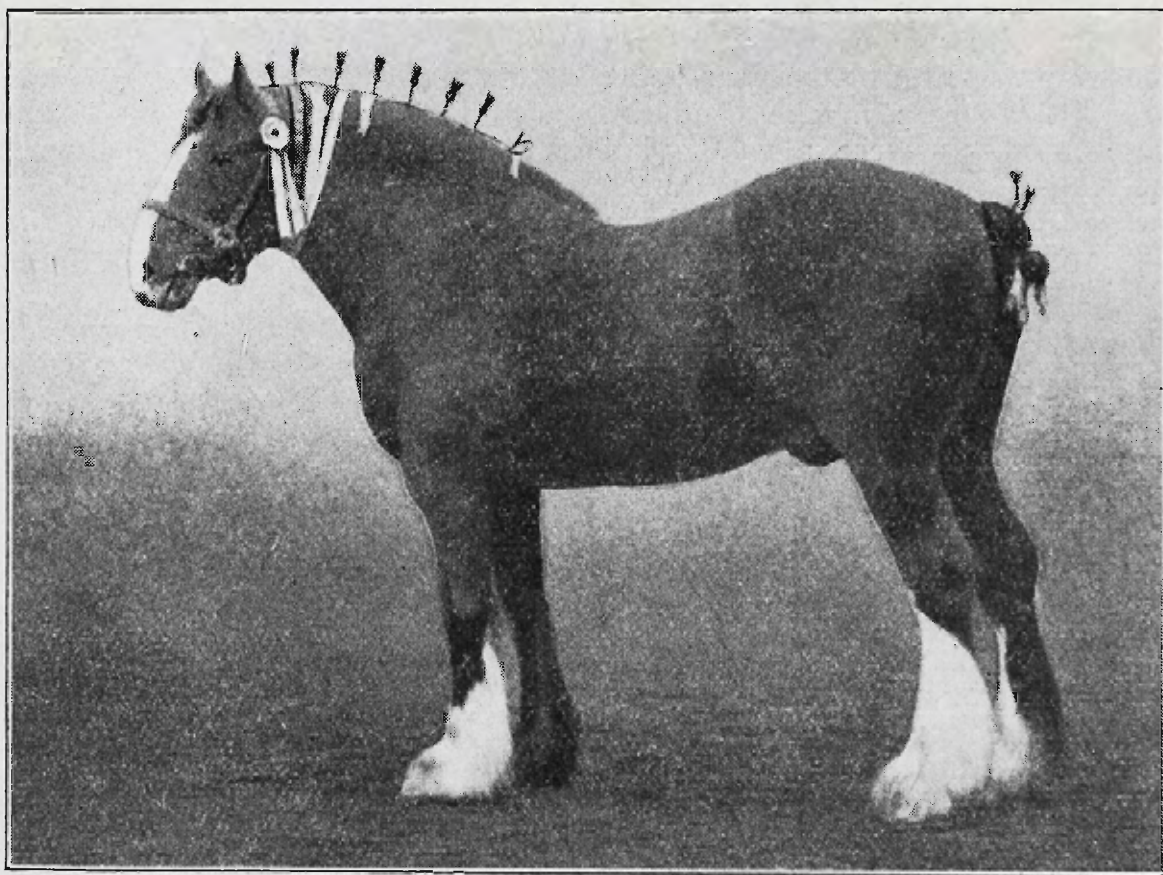

## HORSES.

### CLYDESDALE (MALES).

R. Tait, "Woodland," Denham, N.S.W.

(Complete awards in this Section will be found on page 20).

Five stallions, 8 years and over, entered the ring. This is a class very seldom seen in a show ring. It was not as good or as big a class as I expected to see. The first prize horse was a bay roan, standing eighteen hands high. He has a decent head, and plenty of height and length, and a good shoulder and sweeping hind quarter. He is light in

Champion Clydesdale Stallion, "Royal" Show, 1925.

 Exhibited by Mr. N. Ramsay.

the middle, and does not show the depth of heart he should. He is showing signs of age. Second and third prize horses were of no special merit. In the class for stallion 4 years and under 8 years, 16 entered the ring. This was quite a strong class. The first prize horse was black in colour, with white markings. He stands 17 hands high. His head is fair, but not showing quite the quality of the modern Clydesdale. His feet are of the big, open type, but inclined to be flat, and very much

neglected. This is a big disadvantage to any animal in a show ring. The movements were straight and clean, with a fair amount of liberty, but not quite the spring usually looked for in the movements of the imported horse. I should like to see this horse cover more ground in a stride. The second prize horse had a good open foot and fair pasterns, and a good flow of nice, soft hair. While the movement in front was very good, the hind action was too wide. The third prize horse had a somewhat plain head, not showing the character of a stallion. The feet were of the best quality, being blue black. The fourth and fifth prize horses were of moderate type, having nothing special to commend them. Thirteen 3-year-old colts entered the ring. This proved quite an attractive lot.

The first prize colt had a very good head, well set on. The feet were well developed, and of good, open character. The shoulders were well set on, with good depth. The back and loins were very good, but hindquarters inclined to be short on top. The movements were clean and straight, but I would like to see this colt cover a little more ground in a stride. The second prize colt had a head of good type. The feet, though good, did not show a nice flow of hair. The third prize colt was a trifle coarse in the head. His feet were big and strong. He had big and strong fore pasterns, with heavy bone of good quality. The hind action was only moderate, being too wide. This colt should grow into a big, heavy horse. Fourth and fifth prize colts in this class will, I think, with age be honoured with the Champion Ribbon in more than one place. Eight two-year-old colts entered the ring, but the winner is a little coarse in the head, but with big, open feet. The pasterns were good, as were also the knees, hocks and neck. In action this colt made good use of his knees and hocks. This colt was well developed, and was beautifully brought out. The second and third were also well grown, with good feet and pasterns. Twenty-six one-year-old colts entered the ring. This was a big class to handle in a small ring. The first prize winner was well grown, and the head was good, showing lots of quality. The feet were well developed, with good pasterns. The hair was of good quality, and hung nicely. The back, loins, and hindquarters were good. The second showed plenty of height, with a nice head, good feet and pasterns, and nice bone of good quality. The hocks were inclined to be rough, but the shoulder had a good depth. This colt looks all right side on, but when end on, is seen to be built on too narrow lines.

The third was a big colt of good quality, wider in the frame than the second, but with very straight fore pasterns. The fourth and fifth colts were only moderate. There were several nicely turned colts in this class, and showing a lot of quality. Many were not up to the standard height that a yearling colt wants to be to develop into a good class of Clydesdale stallion. Six entered the ring in the Australian-bred class. The first was an easy winner.

The Champion ribbon went to the black horse that was first in the four years and over stallion class, and the Reserve to "Drumcross Radiant." There is little between these two horses. It did not matter a great deal which of the two was placed champion. The black horse is by far the cleaner in the hoof heads, which I think should always be looked at when awarding a championship. He has a better under-line in his middle piece. The other horse has a better outline over head. With so many recent imported horses to Victoria, I expected to see a better class of stallion. Many of the younger ones, too, should be better.

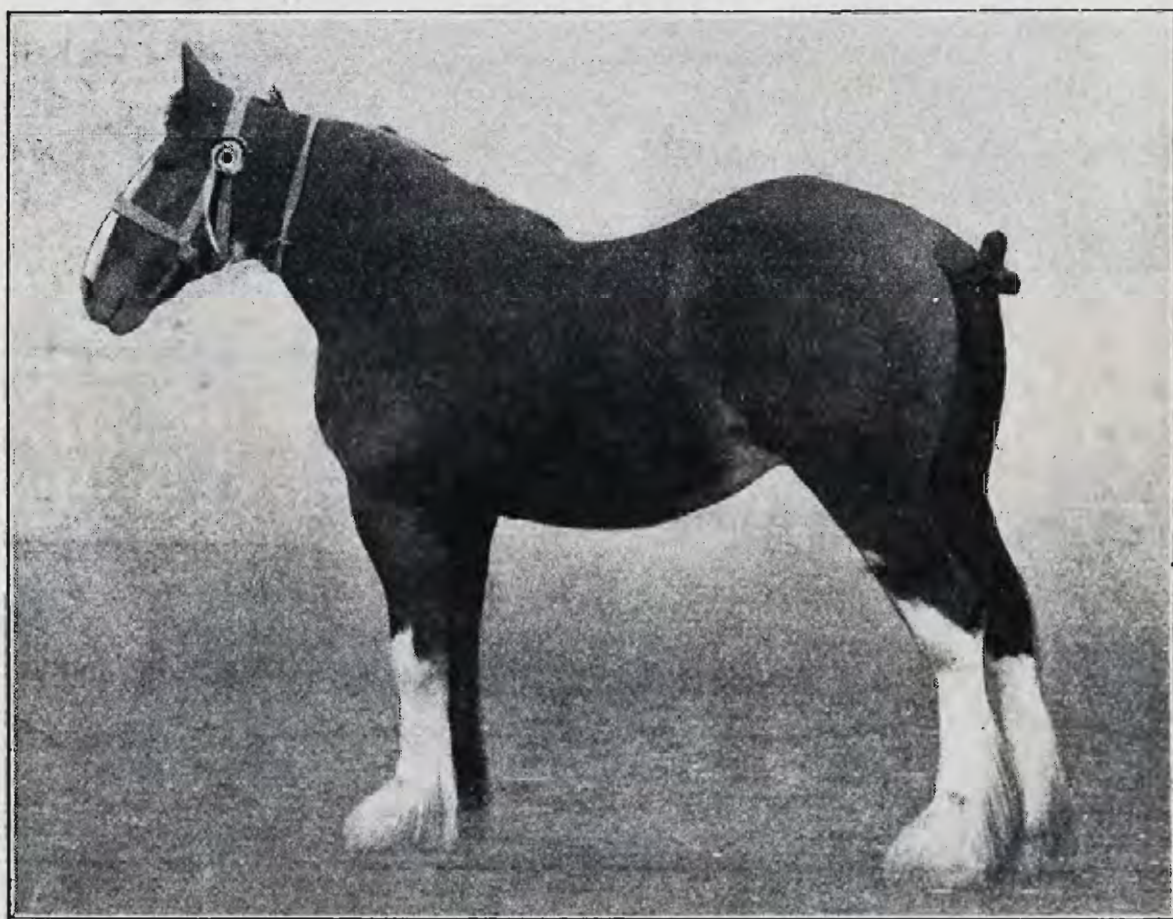

## CLYDESDALE (FEMALES).

F. H. Francis, Maitland, S.A.

(Complete awards in this section will be found on page 20).

