FIFTY-SIXTH ANNUAL REPORT
OF THE
COUNCIL
OF THE
ROYAL AGRICULTURAL SOCIETY
OF VICTORIA

To the Members.

Ladies and Gentlemen,—

Your Council has pleasure in presenting the following report of proceedings of the Society for the year 1926.

Permanent Buildings and Works.

Comparatively little was done during the year in the way of permanent improvements, the efforts of your Council being mainly concentrated upon bringing the whole of the Society's property up to the highest standard of maintenance.

The Dog Pavilion was extended and fitted up with the necessary benching. Electric light was installed throughout the whole of the 250 feed stalls in the stock section of the grounds. Electric power and light mains were strengthened and extended in the Industrial Sections. Additional underground drainage was provided in several stock pavilions. Skylights in the Swine Pavilion roof and additional sanitary conveniences in the same locality were installed.

A new water service was laid in Lennon-avenue, and also throughout the Swine Pavilion.

The Woodchoppers' Dressing-room was extended—a dressing-room was fitted up for lady riders, and the dressing-room for male riders was improved.

The gas service was extended along Plummer-avenue from the central Refreshment Kiosk to the Carriage Pavilion Tearoom.

About 600 feet of the fence along the railway boundary was rebuilt. A large portion of the old Carriage Pavilion was converted into an exhibit hall for the Technical Schools' display. Many additional facilities were provided in the Luncheon Rooms beneath the main grandstand.

New roads were laid down from the Secretary's office to the main entrance gate and along the side of the No. 3 Cattle Pavilion.

Extensive alterations were carried out to the surface drainage in the Horse Section, at the rear of the Jubilee Grandstand, and in the neighbourhood of the Sheep Sheds.

Many other improvements of a minor character were undertaken during the year, the total expenditure on permanent buildings and works amounting to £1745/7/7.

The Exhibition.

The Society's Annual Exhibition was held from 16th to 25th September. The Prize Schedule was revised early in the year, and liberal prizes were offered for competition.

The entry that was received again constituted a record, the aggregate for the first time exceeding 12,000. The space that was available for industrial exhibits was not large enough to meet the requirements of standholders.

During the Exhibition the weather conditions could hardly have been more favourable, but, notwithstanding this, the aggregate attendance did not reach the record of 318,457 established in 1925. Throughout the nine days the attendance figures aggregated 298,225, which was, however, right up to the average of the three previous years. The gate money, including £2218/19/3 from the grandstands, amounted to £20,347/11/6, showing a falling off of £2198/10/11 on last year's record takings.

For the purposes of comparison, the following table is published to show the number of entries in the several sections for the last two years:—

Non-Competitive Entries	2,600	2,600
	11,942	12,005

It will be observed that there was again a falling off in the number of entries in most of the horse sections. The standard of quality was, however, well maintained. It is believed that, notwithstanding the rapid adoption of mechanical transport, the horse will continue for many years to come to be the most popular of all domesticated animals.

Beef cattle were much the same as usual, though some of the exhibits were of outstanding merit. In the Dairy Cattle Sections the competition was very keen; the interest taken by the exhibitors and Show patrons generally is more pronounced each year, and the percentage of animals that are distinctly below Show standard is steadily declining. The butter fat and feeding tests are conducted with a keenness that must be reflected throughout the State to the distinct advantage of the dairying industry.

The exhibition of fat cattle, both as regards numbers and quality, was probably the best that has ever been assembled in any Show grounds in this State.

By providing a liberal schedule of prizes and improving the facilities for exhibiting and selling of this fat stock, your Council hopes to retain this important section at the high standard attained at the last Show.

There was a slight increase in the sheep entries as a whole, and it is noted with pleasure that the quality of the exhibits was uniformly high throughout.

In the Swine Section the entries were exactly the same as last year, and the competition was so keen that in many classes the judges had much difficulty in determining the order of merit.

The ideal conditions under which the poultry and pigeons are displayed are keenly appreciated by exhibitors. The birds were mainly in conformity with the stipulated standards, and in numbers were sufficient to fill the existing pavilions without overcrowding.

Although the entries in the Dog Section fell slightly short of last year's record, never before have there been so many dogs to be accommodated on the benches. (It might be explained that, as some dogs are often entered in several sections, it does not necessarily follow that a record entry would mean that a record number of individual dogs would have to be provided for.) The extension that had been made to the Dog Pavilion was, therefore, keenly appreciated by exhibitors and Show patrons alike.

