CEO MESSAGE

The Royal Agricultural Society of Victoria is delighted to present the trophy winners for the 2020 Australian International Coffee Awards (AICA).

The AICA presents roasters, large and small, with the opportunity to benchmark their products, establish their credentials in the Australian and international coffee industry and provides differentiation in the market for award-winners.

The Awards have grown significantly this year with a record 800 entries from 172 exhibitors across 16 countries, with judging taking place at Victoria's Melbourne Showgrounds.

It required a talented team of 47 judges, 8 baristas and more than 20 stewards to brew, deliver and judge the 1,700 cups of coffee over three days.

The commitment and dedication of all those involved to ensure that the Australian International Coffee Awards continue to be recognised as the best in Australia is greatly appreciated.

We were thrilled to this year award 291 medals, including 15 gold medals.

Medal and trophy winners have earned the Australian International Coffee Awards seal of excellence and have opportunities to be included in exclusive AICA marketing and promotions.

Thank you to the Presenting Partner Global Victoria, Major Sponsors MONIN, Compak and Synesso and Industry Partner Xtracted Espresso Solutions for your support of the AICA.

We greatly appreciate the participation of the exhibitors and congratulations to the successful medal and trophy winners. We look forward to sharing your stories, celebrating and promoting your achievements.

HEAD JUDGE REPORT

Each year, I am surrounded by a talented group of coffee professionals, industry peers, roasters and baristas that come together to make the Australian International Coffee Awards (AICA) judging happen.

It was terrific to have notable improvement in the quality of entries and also to have a significant increase in the number of roasters entering from both Australia and internationally. A true reflection of the international status of the AICA.

Calibration of the judges is completed each year at the start of judging. This year was framed around how to describe the attributes of coffee in a detailed way, focussing on flavour experiences. The aim of this was for the judges to be able to provide more relevant feedback for each exhibit, increasing the benefits to the roasters for entering.

We had a total of 41 judges and six associate judges donate their time. A big thank you to everyone who dedicated their time, generosity and professionalism to prepare and judge the 800 entries. They take time out of their work commitments to taste up to 20 coffees each day and share a common connection that unites them despite working for different companies or aspects of the coffee industry. They come together and make the AICA a success. I offer special thanks to the panel chair judges Dragan Sestic, Levent Doganay, Matt Dessaix and Paul Asquith for leading each class.

We wouldn't have been able to taste all the entries without Shana Hammond, Head Barista, and her team of seven baristas, who carefully prepared and served all the coffees to brewing specifications.

Thank you to Michael Katoa, Kirsten Stubbings, Andrew Toms and the RASV team who worked behind the scenes to prepare and plan the AICA and support my role as head judge. A special mention to Cassandra Bayldon and the team of stewards making countless laps from back to front of house to promptly deliver the coffees.

Finally, congratulations to all the trophy and medal winners. They are well deserved and demonstrate the time and dedication spent striving to roast great tasting coffees.

s-series

Serious about
your coffee?

Say it with Synesso.

Synesso's famous quality is now more accessible than ever!

Barista-friendly, low-profile S200 & S300 machines are built ready-to-serve with two volumetric programs per group head. Baristas enjoy ambidextrous steam handles, arcade-inspired group purge buttons and an auto back-flush program. And of course, Synesso's legendary thermal-stability assures superb beverage consistency.

Internal components are the proven **Synesso Standard** found in the MVP and MVP Hydra trusted around the world. Group heads with no-wear parts, individual brew boilers, digital shot timers, programmable temperatures per group, cool-touch steam wands and uncompromising build quality make the S-Series worthy of the Synesso badge.

For more than 160 years, the Royal Agricultural Society of Victoria (RASV) has been inspiring excellence in Victorian agriculture and food production.

In this pursuit for excellence the RASV on behalf of the Australian food industry conducts a range of world class awards programs and events recognising premium products in food and beverage.

These awards include:

- Australian International Coffee Awards
 - Royal Melbourne Wine Awards
 - Australian Food Awards
- Australian International Beer Awards
- Australian Distilled Spirits Awards