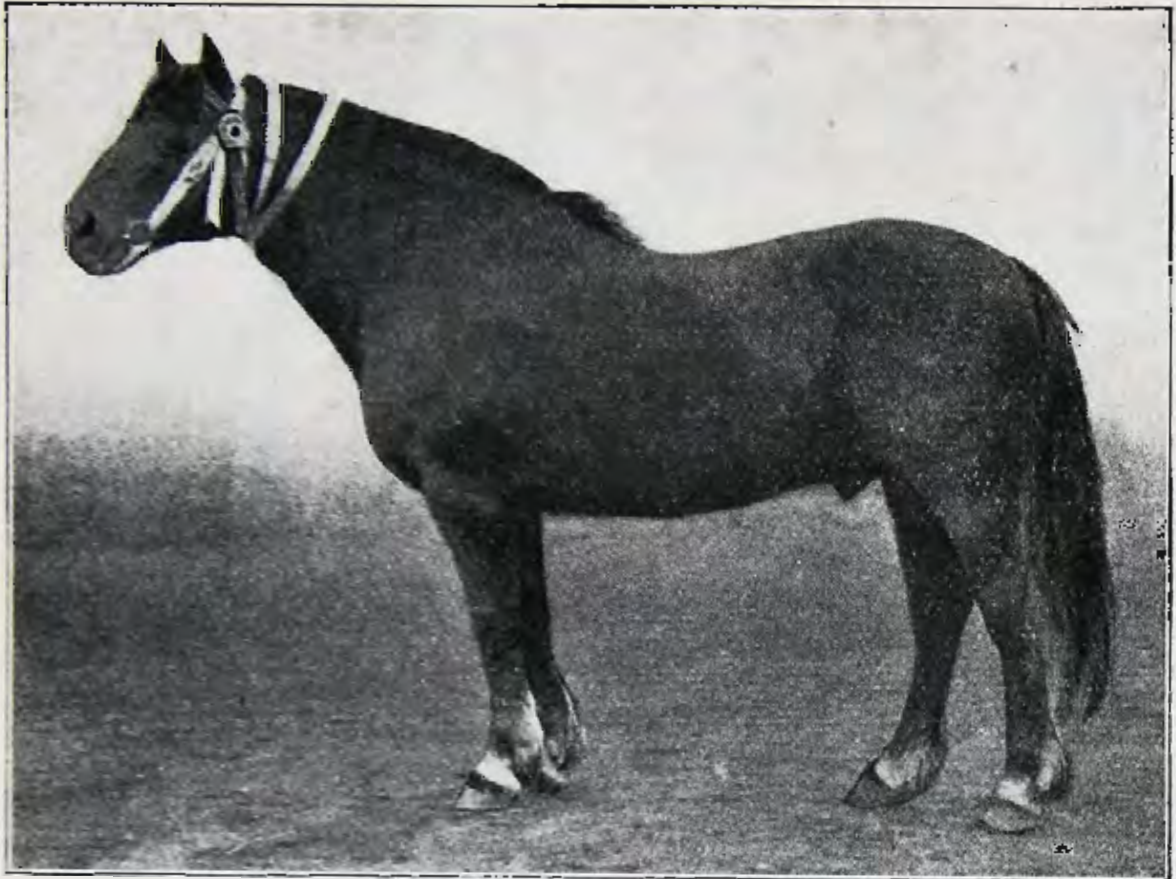

The Clydesdale females were a pleasure to judge. They were a very worthy lot. The brood mares, though not big in numbers, were very high in quality; this was also the case in the class for dry mares four years old and over. The imported mare that won in this class is an outstanding type of a Clydesdale, being particularly nice at the ground, having a good foot, wide open at the heels, nice sloping pasterns, correctly cushioned into the great hoofheads to give length of service. The shoulder points stand well over the fore limb, which conformation ensures free play of the lower limb, which is very noticeable at the walk in her very deliberate stride—which is so essential in the working horse. The three-year-old class brought out some nice exhibits of high quality, combined with size, and these fillies should

Champion Clydesdale Mare, "Royal" Show, 1925.  
 "TAMA" (imp.) [54272 C.S.B.] (Vol. 2 C.C.S.B.).  
 Exhibited by Mr. W. M. Black.

furnish into good brood mares. The two-year-old class was exceptionally strong. I doubt if ever there was a class their age and their equal in the Southern Hemisphere. They must make good mares in the near future. The yearling fillies brought out good competition, and among the twenty-one competitors there were a dozen really good ones. The group classes were of special interest to me, as I consider that this is the acid test of breeding value. In this special group prize for a stallion and three of his yearlings, the imported stallion "Flashdale" and his three youngsters stood alone for breed, character and quality, which marks the capability of this great sire to beget excellent stock. All through the classes that came under my notice, a fine standard of type and quality was maintained, and these Clydesdales must have a desirable influence on the stock of the future.

## ARABS AND THOROUGHBREDS.

J. H. Davis, "Cloverlea," Caulfield.

(Complete awards in this Section will be found on page 23).

The Thoroughbreds and Arabs I judged at the Show were poorly represented. There were only two entries for the Thoroughbred Stallion Class. The horse I placed first was of a good stamp, but the other I did not consider worthy of a prize. The Arabs were a little better than usual. The mare to which I gave first prize was a beautiful animal, and would be very hard to beat in any ring.

## THOROUGHBRED STALLION PREMIUM.

H. J. Gidney, "Bangalore," 19 Bay-street, Brighton.

(Complete awards in this Section will be found on page 23).

Only two horses competed for the Defence Department Premium prize of £50. I regret to say both were too light, and not robust enough to get horses up to the weight and standard required by the Defence Department. I, therefore, did not make any award.

## TROTTERS.

A. R. Tewkesbury, Temora, N.S.W.

(Complete awards in this Section will be found on page 23).

Great interest was taken in this section. The stallions were a very good lot. Mr. A. G. Hunter, who gained the first prize in every class, showed his horses in exceptionally nice condition. Taking the stallions all round, they were a really good class. The mares, with one or two exceptions, were a little bit on the weak side. Some of the yearlings, two and three-year-olds were also good. I think it very wrong for a big Show like Melbourne not to have a class for square trotting stallions. A trotter is of a different shape altogether from a pacer. It was an absurdity to have to judge a square trotter and a pacer together. Some persons said the Show did not get any encouragement from owners of square trotters. That is not the question. The Society should encourage breeding. Victoria is ahead of New South Wales in regard to pure trotters, and there seems to be more encouragement for breeding that type in the southern State.

## SADDLE HORSES AND PONIES.

W. Gray, Donald.

(Complete awards in this Section will be found on page 25).

The horses brought before me were an exceptionally good lot, and owing to this, I found it hard to come to a decision as to which were best in their respective classes.

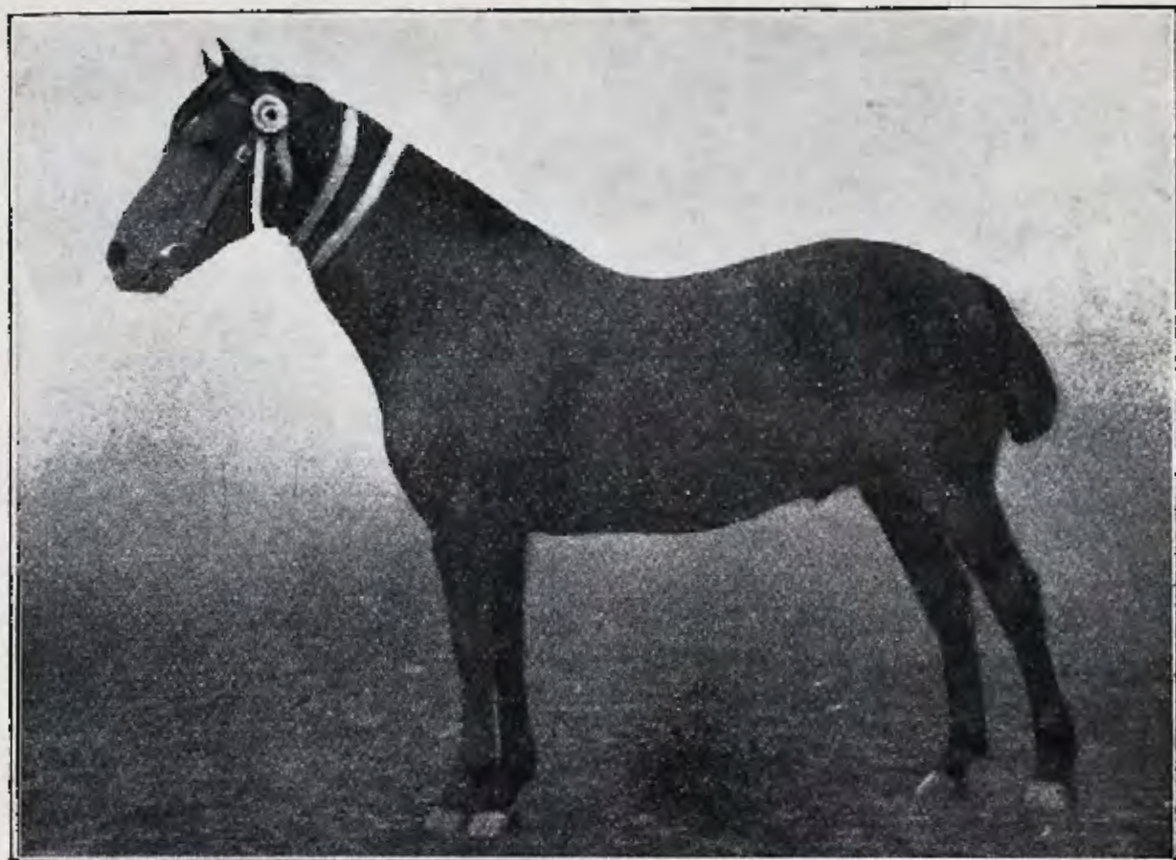

## COBS AND PONIES.

H. W. Wallder, 137 Burke-road, Canterbury.

(Complete awards in this Section will be found on page 24).

In the section for Cobs, the entries were small and the exhibits only fair, while for ponies the entries were both numerous and excellent.

## SHORTHORNS.

James J. Baylis, Euroa.

(Complete awards in this Section will be found on page 27).

The entries in the Shorthorn Section were only a few short of those of last year. The Champions and Reserve Champions were the same animals that scored last year, and they stood right out from the other exhibits. There were two bulls in the two-year-old class that were of great merit. The yearling bulls (30 in number) were a very even lot, and quite a number that left the ring without any commendation were very little inferior to the prize takers. As usual, the yearling

Champion Shorthorn Bull, "Royal" Show, 1925.