An increased entry of cats was received. These attractive little animals create a great deal of interest during the day on which they are on exhibition at the grounds.

Displays of farm produce and fruit have, in the past, been outstanding weaknesses of Melbourne Royal Shows, the season during which the Exhibition is held being probably the most unsuitable of the whole year. The advances made in recent years in regard to the cool storage of fruit now enable growers to make a reasonably good display, and the interest taken by country agricultural societies in the competitions recently inaugurated for stimulating competition in the Farm Produce Section is now being reflected by the high standard of the exhibits in the Agricultural Hall. In both farm produce and fruit the entries were 40 per cent. ahead of last year's record numbers.

The collections of exhibits by agricultural societies form one of the most attractive features of the whole Show. There was a more uniformly high standard of produce than formerly, and the system of awarding the prizes still appears to give general satisfaction. The agricultural and other exhibits from the State schools again created much interest, and demonstrated the soundness of the training that is now given in many of the Primary schools. The Dairy Produce Section at the Show is somewhat disappointing. It is hoped that, in the near future, factory managers and others will co-operate with the Society and endeavour to place this industry on a footing that its importance to the State really demands.

Wine exhibitors and judges are brought together in a manner that tends to maintain the keenest interest in this important section. The entries were in advance of those of last year, and in many of the classes competition was very close.

Apiculturists do not support the Show to anything like the extent that might be expected. The entries only aggregated 24 in the whole section. Much of the honey and wax that was entered was of excellent quality.

Women's work still retains its popularity amongst all classes of the community. The standard of the work is steadily improving, and exhibits are now coming from every State in the Commonwealth. The additional glass cases that were provided during the year enabled the exhibits to be displayed to better advantage.

The arena events were well filled and keenly contested. Several successful innovations were introduced at the last Show, the desire of your Council being to make these competitions as diversified and attractive as possible.

The Milking and Wool Classing Competitions were keenly contested, and the judging competitions were again highly successful and the classes were well filled.

In substitution of the competitive section introduced last year, the Technical Schools made a non-competitive and working display that did much to demonstrate to the public the wonderful opportunities the youth of the community now enjoy in the way of attaining a technical education of the highest and most practical standard.

The Department of Agriculture is again to be congratulated upon the excellence of its display in the Government Pavilion. The education of the "man on the land" is the main objective, but, in the tasteful arrangement of the exhibits, the city dweller is forced to a realisation of the importance of our primary industries.

The industrial exhibits are increasing and improving every year. The display of agricultural, dairying and other machinery is almost an exhibition in itself. Other trade exhibits are displayed in a most attractive manner. The automobile industry is very fully represented, and, taken as a whole, this non-competitive department of the Show is one of its most attractive features.

Essay competitions for children under 16 years of age were introduced for the first time, and proved so highly satisfactory that it is your Council's intention to continue and to extend these educational classes at future Shows.

The manner in which the Railway Department and the Tramway Board dealt with the passenger traffic to the Show grounds left little to be desired. The railway officials also handled the live stock most satisfactorily.

The Creche again proved a boon to those mothers who were compelled to bring young children to the Show.

The improved facilities now provided on the grounds enable the catering to be conducted more satisfactorily than was the case a few years ago.

Lectures and demonstrations were again conducted at the last Show. The former were not well attended, but large and interested crowds were present at some of the wool classing and stock demonstrations.

Heavy expenditure was incurred during the year in improving the roads and paths about the grounds. The value of this work was reflected in the added comfort enjoyed by Show patrons.

The provision of Show guides proved of such service to the public that it is the intention of your Council to appoint additional officials for this work at future Shows.

The Commonwealth Clydesdale Horse Society.

Such success has attended the efforts of the Federal Council and Branch Committees of this Society that the entries received since the publication of the second volume of its Stud Book last year warrant the publication of a further volume, and this work has already been taken in hand, with a view to having Volume 3 published as early as possible.

The scope of the Society has been considerably increased by the formation and affiliation of a strong Branch in Queensland during the year, and by a continuance of its propaganda work in issuing a monthly news bulletin, this Society has not only received a very satisfactory entry for its Stud Book and increased its membership, but has done much to encourage the breeding of more and better horses to supply the demand that undeniably exists for quality animals to do haulage work both on farms and in the cities.