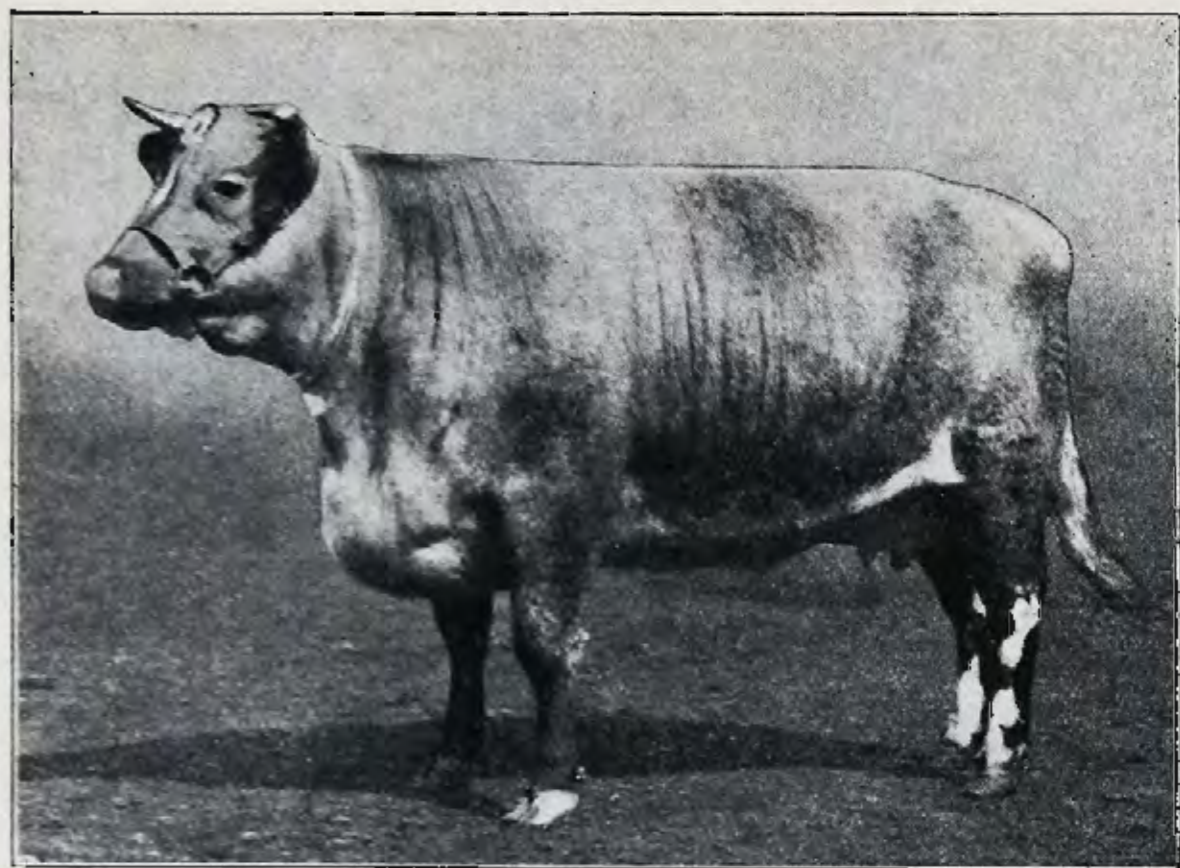

"MILTON'S MARINER" (Vol. 4).

Exhibited by Mr. A. J. Simpson.

heifers (20 in number) provided the best class in this section, and any one of the five selected for distinction might have been placed first, so even were they. There were some very fine groups shown. Only two bull calves were shown, and there was no entry for heifer calves.

Only two Shorthorn steers were exhibited. For some unaccountable reason, this prize does not seem to "take on" with the breeders. Both steers were calved on the same day, but one weighed 113 lbs., live weight, more than the other. The lighter of the two, however, gained the first prize, he having been awarded 90 points to his opponent's 77 points.

#### HEREFORDS AND POLLED ANGUS.

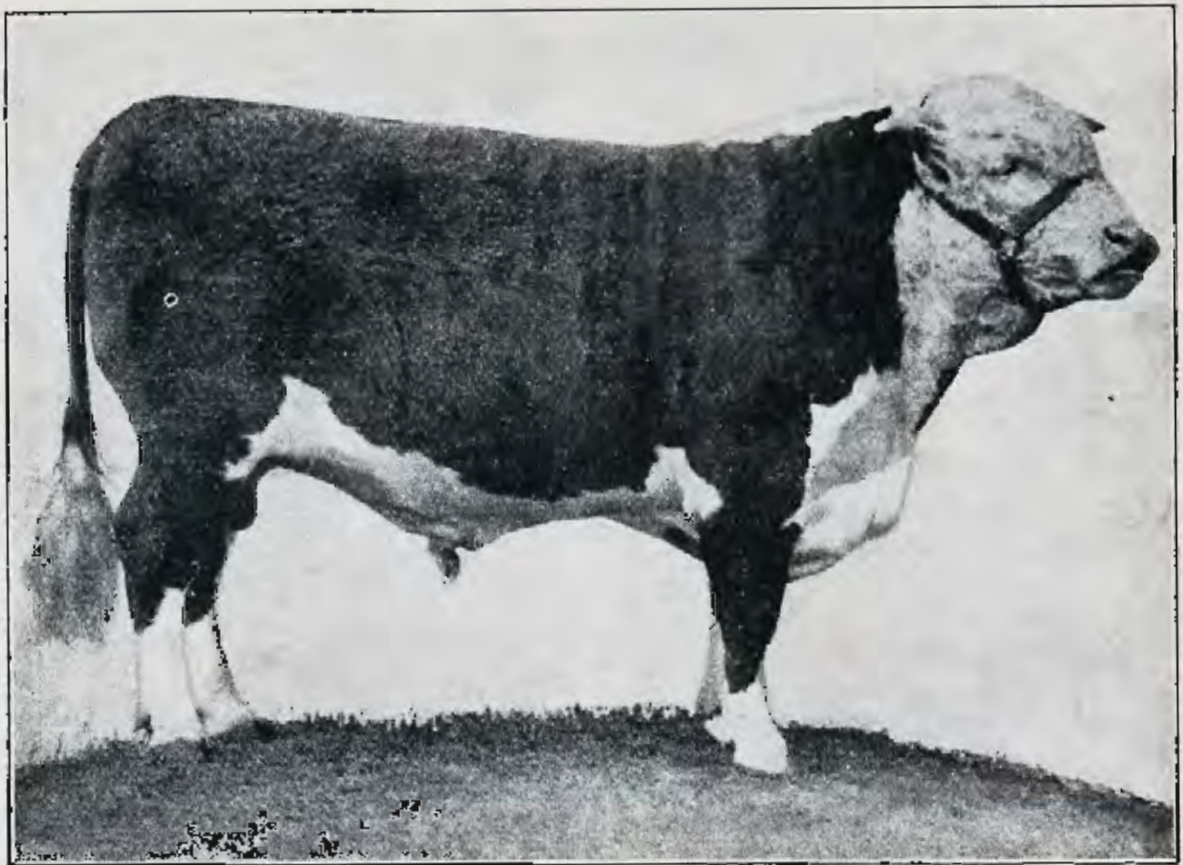

R. H. Reynolds, Hobartville, Richmond, N.S.W.

(Complete awards in this Section will be found on page 29).

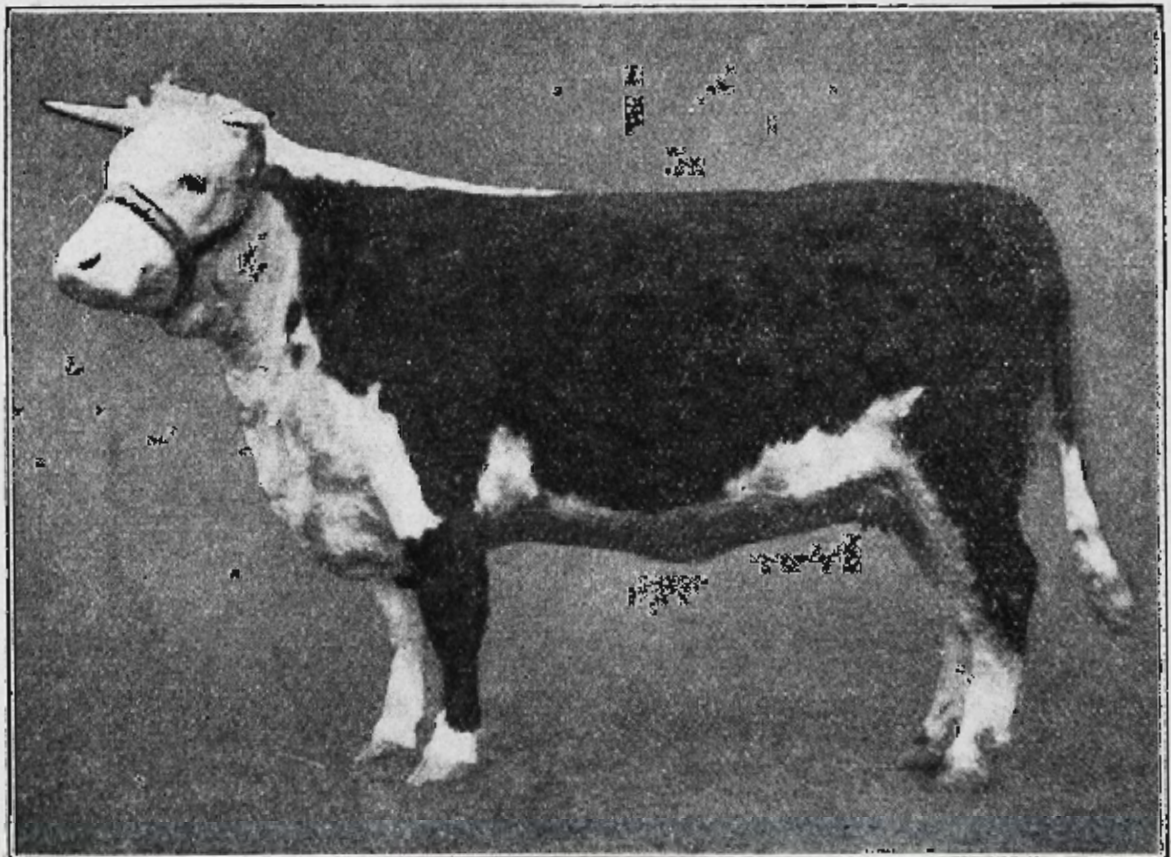

The display of Herefords as a whole showed an improvement of quality, though not in numbers, to those exhibited two years ago. Breeders generally have been taught the lesson in New South Wales, Victoria and Queensland, since the slump occurred in cattle in 1921, that it does not pay to send poor quality bulls to the respective Royal Shows for sale. Not only that, these poor quality bulls give their exhibitors bad advertisements. If a breeder cannot put up a "shop window" display at his Royal Show by exhibiting at least one or two decent animals, it says little for what he has at home. Therefore, it is far better for him to stay away, provided, of course, he has nothing up to this certain standard.

Mr. J. A. Beattie was greatly missed as an exhibitor at this year's Show, but his place was very worthily taken by a comparatively new breeder in Mrs. J. Biddlecombe, of Golf Hill. Mrs. Biddlecombe made her debut as an exhibitor at the 1924 "Royal," and took the Championship with her imported bull "Freetown Commander," and again this year with "Tocal Tewkesbury." In the class for bulls 4 years and over two paraded, and the blue ribbon was given to "Treverder Boy," owned by Messrs. Yelland. This bull, from a sire's point of view, showed many fine characteristics, having a strong head and forequarter, and nice carriage, but he was deficient both behind the shoulder and flank. The red ribbon went to the Metropolitan Board of Works' "Tocal Landlord," an animal with condition "piled" on him. A big bull, good handler, but weak in the head, an inclination to patchiness about hind-quarters, and his hocks showed signs of the load he had to support. In the three-year-old bull class there was no entry. In the class for two-year-olds, three entrants paraded. "Tocal Tewkesbury" had little dif-

ficulty in claiming the "blue." He is a youngster with many good points—great character in the head, good handler, and very well covered with evenly-put-on flesh, but he was rather light behind the shoulder and fore-flank. The way this bull paraded was a credit to his groom, and was a better bull than when he won at the last Sydney Royal. Second prize again went to the Board of Works with "Myall Reputation," a good sort, carrying a lot of condition, good in color and top and bottom lines, and with long, full hind-quarter.

In the yearling class seven paraded, and first prize was given to Mrs. Biddlecombe's "Myall Decoration," a calf built and put together on compact lines. He is a good handler, and good in color, but a shade high in the tail and a little weak behind the head. Messrs. Yelland secured second with a very well-developed calf, somewhat "on the leg" and a bit slack over the shoulders. He was a very good handler, and rich in color, but not that compact, early-maturing type of the winner. The third bull was a great disappointment. In the distance, he looked as if he would get higher up in the awards, but he proved very hard under the hand, and his hair altogether wrong; but his shape was good, especially from hip to tail.

In the class for cow 4 years and over, two paraded, both owned by Messrs. Yelland. The "blue" went to "Tocal Maritana 208," a cow very good in quality, skin and hair, but light in girth, and her head was not of the best. She was later awarded the Reserve Championship. The fact of her having a young calf at foot was against her being shown in better condition. The second went to a cow that had a beautiful coat of soft hair, good color, but very uneven and "gaudy" over hips and coupling. The three-year-old class brought out a very nice heifer, "Treverder Silky," by the old Champion "Brilliant Boy." She was exhibited by Messrs. Yelland, and shown in great bloom. A heifer of great quality and character, she carried herself well. Her body was full and deep, her coat rich and curly, but a little too much white was showing in her markings about the flanks and hind legs. This heifer was awarded the Championship, and well deserved it.

The Bundooran Estate secured the "red" with "Bundooran Olive 2nd," a heifer that promised well as a calf two years ago, but did not come up to expectations, as she did not develop. She is, however, a heifer of rare quality.

In the two-year-old class, Mrs. J. Biddlecombe won with a heifer of her own breeding, "Golf Hill Marenda 3rd," an animal of immense size for her age. She had a wonderfully deep barrel and girth, and full everywhere, but overdone with feeding. She handled not of the best, and was a little heavy in the shoulders, but, with the right feeding, this heifer would have been the Reserve Champion. The same owner also got the "red" with "Tocal Corisande 14th," a blue ribbon winner at the 1925 Sydney Royal. This heifer was of nice quality, with good skin and coat.

In the yearling heifers, seven entrants came forward, and it was the best class in the whole section. Six out of the seven were good, and not much separated the lot. The "blue" went to Mrs. Biddlecombe with "Golf Hill Novelty 15th," a nice, even heifer and good handler, fine head and even lines. She paraded particularly well. The "red" went to Messrs. Yelland with a growthy heifer, but too much "on the leg" and "cut up" in the flank, but of great quality and good color. She, too, paraded well. The third award went to Mrs. Biddlecombe with a nice little heifer, "Myall Doreen." She was of good color and type, but rough from tip to tail.

Messrs. Yelland won the group prizes for "sire and progeny" and one male and two females, and "Frank Reynolds Memorial" for pair of bulls, and Mrs. Biddlecombe for pair of heifers, and the "Job Smith" prize for the most successful exhibitor.

## AYRSHIRES.

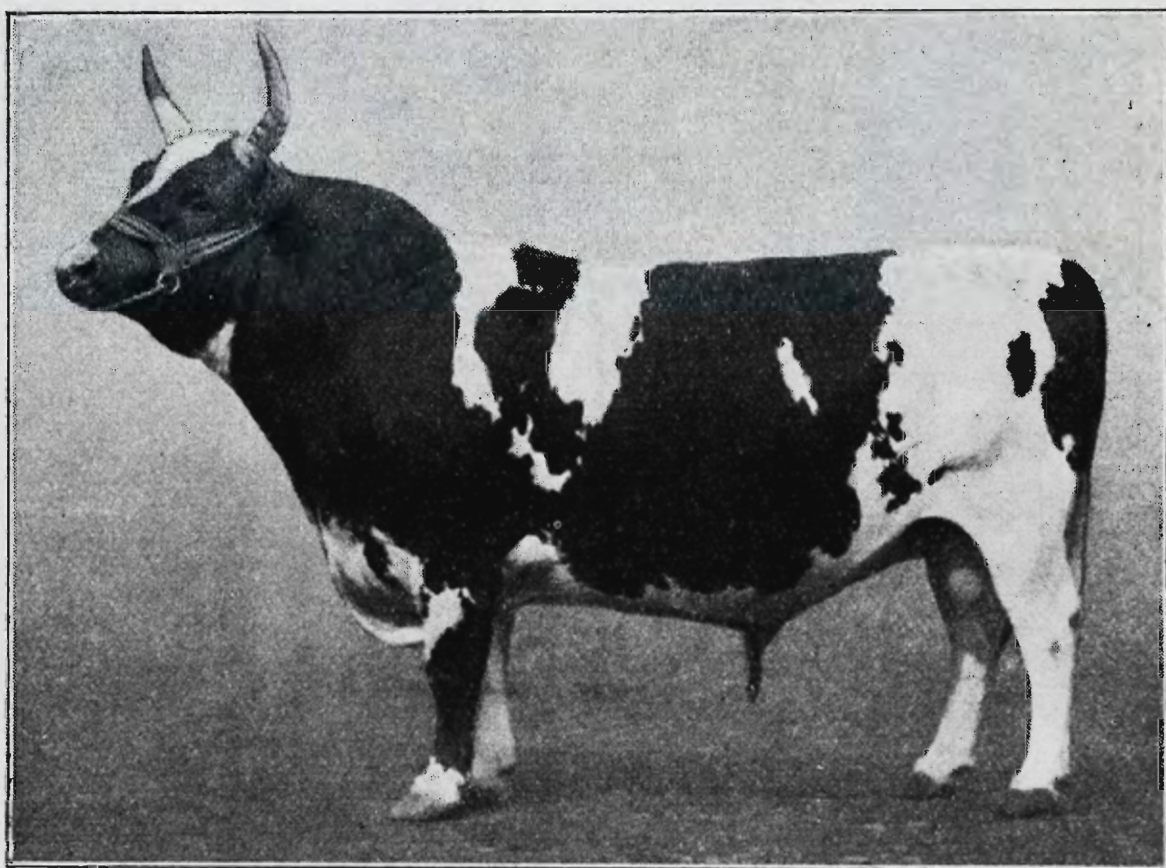

J. H. Fairfax, "Marinya," Cambooya, Queensland.

(Complete awards in this Section will be found on page 31).

There was a great improvement in the Ayrshire Section this year owing to inferior quality and badly prepared cattle being left at home. There was practically not any "tail" this year, which very much improved the general appearance of the section.

As is usual at Melbourne, the Ayrshires made a grand show. In spite of the very unpleasant weather conditions, there was always a good crowd around the ring during the judging.

The quality of the prize-winners was quite up to the average. It was particularly pleasing to note the quality of the young stock. There were many young bulls and heifers showing the right type and quality. With these coming on, one need not have any fear for the future of the breed.

Champion Ayrshire Bull, "Royal" Show, 1925.  
**"SCOTTISH HERO OF GOWRIE PARK"** (2207).  
 Exhibited by W. P. Brisbane and Sons.

The cattle were, on the whole, better prepared for show than when I judged previously. Some breeders, of course, have always brought their cattle into the ring looking as well as it was possible to have them. This year there were not many that were not in good show condition.

## AYRSHIRES.

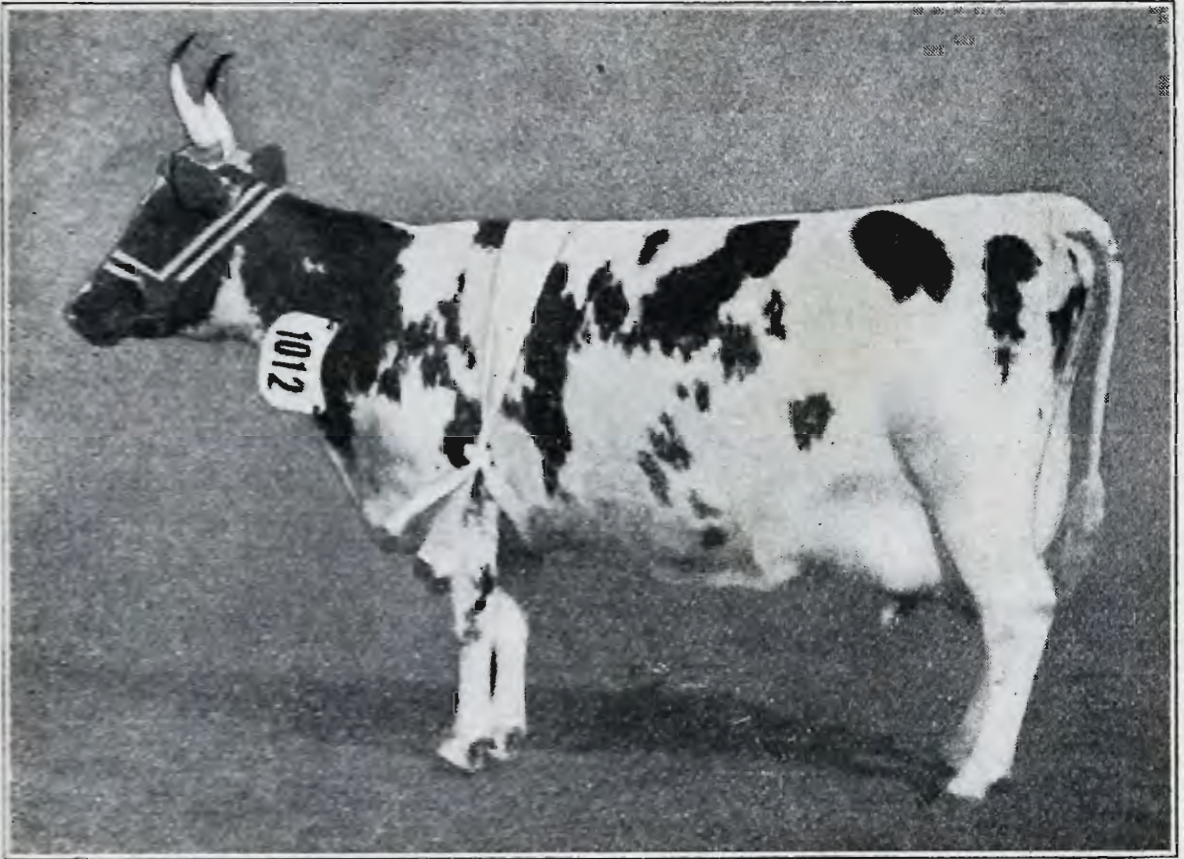

J. A. Bond, "Glen Avon," Sunshine.

(Complete awards in this Section will be found on page 32).