The Australian Society of Breeders of British Sheep.

This Society has made steady progress during the year, and it is pleasing to record that the membership has now reached the 500 mark. The eighteenth volume of the Flock Book, containing the record number of 449 flocks, was published in May last, and the work of preparing Volume 19 for the printer is now well in hand. It is anticipated that, when this volume is printed, the number of registered flocks therein will exceed 500, and it will also include the individual pedigrees of over 600 rams and ewes.

The Federal Council and Victorian Branch annual meetings were held during the currency of the last Show, and both were well attended, and items of interest to sheepbreeders thoroughly discussed.

In view of the fact that quite a large number of three-quarter and seven-eighth bred sheep have been sold as pure, the Victorian Branch has decided, in the interests of its members, to conduct a sale of registered sheep during the coming year. The South Australian Branch recently held a similar sale, and it was a success in every way. Other Branches of the Society have been recommended by the Federal Council to follow the example of both South Australia and Victoria, and it is confidently hoped that these sales, which will be conducted by the breeders themselves, will put a stop to the harmful practice of disposing of "crossbreds" as pure sheep.

During the year very attractive certificates were presented by the Society to the owners of the champion rams and ewes in the British breed sections at all the "Royal" Shows throughout the Commonwealth, where registration in an approved Flock Book is a necessary qualification for entry.

The amendment of the rules to permit of the registration, after inspection, of flocks of undoubted purity that was in force during the year has now been withdrawn, and from the 1st January, 1927, only sheep purchased from flocks in approved Flock Books will be eligible for registration.

The Ayrshire Cattle Herd Book Society of Australasia.

Since the revised rules governing this Society were brought into operation, the eighteenth volume of the Herd Book has been published, and a gratis copy forwarded to each member throughout Australia. Increased interest has been noticeable in those States where Branches of the Society are already formed, and it is confidently anticipated that those interested in the Ayrshire breed in Western Australia will be successful in their efforts to form a strong Branch of this Society in that State during the current year. Increased support is being accorded the Victorian Branch of the Society, additional members are being enrolled, and the number of applications for the registration of stock in Volume XIX, already received indicates that that volume will be larger than those published in recent years.

The Australasian Jersey Herd Society (Victorian Branch).

This Branch still maintains its position as by far the strongest of the Society, having more members than all other Branches combined. During the past year some of the most prominent studs of Jersey cattle in Victoria were dispersed, and whilst keen regret has been felt that such dispersals had taken place, Jersey breeders throughout Australia were afforded an opportunity to secure stock which otherwise would have been unobtainable, and, as a result, a much keener interest in this breed is apparent, and a marked increase in the already large membership in Victoria is confidently expected during

the current year. The thirteenth volume of the Society's Herd Book was published and distributed during the year, and in accordance with a decision arrived at at its recent meeting, the Federal Council of the **Society** has undertaken the publication of a journal, to be entitled "**The Jersey in Australia**," in order to make still more widely known the qualities of the Jersey breed.

The Red Poll Cattle Breeders' Association of Australasia.

The increasing popularity of the Red Poll breed is indicated in the membership of this Association and in the entries received for the fourth volume of the Herd Book, which is to be published during the current year. Financially, the Association is in a strong position, and, recognising that no better means could be adopted to ensure the establishment of new herds than the exhibition of representative animals of this dual purpose breed, special prizes of £5 each for the best Red Poll bull and the best Red Poll cow registered in this Association's Herd Book, have been offered for competition at the chief Show in each State. So far as Victoria is concerned, the records put up by Red Poll cows and heifers under the Government herd testing scheme amply demonstrate the milking qualities of this breed, and with a view to publicly demonstrating its capabilities to produce early-maturing steers of prime quality, every effort is being made to ensure a representative entry in the steer classes at the forthcoming Royal Show.

The Friesian Cattle Club of Australia.

The continued progress of this Club is most noticeable in Victoria, where both the membership and the number of entries received for inclusion in the Herd Book have considerably increased. This progress is attributable to the active publicity work of the Club and to the splendid records of Friesian females submitted to official test. The sixth volume of the Herd Book was published during the year, and the seventh volume will be issued at an early date.

The Shorthorn Society of Australia.