The Ayrshire females were a fairly good lot, with not such a tail-end as I have seen at previous Shows. The winners in each class were very good specimens, and typical of the breed, and showed plenty of dairy quality.

The first prize—cow in milk—was afterwards awarded the Championship. She was a beautiful animal, showing plenty of size and being even in type, with a good udder and well set on teats. There were many other good cows, both dry and wet, showing plenty of character, and outward signs of being big producers. I regret to report that, in some of the younger classes, there could be much improvement in the "set on" of the vessels and teats. The two-year-old "in milk" class was headed by an exceptionally good heifer, and I expect to hear of her in the future. The yearling heifers provided a big class, some of the placed exhibits being particularly good. The aged bulls were an even lot, and showed plenty of good, hardy dairy colour, the first and second in this class gaining Champion and Reserve Champion honours. The

Champion Ayrshire Cow, "Royal" Show, 1925.

"MARJORY OF ALANVALE" (7361).

Exhibited by C. H. Hawkins and Son.

former had more style and an excellent carriage. The winning three-year-old bull won easily. He was true to type, and had plenty of depth of body. Two-year-old placed bulls were a good, useful lot, but the winner stood out showing more dairy and show qualities than the others. The yearling bull class brought out some very nice youngsters, most of the placed bulls showing plenty of quality and being true to type.

## JERSEYS.

D. Kenny, Balwyn.

(Complete awards in this Section will be found on page 33).

The closest competitor to the winner in the Aged Jersey Bull Class was somewhat weak behind the shoulder, poor in underline and failing in rudimentals, and actually the winner, though showing age, stood right out from his competitors. In both the three-year-old and two-year-old bull classes the winner stood right out.

In a big class of yearling bulls, the winner scored without any difficulty. The second and third bulls were fairly even in quality, but the former, having the advantage of several months in age, showed better development.

In aged cows, "Molly 6th" won comfortably, which every Jersey judge will admit. The second cow in this class was of beautiful quality, but had not size enough to make her a close competitor of the winner. The third cow in this class is also worth mention, as she showed excellence in dairy points, but had not quite enough of show quality; in head especially she lacked the true Island type.

In the aged dry cow class the winner stood right out on general Jersey excellence, being hard to fault in any section, and the same applies to the winner of the class for four-year-olds in milk. In the four-year-old dry class nothing very special came forward. The winner in three-year-olds in milk was something well above the average for her age, and won easily right through, and it is worthy of note that she is a daughter of the old champion Jersey cow "Golden Noble Duchess."

In two-year-old heifers in milk the winner was a remarkably good one, or she would not have scored, for she had not been given as much care as an animal of its quality warranted.

Rather a weak class of two-year-old dry heifers came forward, even the winner not showing much finish.

In yearling heifers both first and second places were filled by animals of outstanding merit, although shown in perhaps too good condition for stock meant later on for dairy work. The third heifer carried a neat body, but failed in head, which left her no chance of scoring against two very classy Jerseys.

The several entries in different classes from one stud were of good quality, but very indifferently prepared for the show ring, and therefore did not score as well as those interested expected. A harsh, dry, scurfy skin is a big handicap for an animal to carry in good company. On the whole, the exhibits were good, perhaps even better than in former years, but owners should bear in mind that there is a lot to be gained in showing their stock in proper condition and also in tutoring them for that particular day.

## GUERNSEYS.

R. G. Keys, Eskdale-road, Caulfield.

(Complete awards in this Section will be found on page 35).

The Guernseys at the late Show were not numerous, but made up the lack of quantity by quality, and were shown in excellent condition.

The Champion Bull was a very fine, shapely animal of good type and splendid colour, and should produce good dairy stock.

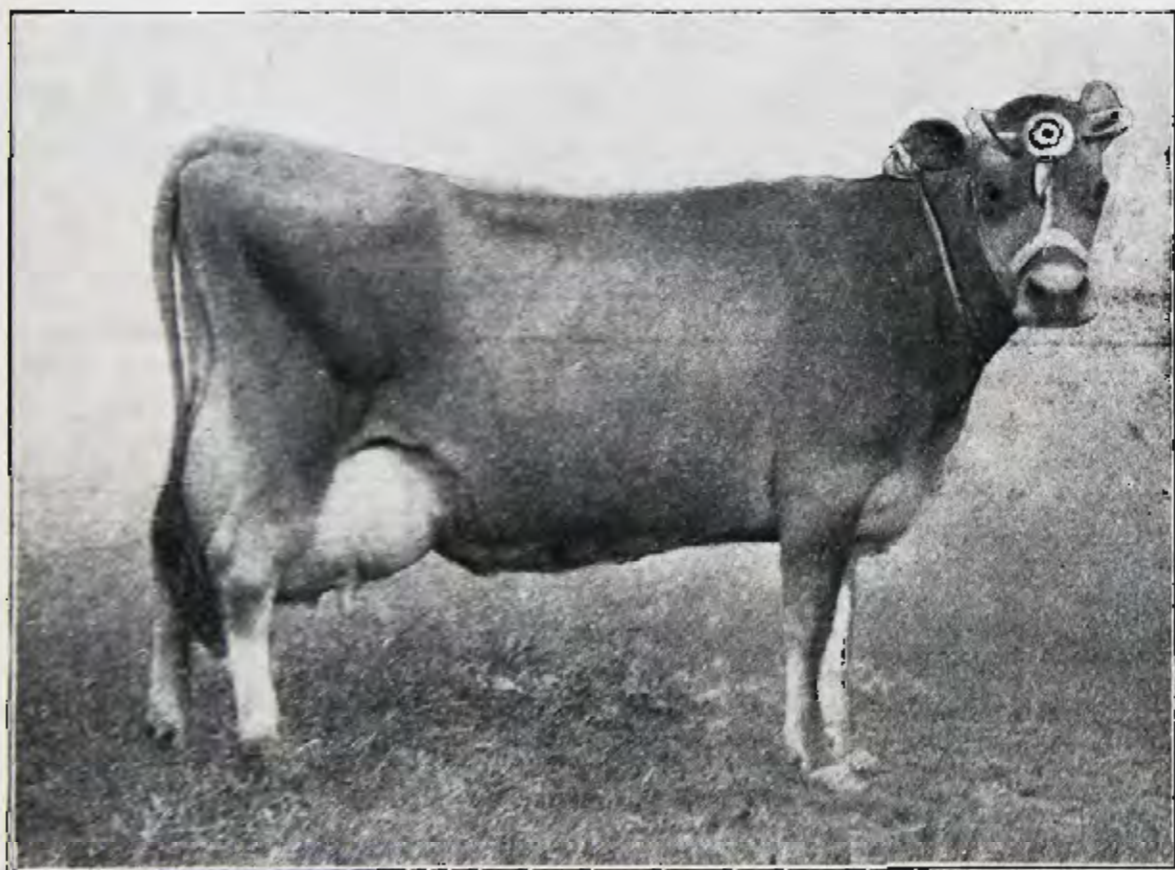

The Champion Cow showed quality all over, plenty of colour, and possessed a very nicely set on vessel. She should be a good test cow.

In the young classes there were some very promising animals that should be heard of in the future.

 "YARRAVIEW LUCIFER" (Vol. VI).  
 Exhibited by Captain A. E. T. Payne.

Champion Guernsey Cow, "Royal" Show, 1925.  
 "YARRAVIEW COOTAMUNDRA" (567).  
 Exhibited by Captain A. E. T. Payne.

## FRIESIANS.

C. Behrendorff, "Inavale," Bunjuren, Boonah, Queensland.

(Complete awards in this Section will be found on page 36).

I was very pleased with the quality of the exhibits, but somewhat disappointed with the number, especially in the aged female classes.

I must congratulate most of the exhibitors on the splendid condition in which they brought their animals into the show ring, despite the unfavourable weather that prevailed.

I cannot refrain from commenting upon the enthusiasm displayed by some of the younger breeders. This was made manifest by the intelligent questions that were put to me by them regarding the quality of the animals by way of comparison, and the keenness displayed on receipt of information regarding points that constitute a perfect animal.

The Champion Bull is a fine specimen of the breed, being right up to standard in type and conformation. There were also a few young bulls of outstanding quality, and if properly cared for, should grow into sires of special merit.

In the female classes there were some very fine animals shown, particularly the Champion Cow. Two cows in the three-year-old in-calf class are worthy of special mention on account of their quality. Some very promising youngsters were shown in the heifer classes. Judging by the standard of quality in the younger classes, both male and female, if the breeders continue their enthusiasm, in a few years' time the Friesians will be an outstanding feature of the Melbourne Show.

## THE "WEEKLY TIMES" CHAMPION BUTTER FAT AND MILK TEST.

P. R. Scott, Department of Agriculture, Melbourne; J. M. Kerr, Department of Agriculture, Melbourne.

(Complete awards in this Section will be found on page 37).

The competitors numbered eleven cows, comprising seven Jerseys, two Ayrshires, one Guernsey and one Shorthorn, and the test resulted in the four prize-winning positions being gained by cows of three different breeds.

The first prize was gained by a Shorthorn, "Morven Duchess of Brunswick 3rd," with a milk yield of 139.2 lbs., containing 5.79 lbs. of butter fat, returning a production value of 10/11.

The second prize was won by a Jersey, "Lassie Fowler 8th of Melrose," with a milk yield of 109 lbs., containing 6.11 lbs. of butter fat, returning a production value of 10/10½.

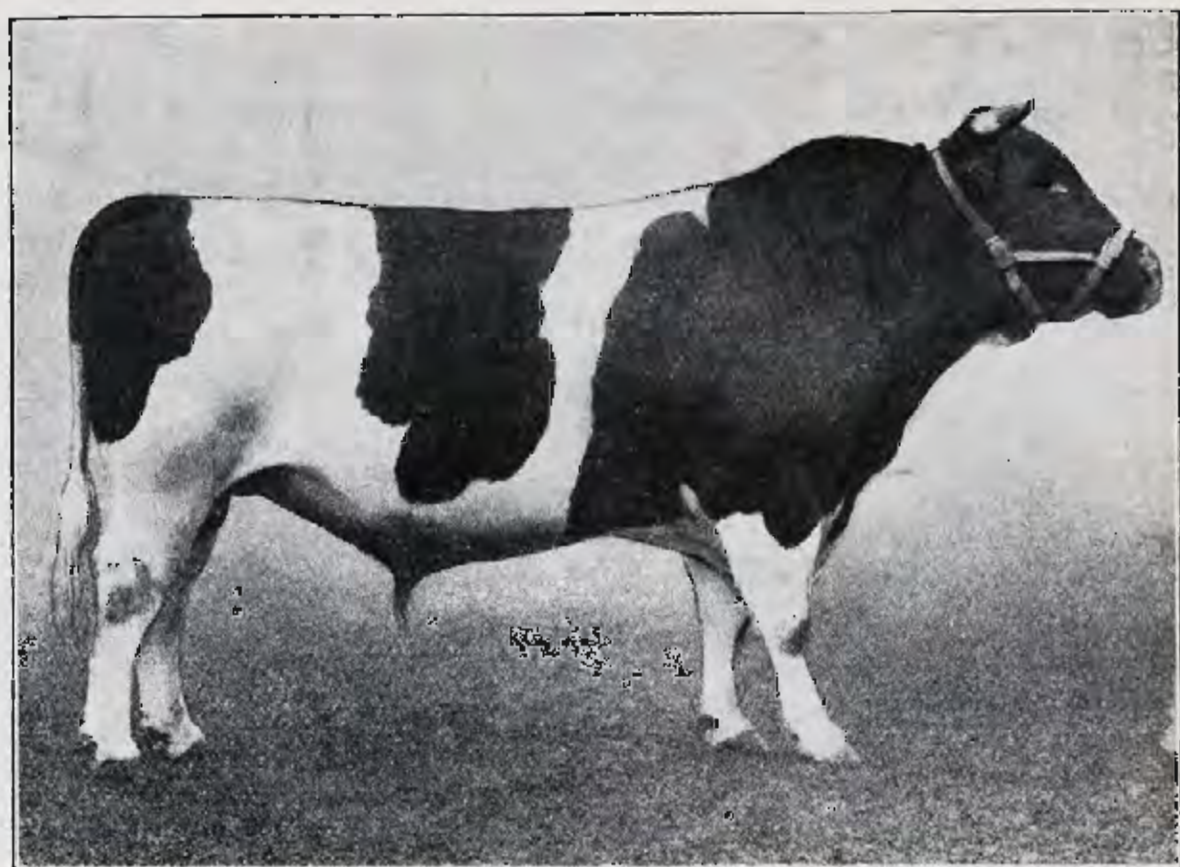

The third prize was won by an Ayrshire, "Modesty of Inverleigh," with a milk yield of 130.8 lbs., containing 5.78 lbs. of butter fat, returning a production value of 10/9.

An Ayrshire, "Dolly Brown of Inverleigh," with a milk yield of 131.7 lbs., containing 5.52 lbs. of butter fat, returning a production value of 10/4½, was placed fourth.

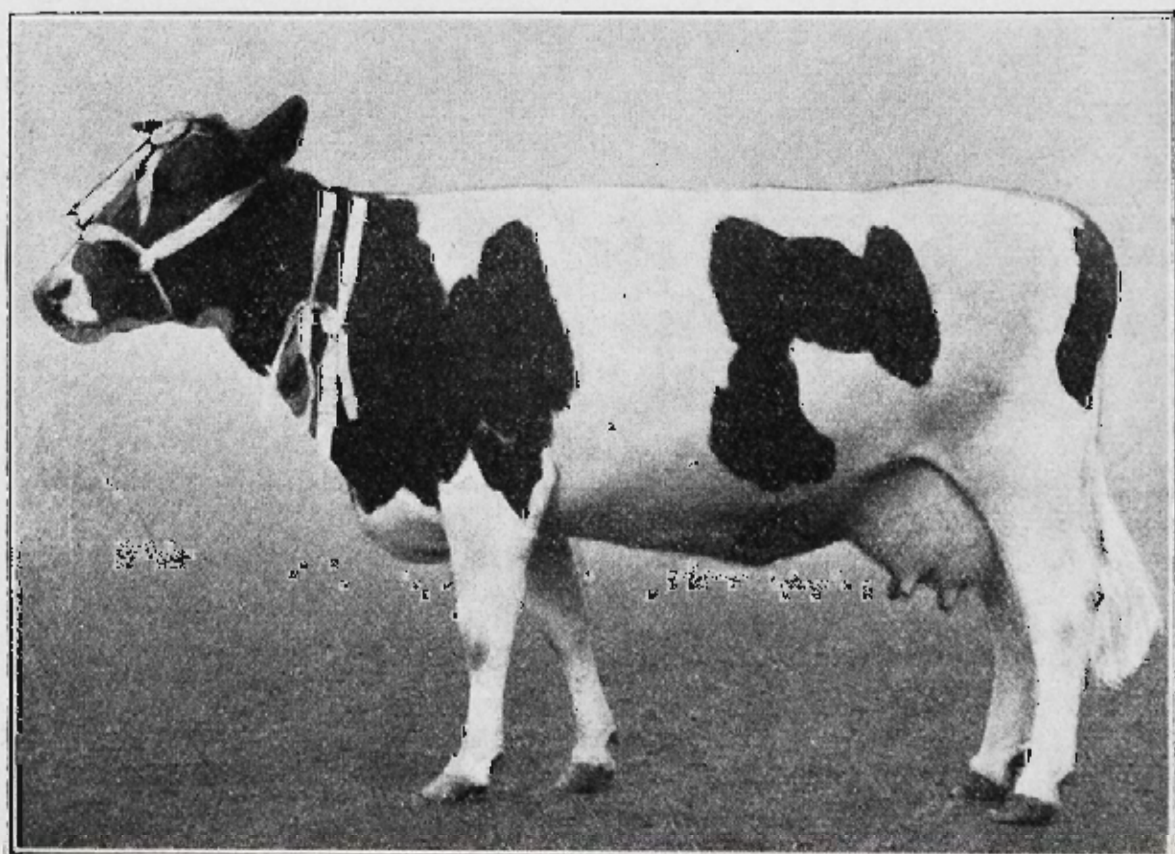

This test was very closely contested, as indicated by the small margin of production value of 2d. separating the third cow from the winner.

Generally speaking, the yields of the majority of the competitors were higher than usual, nine of the cows returning a production value of over 9/4.

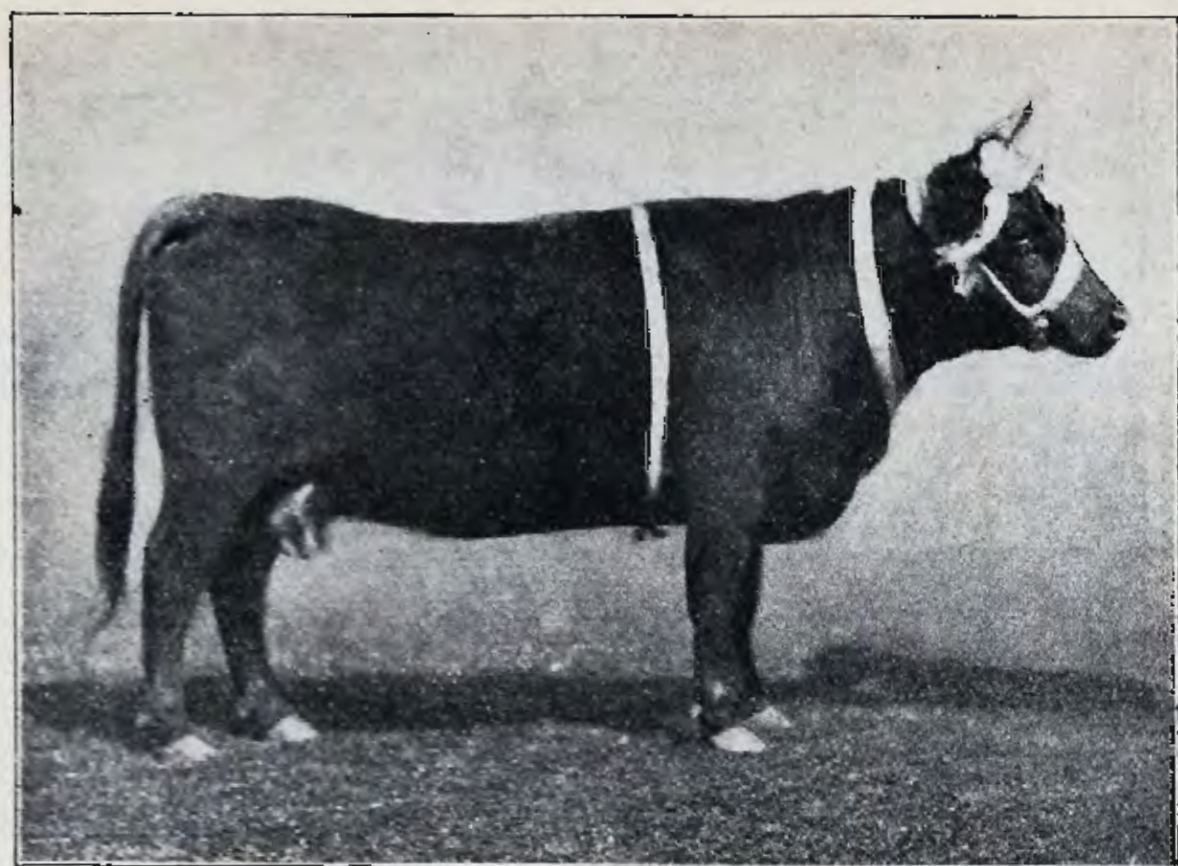

Champion Friesian Bull, "Royal" Show, 1925.  
**"BOLOBEK BARNEY"** (358).  
 Exhibited by Mr. R. H. Kerr.