This Society published the fourth volume of its Herd Book during the year, and the fact that it contains the pedigrees of 3656 animals is evidence of the support which is being accorded the Society. Entries for the fifth volume are now being received, and, in accordance with the practice of this Society, that volume will close at the end of 1927.

The Milking Shorthorn Cattle Breeders' Association of Victoria.

Following the decision at the last Annual General Meeting of members of this Association to reduce the membership subscription to two guineas per annum, and to extend the time for the reception of entries in the initial volume until 31st December, several new members have been enrolled, and the number of entries received has been such as will make the first volume one that the Association may well be proud of.

The Australian Stud Pig Breeders' Society.

In recent years it has been customary for this Society to establish a new record in membership and Herd Book entries annually. The sixteenth and largest volume issued by the Society was published during the year. A greater number of pedigrees will be included in the seventeenth volume, which is now in the printer's hands. Strong and active Branches are at work in all States, and the increased support accorded the Society has enabled the Federal Council to offer to subsidise a carcass competition in connection with the chief Show in each State. The Federal Council has also under consideration the publication of a Pig Breeders' Annual, something on the lines of those now published by the British Berkshire and the National Pig Breeders' Societies in Great Britain. Being encouraged by the interest taken in the five £10 subsidies to agricultural societies granted last year, the Committee of the Victorian Branch decided to continue this method of encouraging the breeding and exhibition of pure-bred pigs, and received no less than 25 applications for the second lot of five £10 subsidies offered. This Branch was also responsible for the very interesting competitions conducted in connection with the last Royal Show. These competitions were for the best two pure-bred baconers and the best two pure-bred porkers exhibited, and the prize money, amounting to £30, was donated by the Branch. A very satisfactory entry was received, no less than six different breeds being represented in the entries for the bacon class, and the interest was such that, at the annual meeting, it was decided that somewhat similar competitions should be conducted in connection with future Shows, under conditions to be drawn up by the Branch Committee.

The Chamber of Agriculture.

The twenty-fourth Annual Convention of the Chamber of Agriculture was held at Nhill on the 16th, 17th and 18th March, 1926. It was officially opened by the Lieutenant-Governor, Sir William H. Irvine, K.C.M.G., and attended by a large and representative gathering of delegates from all parts of the State.

The addresses that were delivered and the business items on the agenda paper were productive of valuable discussion.

At the conclusion of the Convention arrangements were made for delegates to visit places of interest in the neighbourhood, Nhill being the centre of one of the most prosperous wheat-growing districts of the State.

Your Council accorded a hearty vote of thanks to the people of Nhill for the many courtesies extended to this Society's representatives during their stay at Nhill.

For some time past the Executive of the Chamber has been conducting a series of tests in the destruction of noxious weeds. While the results, so far, have not been conclusive, they are sufficiently promising to warrant the continuation of these experiments.

Horse Parade and Sale.

The Horse Parade and Sale conducted under the auspices of the Society was held at the Show Grounds on the 11th and 12th of August.

The total number of 54 entries was received, and 13 animals were sold for £883, being an average of approximately £68 per head.

Notwithstanding the efforts made to popularise the sale, it was not well attended, and was conducted at a slight financial loss to the Society.

The Journal.

The "Australian Farm and Home," with which is incorporated the Society's Journal, is forwarded to members regularly every month. Besides giving official reports of the business transacted at the monthly meetings of the Council, this Journal disseminates much useful information on stock breeding and other matters of interest to the "man on the land."

Membership.

Your Council reports with pleasure that the efforts made during the year to bring under the notice of the public the many privileges pertaining to membership has had the desired effect, and the number of members now on the roll, totalling 5075, is an increase of 435 on last year's figures.

Whilst this number is indeed gratifying, it is hoped that, with a continuance of the efforts made during the year, a further increase will be recorded at the end of the next 12 months.

With the object of further popularising the membership of the Society, your Council recently decided to make ladies' tickets available also for the use of boys under 14 years of age.

Show Grounds Extension.

Early in the year your Council acquired, at a cost of £4992/10/-, three cottages and three additional allotments of land, with frontages to Leonard-crescent, at the Bagotville end of the Show Grounds. In December, a villa and racing stables, occupying six allotments, a brick residence on one block, and two vacant allotments, all with frontages to Watson's-terrace, were purchased at a total cost of £6750. It is hoped that, within a few months, the Society may be enabled to enclose the whole of this recently acquired property, and thus meet the demands of exhibitors, who for years past have been clamouring for additional space.