Champion Friesian Cow, "Royal" Show, 1925.  
**"BOLOBEK ANABELL"** (317).  
 Exhibited by Mr. O. J. Syne.

Champion Dexter Kerry Cow, "Royal" Show, 1925.  
 "LITTLE NELL."  
 Exhibited by Miss G. Small.

#### FAT CATTLE. John Watson, Geelong.

(Complete awards in this Section will be found on page 37).

In the class for fat steers three years old there was a very large entry, which gave one no little difficulty in awarding the prizes, as they were the finest lot of cattle, from a butcher's standpoint, that I have seen together, and reflected great credit upon the judgment of the exhibitors. As typical butchers' cattle, they were really beautiful, being deep-chested, full over and behind the shoulder, well-ribbed up, possessing fully fleshed loins and rumps, well let down the buttocks, and without the ragged hips so objectionable to all good butchers. Those exhibitors who did not get a prize in this class know their job thoroughly, and deserve, and receive from me, the highest commendation. The fat cows were, in most instances, too old and fat from a butcher's standpoint, so I judged them from a fat show point of view.

#### STEER CLASSES (SHORTHORN, HEREFORD AND RED POLL.) J. Robertson, "Ythan," Epsom-road, Kensington.

(Complete awards in this Section will be found on pages 20, 27, 31).

The five steers, which consisted of two Shorthorns, one Hereford and two Red Polled (carcase meat), were slaughtered at the City Abattoirs on Tuesday, 22nd September, and were weighed out at 10 a.m. on Thursday, 24th September, 1925.

Shorthorn No. 768.—Property of A. Currie. Breed Judge's award, 40 points. Live weight, 1485 lbs.; dead weight, 909 lbs. Butt, 8 points; rump, 8; loin, 6; fore-quarters, 5; colour, 4; quality, 6—37 points out of 50. Caul fat, 27 lbs.; rough fat, 73 lbs.—a total of 100 lbs. at 25-8d. lb. equals £1/1/10½. Hide, poor quality, 80 lbs. at 5½d., equals £1/16/8. This carcase of beef was not properly furnished, especially on the loins and ribs.

Shorthorn No. 769.—Property of J. Williamson. Breed Judge's award, 45 points. Live weight, 1372 lbs.; dead weight, 886 lbs. Butt, 10 points; rump, 10; loin, 8; fore-quarters, 5; colour, 4; quality, 8—45 points out of 50. Caul fat, 34 lbs.; rough fat, 85 lbs.—a total of 119 lbs., at 25-8d. lb. equals £1/5/11 3-8. Hide, poor quality, 68 lbs.,

at 5½d., equals £1/11/2. This was a very fine carcase of meat; neat, fat well mixed with flesh. Would be considered an excellent butcher's bullock.

Hereford No. 803.—Property of Mrs. J. Biddlecombe. Breed Judge's award, 40 points. Live weight, 1405 lbs.; dead weight, 894 lbs. Butt, 10 points; rump, 10; loin, 10; fore-quarters, 5; colour, 4; quality, 5; hide, 2—46 points out of 50. Caul fat, 24 lbs.; rough fat, 67 lbs.—a total of 91 lbs., at 25-8d. lb., equals 19/107-8. Hide, good quality, 100 lbs., at 8d., equals £3/6/8. An excellent carcase of beef. Will cut out without the butcher losing any surplus fat. This was an exceptionally evenly-fleshed carcase. The hide was also of splendid quality.

Red Poll No. 907.—Property of Lieut.-Col. A. Caddy. Breed Judge's award, 37 points. Live weight, 896 lbs.; dead weight, 540 lbs. Butt, 5 points; rump, 5; loin, 6; fore-quarters, 4; colour, 5; quality, 4—29 points out of 50. Caul fat, 8 lbs.; rough fat, 44 lbs.—a total of 52 lbs., at 25-8d., equals 11/4½. Hide, poor quality, 56 lbs., at 5½d., equals £1/5/8. This carcase could not be considered as first quality meat.

Red Poll No. 908.—Property of John Baker. Breed Judge's award, 25 points. Live weight, 960 lbs.; dead weight, 560 lbs. Butt, 4 points; rump, 4; loin, 4; fore-quarters, 2; colour, 3; quality, 2—19 points out of 50. Caul fat, 30 lbs.; rough fat, 34 lbs.—a total of 64 lbs., at 25-8d. lb., equals 14/-. Hide, poor quality, 56 lbs., at 5½d., equals £1/5/8. This carcase could not be considered more than third quality meat.

In my opinion, the exhibits were scarcely as good as last year. The two best carcasses were undoubtedly Mr. Williamson's Shorthorn steer (769), and Mrs. Biddlecombe's Hereford steer (803).

#### RED POLLS.

The Right Hon. Earl of Stradbroke, State Government House, Melbourne.  
(Complete awards in this Section will be found on page 31)

The entries were identically the same as last year, the number being 47.

The exhibits were much more of a type than any collection that I have seen since I have been in Australia. There is still room for improvement of the udders, and this is a point to which breeders must pay attention.

The Red Poll being a dual purpose breed of cattle, the aim should be to breed good milkers from stock of fine formation only, as there is always the temptation to sacrifice shape for good milking records, but it has been proved that Red Polls which, from appearance, would be considered a beef type, are also first-rate milkers.

From the class of cattle exhibited, the above fact is now well recognised in Australia.

The number of exhibitors is somewhat restricted, and it is to be hoped that the herds hitherto unrepresented at the Royal Show may in future have exhibits, and so support the breed.

## SHEEP.

#### LINCOLN RAMS.

A. F. Filmer, 24 Park-street, Geelong.

(Complete awards in this Section will be found on page 33).

The Lincoln rams this year were very good, and, I think, much better than for some years past; but, good and all as the section was, I am sure it could be made very much better if the breeders would give more attention and care to their sheep than was apparent in some of the classes. In some cases the exhibits that gained second or third awards would have won but for lack of feeding. It does not pay to half feed stud sheep, especially those entered for exhibition at a Royal Show. The winner in the aged ram class was a very fine looking sheep, being well covered with wool all over the body and also good on the points, and with a very nice head. The second ram was also of very good type, with a well-proportioned carcase and typical wool on the body and belly, but not so good on the points. The third carried a very nice fleece of typical wool, but was not so good in size and shape of

carcase as the rams that gained the higher awards. The first-prize 4-tooth was a very good sheep, with a good, general appearance, and carrying a good fleece of true Lincoln wool. This ram afterwards gained the Championship. The second was a well-grown ram, with a good general appearance and a nice fleece of wool on the body, but not so good on the points as the first-prize ram. The third also had a very good fleece of wool, but not as good in frame and general appearance as the others. The first-prize pair of 4-tooth rams comprised well-grown, robust sheep, with good fleeces of true Lincoln wool. The second pair had beautiful quality wool and good general appearance, though rather on the small side. The third-prize winners were well grown and had good fleeces of wool on the body, but not so good on the points. The wool was wanting a little in crimp and firmness, compared with the second pair. The first-prize ram in the 2-tooth class was of very good quality, of nice size and good general appearance, also possessing a very even fleece of true Lincoln wool.

Champion Lincoln Ram, "Royal" Show, 1925.  
Exhibited by G. and A. Leishman.

The second was a good type of sheep, being well grown and of good general appearance, but not as high in quality as the first-prize ram. The third was a very well-grown ram, of good general appearance. He had a well-grown fleece, but not as firm in the lock as might be desired. The first-prize pair of 2-tooth rams was of very nice, even type, of fair size, and with good, firm, even fleeces and good heads. The second pair was well grown, with good fleeces of wool on the body, though failing in evenness to the winning pair.

#### LINCOLN EWES.

W. H. Skilbeck, "The Oaks," Koroit.

(Complete awards in this Section will be found on page 3 ).

The class for "ewe, any age, with her own lamb at foot," produced a fair number of ewes of good quality, and after keen competition, Messrs.

Richardson Bros. won with a well-grown ewe, with wool of fine quality. Mr. J. Christie's ewe was of rather smaller size, but of high quality, and was a close runner-up. Mr. E. J. Bingham's ewes gained third and fourth places. In the class for ewe, 2½ years old and over, there was good competition, Messrs. G. and A. Leishman winning with a beautiful ewe of great lustre and quality. This ewe eventually won the Reserve Championship.

For ewe 1½ and under 2½ years there was the best competition, and after a keen struggle, Messrs. Richardson's ewe was awarded first and Champion prizes. For ewe under 1½ years of age, a fine lot was paraded.

Champion Lincoln Ewe, "Royal" Show, 1925.  
Exhibited by Richardson Bros.

The contest for the Championship was a great struggle between ewes owned by Messrs. Richardson Bros. and Messrs. G. and A. Leishman. The winner possessed greater weight of wool and density of fleece, the Reserve ewe, although of great quality and lustre, being not so heavy and dense in fleece.

### ENGLISH LEICESTERS.

D. Porter, 15 Sussex-street, Moonee Ponds.

(Complete awards in this Section will be found on page 38).

English Leicesters at the last Royal Show were fully up to the average in numbers, and the quality, with a few exceptions, was high. There were some exceptionally fine sheep, amongst them notably the Champions and Reserve Champions in both sexes. As is usual with this breed, the type was not uniform; still it was more so than was the case a few years ago. The sheep on the whole were shown in good condition, but I would impress upon any young exhibitors the necessity of sending their sheep in the best possible condition, as otherwise they have no chance of winning.

## BORDER LEICESTER RAMS.

W. H. Evans, Elcho Training Farm, Lara.

(Complete awards in this Section will be found on page 39).

This section was particularly well filled, the sheep generally being of excellent quality, with the exception of a few inferior sheep in each class. There can be no doubt that a finer lot of Border Leicester rams has never before been seen together in a showground in the Commonwealth. The Champion ram was a very good sheep, with great style, frame and quality, and of the type that has won the breed its well-deserved popularity for use as sires of fat lambs. There were many very excellent sheep in the younger classes, and competition was keen.

The judging was carried out with great difficulty, as the classes were large and the judging pens much too small to accommodate them.

## BORDER LEICESTER EWES.

C. McPherson, "Clova," Newlyn.

(Complete awards in this Section will be found on page 39).

There was excellent competition in all of the Border Leicester ewe classes, and the quality of the exhibits was good right through. Breeders are evidently paying strict attention to chief essentials, viz. head, scrag, covering, firmness of flesh, and carriage and style, and they are to be complimented in bringing out their sheep in first-class condition. In the hands of such breeders, there is no fear of the breed deteriorating. The Champion ewe—a four-year-old—stood out from a particularly fine collection, and a finer specimen has not been seen at any previous Royal Show. She carried a beautiful fleece, thick and even all over of true Border Leicester wool. It was a great pleasure to handle such fine stock.

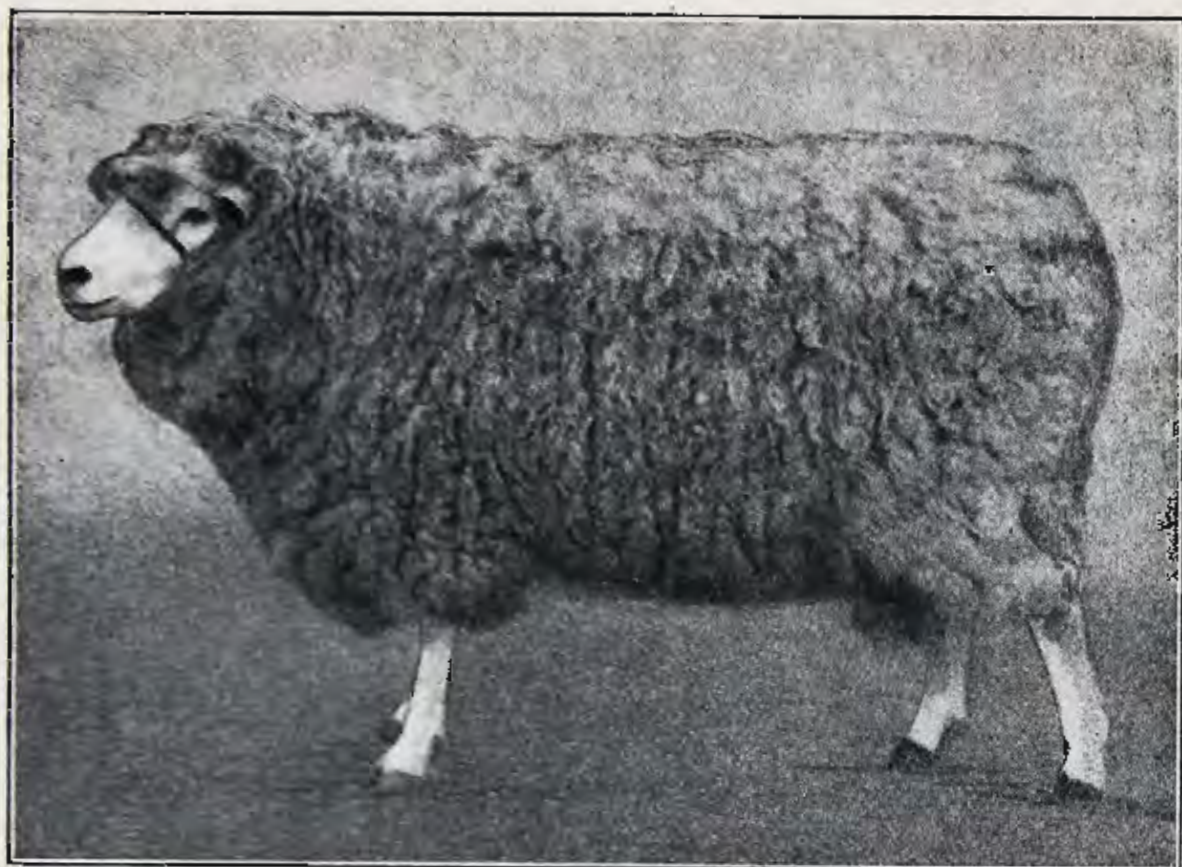

## ROMNEY MARSH.

W. R. Glasson, Gamboola, Molong, N.S.W.

(Complete awards in this Section will be found on page 40).

Not having previously been at a Melbourne Royal Show, I am not able to say how the present exhibit compares with previous ones, but on all sides the opinion was expressed that never before had the general quality been so high. This I can well believe. The type and conformation throughout was excellent. After the closest examination, I failed to find a single weak back. Mushy patches in the wool, so common years ago, were almost entirely absent. The Champion ram is not merely a great Romney, he has proved himself a great sire. The type and substance of the Champion ewe leave nothing to be desired. One most pronounced and pleasing feature was the strength of the younger classes, pointing to even keener competition in years to come. This report would be incomplete without reference to the excellence of the exhibits of those breeders who had never shown at the "Royal" before. They appeared to advantage even in this select company.

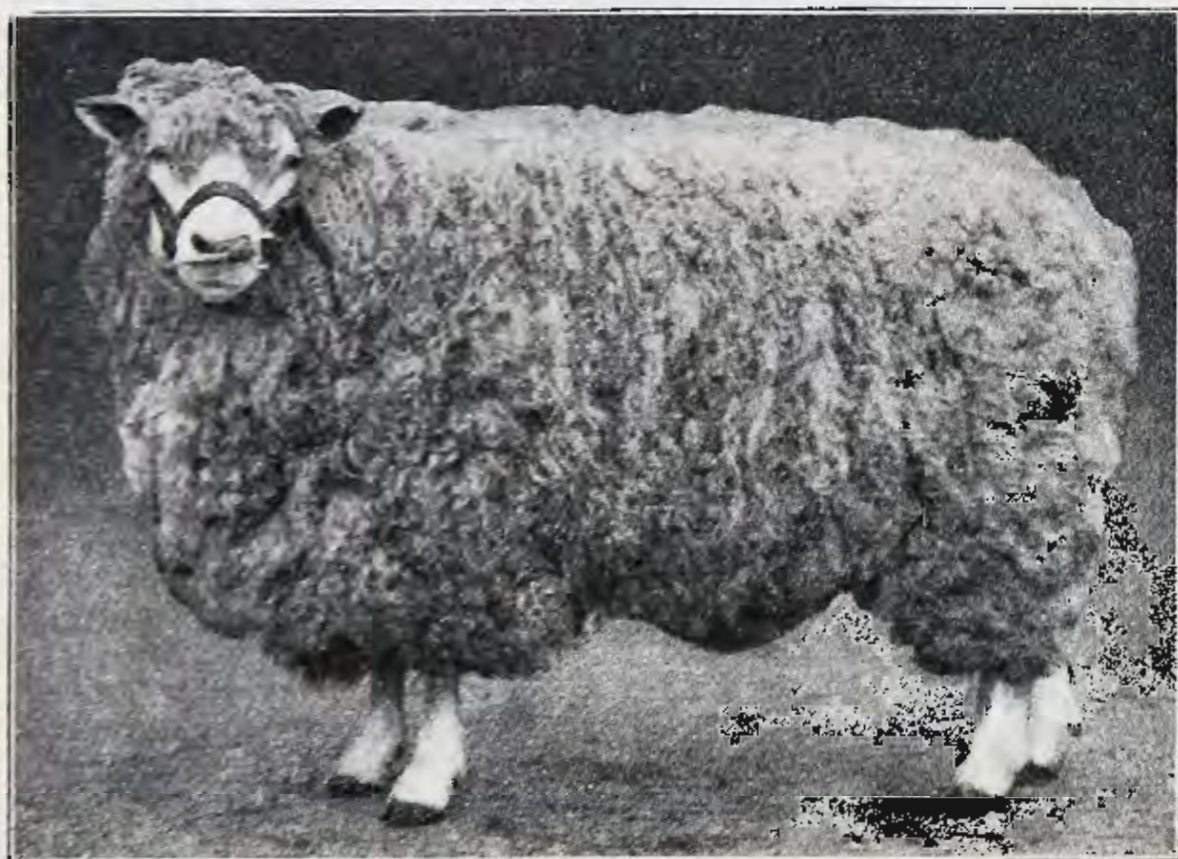

Champion English Leicester Ram, "Royal" Show, 1925.

"MERRINDIE 'J. 25."

Exhibited by Mr. W. S. Kelly.

Champion English Leicester Ewe, "Royal" Show, 1925.

 Exhibited by Mr. Henry Hodge.

Champion Romney Marsh Ram, "Royal" Show, 1925.  
 "PAYNE'S 17 OF 1922" (301).  
 Exhibited by Captain A. E. T. Payne.

Champion Romney Marsh Ewe, "Royal" Show, 1925.  
 "PAYNE'S 126 OF 1920" (999).  
 Exhibited by Captain A. E. T. Payne.

## SHROPSHIRES.

A. Mansell, "Glenfield," Bridgewater, Tasmania.

(Complete awards in this Section will be found on page 42).

The Shropshires were good all through the section, but one must except the untrimmed classes. In these classes both rams and ewes were not only untrimmed, but some appeared to have had no care bestowed upon them, and some were animals not suitable for exhibition. Most of the sheep were of excellent quality, well grown and brought out in fine show condition. The sheep varied considerably in size, and also in the character of the wool. No doubt this is largely accounted for by the difference of climate and soil. The young animals of both sexes were beaten for the champion prizes, and I consider that both the Champion ram and ewe stood out as the best. The Champion ewe, especially, was of excellent form and quality, and showed perfect type and character.

## SOUTHDOWNS, HAMPSHIRE, SUFFOLKS AND DORSET HORNS.

F. W. Bedwell, Shepparton.

(Complete awards in this Section will be found on pages 41, 43).

Southdowns showed a great improvement on recent Shows. The Champion ram was a great sheep, and speaks well for the breed and the owner, Mr. Badcock, of Tasmania. The Champion ewe won similar honours last year, and is a thoroughly typical sheep. The classes right through were very good, and reflect great credit upon the owners. Suffolks provided a very strong section, and were splendid representatives of the breed. The rams, however, were not so strong as the ewes. The class for ewes over 18 months old was one of the best for many years, and the Champion ewe was one of the finest sheep of the breed I ever handled. Dorset Horns are a breed that should be encouraged, particularly for their early maturity. The Champions of both sexes were only 12 months old, and were equal to anything that has ever been exhibited. The lamb classes were very good, and show what can be done with this valuable breed. I would recommend that in the lamb classes the age should be specified as not more than five months old.

## CORRIEDALES AND POLWARTHS.

W. T. Allen, "Boorook," Woordoo, Mortlake.

(Complete awards in this Section will be found on page 41).

The sheep in the Corriedale classes were rather uneven in type, and in several cases there is room for improvement, as some breeders do not put sufficient importance into selecting and mating for stud purposes. The tendency seems to be that sheep are getting too fine and lacking in character. The exhibits were also faulty in shape and covering of wool, especially on the sides and underneath. The Champion Corriedale ram was a very fine type of sheep, of great size and length, well sprung and with good staple of wool, but just a little bit rough on tip of wool. Some of the younger sheep were of good type, but showing slight weakness in covering of wool underneath. The Polwarth sheep were of good type, but not strongly represented, as most of the breeders have their sheep shorn about Royal Show time.