Show Grounds Administrative Offices.

Your Council has approved of a scheme for erecting a two-storied building in the centre of the Show Grounds—the ground floor to be reserved for exhibit stands, and the floor above to be set aside for administrative offices. The scheme provides that the whole structure is to be erected co-operatively, the standholders equitably sharing with the Society the cost of erection, and being granted a long lease at a nominal rental.

Uses of Show Grounds.

For several years past the Society's revenue has been augmented by rentals received for the storage of wool. From this source £857 was received during the year. Your Council, however, holds the view that the Show Grounds should be used for general recreation and other purposes, which may be the means of earning revenue on the property, the maintenance of which is an ever-increasing item. With this end in view, representation has recently been made to the State Government, urging an amendment of the Crown grant, which now provides that the grounds can be used for no other purpose than the holding of a Show. It is believed that, if this desired amendment were made, the grounds could readily be let for sporting fixtures.

Resignation of Dr. W. T. Kendall.

In October last, after many years of efficient service, Dr. W. T. Kendall tendered his resignation as Veterinary Surgeon to the Society. As a mark of the Council's appreciation of the great assistance rendered by Dr. Kendall, it was unanimously resolved to constitute that gentleman a life member, and to place on the Society's records a minute regretfully accepting the resignation and expressing the hope that Dr. Kendall may for many years be able to retain his keen interest in the Society's operations.

Acknowledgments.

Your Council desires to extend to their Excellencies the Governor-General and Lady Stonehaven the Society's warmest appreciation of their courtesy in attending the Show and displaying so much interest in the welfare of the "man on the land."

To His Excellency the Governor and Lady Somers, your Council is indebted for taking so keen an interest in the Society's operations.

It is desired to thank the Lieutenant-Governor, Sir William H. Irvine, K.C.M.G., for granting the Society his patronage and for officially opening the Show.

Keen appreciation is expressed of the great assistance rendered to the Society by the State Government, not only for continuing the annual subsidy and augmenting the prize fund, but for arranging such a magnificent display of primary and secondary products in the Government Pavilion.

For the liberal support accorded by donors to the prize fund, your Council accords its warmest thanks.

To the Judges and Stewards, the Society is deeply indebted for the careful and efficient manner in which these officials carried out their important duties at the Annual Show.

The Society is again indebted to the Press for the great amount of publicity given to the Society's operations. To all others who in any way assisted in furthering the interests of the Society your Council records its warmest thanks.

The Council.

As the nominations for election at the annual meeting were not in excess of the vacancies on the Council, the whole of the retiring members were re-elected.

It is recorded with extreme regret that, in May last, the Society suffered a severe loss by the death of Mr. Hugh Victor McKay. Mr. McKay had for many years assisted the Society in making the machinery section of the Show one of its most attractive features, and for nearly five years had been a much-valued member of the Council.

Mr. McKay's death was regarded as a loss to the whole community, and it was very keenly felt by his old colleagues on the Council. Resolutions of sympathy were conveyed to the bereaved widow and family. Mr. Samuel McKay, managing director of the H. V. McKay Sunshine Harvester Works, and a brother of the late member, was elected to the vacancy in July last.

Leave of absence was granted to Major H. Alan Currie and Messrs. G. T. Chirnside, A. C. Gibb and H. H. Peck—all of whom paid a visit to Great Britain during the year.

At the October meeting, Messrs. Chirnside and Gibb were heartily welcomed on their return.

On account of severe illness, Mr. R. I. Argyle was absent on leave for a considerable period, and was heartily welcomed back to the Council table in September last.

Finance.

On reference to the financial statement, it will be seen that the revenue for the year was £46,372/13/3, which shows a decrease of £438/12/3 on that of last year.

The expenditure (including £7898/19/6 in prizes, £1745/7/7 for buildings and improvements, and £11,742/10/- for land) amounted to £54,723/9/8, the bank overdraft being increased from £16,326/11/- to £24,677/7/5, and the Society's indebtedness to the Government, inclusive of interest, decreased during the year from £48,741/0/1 to £47,673/1/8.

Taking the expenditure in permanent improvements and land as assets, the working expenses show a profit on the year's transactions of £5,137/1/2, against last year's profit of £8804/5/5.
